What you liked the most during the session	Will you like to attend such session in future	If yes, give suggestion which type of event or session would you like to attend	Please, give some suggestions to improve the quality of session
Everything	Yes		
Learned new things	Yes	More session on such topics and new technologies like AI	You should give some more in depth knowledge, like makes the session more practical than theoretical.
Detailed Explanation	Yes	Practical sessions on data science	To have some practicals
Data science explanation and roadmap	Yes		
	Yes	Datascience, machine learning	
Everything	Yes	Ethical Hacking	
Interactive	Yes	Data science, ML, android development	
The way in which madam was properly explaining	Yes		
The example of data science which is used in daily life & the suggested preparation of subjects such as TOM, statisticsduring the academics. The session was really awesome.	Yes	I would like to attend a session on machine learning.	
Questions Answered by the orienter	Yes	Hands on, practical	No suggestions
All topic are like to me	Yes	No	No suggestions

Date of Event: - 23 Oct. 2021

Speaker: - Ms. Ekta Chugwani

Attendees: - 133

PROGRAM SUMMARY

On 23th Oct., ISTE committee conducted a program on the topic of Skill Development Program on Data Science and AI Robotics, where our honorable speaker was Ms. Ekta Chugwani.

It all started with the inauguration of our speaker and then she started by discussion of the topic that what is Data Science and AI Robotics. She started with the explanation of Data Science and AI Robotics and then told the relation between them.

She also explained the importance of Data Science and Artificial Intelligence (AI) Robotics in our daily life. Then she explained where the Data Science and AI Robotics used and many types of data scientists like machine learning scientist, actuarial scientist, data engineers, software programming analysts, etc. and their work.

Further, she explained in which field Data Science and AI Robotics are used like media and entertainment, healthcare, digital marketing, cyber security, etc. And how Data Science and AI Robotics are works in this fields.

After this the event shifted towards questions and answers session where students asked their doubts.

Lastly, the program ended up with vote of thanks by our team members.

Objectives of SDP		Outcome of SDP	
1	To impart the basic knowledge cloud computing	1	Participants will be able to understand cloud computing fundamentals
2		2	Participants will be able to use cloud computing concepts

Need of SDP:

Now a days, Cloud technology is helping businesses and people weather the ongoing storm caused by the global pandemic. Companies are seizing on cloud as the key enabler to complete their digital transformation, and the COVID pandemic has further accelerated this mandate. Cloud is becoming a top C-suite agenda item as businesses are transitioning from a piece-meal approach to a more holistic end-to-end digital transformation with cloud at its core. The winners of tomorrow will be the ones that navigate this change rapidly, make the right choices and engage with the appropriate partners to augment their own capabilities. So companies are in need of lot of skilled engineers having knowledge of cloud computing. Cloud computing is today's hot cake for engineers.

Why Cloud Computing?

- Cost
It eliminates the capital expense of buying hardware and software and setting up and running on-site datacenters
- Speed
Vast amounts of computing resources can be provisioned in minutes, typically with just a few mouse clicks, giving businesses a lot of flexibility and taking the pressure off capacity planning.
- Productivity
Removes complexity of datacenter setup and configuration, so that IT teams can spend time on achieving more important business goals.
- Global scale
Ability to scale elastically

Future Scope of DS

Brief about Guest Lecture: -

Department of Information Technology SSGMCE, Shegaon has arranged a guest lecture by Ms. Angana Rajput on Future Scope of Data Science... Discover why it's a promising Career Option.

In the session, the speaker gives a brief introduction about Data Science & AI. As data science is a broad field of study pertaining to data systems and processes, aimed at maintaining data sets and deriving meaning out of them. **Data scientists** use a combination of tools, applications, principles, and algorithms to make sense of random data clusters. Since almost all kinds of organizations today are generating exponential amounts of data around the world, it becomes difficult to monitor and store this data. Data science focuses on data modeling and data warehousing to track the ever-growing data set. The information extracted through data science applications is used to guide business processes and reach organizational goals. Artificial intelligence aims at enabling machines to execute reasoning by replicating human intelligence. Since the main objective of AI processes is to teach machines from experience, feeding the right information and self-correction is crucial. AI experts rely on deep learning and natural language processing to help machines identify patterns and inferences.

Developing Web

The online Skill Development Program started with a warm welcome of the Speaker, Principal, Heads of Departments, Faculties and all students present for the program. Prof. S. S. Muddalkar introduced the speaker with a short description of profile and technical expertise and handed over the session to the speaker.

The speaker, Mr. Lankesh Meshram, started discussing about various concepts such as What is ASP.NET Core?, What is MVC Architecture?, What is REST API?, and elaborated on each of these topics so that students know about these concepts well.

