1	To enhance the skills and knowledge of the software testing.	1	Select methodologies such as manual testing, automated testing, performance testing, security testing, etc., based on project requirements.
2	Select the appropriate testing methodologies for the project.	2	Implementing testing activities according to the defined plan.
3		3	Analysing test results, assess the quality of the software, and provide feedback for improvement.

Brief about Guest Lecture: -

Department of Information Technology SSGMCE, Shegaon has arranged interactive awareness session for students on Software Testing on 15/10/2022 by Ms.Pragrati Chowhan Manager, Training and Competencies Development, Tristha Global Pvt.LTD. After students university examination they have providing training to the interested students on "Methodologies of Software Testing" from 21st Feb 2023 to 17th April2023(Online).They provide basic knowledge of software testing, manual testing as in the training program students are from all branches. Software testing is a crucial phase in the software development lifecycle, aimed at ensuring the quality, functionality, and reliability of a software product. Various methodologies and techniques are employed to achieve this objective like manual testing, automation testing, unit testing etc.

Saurabh Kedar

has successfully completed the online, non-credit Professional Certificate

Google Data Analytics

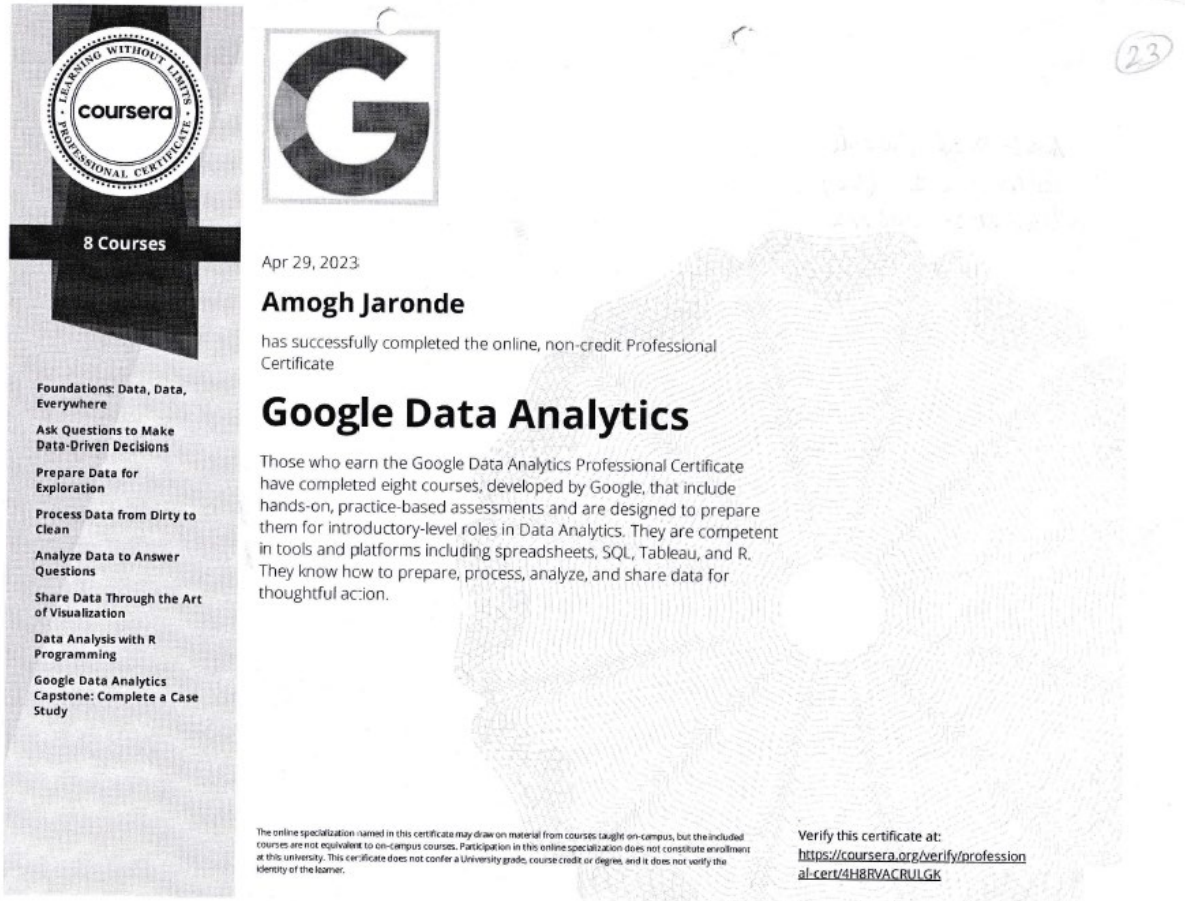

Those who earn the Google Data Analytics Professional Certificate have completed eight courses, developed by Google, that include hands-on, practice-based assessments and are designed to prepare them for introductory-level roles in Data Analytics. They are competent in tools and platforms including spreadsheets, SQL, Tableau, and R. They know how to prepare, process, analyze, and share data for thoughtful action.

