### About Program:

In general, aptitude tests measure one's competence in logical reasoning, numerical skills, or verbal ability; competency can be evaluated through problem-solving tasks and testing one's critical thinking across various contexts.

There are various topics under the syllabus of Quantitative Aptitude. Topics such as work and wages, permutation and combination, profit and loss, age, probability, percentages, ratios and many more. The above article contains all these important topics.

Aptitude tests are often used to assess academic potential or career suitability and may be used to assess either mental or physical talent in a variety of domains.

### Topics Covered:

Square roots, Cube roots, Squares, Ratio Proportion, Allegation's & Mixtures, Number Series & Letter Series, Coding-Decoding, Calendars, Clocks, Partnerships, Basic Geometry & Algebra, Questions on Ages, Pattern Completion, Mirror Image & Water Image, Data Sufficiency etc.

### Learning Outcomes:

After successful completion of this course, students will have the knowledge and skills to

1. Solve the problems easily by using Short-cut method with time management which will be helpful to them to clear the competitive exams for better job opportunity.
2. It helps Candidates to conquer the success in job tests.
3. Analyze the Problems logically and approach the problems in a different manner.

### About Program:

Self-esteem is how we value and perceive ourselves. It's based on our opinions and beliefs about ourselves, which can feel difficult to change. We might also think of this as self-confidence. Self-esteem is confidence in one's own worth, abilities, or morals. Self-esteem encompasses beliefs about oneself as well as emotional states.

Self-awareness is your ability to perceive and understand the things that make you who you are as an individual, including your personality, actions, values, beliefs, emotions, and thoughts. Essentially, it is a psychological state in which the self becomes the focus of attention.

Public speaking, also called oratory or oration, has traditionally been defined as speaking in person to a live audience. Today, the term can also refer to speaking to an audience through digital technology. Public speaking is important for developing leadership abilities because it helps you convey your ideas effectively to others. The ability to persuade others and help them change their minds is essential for becoming an effective leader.

Having strong communication skills aids in all aspects of life – from professional life to personal life and everything that falls in between. From a business standpoint, all transactions result from communication. Good communication skills are essential to allow others and yourself to understand information more accurately and quickly.

### About Program:

Public speaking, also called oratory or oration, has traditionally been defined as speaking in person to a live audience. Today, the term can also refer to speaking to an audience through digital technology. Public speaking is important for developing leadership abilities because it helps you convey your ideas effectively to others. The ability to persuade others and help them change their minds is essential for becoming an effective leader.

Group discussion (GD) is a comprehensive technique to judge the suitability of an individual and his appropriateness for admission, scholarship, job, etc. GD assesses the overall personality – thoughts, feelings and behaviour - of an individual in a group. A topic is presented to the group members for discussion.

A group discussion tests the teamwork and Communication Skill of candidates. A group discussion involves a discussion on a given topic with other candidates, usually with similar experience and educational qualifications. Performing well in a group discussion helps you to get noticed and practicing for one improves your public speaking skills. In this article, we will review what a group discussion is, its importance in the selection process, the skills evaluated during a group discussion and how to perform well in this round.

**Do's of GD:** Listen to other participants, maintain eye contacts with other participants, Give others time to peak, keep potential disagreement polite, Dress professionally, support your claim, welcome arguments, prepare for discussion, acknowledge others before speaking, initiate the conversation, plan your entry point, plan your exit point, take notes, ask for clarification, show confidence.

**Don'ts of GD:** Enter the conversation quickly, Over speak, Speak about other topics, Repeat other participants, Speak or gesture boldly, Interrupt others, Bring irrelevant or false statistics, Appear insecure, Share information that isn't valuable, Have negative body language, Share participant's space, Make eye contact with the evaluators, Focus on only one participant, Use judgmental language, Worry if the topic is unfamiliar.

#### **About Program:**

The global salesforce services market is projected to hit US\$ 33.5 billion by 2029. Considering a growing demand for Salesforce internationally, demand for Salesforce developers is also growing. As noted by IDC, there has been an immense rise in the number of positions seeking Salesforce knowledge and the Salesforce ecosystem is expected to generate 9 million new job opportunities by 2026. Earning a Salesforce Certification is the most successful way for landing an excellent job with high pay in this field.

