“Campus Recruitment Training for BE 2nd year Students ”

Academic Year 2022-23

Shri Sant Gajanan Maharaj College of Engineering,
Khamgaon Road, Shegaon, Dist: Buldhana

Sr No	Title of Activity	**Campus Recruitment Training for BE 2nd yearStudents**
1	Speaker	Mr. Ajay Butwani
2	Co-Ordinator	Prof Adesh Solanke
3	Co-Cordinator	Prof. Mrs. H S Patil
4	Schedule of Activity	Started from 1st Dec 2022 at 7:00 PM to 08:00 PM Total **100** Hrs per year
5	Time	As per scheduled in Time table and notice
6	Objective of Activity	**1.** Enrich their knowledge and to develop their logical reasoning thinking ability **2.** The main aim of introducing "Quantitative Aptitude"for mathematics students is to develop skill to meet the competitive examinations for better job opportunity. **3.** Effort has been made to accommodate fundamental, mathematical aspects to instill confidence among students. **4.** To demonstrate various principles involved in solving mathematical problems and thereby reducing the time taken for performing job functions. **5.** To make students able to critically evaluate various real-life situations
7	Venue	**Virtual Mode**
8	No. of Beneficiaries	Total- **450**
9	Syllabus/Topics	Attached herewith

About Program:

In general, aptitude tests measure one's competence in logical reasoning, numerical skills, or verbal ability; competency can be evaluated through problem-solving tasks and testing one's critical thinking across various contexts.

There are various topics under the syllabus of Quantitative Aptitude. Topics such as work and wages, permutation and combination, profit and loss, age, probability, percentages, ratios and many more. The above article contains all these important topics.

Aptitude tests are often used to assess academic potential or career suitability and may be used to assess either mental or physical talent in a variety of domains.

Topics Covered:
Square roots, Cube roots, Squares, Ratio Proportion, Allegation's & Mixtures, Number Series & Letter Series, Coding-Decoding, Calendars, Clocks, Partnerships, Basic Geometry & Algebra, Questions on Ages, Pattern Completion, Mirror Image & Water Image, Data Sufficiency etc.

Learning Outcomes:

After successful completion of this course, students will have the knowledge and skills to

1. Solve the problems easily by using Short-cut method with time management which will be helpful to them to clear the competitive exams for better job opportunity.
2. It helps Candidates to conquer the success in job tests.
3. Analyze the Problems logically and approach the problems in a different manner.

Course Contents:

Following is the Quantitative Aptitude & Logical Reasoning training plan for Second yearEngineering Students **(Semester- III.)**

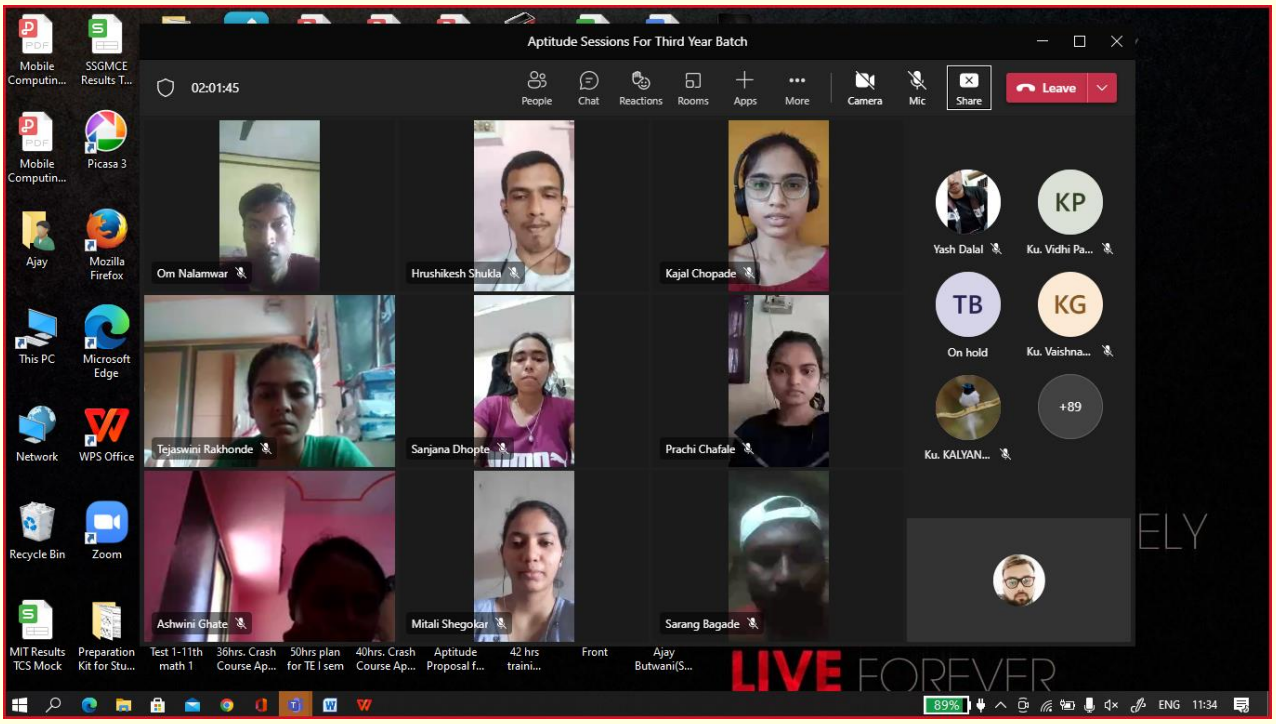

Second year Engineering (Semester-III) (50hrs)		
No.	**Chapter Name**	**Hours**
1.	Square roots, Cube roots, Squares	2hrs
2.	Ratio Proportion	6hrs
3.	Partnerships	4hrs
4.	Averages	6hrs
5.	Allegation's & Mixtures	6hrs
6.	Questions on Ages	6hrs
7.	Analogies or similarities	4hrs
8.	Number Series & Letter Series	4hrs
9.	Coding-Decoding	4hrs
10.	Calendars	4hrs
11.	Clocks	4hrs
	Total Working hours per batch	**50hrs**

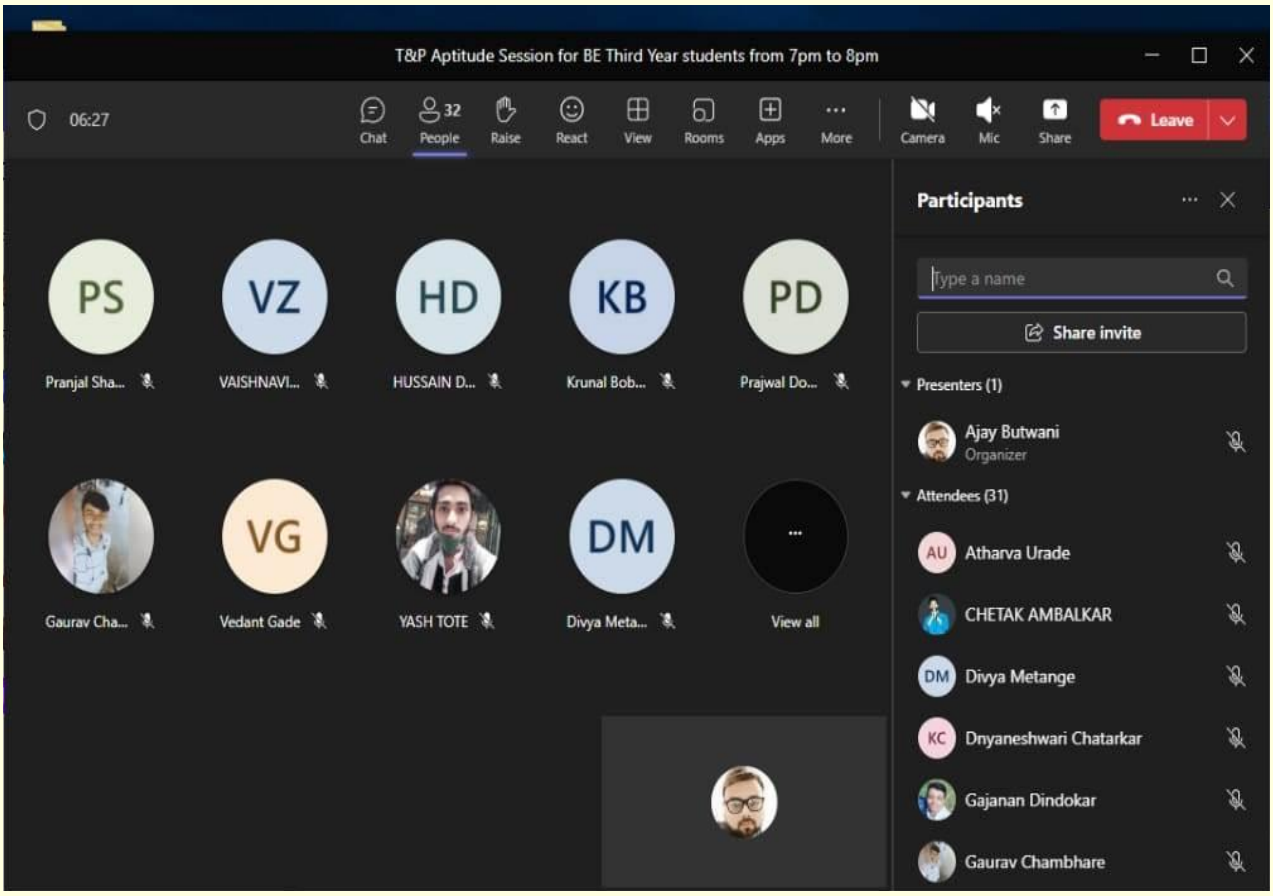

Following is the Quantitative Aptitude & Logical Reasoning actual training planimplemented for Third Year Engineering Students **(Semester-VI).**

Third year Engineering (Semester-VI) (50hrs)		
SN	**Chapter Name**	**Hours**
1.	Number System	6hrs
2.	Basic Statistics	6hrs
3.	Progression	6hrs
4.	Basic Geometry & Algebra	6hrs
5.	Surds & Indices	6hrs
6.	Data Interpretation	4hrs
7.	Data Sufficiency	4hrs
8.	Nonverbal Reasoning (Series & Analogy)	4hrs
9.	Pattern Completion, Mirror Image & Water Image	4hrs
10.	Paper Cutting & Folding	4hrs
	Total Working hours per batch	**50hrs**

Dear Students,

Greetings from T&P Cell of SSGMCE Shegaon!!!

Aptitude test is the first part of the recruitment process of almost all companies. To solve the lengthy/complex questions of the aptitude tests, students need to know the tricks/shortcuts and also need to practice well in advance. Keeping all these points in view, we have designed a systematic plan of **200 Hours of Aptitude Development Program** for the students of SSGMCE Shegaon..... We are starting these classes **from 1st December 2022.** For the convenience of the students the classes will be conducted online on MS Teams platform (tentative timing will be as follows: **For BE Second Year:::: (eighter from 8:00am to 9:00am OR from 7:00pm to 8:00pm).**

We have assigned the aptitude training to a highly expert and 10+ years experienced trainer **Mr. Ajay Butwani** to train the students on Aptitude Development. He has trained more than 51000 students so far. These aptitude classes would bear a nominal charge of Rs.1000/- (for all the four semesters, 3rd, 4th,5th and 6th: out of the Rs.1000/- during Second year you need to pay only Rs 600/- and the remaining Rs.400/- will have to pay in your Third Year). The Aptitude Development Programme is mandatory for all the students of BE Second Year students. The Aptitude classes attendance of every SSGMCE student should be 75% and above: it is a basic eligibility condition for all SSGMCE Students to make themselves "Placement Eligible". During your BE Final year there will be a crash course which will be a rapid revision of the entire aptitude syllabus and that would be free of charge. The topic details are mentioned in the word/pdf files attached to this message.(So, pay Rs.600/- for the Aptitude Classes scheduled for BE Second Year students session 2022-23.)

We appeal to all the students to attend the Aptitude Development Classes regularly. You will really enjoy the learning!

Wish You All The Best!!!

Help Us to Help You!!!

FEED BACK FORM FOR APTITUDE DEVELOPMENT PROGRAMME

Name of Agency: **Base Education (Mr. Ajay Butwani)**

Name of the Participant: Prasad Agrawal Dept. Electrical Engg

Module Name: Aptitude Date: _____ Batch: 25 Time Slot: 7:00 - 8:00 pm

Tick (only one answer for each question.

Sr. No	Question	Poor	Fair	Good	Very Good	Excellent
1	The Training you attended was.		✓			
2	The demonstrations were.			✓		
3	The content presented was.					
4	The trainer's knowledge about the content was.					✓
5	The way trainers taught the contents was.				✓	
6	The activity your participated in were.				✓	
7	The quality of instruction was			✓		
8	The training made the objectives was.			✓		
9	The training made my expectation is.				✓	
10	Adequate time was provided for Questions and Discussions.			✓		

Write your answers to the following questions.

1) What did you like best about the training?

The training is good, the content that is taught by the faculty is excellent.

2) Are there any areas that should be included in training?

The training should also be included with English grammer.

3) Are there any areas that should be improved for future training?

N.A

STUDENTS FEED BACK

Campus Recruitment Training (Online) for BE 2nd year Students AY 2022-23.