Then the speaker has taken a small question and answer session based on the topics discussed till moment and started discussing Visual Studio 2019 and how it can be used to develop the web application using ASP.NET Core with a live example. The speaker demonstrated the process of creating the application with a sample application of student and library.

At last, Prof. S. S. Muddalkar ended the session with the vote of thanks.

Shell Scripting Fundamentals

SDP Name:-		Shell Scripting Fundamentals	
Dates:-		16.04.2022	No. of hours:- 2.5 Hours
Objectives of SDP		Outcome of SDP	
1	To impart the basic knowledge Unix OS shell scripting	1	Participants will be able to understand Unix OS basics commands
2		2	Participants will be able to understand the shell scripting fundamentals
		3	Participants will be able to use UNIX commands and shell scripting

Need of SDP:

This Skill Development Program is designed for beginners to understand the fundamentals to advanced concepts of UNIX commands, UNIX shell scripting, and different tools. Multitasking and multi-user features are supported. UNIX is the most extensively used operating system on all types of computers, including desktops, laptops, and servers. UNIX has a graphical user interface (GUI) that is similar to Windows and allows for easy navigation and support of the environment. It is the foundation of modern technology. UNIX is the foundation of the Internet and a variety of other services such as chat and Netflix. Red Hat, a major Linux distribution, is a UNIX -based operating system having both a command line and a graphical user interface.

Activity Report 2021-2022
Shri Sant Gajanan Maharaj College Of Engineering

Name of Event: Troll by Tronics

Date of Event: 25th and 26th March, 2022

Location of Event: C2 classroom, EXTC Dept. SSGMCE, Shegaon.

Number of Event: 19 team/individual.

Fees of the Event : Rs 100/-

Conducting Committee: Electronic Students and Association (ESSA).

An Event "Troll by Tronics" was conducted by ESSA committee on the occasion of Pursuit-2022. This workshop was conducted under the guidance of Prof. K. S. Vyas [Thanvi], (Faculty Advisor of ESSA) as well as Prof. S. P. Badar (Chief coordinator, Pursuit). With regards of Dr. S. B. Somani (Principal), Dr. M.N. Tibdewal (HOD of EXTC), Prof. K. S. Vyas, Prof. S. P. Badar and the student coordinator of the Event was Mr. Bhushan Hajare (Technical Head, ESSA).

This was two days Event of total 4 hours. The orienteer of the Event was Mr. Yash Deshmukh along with the co-ordination of other team members of ESSA. Followed by Pursuit Inauguration ceremony Event was conducted at 1 pm to 3 pm on day 1 and 11.30 am to 1.30 pm on day 2. The rounds of the events as :

Round 1: This round will be based on basic Electrical/Electronics quiz questions (aptitude test). The aptitude test will be on Google forms. The team with less number of marks will be disqualified.

Round 2: In this round, there will be the fastest finger round take place and from that, the participants will be selected for the hot seat of KBCK (Kon Banega Circuit King). In KBCK there will be MCQ type questioning related to electronics and the rules are similar to KBC.

Round 3: In the round, you have to solve problem statement given by us. You have to draw circuit as per problem statement. This round is to test your practical knowledge.

In this Event students enjoyed a lot. And we shortlisted the winner team as team of Vaishnavi Asole and Shruti Patil who won the prize of Rs. 2000 and runner-up team was Vaishnavi Gawande and Rohini Dawale who won the prize of Rs. 1000. The winner and runner team was felicitated at new auditorium in Pursuit's certification ceremony.

Activity Report 2021-2022

Shri Sant Gajanan Maharaj College Of Engineering

Name of Workshop: Multisim/PCB designing

Date of Workshop: 25th and 26th March, 2022

Location of Workshop: DSP Lab, EXTC Dept. SSGMCE, Shegaon.

Number of Entries: 24 students.

Fees of the Workshop : Rs 50/-

Conducting Committee: Electronic Students and Association (ESSA) .

An informative workshop "**Multisim/PCB designing**" was conducted by ESSA committee on the occasion of Pursuit-2022 . This workshop was conducted under the guidance of Prof. K. S. Vyas [Thanvi] .(Faculty Advisor of ESSA) as well as Prof. S. P. Badar (Chief coordinator, Pursuit). With regards of Dr. S. B. Somani (Principal), Dr. M.N. Tibdewal (HOD of EXTC), Prof. K. S. Vyas, Prof. S. P. Badar and the student coordinator of the workshop was Ms. Vaishnavi Rakhode (Publicity Head, ESSA).