Sales Force Certificate Training (Administration) for BE Third year and Final Year Students is initiated by M Kunal Gadgil.

#### **The Advantages of Being certified are:**

1. Higher-Value Deals: Trained reps confidently handle senior-level conversations, leading to larger deals.
2. Competitive Edge: A well-trained sales team can outperform competitors and maintain market leadership.
3. Positive Customer Experience: Effective training helps reps build strong customer relationships and loyalty.

#### **Learning Outcomes:**

After successful completion of these certifications, students will have the knowledge and skills to

1. Learn and apply knowledge in industry problems.
2. To search new arena of the jobs in future technologies.
3. Future learning is prospectus.

#### **About Program:**

SAP HANA and SAP Fiori Certification course training is offered to BE CSE & IT Students of institute by alumnus Mr Milan Parikh (1993-Electical Engineering) through his "Milan Parikh Learning Solution Training Institute".

SAP is hot cake for engineering candidates as future prospectus. Advantages of being SAP certified engineer are:

1. Getting better jobs is the primary reason that professionals enroll for a SAP certification.
2. SAP certified professionals are subsequently higher paid than those without a certification.
3. Better role and paycheck is automatically followed by reputation and recognition among peers, colleagues, and clients.
4. SAP certification can act as a special cushion in every professional's career.
5. SAP certification exams serve as a benchmark for validating expertise and proficiency in SAP software solutions.

**SAP HANA** is an in-memory, column-oriented, relational database management system developed and marketed by SAP SE. Its primary function as the software running a database server is to store and retrieve data as requested by the applications.

The **SAP Fiori** Mentor app is an interactive playground that helps mobile designers and developers discover the capabilities of SAP's SDK and design system for Android and iOS.

#### **Course Links:**

1. SAPTEC - Technology Fundamentals of SAP S/4HANA and SAP Business Suite.
2. ADM900 - SAP System Security Fundamentals.
3. ADM940 - Authorization Concept for SAP S/4HANA and SAP Business Suite.
4. ADM945 - ADM945 – Authorization Concept for SAP Fiori on SAP S/4HANA.

## Learning Outcomes:

After successful completion of these certifications, students will have the knowledge and skills to

1. Learn and apply knowledge in industry problems.
2. To search new arena of the jobs in future technologies.
3. Future learning is prospectus.

## Glimpse of Training:

The screenshot displays the SAP Training Sessions Series interface. The main window shows a task list titled "Maintain Task List Run SAP\_FIORI\_CONTENT\_ACTIVATION\_20240721042244586". The task list includes columns for Ex. C., St. L., Autom. Phase, Com., Task Description, H. P., Parameter Description, Task, and Component ID. The task list is filtered to show tasks related to "SAP Fiori - Content Activation for SAP Business Roles". The task list includes tasks such as "Scope definition FIORI Enter list of SAP Business Roles to be activated (optional)", "Scope definition FIORI Select/Confirm SAP Business Roles for FLP content activation", "Prepare CTS Set transport options for to be activated OData Services", "Configuration FIORI Determine OData/ICF Services for Roles", "Configuration FIORI Activate OData Services (IWFND/MAINT\_SERVICE)", "Configuration FIORI Publish Service Groups (IWFND/V4\_ADMIN)", "Configuration FIORI Activate ICF Services (SICF)", "Configuration FIORI Generate new Business Roles with Prefix", "Configuration USER Create Users with generated Business Roles (SU01)", and "Postprocessing CTS Delete Requests for OData Services Activation (if newly created and empty)".

The interface also shows a video feed of a classroom setting with students. The bottom right corner features a chat window with participants "Milan parik..." and "Pavan Gaut...", and a "CN" button.

Subject: Permission for organizing a Three-Day Workshop reg.