Sample Size: **100**

Sr. No	Question	Poor	Fair	Good	Very Good	Excellent
1	The Training you attended was.	0	6	7	12	75
2	The demonstrations were.	0	7	6	13	74
3	The content presented was.	0	2	6	13	79
4	The trainer's knowledge about the content was	0	1	3	15	81
5	The way trainers taught the contents was.	0	1	6	11	82
6	The activity your participated in were.	0	1	7	10	82
7	The quality of instruction was	0	2	2	11	85
8	The training made the objectives was.	0	2	4	9	85
9	The training made my expectation is.	0	0	3	8	89
10	Adequate time was provided for Questions and Discussions.	0	2	4	7	87

Student's response to the questionnaire as per Feed Back form.

Interpretation:

1) It is seen that almost all the participants found Aptitude Training useful for them.

2) Students learnt how a job candidate might solve different hypothetical problems.

3) It gives insight to students to determine which type of careers they might be good at.

4) A aptitude training designed to test a Student's abilities needed for a particular job.

5) The training Contents are found to be as per the expectations of the candidates.

5) Participants are found to be highly satisfied with trainer's knowledge and content delivery.

6) Demonstration, activity, presentation & content were adequate with respect to the training.

7) Training fulfills the objectives of the programme.

8) Students found aptitude training is Enhancing problem-solving skills.

Dear all BE Third Year Students

Aptitude Preparatory Online Classes by Mr. Ajay Butwani Sir will be commenced from **Monday, 5th Sept. 2022 at 9:00 AM to 10:00 AM**. All are informed to join the classes and attend regularly.

These Aptitude Preparatory Online Classes are arranged by college keeping in mind a preparation for placement drives during your final year i.e. from 2023-24. It will surely help you to crack first step for placements.

The Link will be shared on your class whats app group on the day.

Wish You All The Best!!!

Prof. Adesh Solanke

Training and Placement Officer
Mob: 8390407947

Dr. Vinay Thute
Training and Placement Officer,
Shri Sant Gajanan Maharaj College of Engineering,

College of Engineering
Shegaon, Maharashtra, India

Certificate of Participation

This is topresent that

Mr. Pranav Shelke

from 3 rd Mechanical Engineering for actively participating and completing "Aptitude Preparatory Classes" conducted by BASE Education, Pune during Academic year 2022-23

Training and Placement Officer

Principal

Shri Sant Gajanan Maharaj College of Engineering, Shegaon

FEED BACK FORM FOR APTITUDE DEVELOPMENT PROGRAMME

Name of Agency: **Base Education (Mr. Ajay Butwani)**

Name of the Participant: Surabhi Ghanshyamji Lahoti Dept. CSE

Module Name: Apti Date: _____ Batch: ____ Time Slot: 8 - 10:00 AM

Tick (only one answer for each question.

Sr. No	Question	Poor	Fair	Good	Very Good	Excellent
1	The Training you attended was.					✓
2	The demonstrations were.					✓
3	The content presented was.					✓
4	The trainer's knowledge about the content was.					✓
5	The way trainers taught the contents was.				✓	
6	The activity your participated in were.					✓
7	The quality of instruction was					✓
8	The training made the objectives was.					✓
9	The training made my expectation is.				✓	
10	Adequate time was provided for Questions and Discussions.					✓

Write your answers to the following questions.

1) What did you like best about the training?

I liked that every doubt raised by students were paid attention.

2) Are there any areas that should be included in training?

NO, it's fine.

3) Are there any areas that should be improved for future training?

The difficulty level of question can be raised to more difficult from competitive exams perspective.

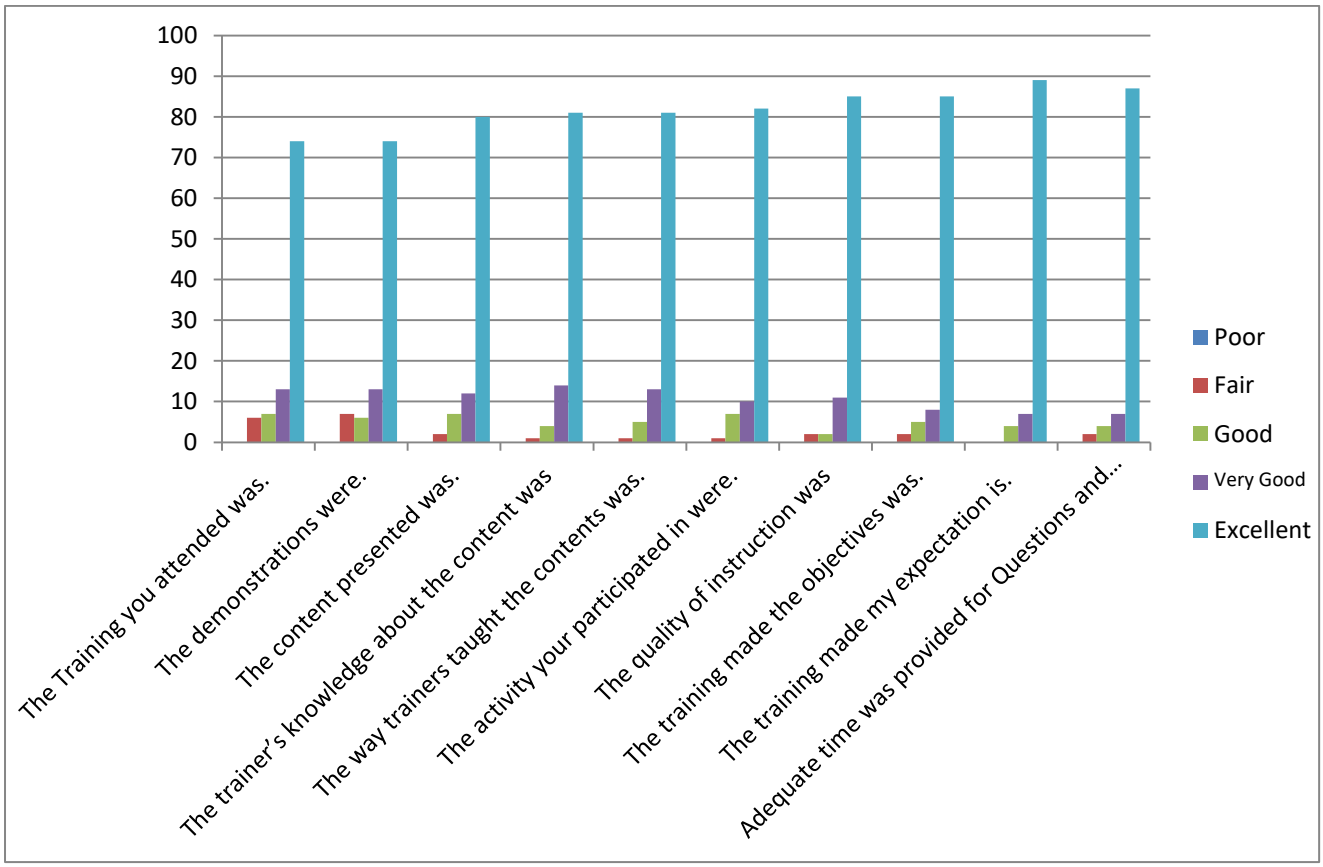

Signature of the Candidate

STUDENTS FEED BACK

Campus Recruitment Training (Online) for BE 3rd year Students AY 2022-23.

Sample Size: **100**

Sr. No	Question	Poor	Fair	Good	Very Good	Excellent
1	The Training you attended was.	0	6	7	13	74
2	The demonstrations were.	0	7	6	13	74
3	The content presented was.	0	2	7	12	80
4	The trainer's knowledge about the content was	0	1	4	14	81
5	The way trainers taught the contents was.	0	1	5	13	81
6	The activity your participated in were.	0	1	7	10	82
7	The quality of instruction was	0	2	2	11	85
8	The training made the objectives was.	0	2	5	8	85
9	The training made my expectation is.	0	0	4	7	89
10	Adequate time was provided for Questions and Discussions.	0	2	4	7	87

Student's response to the questionnaire as per Feed Back form.

Interpretation:

1) It is seen that almost all the participants found Aptitude Training useful for them.

2) Students found Aptitude can help identify an individual's mathematical strengths.

3) It gives insight to students to determine which type of careers they might be good at.

4) The training Contents are found to be as per the expectations of the candidates and can also help identify an individual's level of intelligence.

5) Aptitude training found to effective tool to increase the employability of candidate.

6) Participants are found to be highly satisfied with trainer's knowledge and content delivery.

7) Demonstration, activity, presentation & content were adequate with respect to the training.

8) Training fulfills the objectives of the programme.

9) Students found aptitude training Improving decision-making abilities.

10) Aptitude Training boost the confidence of students and it identify the strengths and weakness.

“Summer Internship-Cum-Training programme on Data Science BE 3rd Year Students ”

Academic Year 2022-23

Shri Sant Gajanan Maharaj College of Engineering,
Khamgaon Road, Shegaon, Dist: Buldhana

Sr No	Title of Activity	**Summer Internship-Cum-Training programme on Data Science BE 3rd Year Students**
1	Agency	Capable, Pune
2	Co-Ordinator	Prof Adesh Solanke
3	Co-Cordinator	Prof. Mrs. H S Patil
4	Schedule of Activity	Started from June to July 2023 **30 days Days.**
5	Time	As per scheduled in Time table and notice
6	Objective of Activity	1. Apply quantitative modeling and data analysis techniques to the solution of real world business problems. 2. To communicate findings. 3. Effectively present results using data visualization techniques.
7	Venue	**Virtual Mode**
8	No. of Beneficiaries	Total- **09**

About Program:

About Data Science:

Choosing data science means becoming an expert in making positive change. As a data scientist, you can provide leaders with the valuable information they need to make confident decisions, propel businesses forward, drive change in communities, and so much more.

Data science has become the fuel for countless industries. It powers everything from innovation and the customer experience to the future of health care. Data science has the potential to improve the way we live and work, and it can empower others to make better decisions, solve problems, discover new advancements, and address some of the world's most pressing issues.

Big data and the field of data science present big opportunities for career advancement. Depending on the industry and role you choose, you'll find a wide variety of data science job titles with nuanced job descriptions to match specific skill sets.

Common data science career paths or job titles include:

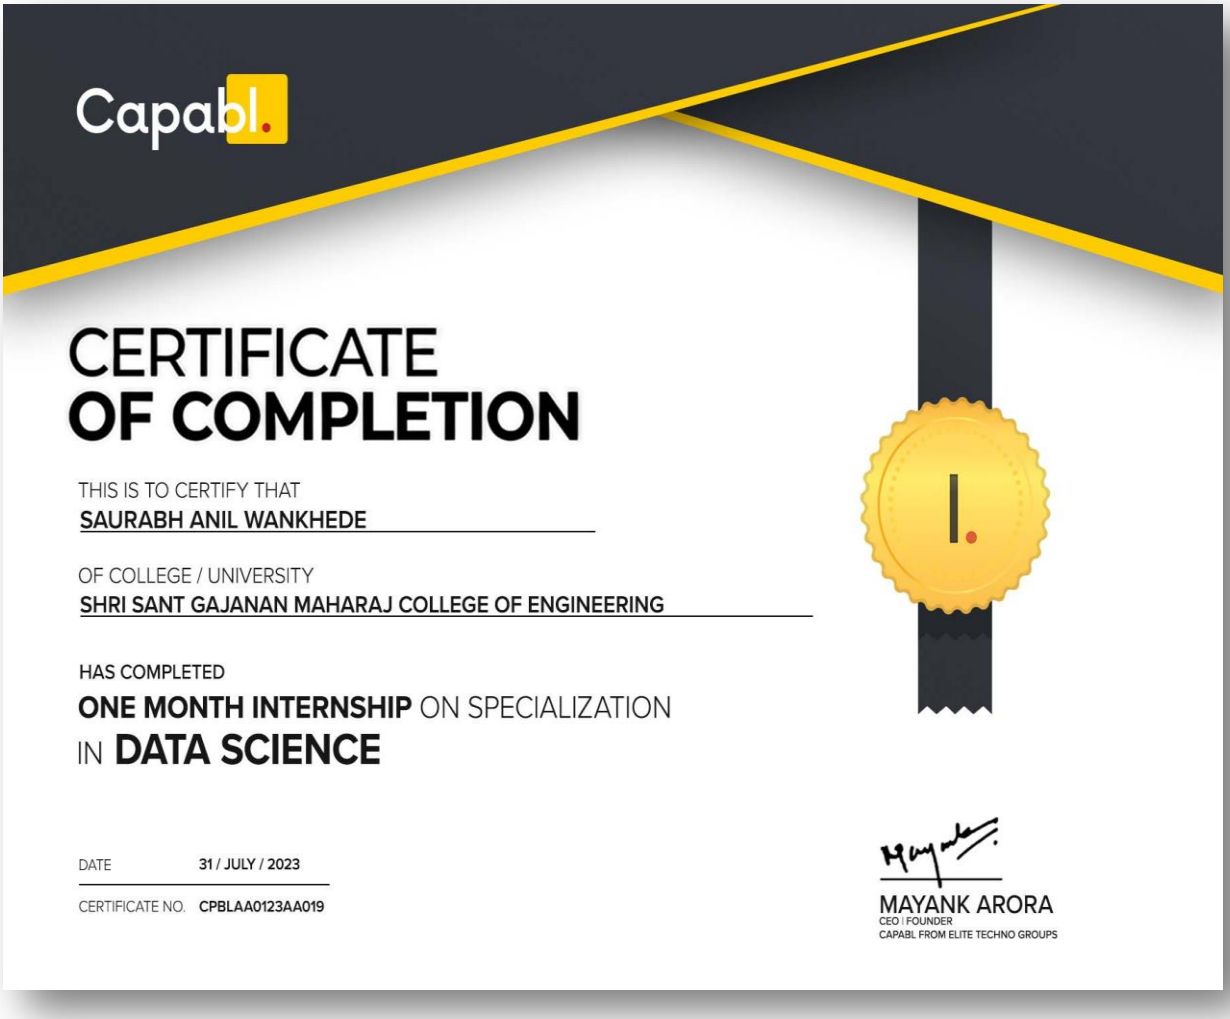

- Business analyst
- Data analyst
- Data architect
- Data engineer
- Data scientist
- Machine learning engineer
- Research scientist

TPO, SSGMCE

Hi Adesh Solanke,

Thanks for applying for the Summer Internship '23 cohort by Capabl. We have got your application. In the next 24-48 hours you will receive a confirmation status on email and WhatsApp.