This was two days workshop of total 4 hours . The resources of the workshop were Mr. Lokesh Hiwarkar, Ms. Shwetatai Bhagat , Mr. Bhushan Hajare and the orienteer of the workshop were Mr. Prathamesh Gattani , Ms. Dipali Agrawal and Kartik Shingade. Followed by Pursuit Inauguration ceremony workshop was conducted at 4.30 pm to 6.30pm on day 1 and 2 pm to 4 pm on day 2.

In this workshop students learned how to use Multisim Software and what are its benefits in electronics and also basics about PCB Designing .As Multisim software integrates industry-standard SPICE simulation with an interactive schematic environment to instantly visualize and analyze electronic circuit behavior .Its intuitive interface helps educators reinforce circuit behavior .Its intuitive interface helps educators reinforce circuit theory and improve retention of theory throughout the engineering curriculum .By adding powerful circuit simulation and analyses to the design flow .Multisim helps researchers and designers reduce printed circuit board (PCB) prototype iterations and save development costs.

In this workshop student learnt a lot and enjoyed too. As using the Multisim software and dealing with PCBs is very important in Electronics engineering this event was conducted also we gave students study material for revision and also installed the software in their own devices. By clearing all the queries of the students about Multisim and PCB designing the workshop was concluded.

ACTIVITY REPORT 2021-2022

SHRI SANT GAJANAN MAHARAJ COLLEGE OF ENGINEERING

Event:-
1st Year
Oriental

Name of the event: - Orientation of 1st year students .

Date of the event: - 30 December 2021

Location of the event: - New Auditorium & EXTC seminar hall

Number of people attending: - 95

Conducting committee: - Cultural council and Electronics Students and staff association (ESSA) .

An orientation program was conducted free of cost by the cultural committee of SSGMCE, Shegaon. In this orientation program the students of 1st year of electronics and telecommunication branch were included. All the committee members and various facilities were present during the event.

The event started at 9 in the morning. Beginning the event Prof. D.L. Bhombe introduced the vision and mission of the department. After the introduction to vision and mission Prof.A.N Dolas enlightened the students regarding the job opportunities in the field of engineering and application of it in real life. Further Prof. Kamlesh Kadar talked about the importance of electronics in day-to-day life and highlighted the projects that come under the electronics field. Continuing the program Dr. P.R.Wankhade gave information regarding internet of things i.e. IOT.

Dr.V.V. Ratnaparkhi gave information about Communication and the opportunities students get in this field. After this Prof. V.K. Bhangdiya gave information about the microprocessors and embedded system to the students. After this Shri S.P. Satal co-ordinated the lab visits in which the students were introduced with the electronics lab in which they took a look at various electronic machines present there used for various practicals. After the lab visit there was a small tea break for the refreshment of the students. After the break the students were taken for the college visit where Yash Deshmukh, Sakshi Ratnaparkhi, Astha Bhidekar, Tanvi Jeurkar were present to introduce various places of the college.

The college visit included the Administrative office, Vidya Vibhag in which the departments of Computer Science Engineering (CSE), Information technology engineering (IT), Electronics and telecommunication engineering (EXTC), Electrical and power engineering (ELPO), Mechanical engineering (Mech) and the department of Human Applied science were included. After this the students were taken to the Cricket ground, seminar hall, sports department, library and at last at the Research Centre.

In this orientation program the students got familiar with the subject and various different places of the SSGMCE college. The event was concluded at 5 pm with vote of thanks.

IEEE Workshop

Institute Workshop/ Training Program/certificate course/FDP Summary Report

Workshop Title: **Introduction to Microcontroller and Interfacing with Sensors**

Date: 26 March, 2022

Location: Department of Electronics and Tele. Engineering

Organizing Institute: IEEE SSGMCE

Workshop Facilitators: Mr. Vedant Khandokar and Mr. Ashutosh Bhelonde

Number of Participants: 28

Workshop Objectives: The objective of the workshop 'Introduction to Microcontroller and Interfacing with Sensors' is to teach participants the basics of microcontrollers and how to interface with the sensors. The workshop covered following topics:

- Introduction to microcontrollers: what are microcontrollers? How do they work?
- Different types of microcontroller: ARM, PIC
- Arduino: A popular open-source microcontroller platform
- Interfacing with sensor
- Programming microcontrollers

Etc...

The workshop was designed to be hands-on and interactive.

Workshop Highlights:

- Introduction to microcontrollers: Participants will learn about the basic concepts of microcontrollers, such as their architecture, programming, and interfacing with sensors.
- Hands-on experience with Arduino: Participants will get hands-on experience with a popular microcontroller platform, such as Arduino. They will learn how to program Arduino and how to interface it with sensors.
- Problem-solving and troubleshooting: Participants will develop their problem-solving and troubleshooting skills by working on practical projects
- Inspiration to create their own projects: Participants will be inspired to create their own projects using microcontrollers and sensors.