Respected Sir,

The Institution of Engineers (India) - Department of Electrical Engineering Students' Chapter wishes to organize a Three-Day workshop entitled "Industrial Approach in Electronics" in collaboration with Electronics Study Centre, Nashik for Electrical Engineering Students. Electronics Study Centre, Nashik is an ISO 9001:2008 certified organization that specializes in imparting core Electrical and Electronics skills.

The proposed workshop aims to impart core Electrical and Electronics skills to the students that will not only place the students better equipped with core professional skills, but will also provide them an edge over the others.

The workshop fee is Rs. 1500 per student for a batch of 60 students, amounting to Rs. 90000. Out of the total amount, 50% is paid by the students. As per the approval sought by the Electrical Engineering Department, the remaining 50% (amounting to Rs. 45000) is to be paid by the college.

The details of the workshop are as under -

Subject: Permission for organizing a Four-Day Workshop regarding

Respected Sir,

The Department of Electrical Engineering Students' Chapter wishes to organize a Four-Day workshop entitled **"Introduction to LabVIEW"** for Electrical Engineering Students during 27<sup>th</sup>- 30<sup>th</sup> March 2024.

The proposed workshop aims to impart basic skills to deal with Engineering Problems by using LabVIEW. One of the key advantages of LabVIEW is its intuitive graphical programming interface. Rather than writing code in a traditional programming language, LabVIEW users can create graphical representations of their algorithms using a drag-and-drop interface. This makes it easier to visualize the flow of data and control in a program, and it can be particularly helpful for those who are not experienced coders. The workshop will not only place our students better equipped with professional skills, but will also provide them an edge over the others.

The total workshop fee is Rs. 40500/- for 40 students. Out of the which, approximately 50% (amounting to Rs. 500 per student) shall be paid by the students. The rest of the fees (Rs 20500/-) shall be sponsored by DIGIANA ELECTROTECH Pune.

The details of the workshop are as under --

## EVENT REPORT

Four - Day workshop on "NI LabVIEW Graphical System Design"

**Name of Resource Person:** Mr. Prashanth Ekambe (Senior Simulation Engineer, Mew Technologies, Pune)

**Target Group:** B.E. Second Year Electrical Engineering Students

**Duration of Workshop:** 27<sup>th</sup> – 30<sup>th</sup> March 2024

**Time:** 09.30 AM to 05.45 PM

**Venue:** D5 Classroom, ASH Dept SSGMCE Shegaon

**Organized by:** IEI – Department of Electrical Engineering Students' Chapter, SSGMCE Shegaon

**Number of Beneficiaries:** 21

**Program outcomes Addressed:** PO1, PO2, PO3, PO4, PO5, PO9, PO10, PO12

**Notice**

**Date : 10-02-2024**

**Attention Students!**

We are excited to announce an upcoming workshop on Design, Fabricate & Program an ESP 8266 Microcontroller board. This workshop is designed to introduce you to the fundamentals of Printed Circuit Board (PCB) design and equip you with practical skills in creating your own circuits.

**Workshop Details:**

Date: 8<sup>st</sup> March to 11<sup>th</sup> March 2024

Time: 11:00 Am to 6:00Pm

Venue: SSGMCE FABLAB

**Who Should Attend:** This workshop is open to all students interested in learning about PCB design, regardless of prior experience. Whether you are an engineering enthusiast or curious about electronics, this workshop will provide valuable insights and hands-on experience.

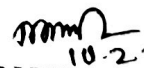

**Registration:** Limited seats are available. To secure your spot, please register your name to workshop coordinator.

Don't miss out on this opportunity to enhance your skills and delve into the world of PCB design. For any queries, feel free to contact Prof.V.S.Ingole.

Best regards,

  
Prof.V.S.Ingole

Subject: Request for Permission to Conduct a Workshop in FAB Lab (EXTC Dept.) from 8<sup>th</sup> to 11<sup>th</sup> March 2024

Dear Sir,

I Mr.Vikram S. Ingole Assistant Professor of Electronics and telecommunication engineering writing to seek your gracious permission to conduct a student workshop at our institute and I believe this workshop will contribute significantly to their academic and professional development.