If the seats are not full and the application is approved

- All accesses will be provided to you on or before the 15th of June
- All other services (Community, Placement Portal, Bootcamps) will be at no cost
- No certificate will be provided without completing the final project
- Any spamming in the community will see you removed from the community

This program is solely created to support your engineering growth. Any misuse of this in any way will see you removed from the Capabl ecosystem.

However, if you are active and participative in projects and boot camps, we believe you will enjoy this engineering program.

For Engineers, By Engineers!
Best,
Team Capabl.

I Sneha Jadhav will be your Training and Placement coordinator from Capabl.

The assigned slot for the Internship Qualification Exam is 17th June 2023 Morning slot 10:30 AM . Please ensure all registered students participate in the exam on designated date and time

Process to Enroll

1. Students are required to Register on the adjoining link - Apply Here
2. All Registered students will be intimated on the Test Link | UserID | Password within 24 hours of registration on their registration email
3. Registered students have to log on to the Test link , Enter their Credentials and start the test at the designated time.

Please note : The Test link will be active 10 minutes before the designated time and will close at sharp 60 minutes.

Syllabus for the Qualification Test:

Design & CAE	
Strength of Materials	Basic concept of stress-strain Bending of beams Shear force and Bending moment diagrams
Manufacturing Processes	Basic knowledge of processes like casting, machining, welding, powder metallurgy
Engineering Mathematics	Linear Algebra Differential Equations Matrices
Kinematics and Dynamics	Degrees of Freedom Static and Dynamic analysis of rigid bodies
CAD	Boolean operations Basic sketching and 3D modeling
EV	
Fundamental of Electric Vehicle	
Series-Parallel Hybrid Vehicle,plug-in vehicles etc	
Types of Motors used in EV application	
Electrochemistry	
Cell reactions and cell internal elements	
Different types of cell chemistry	
Different cell mechanical structures	
Battery Management system	
Active-Passive cell balancing	
Data Science Syllabus	
Data Types	
Data Structures	
Programming Syntex	
Introduction to Programming	
Full Stack Syllabus	
Python Basics and Data Types	
Conditional Statements and Loops	
Functions and Recursion	
Introduction to Java and Programming Basics	
Decision Making and Control Flow	
Strings and Multithreading

“Summer Internship-Cum-Training programme on Electric Vehicle BE 3rd Year Students ”

Academic Year 2022-23

Shri Sant Gajanan Maharaj College of Engineering,
Khamgaon Road, Shegaon, Dist: Buldhana

Sr No	Title of Activity	**Electric Vehicle**
1	Agency	Capable, Pune
2	Co-Ordinator	Prof Adesh Solanke
3	Co-Cordinator	Prof. Mrs. H S Patil
4	Schedule of Activity	Started from June to July 2023 **30 days Days.**
5	Time	As per scheduled in Time table and notice
6	Objective of Activity	1. The E-Drive System for EV track gives you an understanding of power converter topologies, the design of power converters, and the use of MATLAB and Simulink in designing and simulating power components. 2. You will also learn how to study the efficiency of these power components using software tools.
7	Venue	**Virtual Mode**
8	No. of Beneficiaries	Total- **02**

About Program:

About EV Training-cum-Internship:

This advanced course, aims to deepen your understanding of electric vehicle design and other related ideas while also bringing you up to speed on the basics.

The purpose of this course is to develop the next generation of EV designers who will advance the field of vehicle design.

Contents:

- Basics of electromobility and steering dynamics.
- EV powertrain architecture.
- Wire harnessing (EMI, EMC).
- Understanding of SOC, cell balancing
- Designing of R-C model in MATLAB
- Speed control methods
- Power converters and invertery.
- Battery modelling
- Design and simulation of AC and DC charge controller
- Battery deterioration analysis
- SoH estimation
- SoP and SoF estimation

TPO, SSGMCE

List of Students:

Sr No.	Name	Domain
1	Sakshi Ganesh Awchar	Electric Vehicle
2	Yash Sharma	Electric Vehicle

“Summer Internship-Cum-Training programme on Full Stack Development BE 3rd Year Students ”

Academic Year 2022-23

Sr No	Title of Activity	**Summer Internship-Cum-Training programme on Full Stack Development BE 3rd Year Students**
1	Agency	Capable, Pune
2	Co-Ordinator	Prof Adesh Solanke
3	Co-Cordinator	Prof. Mrs. H S Patil
4	Schedule of Activity	Started from June to July 2023 **30 days Days.**
5	Time	As per scheduled in Time table and notice
6	Objective of Activity	1. To Learn the core concepts of both the frontend and backend programming course. 2. To Get familiar with the latest web development technologies. 3. To Learn all about SQL and NoSQL databases. To Learn complete web development process.
7	Venue	**Virtual Mode**
8	No. of Beneficiaries	Total- **38**

About Program:

About Full Stack Web Development Course:

Full Stack Web Development is nothing but complete designing of both websites and applications where the developers need to work from frontend to backend development. With our Full Stack Web Development Course, you will become an expert in all the aspects of web development such as Java, .NET, MEAN Stack and Python. In Frontend you are able to learn – HTML, HMTL5, CSS3, Bootstrap, JavaScript and jQuery whereas in Backend – Node.js, Meteor.js, Angular 2,4&5, PHP and Ruby on Rails and finally in Database – MySQL, PostgreSQL, MongoDB, CouchDB and Apache Cassandra.

Full Stack Web Development Course Content:

Basics – HTML, CSS, More HTML Tags, More CSS Properties, JavaScript, JavaScript Supported Data Structures, Advanced JavaScript, jQuery, AJAX, jQuery Animations, jQuery Templating, HTML 5, CSS 3, etc.

TPO, SSGMCE

Important: Summer Internship Training Registration Received by Capabl

support@capabl.in <support@capabl.in>
via public.zohoforms.in

Fri 6/9/2023 6:19 PM

To:Placements <placements@ssgmce.ac.in>

Hi Adesh Solanke,

Thanks for applying for the Summer Internship '23 cohort by Capabl. We have got your application. In the next 24-48 hours you will receive a confirmation status on email and WhatsApp.

If the seats are not full and the application is approved

- All accesses will be provided to you on or before the 15th of June
- All other services (Community, Placement Portal, Bootcamps) will be at no cost
- No certificate will be provided without completing the final project
- Any spamming in the community will see you removed from the community

This program is solely created to support your engineering growth. Any misuse of this in any way will see you removed from the Capabl ecosystem.

However, if you are active and participative in projects and boot camps, we believe you will enjoy this engineering program.

For Engineers, By Engineers!
Best,
Team Capabl.

Re: Summer Internship Program - Capabl : Next Steps

I Sneha Jadhav will be your Training and Placement coordinator from Capabl.

The assigned slot for the Internship Qualification Exam is 17th June 2023 Morning slot 10:30 AM . Please ensure all registered students participate in the exam on designated date and time

Process to Enroll

1. Students are required to Register on the adjoining link - Apply Here
2. All Registered students will be intimated on the Test Link | UserID | Password within 24 hours of registration on their registration email
3. Registered students have to log on to the Test link , Enter their Credentials and start the test at the designated time.

Please note : The Test link will be active 10 minutes before the designated time and will close at sharp 60 minutes.

Syllabus for the Qualification Test:

Design & CAE	
Strength of Materials	Basic concept of stress-strain Bending of beams Shear force and Bending moment diagrams
Manufacturing Processes	Basic knowledge of processes like casting, machining, welding, powder metallurgy
Engineering Mathematics	Linear Algebra Differential Equations Matrices
Kinematics and Dynamics	Degrees of Freedom Static and Dynamic analysis of rigid bodies
CAD	Boolean operations Basic sketching and 3D modeling
EV	
Fundamental of Electric Vehicle	
Series-Parallel Hybrid Vehicle,plug-in vehicles etc	
Types of Motors used in EV application	
Electrochemistry	
Cell reactions and cell internal elements	
Different types of cell chemistry	
Different cell mechanical structures	
Battery Management system	
Active-Passive cell balancing	
Data Science Syllabus	
Data Types	
Data Structures	
Programming Syntex	
Introduction to Programming	
Full Stack Syllabus	
Python Basics and Data Types	
Conditional Statements and Loops	
Functions and Recursion	
Introduction to Java and Programming Basics	
Decision Making and Control Flow	
Strings and Multithreading

“Persistent Systems Limited Nagpur Training-cum-Internship for BE 3rd year Students ”

Academic Year 2022-23

Shri Sant Gajanan Maharaj College of Engineering,
Khamgaon Road, Shegaon, Dist: Buldhana

Sr No	Title of Activity	**Persistent Systems Limited Nagpur Training-cum-Internship BE 3rd year Students**
1	Agency	**Persistent Systems Limited Nagpur**
2	Co-Ordinator	Prof Adesh Solanke
3	Co-Cordinator	Prof. Mrs. H S Patil
4	Schedule of Activity	Started from **June to July 2023** **50 days Days (7 weeks)**
5	Time	As per scheduled in Time table and notice
6	Objective of Activity	**1.** Wish Changing IT era students should be aware of newer technologies. **2.** Future Technologies must be learnt to enhance career growth. **3.** To be industry ready for future technological challenges.
7	Venue	**Virtual Mode**
8	No. of Beneficiaries	Total Enrolled- 115 **Total benefited: 37**

About Program:

The Martian Program is on-campus Internship program offered by Persistent Systems for AY 2022-23 batch and through Martian Program students can also get PPO/full time roles at Persistent.

An assessment was taken for selection in Program.

Online Test: This was the initial step for selection in the program and this step examines you in Aptitude, Logical reasoning and Computer Science fundamentals. Along with MCQs there were 2 coding questions.

This internship was of 7-week and in every week, we were trained on different topics such as DBMS, Computer Networks, Operating System and DSA. Also, they train us in a Programming Language.
At the end of each week there was an MCQ assessment on the topic you got the trained.

Final Assessment: This final assessment consists of MCQ on the topic that were taught in previous 7 weeks.
After training of all 7 weeks there was a final assessment based on which we had the chance to get PPO.

Total 37 students have completed internship of which 18 students were called for final interview and 3 has got offer.

Rest of the students have got Internship certificate.

Persistent Systems: Updates on Persistent Qualifier Test for Martian Internship Program

Early Careers <Early_Careers@persistent.com> Wed, May 31, 2023 at 5:01 PM
To: Early Careers <Early_Careers@persistent.com>
Cc: Kalpana Kudlingar <kalpana_kudlingar@persistent.com>

Dear All,

(In Bcc: Training and Placement Officers)

Thank you for attending yesterday's session.

Due to college exam schedule, The Persistent Qualifier Test for Martian Summer Internship program has been scheduled to 3rd and 4th of June 2023.

Persistent Qualifier test is of 1hour 45mins. The online PQT test window will be open from –

- Start date and time of PQT – Saturday, 3rd June from 10:00 AM
- End date and time of PQT – Sunday, 4th June till 6:00 PM

The registered students who will be shortlisted based on our eligibility criteria will receive the test link from SHL on their registered email IDs before start of the test (Friday EOD / Saturday by 9:00 AM). Please make sure that the students have downloaded the Lockdown browser, if not they will face issues with the test.

All TPOs are requested to forward this email to registered / eligible students.

The results of shortlisted candidates will be shared with respective TPOs in due course of time.

Note – We will let you know the next course of action based on the business demands.

Disclaimer: Please note that all eligible students will be getting email communication through Persistent on their personal email IDs and phone numbers from Campus Initiative perspective. If any candidate does not wish to get any further communications from us, they may withdraw the registration and will be deemed not eligible. You can reply to Early_Careers@persistent.com (without changing the subject line).

Regards,

Early Careers & Campus Relations

Persistent: 2nd slot for PQT

Early Careers <Early_Careers@persistent.com> Mon, Jun 5, 2023 at 2:02 PM
To: Early Careers <Early_Careers@persistent.com>

Hello All,

(Intended TPOs in bcc)

Dear hiring partners, based on the inputs received from you, we are planning to add another slot for the **PQT** tentatively on Wednesday, 7th June 2023 from 12:00 noon to 6:00 PM.

We request you to send us the details of the students who did not receive the test link, in the attached format by today **5:00 PM**. (Refer to the attached Excel sheet for the format).

Note:-

- Please ensure that you only send us the list of students who are eligible for the **PQT** as per the criteria and have registered with us (No new registration).
- Please make sure that they belong to CS/IT streams only.
- As per the data there have been instances that students have filled in **wrong email id's** or **phone numbers** or **wrong college names** due to which they have not received the test link.
- We request you to ask the students to check their other folders in the email addresses.

Regards,

Early Careers & Campus Relations

Persistent - FY'24 GEMS Summer Internship Program [Martian]_SSGMCOE

Mahesh Kale <mahesh_kale2@persistent.com> Wed, Jun 14, 2023 at 6:33 PM
To: "tpossgmce@gmail.com" <tpossgmce@gmail.com>
Cc: Sanket Vaidya <sanket_vaidya1@persistent.com>, Early Careers <Early_Careers@persistent.com>

Dear Vinay Sir,

Hope you are doing well. We are glad to share the list of shortlisted students for our Summer Internship Program FY'24.