Outcomes: The outcomes for the workshop "Introduction to Microcontroller and Interfacing with Sensors":

- Participants is able to define a microcontroller and explain its basic operation.
- Participants is able to identify different types of microcontrollers and their features.
- Participants is able to use a popular microcontroller platform, such as Arduino.
- Participants is able to interface a microcontroller with sensors.
- Participants is able to program a microcontroller to control a sensor.
- Participants is able to build their own projects using microcontrollers and sensors.

Feedback Analysis:

- Be objective. It is important to set aside your own biases and opinions when analyzing feedback.
- Be specific. Don't just say that the feedback was positive or negative. Try to identify the specific things that the participants liked or disliked.
- Be actionable. The goal of analyzing feedback is to make changes to the workshop. So, make sure that you identify specific changes that you can make.
- Be timely. Don't wait too long to analyze feedback. The sooner you make changes, the better.

Impact Analysis:

The potential impacts of the workshop "Introduction to Microcontroller and Interfacing with Sensors:

- Increased knowledge and skills: The workshop will help participants to increase their knowledge and skills in microcontrollers and sensors. This will make them more marketable to employers and will give them the skills they need to create their own projects.
- Improved problem-solving and troubleshooting skills: The workshop will help participants to develop their problem-solving and troubleshooting skills. This will be valuable in their careers, as they will often need to be able to identify and fix problems with microcontroller-based systems.
- Increased creativity and innovation: The workshop will help participants to develop their creativity and innovation. This will allow them to come up with new and innovative ways to use microcontrollers and sensors.
- Improved teamwork and communication skills: The workshop will help participants to develop their teamwork and communication skills. This will be important in their careers, as they will often need to work with others to design, build, and test microcontroller-based systems.

- Increased interest in engineering and technology: The workshop may help to increase participants' interest in engineering and technology. This could lead them to pursue careers in these fields, which are in high demand.
- Overall, the workshop "Introduction to Microcontroller and Interfacing with Sensors" has the potential to have a positive impact on participants' knowledge, skills, and career prospects.

IPL Auction

Name of the event: IPL Auction

Date of the event: 20th February 2022

Location of the event: EXTC, Seminar Hall

Number of people attending: 36

Sponsoring organization: IEEE RAS Students Branch

The Event 'IPL Auction' was held on 20th February 2022, conducted by IEEE RAS SB.

IEEE Faculty Advisor Dr.P.R.Wankhede sir was present at the event.

The anchor of the day was Ms.Sneha Khatke, Ms.Shrushti Nawalkar.

Event was started at 12:00pm and end on 6:00pm.

The Student coordinator of the event are Mr.Ashutosh Bhelonde and Mr.Yash Kulthe.

Thankfully each and every member of IEEE-SB had direct or indirect contribution in carrying out this successful event. The overall program was carried out under the guidance of faculty advisor Dr.P.R. wankhede.

The Vote of Thanks was given by Ms.Shrushti Nawalkar.

Faculty advisor : Dr.P.R.Wankhede

Report On

'Chasing Calsi'

Name of the event: CHASING CALSI

Date of the event: 9th January 2022

Location of the event: SSGMCE Old Auditorium Hall

Number of people attending:- 183 Fees of the event: Rs 30/-

Sponsoring organization: IEEE Students' Branch & ESSA Committee

An informative workshop "Chasing Calsi" was conducted by IEEE Students' Branch & ESSA committee for the 1st year engineering graduates.

The IEEE Faculty Advisor Dr.P.R. Wankhede was present at the event.

Under the guidance of Dr. S. B. Somani (Principal) , Dr. M.N. Tibdewal , Dr.P.R. Wankhede , Prof. K. S. Vyas . It was conducted on 9th January 2022.

Event was started at 9:00 AM by the **Deep Prajwalan ceremony** by **Dr.P.R. Wankhede**.

The speakers of the day were Ms. Divya Sable , Ms. Shwetatai Bhagat , Ms. Vaishnavi Rakhonde introduced themselves.

Followed by this Dr.P.V. Wankhede Sir begin the workshop by interacting with the students about calculator.

Here after Ms.Divya Sable, Ms.Shwetatai Bhagat, Ms.Vaishnavi Rakhonde gave basic information about calculator & all tricks & tips to use the calculator in the best way.

In between workshop refreshments were also provided.

Students learnt how to use scientific calsi and the basic functions of it & they enjoyed. As using the scientific calculator is very important in engineering this event was organized under IEEE Students' Branch in collaboration with ESSA committee.

The event was concluded by a valedictory program at 1:00 pm.

Submitted by:

A handwritten signature in black ink, appearing to be 'S. Sable'.

Faculty advisor :- Dr.P.R. Wankhede.