Workshop Details:

Title: Design, Fabricate & Program an ESP 8266 Microcontroller board

Date: 8<sup>th</sup> March to 11<sup>th</sup> March 2024

Time: 11:00 Am to 6:00Pm

Venue: SSGMCE FABLAB

Objective of the Workshop:

- Students will be able to get hands on design software
- Student will be able to understand industrial grade PCB manufacturing technique.
- Student will be able to programming and interfacing of different sensors to microcontroller

Workshop Outline:

- Making Schematics
- Converting Schematic to PCB
- Fabrication Processes
- Manufacturing Industrial Grade PCB
- Soldering Techniques
- Troubleshooting
- Embedded Programming

**Benefits for Students:**

Student will be able to use of ESP 8266 board to do different mini/Minor projects.

Takeaway kit for every group.

**Supporting Resources:**

Mr.Shreyas Shah (Industry person) and Mr.Vikram S Ingole (Faculty members) will be the resource person for this workshop.

**Fees & Hardware requirements:**

The required hardware (PCB, SMD Components, Cables etc) for this workshop will be take care by Mr.Shreyas Shah only.

We are charging workshop fees of Rs.2400/- per group (3-4 Members) and Rs.2000/- per group will be pay as consulting fees / honorarium to Mr.Shreyas Shah at the end of workshop.

I am confident that this workshop will contribute developing the skills of the students by practical approach.

Thank you for considering my request. I look forward to your favorable response.

To  
The Principal,  
As the same workshop conducted  
last year too, kindly permit.

# Title: Report on 4-Day Design fabricate-Program Microcontroller board Workshop

Workshop Coordinator: Mr.Vikram S Ingole

Date of Workshop: 8<sup>th</sup> March to 11<sup>th</sup> March 2024

No. of students enroll: 68

Resource Person: Mr.Shreyas Shah

## **Introduction:**

The 4-day IoT (Internet of Things) workshop aimed to provide participants with a comprehensive understanding of IoT concepts, technologies, and practical applications. The workshop covered various topics ranging from IoT architecture and protocols to hands-on sessions involving IoT device integration and data analysis.

## **Objectives:**

Understanding IoT Fundamentals: To provide participants with a comprehensive understanding of IoT concepts, including architecture, protocols, and real-world applications.

IoT Device Integration: To enable participants to integrate sensors, actuators, and IoT devices into functional systems, focusing on programming and practical implementation.

Data Management and Analysis: To familiarize participants with techniques for collecting, storing, analyzing, and visualizing IoT data effectively.

IoT Security Awareness: To educate participants about common security challenges in IoT systems and best practices for securing IoT devices and networks.

Exploration of Future Trends: To explore emerging technologies and trends in the field of IoT, enabling participants to anticipate and adapt to future developments.

## **Outcome:**

Enhanced Understanding of IoT Fundamentals: Participants gained a solid understanding of IoT architecture, protocols, and their applications, allowing them to appreciate the significance and potential of IoT technology.

Practical Skills in Device Integration: Through hands-on sessions, participants acquired the skills necessary to integrate sensors, actuators, and IoT devices, enabling them to implement IoT solutions in various scenarios.

Proficiency in Data Management and Analysis: Participants learned how to collect, store, analyze, and visualize IoT data, empowering them to derive valuable insights and make informed decisions based on data-driven approaches.

Improved Awareness of IoT Security: Participants became more aware of the security challenges associated with IoT systems and gained knowledge of best practices for mitigating risks and protecting IoT deployments.

Insight into Future Trends: Participants gained insights into emerging technologies and trends shaping the future of IoT, enabling them to stay informed and adapt their strategies to capitalize on new opportunities.