Attached are the details of eligible students. We will be conducting an 'Orientation Session' on **19th Jun'23 at 5 pm** to brief them about the internship.

We will be communicating the further process and attendee link about the program separately on students' registered email IDs.

The next course of action post the completion of the Martian program which would be subject to business requirements would be communicated accordingly.

Important Communication:

Please note that during the evaluation process of Persistent Qualifier Test, we have detected instances of fraudulent activities which were identified through the proctored tool. Consequently, we have disqualified the students involved in this activity from any of Persistent's programs or initiatives.

Persistent maintains a strong commitment to conduct business in an ethical manner and has a strict policy against any form of misconduct.

In the future, if any similar incidents are identified, appropriate measures will be taken to address them.

Thank you for your ongoing support.

Feel free to reach out to me.

Regards,

Mahesh Kale

About Program:

Soft skills provide students with a strong conceptual and practical framework to build, develop and manage teams. They play an important role in the development of the students' overall personality, thereby enhancing their career prospects. The soft skills training provides strong practical orientation to the students and helps them in building and improving their skills in communication, the effective use of English, business correspondence, presentations, team building, leadership, time management, group discussions, interviews, and inter-personal skills. This training also helps students in career visioning and planning, effective resume writing and dealing with placement consultants and head hunters.

Learning Outcomes:

1. Students learn the parameter of public speaking..

2. Students could develop their interpersonal and intrapersonal skills.

3. Students learn and enhance their corporate correspondence.

4. Soft skill training develops self-confidence of individuals by mastering interpersonal skills, team management skills, and leadership skills.

Dear Sir,

Greetings !

We are happy to bring to you Program SIRIUS, from the TCS Microsoft Business Unit.

Introduction to TCS Microsoft Business Unit

Tata Consultancy Services (TCS) and Microsoft have forged a strategic partnership to drive the edge-to-cloud transformation journey, where cloud is the unifying digital fabric. This partnership provides innovative solutions for a holistic cloud adoption journey. TCS offers future-ready business solutions to reimagine workplaces, implement optimized business processes, and help drive rapid migration and modernization of applications, infrastructure and data platforms.

The partnership also leverages TCS' deep domain expertise and Microsoft Cloud capabilities including Microsoft Azure, Microsoft 365, Dynamics 365 and Power Platform.

We have earmarked very few Academic Institutes of great reputation to launch SIRIUS and happy to inform you that your institute is one of them.

Introduction to SIRIUS

Sirius is a TCS - MBU Campus Initiative intended to help students find a career opportunity with TCS MBU Unit by getting trained on niche Microsoft cloud technologies and become market ready cloud professionals.

Students would be going through their training on the "The Future ready talent" platform designed by Microsoft post which upon assessment & evaluation by TCS MBU, student will land in a golden opportunity to start their career with TCS MBU in digital cadre and high perks.

Attached herewith is the brochure of the program.

Scope and Applicability

First Page

UG and PG Engineering students from any branch can go through this program.

We will be able to explain this and answer any other questions you may have over a meeting. Please let us know your convenient time so that we can connect over call or in person and go through the program.

Dear Students,

Greetings from T&P Cell of SSGMCE Shegaon!!!

With reference to Interactive Session with TCS MBU Team on 6th Feb. 2023, all the Third Year students are to register themselves on the portal.

Please find the attachment, where the QR Code has been given in pdf and scan the same and register yourself.

Make sure that Target is for students to complete their AZ900 and PL900 courses and get Microsoft certified.

The benefit of this certification will be not only for the job in TCS on a particular domain for which you are certified but it is also useful in other software companies too on the same domain.

Your Certification standard will decide your career opportunities in TCS for the academic year 2023-24.

Students should take this mail on a serious note and follow the process as suggested by T&P Cell from time to time.

Be a future ready engineer by certifying yourself with TCS MBU.

Note: **All the T&P Faculty Coordinators are requested to keep the followup of students registration and completion of certifications of 3rd year students.**

Wish You All The Best!!!

Dear faculties,

Thank you for the brilliant support extended so far.

Below emails will go to students. please take note and request your support here. As highlighted to you, its not the end of the world if students don't get certified, they can still appear for TCS Interviews. (This point is only for you to note 😊) however if 0 progress in course completion, as highlighted below. We will release from SIRIUS pool. Course completion is the bare minimum. 😊

MBU SIRIUS SEASON II

Read the email thoroughly

Please consider this entire month of May to be the time to complete your AZ900 and PL900 learning + MS certification for both AZ900 and PL900. Final deadline (**May 31st 2023)**

Incase you have completed the learning and certification, You can be the SIRIUS champion by helping your other classmates who are enrolled in this and please upload your certificate to future ready talent (document attached), Do mention me in Linkedin with your post if certified so I can find and acknowledge.

Once again beyond **May 31st 2023**, there is no extension of deadlines. If anyone has not started the course and reflects as nil completion (Azure fundamentals 0 module completion) and (Power Platform 0 module completion) we will release you from the SIRIUS pool

Important step in creating certification profile: Use only personal email ID or Sign into Learn using the same personal Microsoft account (MSA) you use to sign into your certification profile and not college/work email.(Refer to https://learn.microsoft.com/en-us/certifications/connect-cert-profile-to-learn for more information)

The sync issues that may have, I have already attached the document for you to pursue.

Important documents attached

1. **If MS exam is scheduled, what are the most important pointers before you attend the exams (Highly recommended to read) –** Most of the students make an error in this
2. **How to claim the 100% discount voucher on certification**
3. **MS learn sync issues**
4. **How to fill MS learn profile URL in orientation (this is a imp step, if this is wrong. You will have sync issues)**
5. **Uploading your Microsoft Certification to Future ready talent**

ATTENTION: Do not miss the MS exam that you have scheduled, you will be blacklisted from attending other MS exams. If this is genuine miss from the proctored centre, you may approach.

https://trainingsupport.microsoft.com/en-us/tcmct/forum?sort=LastReplyDate&dir=Desc&tab=All&status=all&mod=&modAge=&advFil=&postedAfter=&postedBefore=&threadType=All&isFilterExpanded=false&page=1

If there are queries, the SOP of email should first go to the Faculty coordinator I would have looped in previous emails and if they are unable to solve, you can forward to me keep in cc with problem statement, college name and most importantly screenshots.

****
****

All the best!

Thank you and Regards,

Report

on

“TCS-Microsoft Business Unit Certification (PL 900) (SIRIUS)Training for BE 3rd year Students ”

Academic Year 2022-23

Shri Sant Gajanan Maharaj College of Engineering,
Khamgaon Road, Shegaon, Dist: Buldhana

Sr No	Title of Activity	**TCS-Microsoft Business Unit Certification Training (PL 900) for BE 3rd year Students.** (TCS-MBU) SIRIUS Programme.
1	Agency	Tata Consultancy Services and Microsoft Business Unit (TCS-MBU)
2	Co-Ordinator	Prof Adesh Solanke
3	Co-Cordinator	Prof. Mrs. H S Patil
4	Schedule of Activity	Started from 15th March 2023 to 31st May 2023 **60 Days.**
5	Time	As per scheduled in Time table and notice
6	Objective of Activity	**1.** Enrich their knowledge as per the changing era and enhancement in IT industry's requirements. **2.** Open up new arena for students for placements. **3.** Future learning is prospectus from SIRIUS Trailing. **4.** SIRIUS is "The Future ready talent" platform.
7	Venue	**Virtual Mode**
8	No. of Beneficiaries	Total- **18**

About Program:

Tata Consultancy Services (TCS) and Microsoft have forged a strategic partnership to drive the edge-to-cloud transformation journey, where cloud is the unifying digital fabric. This partnership provides innovative solutions for a holistic cloud adoption journey.

TCS offers future-ready business solutions to reimagine workplaces, implement optimized business processes, and help drive rapid migration and modernization of applications, infrastructure and data platforms. The partnership also leverages TCS' deep domain expertise and Microsoft Cloud capabilities including Microsoft Azure, Microsoft 365, Dynamics 365 and Power Platform.

Sirius is a TCS - MBU Campus Initiative intended to help students find a career opportunity with TCS MBU Unit by getting trained on niche Microsoft cloud technologies and become market ready cloud professionals.

Students would be going through their training on the "The Future ready talent" platform designed by Microsoft post which upon assessment & evaluation by TCS MBU, student will land in a golden opportunity to start their career with TCS MBU in digital cadre and high perks.

Learning Outcomes:

After successful completion of these certifications, students will have the knowledge and skills to

1. Learn and apply knowledge in industry problems.
2. To search new arena of the jobs in future technologies.
3. PL 900 certificate are applicable worldwide for the cloud technology domain.
4. Theses certificates will brings an opportunity for BE candidates to Receive Digital Offer with CTC RS.7 LPA.

We are happy to bring to you Program SIRIUS, from the TCS Microsoft Business Unit.

Introduction to TCS Microsoft Business Unit

Tata Consultancy Services (TCS) and Microsoft have forged a strategic partnership to drive the edge-to-cloud transformation journey, where cloud is the unifying digital fabric. This partnership provides innovative solutions for a holistic cloud adoption journey. TCS offers future-ready business solutions to reimagine workplaces, implement optimized business processes, and help drive rapid migration and modernization of applications, infrastructure and data platforms.

The partnership also leverages TCS' deep domain expertise and Microsoft Cloud capabilities including Microsoft Azure, Microsoft 365, Dynamics 365 and Power Platform.

We have earmarked very few Academic Institutes of great reputation to launch SIRIUS and happy to inform you that your institute is one of them.

Introduction to SIRIUS

Sirius is a TCS - MBU Campus Initiative intended to help students find a career opportunity with TCS MBU Unit by getting trained on niche Microsoft cloud technologies and become market ready cloud professionals.

Students would be going through their training on the "The Future ready talent" platform designed by Microsoft post which upon assessment & evaluation by TCS MBU, student will land in a golden opportunity to start their career with TCS MBU in digital cadre and high perks.

Attached herewith is the brochure of the program.

Scope and Applicability

First Page

UG and PG Engineering students from any branch can go through this program.

We will be able to explain this and answer any other questions you may have over a meeting. Please let us know your convenient time so that we can connect over call or in person and go through the program.

Thanks & Best Regards
Hrishikesh Jayant Dhande

Dear Students,

Greetings from T&P Cell of SSGMCE Shegaon!!!

With reference to Interactive Session with TCS MBU Team on 6th Feb. 2023, all the Third Year students are to register themselves on the portal.

Please find the attachment, where the QR Code has been given in pdf and scan the same and register yourself.

Make sure that Target is for students to complete their AZ900 and PL900 courses and get Microsoft certified.

The benefit of this certification will be not only for the job in TCS on a particular domain for which you are certified but it is also useful in other software companies too on the same domain.

Your Certification standard will decide your career opportunities in TCS for the academic year 2023-24.

Students should take this mail on a serious note and follow the process as suggested by T&P Cell from time to time.

Be a future ready engineer by certifying yourself with TCS MBU.

Note: **All the T&P Faculty Coordinators are requested to keep the followup of students registration and completion of certifications of 3rd year students.**

Wish You All The Best!!!

TCS Confidential

Dear faculties,

Thank you for the brilliant support extended so far.

Below emails will go to students. please take note and request your support here. As highlighted to you, its not the end of the world if students don't get certified, they can still appear for TCS Interviews. (This point is only for you to note 😊) however if 0 progress in course completion, as highlighted below. We will release from SIRIUS pool. Course completion is the bare minimum. 😊

MBU SIRIUS SEASON II

Read the email thoroughly

Please consider this entire month of May to be the time to complete your AZ900 and PL900 learning + MS certification for both AZ900 and PL900. Final deadline (**May 31st 2023)**

Incase you have completed the learning and certification, You can be the SIRIUS champion by helping your other classmates who are enrolled in this and please upload your certificate to future ready talent (document attached), Do mention me in Linkedin with your post if certified so I can find and acknowledge.

Once again beyond **May 31st 2023**, there is no extension of deadlines. If anyone has not started the course and reflects as nil completion (Azure fundamentals 0 module completion) and (Power Platform 0 module completion) we will release you from the SIRIUS pool

Important step in creating certification profile: Use only personal email ID or Sign into Learn using the same personal Microsoft account (MSA) you use to sign into your certification profile and not college/work email.(Refer to https://learn.microsoft.com/en-us/certifications/connect-cert-profile-to-learn for more information)

The sync issues that may have, I have already attached the document for you to pursue.

Important documents attached

1. **If MS exam is scheduled, what are the most important pointers before you attend the exams (Highly recommended to read) –** Most of the students make an error in this
2. **How to claim the 100% discount voucher on certification**
3. **MS learn sync issues**
4. **How to fill MS learn profile URL in orientation (this is a imp step, if this is wrong. You will have sync issues)**
5. **Uploading your Microsoft Certification to Future ready talent**

ATTENTION: Do not miss the MS exam that you have scheduled, you will be blacklisted from attending other MS exams. If this is genuine miss from the proctored centre, you may approach.

https://trainingsupport.microsoft.com/en-us/tcmct/forum?sort=LastReplyDate&dir=Desc&tab=All&status=all&mod=&modAge=&advFil=&postedAfter=&postedBefore=&threadType=All&isFilterExpanded=false&page=1

If there are queries, the SOP of email should first go to the Faculty coordinator I would have looped in previous emails and if they are unable to solve, you can forward to me keep in cc with problem statement, college name and most importantly screenshots.

****
****

All the best!