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.

Mayur Nehare

has successfully completed the online, non-credit Professional Certificate

Google IT Automation with Python

This six-course certificate, developed by Google, is designed to provide IT professionals with in-demand skills -- including Python, Git, and IT automation -- that can help them advance their careers. The hands-on curriculum is designed to teach learners how to write code in Python, with a special focus on how this applies to automating tasks in the world of IT support and systems administration. Those who received this certificate passed all graded assessments with a score of 80% of above. They should have a strong foundation in how to use Git and GitHub, troubleshoot and debug complex problems, and apply automation at scale by using configuration management and the Cloud in order to prepare them for more advanced IT Support Specialist or Junior Systems Administrator positions.

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment

has successfully completed the online, non-credit Professional Certificate

Google UX Design

Those who earn the Google UX Design Professional Certificate have completed seven courses, developed by Google, that include hands-on, practice-based assessments and are designed to prepare them for introductory-level roles in UX design. They can complete the design process from beginning to end: empathizing with users, defining their pain points, coming up with ideas for design solutions, creating wireframes and prototypes, and testing designs to get feedback.

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a university grade, course credit or degree, and it does not verify the identity of the learner.

Google

Abhishek Moharir

has successfully completed the online, non-credit Professional Certificate

Google IT Automation with Python

This six-course certificate, developed by Google, is designed to provide IT professionals with in-demand skills -- including Python, Git, and IT automation -- that can help them advance their careers. The hands-on curriculum is designed to teach learners how to write code in Python, with a special focus on how this applies to automating tasks in the world of IT support and systems administration. Those who received this certificate passed all graded assessments with a score of 80% of above. They should have a strong foundation in how to use Git and GitHub, troubleshoot and debug complex problems, and apply automation at scale by using configuration management and the Cloud in order to prepare them for more advanced IT Support Specialist or Junior Systems Administrator positions.

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.

Akshaykumar Bhople

has successfully completed the online, non-credit Professional Certificate

IBM Data Science

In this Professional Certificate learners developed and honed hands-on skills in Data Science and Machine Learning. Learners started with an orientation of Data Science and its Methodology, became familiar and used a variety of data science tools, learned Python and SQL, performed Data Visualization and Analysis, and created Machine Learning models. In the process they completed several labs and assignments on the cloud including a Capstone Project at the end to apply and demonstrate their knowledge and skills.

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.

Workshop Summary Report

Workshop Title : A Three Days Workshop On Hands on Digital VLSI Design using Xilinx

Date : 8 - 23 Sept 2018

Location : EXTC seminar Hall & VLSI Lab.

Organizing Institute : SSGMCE, Shegaon

Workshop Facilitators : Prof. S.P.Badar

Number of Participants : 35

Workshop Objectives:

1 To familiar with digital design concepts using different approaches.

2 Design of combinational circuits using CMOS.

3 Design of sequential circuits using CMOS.

4. Design and development using Xilinx software

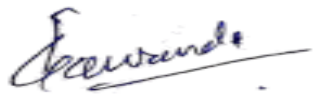

Outcomes:

1.Will be able to design combinational and sequential circuits using Xilinx software.

2. Simulation and synthesis of digital circuits using Xilinx software.

Submitted by : Prof. S.P.Badar

Name and Signature of the Coordinator: Prof.S.P.Badar

Date of Submission : 29 Sept 2018

A Three Days Workshop
on
Hands on Digital VLSI Design using Xilinx

The Department of Electronics and Telecommunication is going to organize A Three Days Workshop on Hands on Digital VLSI Design using Xilinx during 8th to 10th Sept 2018.

The details of workshop as follows:

Software Tools : Xilinx ISE™ 13.4 ISim (VHDL / Verilog) Simulator
Date : **8th to 10th Sept 2018.**
Venue : DSP Lab, EXTC Dept.
Registration Fees : Rs.1000/-

Schedule and Contents:

Date	Time	Contents
8th Sept. 2018 (Day 1 - Saturday)	1.30 pm to 7.00 pm	Introduction to Digital VLSI Design
		Basics of VHDL
		Description of Hardware In VHDL
		Modelling Style of Design .
		Behavioral Modelling
		Basics of Logic Gates, Flip-flops
		Multiplexer, Demultiplexer
9th Sept. 2018 (Day 2 - Sunday)	8.00 am to 7.00 pm	Counter, Shift Register
		Data flow Modelling
		Half Adder, Full adder
		ALU
		Structural and Mixed Style of Modelling
		Full Adder
		4-bit Adder, 16-bit Adder etc…
10th Sept. 2018 (Day 3 - Monday)	7.30 am to 10.00 am	2-bit Multiplier, 4-bit Multiplier etc…
		Vedic Multiplier
		FPGA Board Implementation

For Registration Contact: Prof. S. P. Badar