### Workshop Schedule:

Time	Day1 8/3/24	Day2 9/3/24	Day3 10/3/24	Day4 11 / 3/ 24
10:30 am to 1 pm	<b>Basics of Electronics</b> Components, identification, polarity, working, packages	<b>Custom Board Design</b> Hedy MCU Different shapes, Images	<b>PCB Inspection</b> Visual Inspection	<b>Programming</b> Test Codes Testing with App
1:15 pm to 3:15 pm	<b>Starting with Easy EDA</b> All tools, how to use, software roadmap	<b>Hedy MCU Assembly</b> component sorting paste application	<b>PCB Inspection</b> Cold Testing	<b>Project Building</b> IO devices Digital & Analog Sensors

6:45pm to 8:45pm	<b>Design a board</b> make a SCH convert to PCB	<b>Hedy MCU Assembly</b> component Soldering	<b>Debugging</b> HotTesting Test Sheets	<b>Project Building</b> connections programming & testing

## Day 1:

- Basics of Electronics  
Components, identification, polarity, working, packages
- Starting with Easy EDA  
All tools, how to use, and software roadmap  
Schematic Design: Create a schematic diagram outlining the connections between components and their functions using design software like Eagle, Altium, or KiCad.
- Design a board  
Make a SCH convert to PCB

PCB Layout: Design the physical layout of the PCB, arranging components and traces to optimize performance, minimize interference, and ensure manufacturability.