Thank you and Regards,

Hrishikesh NS

“Wipro talent Next “JAVA Full Stack” Certificate training BE 3rd year Students ”

Academic Year 2022-23

Shri Sant Gajanan Maharaj College of Engineering,
Khamgaon Road, Shegaon, Dist: Buldhana

Sr No	Title of Activity	**Wipro talent Next "JAVA Full Stack" Certificate training BE 3rd year Students**
1	Agency	Wipro Technologies CSR Initiative
2	Co-Ordinator	Prof Adesh Solanke
3	Co-Cordinator	Prof. Mrs. H S Patil
4	Schedule of Activity	Started from May to Sept 2023 **150 days Days.**
5	Time	As per scheduled in Time table and notice
6	Objective of Activity	**1.** Wish Changing IT era students should be aware of newer technologies. **2.** Future Technologies must be learnt to enhance career growth. **3.** To be industry ready for future technological challenges.
7	Venue	**Virtual Mode**
8	No. of Beneficiaries	Total- **75**

About Program:

Wipro Talent Next Initiative was CSR Training programme on JAVA Full Stack. It will starts in May and end in Sept 2023.

There are several benefits learning JAVA:

1. Java is Easy to Learn
2. Java is Versatile
3. Java is Object-Oriented
4. Java is Scalable
5. Java is Platform-Independent
6. Java Has a Rich API
7. Java is Open Source
8. Java is Free of Cost
9. Java Offers a Wide Range of Development Tools
10. Java Provides Job Opportunities

Wipro TalentNext - FY23-24 - Student Training Engagement - Next Steps - Reminder

Talent Next <talent.next@wipro.com> Mon, Apr 24, 2023 at 9:54 AM

Dear TPO/WCF Professors,

It is a kind reminder, kindly share the students nominations and batch schedule as per template **on or before 25th April [Tuesday] 5:00PM.**

Thanks and Regards

Team, TalentNext

Internal - General Use

From: Talent Next
Sent: 19 April 2023 03:55 PM
Subject: Wipro TalentNext - FY23-24 - Student Training Engagement - Next Steps -

Dear TPO/WCF Professors,

Warm Greetings and welcome to this year **TalentNext** student training Engagement program. Hoping to have a successful learning journey for your students. As discussed in the orientation call today, find below the details of next steps and the process flow to take this journey forward. Requesting you to kindly go through the below and proceed accordingly. The required templates and the guide presented during orientation is attached herewith.

1. **Nominations & Training Schedule**

Batch Training Schedule

- The WCFs should prepare the training schedule and update the same on the Batch Schedule template [Template attached].
    - To follow the process as explained during the orientation call.
    - Only WCF to be assigned a batch for training and each batch – per WCF should not exceed a max of **150 students**.
    - Start Date can be on the **2nd week of May**. In case of any specific requirement or concerns on this change, provide justification on the remarks.
    - Phase 1 training end date can be max 2nd week of July and for Phase 2 end date can be 2nd week of August.

- All assessment dates to be clearly mentioned and ensure that assessments are planned only on **Week Days [Mon-Fri]** and only one day should be allocated to one assessment.

- In case of any change on these dates, it should be intimated to us at least **3 days prior** so as to plan accordingly.

- If there are multiple batches from your college taken by multiple WCFs, ensure that all batches will be having the same assessment dates.

- Student Nomination with WCF and Batch Mapping

  - All the batches student nominations should be filled in the nomination template [Template attached]

  - Kindly ensure the basic checks before sending the nominations to us, avoid having duplicates, incorrect email id etc.

  - Ensure that all students have valid E-Mail IDs. The same will be used for all assessments and further tasks.

  - Against each student, provide the batch number and the WCF assigned. For the batch numbers, use only Batch 1, Batch 2 etc..

Note: Both the Batch Schedule and Nomination should be as per the template provided and should reach us on or before **25th April [Tuesday] 5.00 PM** to take it forward.

2. Pre-Checks, Approval, Enablement

- Post receiving the Batch Schedule and nominations, the TalentNext team verifies and validates the same.

- Any clarifications required will be taken up and confirmation on the same will be provided.

- Once the list is finalized, according to the WCFs mapped to the training, PBLApp access to the professors [WCF] will be provided first. Separate communication to the WCF on the same will be sent.

- PBLApp access to the nominated students would be activated 2 days prior to the start date of the training and will be communicated to the college TPOs and WCFs.

- No Direct communication from TalentNext team to the students will happen.

- Assessment pattern and its related details will be shared with your separately in another mail.

- Guidelines to kick start the training program will be sent along with the confirmation/approval mail post verification of the schedule and nomination.

3. Training Plan

- WCF's to train students on below modules

  - Phase 1 : JAVA J2EE modules

  - Phase 2 : Java Full Stack -> Hibernate, Spring, Spring Boot, REST Web services, AngularJS

- Phase 2 will be enabled only to students who cleared all 3 milestones of phase 1.

- Access to English learning course will be enabled for the students which they need to complete before completion of Phase-1.

- Separate Assessment for English course will be taken post 2nd Milestone assessment. Details of the same would be communicated separately.

- Additional **10% weightage** will be considered for English course.

If there are multiple WCFs in your college, requesting you to identify one WCF as a **SPOC** and inform us the same. Going forward communications from us will be sent to the TPO and the identified SPOC.

For any queries/clarification/concern regarding this student engagement, feel free to write to talent.next@wipro.com

Thanks and Regards

Team, TalentNext

Wipro - TalentNext - FY23_24 - Student Training Engagement - Learning Phase Milestone Assessment - Results - Shri Sant Gajanan Maharaj College of Engineering, Shegaon

Talent Next <talent.next@wipro.com> Tue, Oct 10, 2023 at 8:33 AM
To: "vsmahalle@gmail.com" <vsmahalle@gmail.com>, "pritivkale@rediffmail.com" <pritivkale@rediffmail.com>, "sumitmuddalkar@gmail.com" <sumitmuddalkar@gmail.com>
Cc: "tpossgmce@gmail.com" <tpossgmce@gmail.com>, "placements@ssgmce.ac.in" <placements@ssgmce.ac.in>

Dear TPO/Professors,

Warm Greetings from **TalentNext.** Hope that the training to your students as part of TalentNext is going fine as planned.

Assessments:

Assessment is integral part of this learning journey and as you are aware, there will be **3** learning phase milestones each after finishing a particular milestone for Phase 1 and 1 milestone assessment as part of Phase 2.

Kindly find below the results of the milestone assessments completed till **06th October [Friday], 2023**

-

College Name: **Shri Sant Gajanan Maharaj College of Engineering, Shegaon**

Total Nominated Students: **214**

	# of Pass	# of Fail	# of Absent
Phase 1			
Milestone 1	97	91	26
Milestone 2	114	77	23
Milestone 3	98	63	53
Phase 2			
Milestone 4	74	2	0

- Refer to the attached sheet for student wise details.
- The above summary is also inclusive of the re-tests data if re-tests is conducted.

First Page

-

Note :

- Kindly look into the category of students who were **Absent** during the assessment and ensure that the students take the assessment without fail.
- Check for the # of students getting passed in each milestone and ensure that the student prepare well for the assessment.
- Ensure that the students prepare well for the assessment and so clearing the assessments. Each student should secure 60% for clearing an assessment.
- One Re-Test per milestones can be scheduled for the Absent/Failed students, post completion of all the 3 learning phase milestones. Kindly do not disclose the same to students before completion of all 3 regular learning phase assessments.

For any clarifications and support, feel free to write to talent.next@wipro.com

Thanks and Regards

Team, TalentNext

Mechanical Engineering Department

Summary Report

Introduction to CNC Technology

Name of course: Introduction to CNC Technology

Name of the Course Coordinator: **Prof. P T Patokar**

Career Avenues: Completing a course on CNC technology can open up several career opportunities, especially in fields of advance manufacturing and industrial automation.

Objectives of the Course

To introduce students to the fundamental concepts and principles of advance manufacturing processes like computer numerical control (CNC) machining.

To provide hands-on experience with CNC simulators, ensuring that participants can prepare the CNC programs, check the program graphically and understand how to set offset in the CNC machine.

Outcomes of the Course

CO1: Students will develop the ability to work on CNC turning centre and vertical machining centre, from creating basic programs to machining the given program.

CO2: Students will be able to interface the CNC simulators with the actual CNC machines.

CO3: Students will have the skills to set the CNC machine in order to machine the given job.

Schedule of the Course:

Date	Time	Content
08-08-2022	8am -10 am	Introduction to Advance machining process
09-08-2022	8am -10 am	Understanding of conventional and advance machining process, Need of advance machining process
10-08-2022	8am -10 am	Benefits and applications of advance machining process

Course Content

Module 1: Introduction to Advance machining process

- Understanding of conventional and advance machining process
- Need of advance machining process
- Benefits and applications of advance machining process
- Overview of working principle of CNC technology

Module 2: Computer numerical control technology

- CNC: Constructional details
- Working principle of CNC machine
- Advantages of CNC machines
- Applications of CNC machines

Module 3: Machine control and programming

- Introduction to G-codes and M-codes
- Manual part programming
- Programming formats
- Preparatory codes and functional codes

Module 4: CNC controlling methods

- Tool path generation
- Point to point control
- Straight cut control
- Countering control

Module 5: Programming Examples

- Preparation of programs for milling operation
- Preparation of programs for drilling operation
- Preparation of programs for lathe operation

Module 6: Tool offset and work offset

- Methods of giving offset
- Job loading and unloading

Course Feedback Form: Introduction to CNC

Name of Agency: Mechanical Engineering Department SSGMCE

(Trainer: Prof P.T.Patokar)

Name of the Participant: Ayush Deshmukh Dept. Mechanical.

Course Title: Introduction to CNC Duration: 8-08-2022 To 30-08-2022

Tick (only one answer for each question.

Sr. No	Question	Poor	Fair	Good	Very Good	Excellent
1	The Training you attended was.				✓	
2	The demonstrations were.			✓		
3	The content presented was.					✓
4	The trainer's knowledge about the content was.				✓	
5	The way trainers taught the contents was.			✓		
6	The activity your participated in were.				✓	
7	The quality of instruction was				✓	
8	The training made the objectives was.					✓
9	The training made my expectation is.				✓	
10	Adequate time was provided for Questions and Discussions.		✓			

Write your answers to the following questions.

1) What did you like best about the training?

Opportunity Provided to work on actual CNC Machine

2) Are there any areas that should be included in training?

Can include programming challenges to enhance CNC coding

3) Are there any areas that should be improved for future training?

NO

Ayush.

Course Quiz: Introduction to CNC technology

Please select the most appropriate answer for each question. Each question will carry 2 marks.

1. In a DNC system
   a. Many machine tools can be controlled simultaneously
   b. Only a single machine tool can be controlled
   c. NC machine cannot be controlled
   d. None of the mentioned

2. In the CNC machine tool, the part program entered into the computer memory
   a. Can be used only once
   b. Can be used again and again
   c. Can be used again but it has to be modified every time
   d. None of the mentioned

3. Which of the following is not the advantage of CNC machines?
   a. Improved strength of the components
   b. Reduced scrap rate
   c. Higher flexibility
   d. Improved quality

4. Point-to-point systems are used for _____.
   a. Reaming
   b. Parting
   c. Grooving
   d. Facing

5. M-codes are also known as
   a. Preparatory codes
   b. Spindle speed codes
   c. Tool selection codes
   d. Miscellaneous codes

6. Continuous path control system is suitable for which type of applications?
   a. Milling profile
   b. Reaming
   c. Drilling
   d. Broaching

7. _____of motion is always the axis of the main spindle of the machine.
   a. Z-axis
   b. Y-axis
   c. X-axis
   d. None of the mentioned

8. G-codes are also known as-
   a. Preparatory codes
   b. Spindle speed codes
   c. Tool selection codes
   d. Miscellaneous codes

9. Which is not the type of part programming format?
   a. Fixed block format
   b. Variable block format
   c. Tab sequential format
   d. Word address format

10. Which of the following code will give a linear interpolation movement?
   a. G00
   b. G01
   c. G78
   d. G65

4. Course on Methodologies of Software Testing

Shri Sant Gajanana Maharaj College of Engineering, Sheagon

Department of Information Technology

Guest Lecture Topic:-	Methodologies of Software Testing		
Date:- 21/02/2023 - 17/04/2023		No. Of Hour:-	35

	Objectives of Workshop		Outcome of Workshop
1	To enhance the skills and knowledge of the software testing.	1	Select methodologies such as manual testing, automated testing, performance testing, security testing, etc., based on project requirements.
2	Select the appropriate testing methodologies for the project.	2	Implementing testing activities according to the defined plan.
3		3	Analysing test results, assess the quality of the software, and provide feedback for improvement.

Brief about Guest Lecture: -

Department of Information Technology SSGMCE, Shegaon has arranged interactive awareness session for students on Software Testing on 15/10/2022 by Ms.Pragrati Chowhan Manager, Training and Competencies Development, Tristha Global Pvt.LTD. After students university examination they have providing training to the interested students on "Methodologies of Software Testing" from 21st Feb 2023 to 17th April2023(Online).They provide basic knowledge of software testing, manual testing as in the training program students are from all branches. Software testing is a crucial phase in the software development lifecycle, aimed at ensuring the quality, functionality, and reliability of a software product. Various methodologies and techniques are employed to achieve this objective like manual testing, automation testing, unit testing etc.