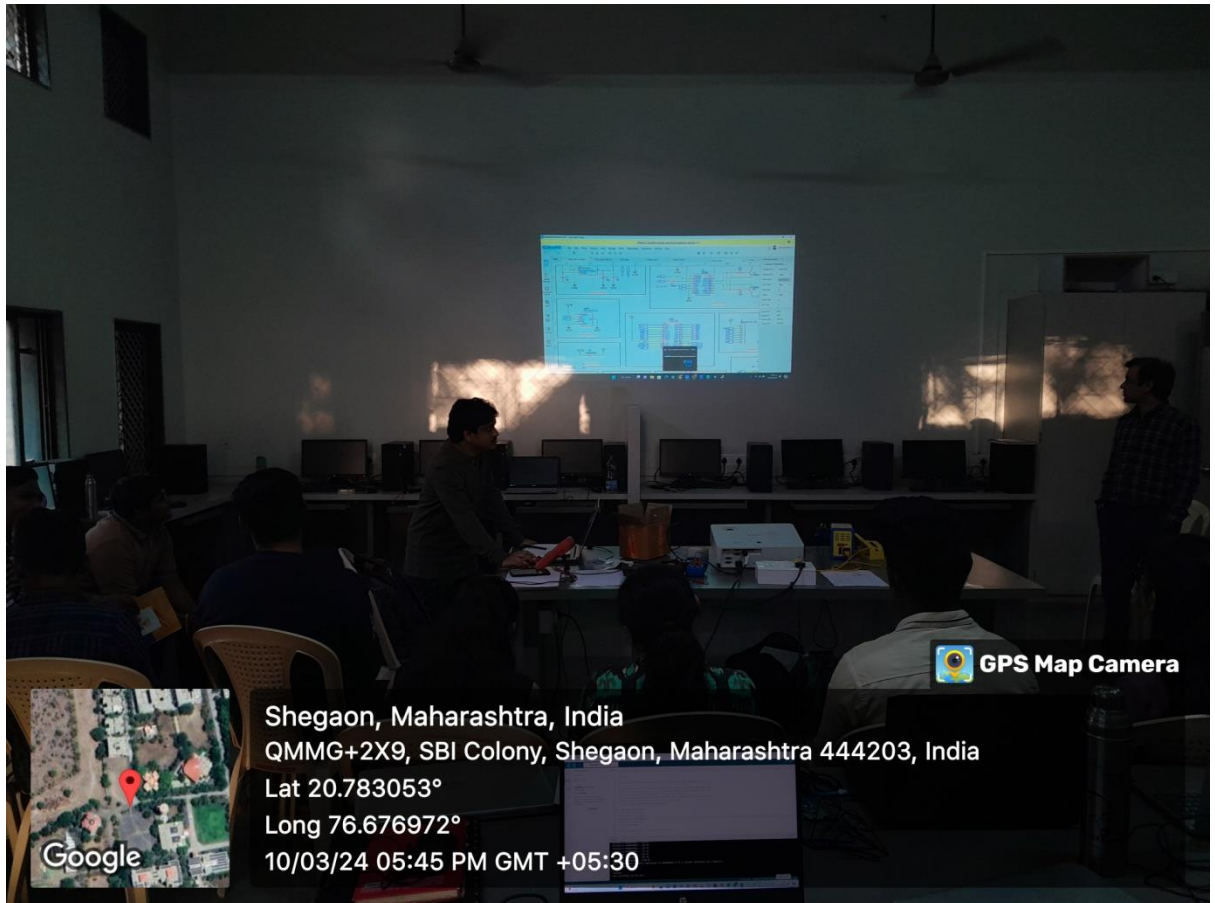

## Day 2:

- Custom Board Design
  - Hedy MCU Different shapes, Images
  - Hedy MCU Assembly
- Hedy MCU Assembly
  - Component sorting paste application
- Hedy MCU Assembly
  - Component placement Soldering

## Day 3:

- PCB Inspection Visual Inspection Cold Testing
- Debugging
  - De-soldering Re-soldering
- Debugging
  - Hot Testing Test Sheets

Day 4:

- Programming Test Codes
  - Testing with App
- Project Building
  - IO devices
  - Digital & Analog Sensors
- Project Building
  - Connections programming and testing

### **Conclusion:**

The 4-day IoT workshop provided participants with a comprehensive understanding of IoT fundamentals, device integration, data management, and security considerations. Through hands-on sessions and interactive discussions, participants gained practical experience in implementing IoT solutions. The workshop concluded with valuable insights into future trends in IoT and received positive feedback from participants, indicating a successful and enriching learning experience.

### **Recommendations:**

Organize follow-up sessions or advanced workshops focusing on specific IoT applications such as smart cities, industrial IoT, or healthcare.

Provide access to online resources and communities for continued learning and networking.

Encourage participants to collaborate on IoT projects and share their experiences to foster a vibrant IoT community

Date:- 20/10/2023

Dear All Students of IT Dept,

We are pleased to inform you that AWS (Amazon Web Services) and Red Hat training sessions have been scheduled to enhance your technical skills and knowledge. These sessions are designed to keep you updated with the current market demands and will provide you with valuable certifications.

**Schedule:**

Date	Time	Location
20/10/2023 & 23/10/2023	5:45 PM - 7:45 PM	Webtech and DMC Lab, IT Department, SSGMCE
21/10/2023	9.00 Am to 12.30 PM	Webtech and DMC Lab, IT Department, SSGMCE

**Courses to be completed:**

AWS Training	Red Hat Training	Level
Foundation	RHCSA-12 (Red Hat Certified System Administrator)	Beginners
Architecture	DO-180 (Containerizing Software Applications)	Intermediate

These courses are essential to improve your competency in cloud computing and system administration, which are highly sought after in the industry. Completing these certifications will significantly boost your career prospects and employability. We strongly encourage all eligible students from the 2nd, 3rd, and 4th years to actively participate and complete the required courses. The knowledge and skills gained through these training sessions will not only benefit you academically but will also prepare you for a competitive job market.

**Prof. S. N. Khandare**  
**Coordinator Training Session**

**Dr. A. S. Maneekar**  
**HoD IT**

**Note:-** Once you are aware about conduction of course through these introduction session then you can finished that on your own by completing Lab session etc.

Information Technology Department

“SSGMCE RedHat Academy”

**Program Title:** Red Hat course on Red Hat OpenShift I: Containers & Kubernetes (DO180).

**Date:** 31<sup>st</sup> July 2023 to 31<sup>st</sup> Dec 2023

**Time:** A five-day virtual class or is self-paced. Durations may vary based on the delivery.

**Location:** Self-Paced through online Redht academy platform

**Organized By:** Department of Information Technology.

**Resource Person:** Mrs.S.N.Khandare, Mr.Atharv Harsulkar, Mr.Gaurav Surkar, Girish Sonune

**Number of Participants:** 264

**Objectives:**

**1. Linux Administration:**

- Understanding and managing Red Hat Enterprise Linux (RHEL) systems.
- User and group administration.
- File system and storage management.

**2. Red Hat Enterprise Linux Networking:**

- Configuring and managing network services.
- Troubleshooting network issues.
- Security considerations for network services.

**3. System Security:**

- Implementing security measures to protect systems.
- Configuring firewalls and intrusion detection/prevention systems.
- Managing user authentication and authorization.

**4. Virtualization and Cloud Technologies:**

- Deployment and management of virtual machines.
- Integration with cloud services, such as Red Hat OpenShift.

## **5. Automation and Scripting:**

- Using tools like Ansible for automation.
- Writing and understanding shell scripts.

## **6. Red Hat OpenShift and Containerization:**

- Understanding containerization concepts.
- Deployment and management of applications using Red Hat OpenShift.

## **7. Red Hat Certifications:**

- Preparing for and obtaining Red Hat certifications, such as RHCSA (Red Hat Certified System Administrator) and RHCE (Red Hat Certified Engineer).

## **8. Advanced Topics:**

- Advanced system and network troubleshooting.
- Performance tuning and optimization.

### **Courses Highlights: Red Hat OpenShift I: Containers & Kubernetes (DO180)**

The Red Hat OpenShift I: Containers & Kubernetes (DO180) course is part of the Red Hat training and certification program. It is designed to provide individuals with a foundational understanding of containerization and container orchestration using Kubernetes and Red Hat OpenShift. Below are some of the key topics and highlights covered in this course:

#### **1. Containerization Concepts:**

- Introduction to containerization and Docker.
- Understanding container images and containers.

#### **2. Container Orchestration with Kubernetes:**

- Introduction to Kubernetes and its architecture.
- Deploying and managing containerized applications with Kubernetes.

#### **3. Red Hat OpenShift Overview:**

- An introduction to Red Hat OpenShift and its features.
- Differences between Kubernetes and OpenShift.

#### **4. Creating and Managing Containers:**

- Building container images.
- Running and managing containers.

#### **5. Kubernetes and OpenShift Basics:**

- Deploying applications with Kubernetes and OpenShift.
- Managing pods, services, and replication controllers.

#### **6. Using the Command Line:**

- Working with Kubernetes and OpenShift using command-line tools.
- Managing resources and troubleshooting.

#### **7. Deploying Applications:**

- Deploying applications with OpenShift.
- Scaling applications and rolling updates.

#### **8. Managing and Securing Resources:**

- Resource management with quotas and limits.
- Configuring security context constraints (SCCs).

#### **9. Using Persistent Storage:**

- Configuring and managing persistent storage for applications.
- Using dynamic provisioning.

#### **10. Networking in OpenShift:**

- Networking concepts in OpenShift.
- Configuring services and routes.

#### **11. Access Control:**

- Managing users and groups.
- Implementing role-based access control (RBAC).

#### **12. Container Security:**

- Implementing security best practices for containers.
- Scanning container images for vulnerabilities.

#### **13. Monitoring and Logging:**

- Monitoring application performance.