Ms.Pragati Chowhan
Manager, Training and Competencies Development ,Trishta Global Pvt.Ltd Mumbai

Academic Year 2022-23

Department of Information Technology,

Shri Sant Gajanan Maharaj College of Engineering,

Khamgaon Road, Shegaon, Dist: Buldhana

Title of Activity	Software testing
Speaker	Ms.Pragati Chowhan Manager, Training and Competencies Development ,Trishta Global Pvt.Ltd Mumbai Mobile No: +9197301196366 Emailed: pragati.chowhan@tristhaglobal.co
Organizer	Department Of Information Technology
Schedule of Activity	21/02/2023-17/04/2023
Time	9.00 am-10.30 am
Objective of Activity	1. To enhance the skills of knowledge of software testing. 2. Select the appropriate testing methodologies for the project
Venue	Online Platform :Microsoft Teams
No. of Beneficiaries	149

Brief Introduction of Resource Person: Ms. Pragati Chowhan is a proficient Manager in Training and Competencies Development at Trishta Global Pvt. Ltd., Mumbai, leveraging her expertise to drive professional growth and skill enhancement within the organization.

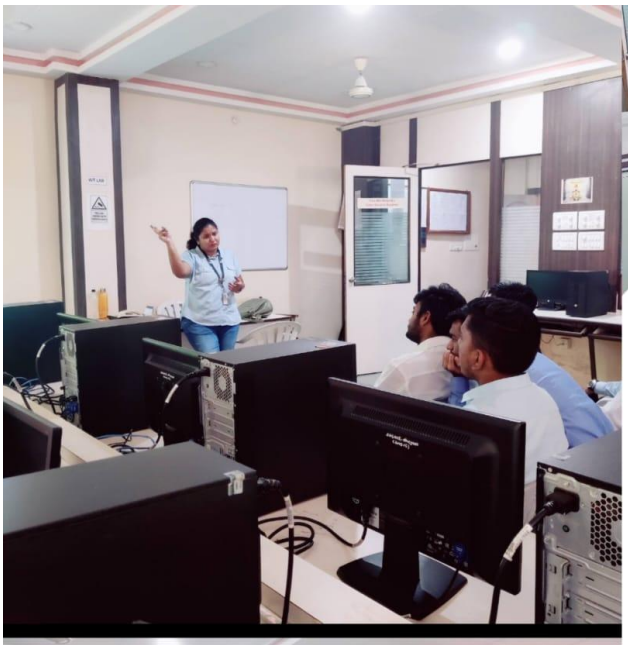

Program Overview:

The Department of Information Technology at SSGMCE organized an interactive awareness session on Software Testing led by Pragati Chowhan, Manager of Training and Competencies Development at Trishta Global Pvt. Ltd., on 15/10/2022. Following university examinations, they're offering training sessions on "Methodologies of Software Testing" from 21st Feb 2023 to 17th April 2023 (Online), catering to students interested in gaining fundamental knowledge about software testing, including manual testing. This training program welcomes students from diverse branches, recognizing software testing's pivotal role in ensuring the quality, functionality, and reliability of software products. The course encompasses various methodologies and techniques, including manual testing, automation testing, and unit testing.

5. Course on Full Stack Development

SHRI SANT GAJANAN MAHARAJ COLLEGE OF ENGINEERING, SHEGAON

Information Technology Department

"Skill Development Program"

Program Title: Certificate course on Full Stack Development.

Date: 27th March 2023 to 31st March 2023

Time: 11:00 AM to 5:00 PM ALL Days

Location: Swadhayay Kakshya, SSGMCE Shegaon

Organized By: Information Technology and Computer Science Department

Resourse Person: Mr. Ketan Pachpande M. Tech., IIT Kharagpur (Founder, Gigasoft Technologies 10+ years of Industry Experience.)

Number of Participants: 120

Objectives:

- To provide participants with a thorough understanding of both front-end and back-end development technologies, tools, and best practices.
- To equip participants with practical skills that allow them to build full-stack web applications independently.
- To teach participants relevant programming languages, such as JavaScript, HTML, CSS, and backend languages like Python, Ruby, or Node.js.
- To educate participants about database management, including data modeling, CRUD operations, and integrating databases with applications.

Program Highlights:

The session began with the welcome note and introduction of Speaker Mr. Ketan Pachpande M. Tech., IIT Kharagpur (Founder, Gigasoft Technologies 10+ years of Industry Experience.). After that Mr. Pachpande said about basic thing regarding full stack developer. Following are day wise topic covered in the development program.

Day 1: Introduction to Full Stack Developer:

- The program began with an introduction to Full Stack Development.
- Students learned about the importance of front-end and back-end development in building web applications.
- Basic web technologies such as HTML, CSS, and JavaScript were introduced.

Ph : +918669638081/82
Email.principal@ssgmce.ac.in, registrar@ssgmce.ac.in
Website- www.ssgmce.ac.in

- Students practiced creating a simple static webpage.

Day 2: Front end Development:

- Day two focused on front-end development.
- Students delved deeper into HTML and CSS, learning about page structure, styling, and responsive design.
- They created interactive web elements using JavaScript.
- A hands-on project involved designing a personal webpage.

Day 3: Database Development (Database Management):

- The program transitioned into back-end development.
- Students were introduced to server-side programming languages such as Node.js and Python.
- Basic server operations like handling requests and responding with data were explained.
- A practical exercise involved setting up a simple server and serving a webpage dynamically.

Day 4: Databases and Data Management:

- Day four was dedicated to databases and data management.
- Students learned about relational databases, SQL, and NoSQL databases.
- They explored database design, creating tables, and performing CRUD operations.
- A project required students to build a database-driven web application.

Day 5: Full Stack Development and Deployment:

- The final day of the program focused on bringing everything together.
- Students worked on integrating their front-end and back-end components.
- They learned about APIs and how to make AJAX requests from the client-side.
- Deployment strategies were discussed, and students deployed their web applications to cloud services or hosting platforms.

After every there is Question answer session. After day 5 session Mr. Pachpande give the task to student and evaluate the session Performance.

The Program ended with vote of thanks.

Outcome:

- Participant understand both front-end and back-end development technologies, tools, and best practices.

A Report on

Skill Development Program

“Full Stack Development”

By

Mr. KetanPachpande,

M.Tech- IIT, Kharagpur

Academic Year 2022-23

Department of Information Technology,

Shri Sant Gajanan Maharaj College of Engineering,

Khamgaon Road, Shegaon, Dist: Buldhana

Title of Activity	Skill Development Program on Full Stack Development
Speaker	Mr Ketan Pachpande, **Founder, Gigasoft Technologies**, Pune
Organizer	Department of Information Technology and Computer Science and Engineering SSGMCE, Shegaon
Schedule of Activity	27th March 2023 to 31st March 2023
Time	11:00 AM to 5:00 PM ALL Days
Objective of Activity	1. To provide participants with a thorough understanding of both front-end and back-end development technologies, tools, and best practices. 2. To equip participants with practical skills that allow them to build full-stack web applications independently. 3. To teach participants relevant programming languages, such as JavaScript, HTML, CSS, and backend languages like Python, Ruby, or Node.js. 4. To educate participants about database management, including data modeling, CRUD operations, and integrating databases with applications.
Venue	Swadhyay Kaksh SSGMCE, Shegaon
No. of Beneficiaries	120

Brief Introduction of Resource Person:

Mr. Ketan Pachpande is Founder, Gigasoft Technologies and having 10+ years of Industry Experience. He has done his graduation in Bachelor of Technology, Information Technology from the Veermata Jijabai Technological Institute (VJTI), Mumbai in 2009. He has done his Post graduation in Master of Technology Information Technology from the Indian Institute of Technology, Kharagpur in 2012.

Program Overview:

ProgramHighlights:

The session began with the welcome note and introduction of Speaker Mr. Ketan Pachpande M. Tech., IIT Kharagpur (Founder, Gigasoft Technologies 10+ years of Industry Experience.).After that Mr. Pachpande said about basic thing regarding full stack developer. Following are day wise topic covered in the development program.

Day 1: Introduction to Full Stack Developer:

- The program began with an introduction to Full Stack Development.
- Students learned about the importance of front-end and back-end development in building web applications.
- Basic web technologies such as HTML, CSS, and JavaScript were introduced.
- Students practiced creating a simple static webpage.

Day 2: Front end Development:

- Day two focused on front-end development.

- Students delved deeper into HTML and CSS, learning about page structure, styling, and responsive design.
- They created interactive web elements using JavaScript.
- A hands-on project involved designing a personal webpage.

Day 3: Database Development (Database Management):

- The program transitioned into back-end development.
- Students were introduced to server-side programming languages such as Node.js and Python.
- Basic server operations like handling requests and responding with data were explained.
- A practical exercise involved setting up a simple server and serving a webpage dynamically.

Day 4: Databases and Data Management:

- Day four was dedicated to databases and data management.
- Students learned about relational databases, SQL, and NoSQL databases.
- They explored database design, creating tables, and performing CRUD operations.
- A project required students to build a database-driven web application.

Day 5: Full Stack Development and Deployment:

- The final day of the program focused on bringing everything together.
- Students worked on integrating their front-end and back-end components.
- They learned about APIs and how to make AJAX requests from the client-side.
- Deployment strategies were discussed, and students deployed their web applications to cloud services or hosting platforms.

After every there is Question answer session. After day 5 session Mr. Pachpande give the task to student and evaluate the session Performance.
The Program ended with vote of thanks.

Outcome:

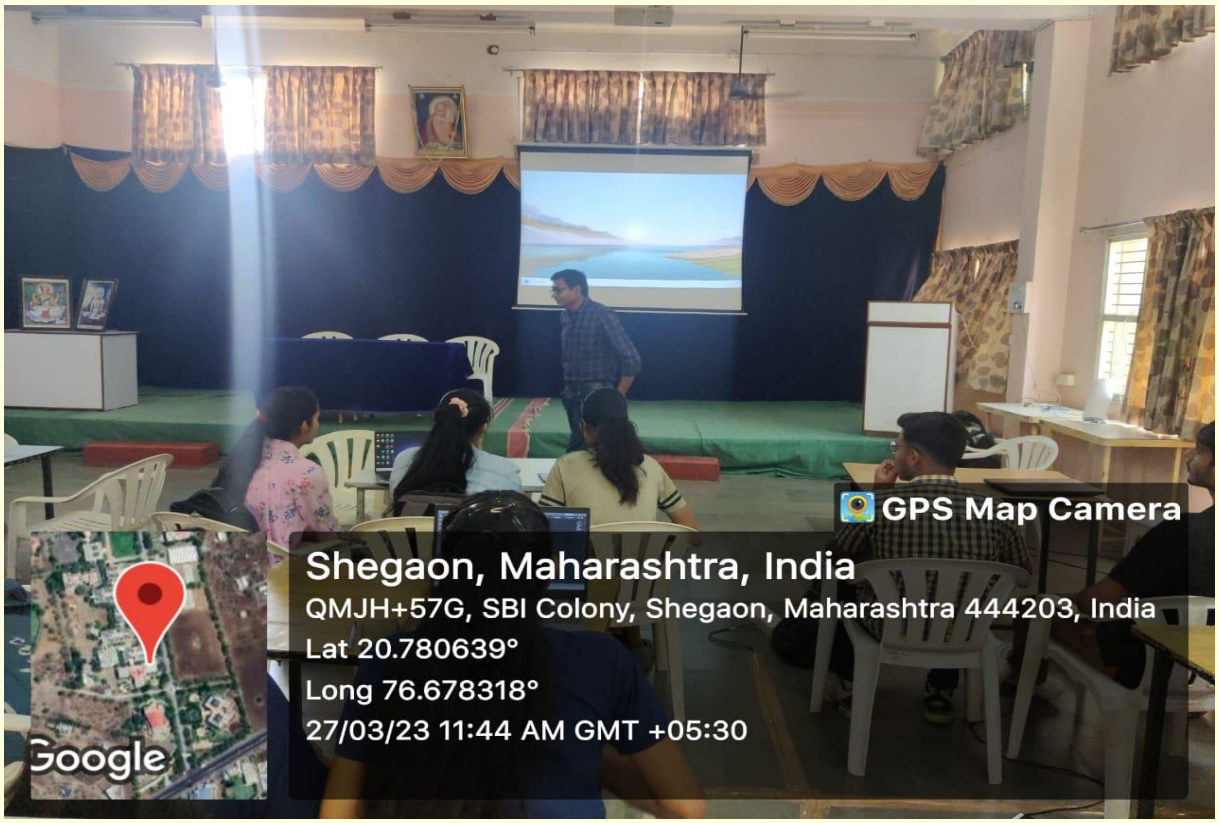

- Participant understands both front-end and back-end development technologies, tools, and best practices.
- Participants understand about database management, including data modeling, CRUD operations, and integrating databases with applications.

Skill Development Program
Certificate Course on
Full Stack Development
Organised by
Dept. of IT & CSE
Course Outline:
1.New Domain Registration
2.Hosting Website
3.Professional Emails Setup
4.DNS Settings and Management
5.Database Design
6.HTML, CSS, JQUERY, Javascript,
Ajax, PHP, MYSQL, Bootstrap
7.Payment Gateway Integration
8.SMS Gateway Integration
9.Email Integration
10.Learn all concepts with a real life
project: Design and development of
an E-commerce system from scratch.