## “SSGMCE AWS Academy”

**Program Title:** Workshop on AWS Academy Cloud Architecturing Course

**Date:** 20<sup>th</sup> Oct 2023 to 27<sup>th</sup> Oct 2023

**Time:** 06:00 PM to 08:00 PM All Days

**Location:** DMC Lab, SSGMCE Shegaon

**Organized By:** Department of Information Technology.

**Resource Person:** Dr. A S Manekar , Miss. Anagha Badhe, Mr.Ishwar Sharma, Mr. Amit Molke

**Number of Participants:** 66

### **Objectives:**

1. **Education:** AWS Academy aims to deliver high-quality, up-to-date cloud computing education to students and professionals, helping them understand AWS services and solutions.
2. **Skill Development:** The program focuses on developing practical, hands-on skills in cloud computing and AWS services, enabling individuals to build and manage applications in the AWS cloud environment.
3. **Certification Preparation:** AWS Academy prepares students for AWS Certification exams, helping them become AWS Certified, which is valuable in the job market.
4. **Workforce Development:** By offering AWS training and certification preparation, AWS Academy contributes to building a skilled workforce capable of meeting the increasing demand for cloud computing professionals.
5. **Curriculum Development:** AWS Academy provides institutions with ready-made, up-to-date cloud computing curricula and resources that can be integrated into their existing programs or used to create new courses.
6. **Partnering with Educational Institutions:** AWS Academy collaborates with educational institutions to create a community of educators and students interested in cloud computing, fostering a supportive learning environment.

7. **Industry-Relevant Knowledge:** AWS Academy ensures that the training content reflects real-world industry needs and best practices, allowing students to apply their knowledge in professional settings.
8. **Global Reach:** AWS Academy is available in many countries, helping to make cloud computing education accessible worldwide.

## Course Highlights:

### AWS Academy Cloud Architecting:

1. **Course Overview:** The AWS Academy Cloud Architect course is designed to provide students with a comprehensive understanding of cloud architecture and Amazon Web Services (AWS). It's a more advanced program compared to the Cloud Foundation course, focusing on cloud design and architecture.
2. **Content:** The course content delves into advanced architectural concepts, including high availability, scalability, security, and optimization of AWS services. Students learn how to design and implement cloud solutions using AWS.
3. **Duration:** The AWS Academy Cloud Architect course is typically more extensive, spanning around 12 to 16 weeks. It includes in-depth instruction and hands-on experience.
4. **Target Audience:** This course is suitable for students and IT professionals who want to specialize in cloud architecture and AWS solutions. It's ideal for those looking to become AWS Certified Solutions Architects.
5. **Certification:** While the course itself doesn't provide a certification, it thoroughly prepares students to pursue the AWS Certified Solutions Architect certification, which is highly sought after in the industry.
6. **Hands-On Labs:** Like the Cloud Foundation course, students engage in practical labs to apply architectural principles, design solutions, and gain hands-on experience.

### Outcome:

- AWS Academy can provide students with the knowledge, skills, and industry recognition needed to excel in the field of cloud computing, offering a pathway to a rewarding and in-demand career.

- The AWS Academy Cloud Architect course provides a more in-depth exploration of cloud architecture and AWS services, making it a valuable choice for those looking to specialize in cloud design and solution architecture. The longer duration allows for a deeper understanding of these complex topics.

Certificate

## Google Cybersecurity

Those who earn the Google Cybersecurity Certificate have completed eight courses, developed by Google, that include hands-on, practice-based assessments and are designed to prepare them for entry-level roles in cybersecurity. They are competent in beginner-level Python, Linux, SQL, Security Information and Event Management (SIEM) tools, and Intrusion Detection Systems (IDS). They know how to identify common cybersecurity risks, threats, and vulnerabilities, as well as the techniques to mitigate.

## Google Cybersecurity

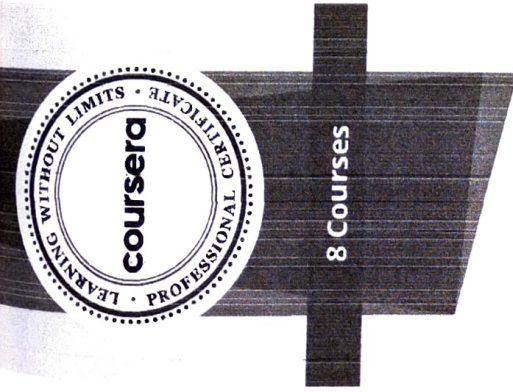

Those who earn the Google Cybersecurity Certificate have completed eight courses, developed by Google, that include hands-on, practice-based assessments and are designed to prepare them for entry-level roles in cybersecurity. They are competent in beginner-level Python, Linux, SQL, Security Information and Event Management (SIEM) tools, and Intrusion Detection Systems (IDS). They know how to identify common cybersecurity risks, threats, and vulnerabilities, as well as the techniques to mitigate.

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