Microsoft Excel Course - Session Outcome Report

Course Duration: 30 hours (2 weeks, weekdays 3.45-5.45 pm & Saturdays 11 am-1.30 pm, 2 pm-4.30 pm)

Faculty: Prof. B. T. Husain (Internal Resource Person)

Session Timetable:

Week	Day	Date	Time	Topic Covered
Week 1	Monday	06-02-23	3:45 pm - 5:45 pm	Introduction to Microsoft Excel, Interface
Week 1	Tuesday	07-02-23	3:45 pm - 5:45 pm	Data Entry and Formatting
Week 1	Wednesday	08-02-23	3:45 pm - 5:45 pm	Cells, Rows, and Columns
Week 1	Thursday	09-02-23	3:45 pm - 5:45 pm	Basic Formulas and Functions
Week 1	Friday	10-02-23	3:45 pm - 5:45 pm	Data Validation and Error Handling
Week 1	Saturday	11-02-23	11:00 am - 1:30 pm	Sorting and Filtering Data
Week 2	Monday	13-02-23	3:45 pm - 5:45 pm	Workbook Protection and Security
Week 2	Tuesday	15-02-23	3:45 pm - 5:45 pm	Conditional Formatting
Week 2	Wednesday	17-02-23	3:45 pm - 5:45 pm	Data Visualization Techniques
Week 2	Thursday	19-02-23	3:45 pm - 5:45 pm	Data Tables and Pivot Tables
Week 2	Friday	21-02-23	3:45 pm - 5:45 pm	Charts and Graphs
Week 2	Saturday	23-02-23	11:00 am - 1:30 pm	Data Analysis Tools
Week 2	Saturday	23-02-23	2:00 pm - 4:30 pm	Text Functions and Formulas
				Case solving in Excel and Assessment
				Course Feedback and Certification

Website- www.ssgmce.ac.in

Session Outcome:

Participants in the Microsoft Excel course have completed a comprehensive 30-hour training program. They have gained a strong foundation in Excel basics, advanced data manipulation techniques, data analysis, and advanced functions. Additionally, they have learned to create charts, graphs, and pivot tables, design dashboards, and work with macros and VBA for automation. The course concluded with a project presentation and assessment to ensure a deep understanding of the topics covered.

This course has been conducted successfully by Prof. B. T. Husain, an internal resource person from the Department of Business Administration and Research. The participants have acquired valuable skills that will enhance their proficiency in Microsoft Excel, allowing them to apply their knowledge in various academic and professional settings.

Certifications were be awarded to participants upon successful completion of the course

Annexure:

Case/Project used for assessment/final project:

Case 1:

Case Study: Grade Calculator

Background:

You want to create a simple Excel spreadsheet to calculate your grades for a class. You'll input your scores for various assignments, and the spreadsheet will calculate your final grade based on a pre-defined grading scale.

Tasks:

Data Entry (Topics: Data Entry and Formatting):

Create a new worksheet and label it "Grade Calculator."

Set up columns for Assignment Name, Points Earned, and Total Points Possible.

Input the names of assignments or exams in the Assignment Name column.

Basic Calculations (Topics: Basic Formulas and Functions):

In the Points Earned column, enter the scores you received for each assignment.

In the Total Points Possible column, enter the maximum possible scores for each assignment.

Calculate Percentages (Topics: Basic Formulas and Functions):

In a new column, calculate the percentage for each assignment using the formula **(Points Earned / Total Points Possible) * 100.**

Final Grade Calculation (Topics: Basic Formulas and Functions):

Ph : +918669638081/82
Email.principal@ssgmce.ac.in, registrar@ssgmce.ac.in
Website- www.ssgmce.ac.in

Calculate your final grade based on the following grading scale:

A: 90-100

B: 80-89

C: 70-79

D: 60-69

F: 0-59

Use an IF statement to determine your final grade based on your calculated percentage.

Data Validation (Topics: Data Validation and Error Handling):

Use data validation to ensure that the Points Earned and Total Points Possible columns only accept numeric values.

Report (Topics: Workbook Protection and Security):

Add a simple header with your name and course details to the worksheet.

Protect the worksheet to prevent unauthorized changes.

Assessment:

You will be assessed on your ability to create a functional grade calculator in Excel. The assessment will focus on the accuracy of the calculations, your proficiency in basic Excel functions, and the presentation of the final grade.

Ph : +918669638081/82
Email.principal@ssgmce.ac.in, registrar@ssgmce.ac.in
Website- www.ssgmce.ac.in

Case 2:

Case Study: Travel Itinerary and Expense Tracker

🌍 Your Upcoming Adventure 🌍

Introduction:

You're about to embark on an exciting international adventure, and you want to create a dynamic travel itinerary and expense tracker using Excel. This will help you plan your trip, keep track of your activities, and monitor your expenses on the go.

Tasks:

🗓️ Travel Itinerary (Topics: Data Entry and Formatting):

Create a new worksheet titled "Travel Itinerary."

Set up columns for Date, Destination, Activity, Time, and Notes.

Fill in the itinerary with details of your daily activities during your trip, including the date, destination, planned activity, time, and any additional notes.

🌟 Highlighting Special Events (Topics: Conditional Formatting):

Use conditional formatting to highlight special events or unique activities during your trip. For example, highlight the day of a special festival or celebration in a different color.

📊 Interactive Map (Topics: Charts and Graphs):

Create an interactive map of your destinations using an online map tool or by inserting a map image. Pinpoint each destination on the map, and hyperlink the destinations to their corresponding details in the itinerary.

💰 Expense Tracker (Topics: Data Validation and Error Handling):

Create a new worksheet titled "Expense Tracker."

Set up columns for Date, Expense Category, Expense Description, Amount, and Payment Method.

Enter details of your expenses during the trip, including the date, expense category, description, amount, and payment method.

📈 Expense Summary (Topics: Charts and Graphs):

Create a bar chart to visualize your expenses by category. Each category will represent a bar, and the height of the bar will indicate the total expense for that category.

📅 Daily Expense Summary (Topics: Pivot Tables and Pivot Charts):

Use a pivot table to create a daily expense summary. This table will show the total expenses for each day, allowing you to monitor your daily spending.

📖 Personal Travel Diary (Topics: Workbook Protection and Security):

Keep a personal travel diary by adding a new worksheet for each day. You can write about your experiences, memories, and reflections. Protect this diary worksheet with a password for privacy.

🔍 Item Search (Topics: Advanced Functions and Formulas):

Create a search feature that allows you to find specific items (activities or expenses) within your itinerary or expense tracker based on keywords.

Assessment:

You will be assessed on your ability to create an engaging and functional travel itinerary and expense tracker. The assessment will focus on the organization of your trip details, the accuracy of data entry, proficiency in Excel functions, the quality of interactive features, and the overall presentation.

Dr. Bilal Husain

The Report of Accelerated Learning and Development Program (ALDP)

(Duration of the Program 13-02-2023 to 17-02-2023)

(Venue of the Program- Departmental Seminar Hall)

The Schedule of program

	13/02/23	14/02/23	15/02/23	16/02/23	17/02/23
10.30 am - 11.00 am	Inaugural Session	_____	_____	_____	_____
11.00 - 12.00	Emerging HR Landscape - Challenges, opportunities & trends	Managing the L&D function in a Digital World	Problems & Potential of Workplace Conflict & how to manage it	Workplace Ethics – what it is, its need & significance	Mock Group Discussion
12.00 - 1.00	Identifying, Developing & Utilizing Professional Skills at the Workplace	Labour Laws in India & New Labour Codes	The Philosophy of Abundance & a Growth Mindset	Leadership, Decision-making, Inter-personal skills & Teamwork – essential survival skills in the workplace – 2 (includes Emotional and Social Intelligence)	Mock Group Discussion
1.00 - 1.45	**LUNCH BREAK**				
1.45 - 2.45	The Future of Work – anticipating, knowing & preparing for it	Understanding your salary – CTC, Gross Salary & Take-home pay	Understanding self and others – Human Behaviour at the Workplace	Leadership, Decision-making, Inter-personal skills & Teamwork – essential survival skills in the workplace – 2 (includes Emotional and Social Intelligence)	Mock Personal Interviews
2.45 - 3.45	How Individuals learn – theories of learning	An Overview of Developmental Relationships in the Workplace - Coaching, Counselling, Mentoring & Training	The Science and Art of Negotiating – Negotiation & Persuasion Skills for the workplace	Managing during a crisis – Crisis Management Case Study	Mock Personal Interviews
3.45 - 4.00	**TEA BREAK**				
4.00 -5.00	_____	Business Communication Skills – written, oral, presentation, email,	Knowledge, Skills and Attitudes for Career Success	_____	Summing up, feedback & Course Valedictory

The accelerated learning development program(ALDP) jointly organized by MBA Department of SSGMCE College and BBA Department of Saraswati College form 13-02-2023 to 17-02-2023.

Program was divided into the session and the major objectives of the program are as follows.

Objectives of accelerated learning

1. To engage learners with powerful, interactive activities that stimulates curiosity.

2. To build confidence and foster a positive attitude toward learning.

3. To develop deeper understanding of complex topics through hands-on or experiential learning.

4. To utilize multi-sensory activities to enhance understanding and retention.

5. To promote collaboration, communication, and critical thinking.

6. To help learners to become independent thinkers and problem solvers.

7. To provide learners with the tools to become lifelong learners.

Outcomes of ALDP Program

After successful completion of course student will be able to

1. Increase Productivity: Accelerated learning and development can help students become more productive in their future job roles. This can result in a more efficient workflow and improved quality of work.

2. Improve Job Satisfaction: Accelerated learning and development can help students feel more satisfied with their roles, as they have the opportunity to develop new skills. This can lead to improved job satisfaction, as well as greater job security.

3. Increase Retention Rates: College that offer accelerated learning and development programs can enrich higher retention attitude in students, as students are more likely to stay with a company that invests in their professional development.

4. Enhance Problem Solving Skills: With accelerated learning and development, students can develop more advanced problem solving skills and improve their ability to think critically. This can help students identify and resolve issues more quickly, resulting in greater efficiency.

5. Improved Efficiency: Accelerated learning and development can help students to become more efficient in their role, as they are able to gain the skills they need to complete their tasks more quickly and effectively.

Session on - Emerging HR Landscape, Challenges opportunities and Trends

The Human Resources (HR) landscape is rapidly changing. Advances in technology, global economic conditions, and changes in the workforce have all contributed to the emergence of new challenges, opportunities, and trends in HR.

Technology has revolutionized the HR landscape. In the past, HR departments were largely paper-based, but now they are increasingly using online solutions and automation to streamline processes. This has led to a greater emphasis on data-driven decision making and analytics, as well as the development of cloud-based HR solutions. These technological advances have enabled HR departments to become more efficient and effective, while also providing them with access to new tools and resources.

Global economic conditions have had a significant impact on the HR landscape. Companies are now more likely to focus on cost-cutting measures, such as outsourcing or reducing staff. This has led to the emergence of new roles and responsibilities, such as those related to employee engagement and retention. Additionally, companies are increasingly looking to develop global strategies in order to remain competitive and capitalize on international markets.

Changes in the workforce have also had a major impact on the HR landscape. The rise of the gig economy has led to the emergence of new job roles and responsibilities, as well as the need for greater flexibility in the workplace. Additionally, the increasing focus on diversity and inclusion has led to the need for HR departments to develop strategies to ensure that all employees feel included and valued.

In order to keep up with these changes, HR departments must be prepared to address the challenges, capitalize on the opportunities, and stay abreast of the latest trends. The following are some of the key challenges, opportunities, and trends in the emerging HR landscape:

Challenges:

• Increased scrutiny of HR policies and practices

• The need for greater flexibility in the workplace

• Adapting to the changing needs of a diverse workforce

• Developing strategies to promote employee engagement and retention

Opportunities:

• Leveraging technology to streamline processes and improve efficiency

• Developing global strategies to capitalize on international markets

• Leveraging data and analytics to make informed decisions

• Utilizing new tools and resources to improve HR processes

Trends:

• Growth of the gig economy

• Increased focus on diversity and inclusion

• Increased emphasis on employee engagement and retention

• Use of artificial intelligence in HR processes

• Automation of HR processes

The Session of 'identifying, developing and utilizing professional skills at the workplace'

The session on 'Identifying, Developing and Utilizing Professional Skills at the Workplace' was conducted on the first day of the workshop. It was an interactive session which focused on understanding and developing professional skills in the workplace.

The session was conducted by Shri Ashok Jambur, an expert in the field of professional development. The session began with an introduction to the concept of professional skills and how they can be identified and developed in the workplace. Shri Ashok Jambur discussed the importance of honing professional skills, such as communication, problem-solving and decision-making, and how they can be used to achieve greater success in the workplace. He also explained the different types of professional skills, such as soft skills, hard skills, and technical skills, and how they can be developed through practice and experience.

After the introduction, the participants were divided into teams and asked to discuss how they can identify and develop their own professional skills. They were encouraged to share their experiences and to brainstorm ways they can use their professional skills to increase their productivity and effectiveness in the workplace.

At the end of the session, Shri Ashok Jambur gave a summary of the discussion and provided the participants with an action plan for developing their professional skills. He suggested that the participants should keep track of their progress and work towards setting goals for themselves. He also encouraged them to stay motivated and to use their professional skills to create a positive work environment.

The session was extremely informative and beneficial to the participants. It provided them with a good understanding of how to identify, develop and use professional skills in the workplace.

'The future of work-anticipating, knowing and preparing for it'

The session of 'The Future of Work-Anticipating, Knowing and Preparing for It' was organized by the Shri Sant Gajanan Maharaj College of Engineering (SSGMCE) on 14th February 2020. The event was attended by a large number of students and faculty.

The aim of the event was to discuss the various aspects of the changing nature of the workplace and the implications of this transformation on the current and future generations of workers.

The session was conducted by Same resource person Shri Jambur Sir, who is an expert in the field of Human Resources Development and counseling. The session began with the introduction of the topic and the main focus of the event- the future of work and the need for organizations to anticipate, know and prepare for it. He highlighted the changing dynamics of the workplace in the current era, where technology and automation are rapidly replacing manual labor and traditional jobs. He also discussed how the current workplace is much more competitive than ever before, making it important for organizations to stay ahead of the curve and be prepared for the future.

The session was further divided into two parts. In the first part, Shri Ashok Jambur discussed the importance of anticipating the future of work and the need for organisations to be prepared for the changes that are coming. He discussed the importance of understanding the trends in the labour market, the impact of technological advancements and the need for organisations to develop strategies to stay ahead of the competition.

In the second part of the session, He discussed the need for organizations to know and prepare for the future of work. He discussed the importance of developing a comprehensive Human Resource Management strategy that is tailored to the changing needs of the organization and the labor market. He also discussed the importance of training and development programs, job redesigning and the need for organizations to stay abreast of the latest trends in the industry.

The session of 'The Future of Work- Anticipating, Knowing and Preparing for It' was highly informative and beneficial for the participants. It gave them valuable insights into the changing dynamics of the workplace and the importance of organizations to anticipate, know and prepare for the future. The session was a great success and the participants found it to be very helpful and enlightening.

'How individuals learn-Theories of leaning'

The session ‘How individuals learn-Theories of Learning’ was conducted by Professor Simon Jones, an expert in the field of Educational Psychology. The session was held to discuss the various theories of learning, and how they can be applied to help individuals learn.

The topics discussed in the session included the different types of learning, such as cognitive, affective and behavioral, as well as the different theories of learning, such as the behaviorist theory, the cognitive theory and the constructivist theory. Shri Ashok

Jambur discussed how these theories can be applied in different learning contexts, and how they can be used to help individuals learn.

Shri Ashok Jambur also discussed the importance of motivation in learning. He highlighted how motivation is essential for successful learning, and how it can be used to help individuals reach their learning goals. The session also focused on the importance of feedback in learning. Shri Ashok Jambur discussed how feedback is important for assessing an individual's progress and providing feedback that can improve learning.

The session concluded with a discussion on how different learning theories and techniques can be used together to help individuals learn. Shri Ashok Jambur stressed the importance of utilizing different techniques in order to ensure successful learning.

The session was very informative and helpful in understanding how different theories of learning can be applied to help individuals learn. It provided valuable insights into the different theories of learning and how they can be used in different contexts.

Day 2

Session on 'meeting Learning and development in the digital world.

This session focused on learning and development in the digital world, and how technology is changing the way we learn. The session began with an overview of the current landscape and explored how digital learning is transforming the way we work and learn. The speaker then discussed the potential of digital learning and the impact it can have on organizational performance. The session then looked at the challenges and benefits of digital learning and how to effectively implement it in organizations.

The speaker discussed the importance of creating a learning culture and how to ensure that digital learning is accessible and effective. They also discussed the importance of creating an inclusive learning environment and how to ensure that digital learning is used to its fullest potential. The speaker highlighted the benefits of using digital learning platforms such as gamification, microlearning and mobile learning. They discussed how digital learning can be used to increase engagement, collaboration and learning retention.

The speaker also discussed the importance of measuring success and how to ensure that digital learning is effective and adds value to the organization. Finally, the session ended with the speaker discussing the future of digital learning and how technology will continue to shape the learning and development landscape. They discussed the importance of staying ahead of the curve and how to use digital learning to remain competitive in the digital world.

Session of 'labor laws in India and new labor code'.

The Indian Labor Laws are the set of laws enacted by the Government of India to regulate the labor and employment conditions of workers in the country. These laws seek to ensure that the workers are provided with fair wages, safe working conditions, and other rights and benefits. The new labor code seeks to unify the existing 44 labor laws into four labor codes, namely, the Code on Wages, the Industrial Relations Code, the Code on Social Security, and the Code on Occupational Safety, Health and Working Conditions.

The Code on Wages Act, 2019, is aimed at providing a comprehensive legal framework to ensure minimum wages and timely payment of wages to all employees regardless of their sector or type of employment. The Act seeks to bring uniformity and clarity to the existing wages related laws. It also provides for the establishment of a Central Advisory Board and a National Floor Level Minimum Wage.

The Industrial Relations Code, 2020, seeks to bring uniformity to the existing labor laws for industrial and service establishments. The Code seeks to simplify the procedures for settlement of disputes, recognition of trade unions and collective bargaining, and the regulation of conditions of service and employment.

The Code on Social Security, 2020, seeks to provide social security to all workers in the country, including gig and platform workers, and to bring uniformity to the existing laws on social security. The Code seeks to provide social security benefits such as provident fund, gratuity, accident insurance, health insurance, and pension to all workers.

The Code on Occupational Safety, Health and Working Conditions, 2020, seeks to provide for the safety, health, and working conditions of workers in all sectors. It seeks to standardize the existing laws on occupational safety, health and working conditions, and to provide for the regulation of hours of work, holidays, leaves, and other working conditions.

The new labor code seeks to provide a comprehensive legal framework for the protection of the rights and interests of workers in the country. It seeks to ensure that all workers are provided with fair wages, safe working conditions, and other benefits and rights. The new labor code will help to ensure that the labor laws are uniform across the country and are enforced in a more efficient manner.

Session of 'Understanding salary-CTC, Gross Salary and Take home salary'

The session was conducted by Mr. Ashok Jambur, IOCL at ABC. He started the session by introducing the attendees to different components of salary including CTC, Gross salary, and Take home salary. He explained that CTC stands for Cost to Company and it is the total annual cost of employing an individual. It includes the cost of salary, allowances, and other benefits.

He further explained that Gross salary is the total amount of salary that an employee receives before any deductions. It is the amount that is reflected in the payslip of an employee. Lastly, He explained that Take home salary is the amount that an employee receives after deductions like income tax, provident fund, etc.

He discussed the importance of analyzing salary components to ensure that employees are receiving the correct amount of salary. He also discussed the importance of deductions like Income Tax, Provident Fund, and Professional tax. At the end of the session, Mr. Ashok Jambur took questions from the attendees and clarified their doubts.

Session of 'An overview of developmental relationship at workplace-coaching, counseling and mentoring'

The session on 'An overview of developmental relationship at workplace-coaching, counseling and mentoring' was conducted on 14-02-2023. The session was attended by 34 students. The session was led by Shri Ashok Jambur, a professional in the field of employee development and relationships.

The session began with the introduction of the three different types of developmental relationships at workplace-coaching, counseling and mentoring. The speaker extensively discussed the differences between coaching, counseling and mentoring. He highlighted the roles and responsibilities of each of them and how they complement each other.

He further shed light on the importance of these developmental relationships for an individual's growth and development. The speaker also discussed the various approaches used in coaching, counseling and mentoring. He emphasized on the need to understand the individual's needs and develop a strategy that best suits them. He also spoke about the ethical considerations and guidelines that should be followed while engaging in any of these developmental relationships.

At the end of the session, the speaker answered the questions asked by the audience and provided them with additional resources to further their understanding of the topic. Overall, the session was very informative and provided a comprehensive overview of the different types of developmental relationships at workplace. It was a successful session and proved to be a great learning experience for all the participants.

Session of 'Business communication skills-written, oral, presentation and email'

The session of 'Business Communication Skills-Written, Oral, Presentation and Email' was conducted by Mr. Ashok Jambur on 20th April, 2019. The session was attended by 25 students from the business administration department and Saraswati College.

The session began with Mr. Ashok Jambur introduced the topic of business communication and its importance in the professional world. He stressed on the need to be able to communicate effectively in order to make a successful career. He then discussed the various types of communication and the ways in which they can be used in a business environment.

Mr. Ashok Jambur also covered the importance of writing skills in business communication. He discussed the different types of writing styles and the use of formal and informal language in business correspondence. He also discussed the importance

of proofreading and editing documents to ensure accuracy. Next, he discussed the importance of oral communication in business.

He highlighted the need to be able to present one's ideas clearly in order to make an impact. He also discussed the importance of using the right tone and body language when speaking in a professional setting. In addition, Mr. Ashok Jambur discussed the importance of presentation skills in business. He highlighted the need to create effective presentations that can capture the attention of an audience. He also discussed the importance of using visuals and other multimedia tools to make presentations more engaging.

At last in session, he discussed the importance of email communication in business. He highlighted the need to be mindful of the language used in emails and stressed upon the need to use proper grammar, punctuation and spelling. He also discussed the importance of using a professional email address and adhering to the email etiquette. At the end of the session,

Mr. Ashok Jambur concluded by summarizing the key points discussed. He stressed upon the importance of developing effective communication skills for success in the professional world. Overall, the session was very informative and engaging. The students were able to gain valuable insights into the importance of business communication and its various aspects.

Day 3

Session of 'problems and potential of the workplace conflict and how to resolve it'

The session on 'Problems and Potential of the Workplace Conflict and How to Resolve It' was conducted on 15th February 2023. The session was attended by 25 participants, including the facilitator. The session began with an introduction to the topic of workplace conflict and the different types of conflicts that may arise. It discussed the causes of workplace conflict and the potential outcomes of unresolved conflicts.

The facilitator discussed the importance of identifying and dealing with the root cause of the conflict and the various ways of resolving the conflict. The participants were then divided into groups and given the task of discussing a particular case-study. The groups discussed and identified the different types of workplace conflict present in the case study, the reasons for the conflict and the potential solutions. The session concluded with a discussion on the importance of communication in resolving workplace conflicts.

The facilitator reiterated the importance of understanding the underlying causes of the conflict and the need for open communication between all stakeholders to ensure a successful resolution. Overall, the session was a success. The participants were able to gain a better understanding of the different types of workplace conflicts and the various strategies that can be used to resolve them. The case study discussion was particularly beneficial in helping the participants gain insight into the importance of communication and identifying the underlying cause of the conflict.

Session of 'The philosophy of abundance and growth mindset'

The purpose of the event was to discuss the importance of having an abundance and growth mindset, and how it can be used to create success. The session was led by prominent speaker from the fields of business, psychology, and philosophy. The event began with a keynote address on the importance of having an abundance and growth mindset.

The speaker discussed how having an abundance mindset can help people to see opportunities where others see limitations. They also discussed how having a growth mindset can help people to be more open to change, and to focus on personal growth and development. Following the keynote address, the speaker discussed the various ways in which an abundance and growth mindset can be applied to daily life.

He discussed how having an abundance mindset can help to foster creativity and innovation, as well as how having a growth mindset can lead to greater success in life. In addition, the speaker discussed the importance of self-awareness and self-reflection in developing an abundance and growth mindset.

He discussed how these two elements are essential for understanding one’s own motivations, values, and goals, and how they can be used to create success. The event concluded with a Q&A session, which allowed attendees to ask questions and receive feedback from the speaker.

Overall, the session was successful in helping attendees to gain a better understanding of the importance of having an abundance and growth mindset. Attendees were able to gain insight into how these mindsets can be applied to their own lives, and how they can be used to create success.

Session on 'Understanding self and other-Human behavior at workplace'

The session was attended by 35 people, including students and working professionals.

The session began with a brief introduction of the topic by the facilitator. He highlighted the importance of understanding and managing human behavior in the workplace. He then went on to discuss the various aspects of human behavior such as body language, communication skills, decision-making and problem-solving skills, and how these can be effectively used in the workplace.

The facilitator then discussed the importance of analyzing and understanding one's own behaviour, and how it affects others in the workplace. He also highlighted the various types of personalities and how each can have an impact on the work environment. The session concluded with a case study analysis, where the participants discussed the various ways in which human behavior can be managed and analyzed in the workplace. The participants were then asked to share their experiences and thoughts on the topic.

Overall, the session was a great success and the participants had a great learning experience. They gained valuable insight into understanding and managing human behavior in the workplace.

Session of 'The science and art of negotiating-Negotiation and presentation skills for the workplace'

The resource person is renowned business and management consultant and negotiator. The session started with Mr. Ashok Jambur introducing the participants to the fundamentals of negotiation, such as the importance of goal setting, understanding the interests of the other party, and how to develop win-win solutions. He also discussed the key elements of a successful negotiation such as trust, empathy, and active listening. Mr. Ashok Jambur then moved on to the topic of presentation skills and how to effectively communicate with an audience. He provided the participants with tips on how to structure and deliver a presentation, such as having a clear introduction and conclusion, and using simple language. He also discussed the use of visuals and body language to help deliver the message.

In the final part of the session, He addressed the issue of negotiating in the workplace. He discussed how to manage difficult conversations, how to identify and address obstacles, and how to manage the emotions of both parties. He also provided the participants with strategies on how to handle difficult negotiations and how to create a win-win situation.

Overall, the session was informative and engaging. The participants were able to gain valuable insights into the art and science of negotiation and how to be an

effective negotiator. They also learned how to deliver an effective presentation and how to handle difficult negotiations in the workplace.

Session of 'Knowledge, skills, attitude for career success'

The session aimed to provide students with the knowledge, skills, and attitude required to be successful in their future careers. The session was conducted by an experienced career coach and was attended by over 50 students.

The session began with an introduction to the importance of knowledge, skills, and attitude in achieving career success. The coach explained how each of these elements can play a role in an individual's success, and how they are all interconnected. He then went into detail on each of the different elements, giving examples and providing tips on how to develop and improve them. The coach emphasized the importance of having a positive attitude and staying motivated. He also discussed the importance of having a passion for the job one is doing and how this can help drive them to success.

He encouraged participants to take advantage of resources available to them such as online courses and workshops that can help them gain the necessary knowledge and skills for their career. The coach also highlighted the importance of networking and building relationships. He advised the students to reach out to people in their field and to attend networking events. He also discussed the importance of having a strong online presence and developing a professional online profile.

The session concluded with a question and answer period, where the students were able to ask questions and receive further advice on career success. The session was very well received and the participants were very appreciative of the coach's knowledge and expertise. The session provided the students with invaluable information and advice on how to be successful in their future careers.

Day 4

Session 'Workplace ethics- the need and significance'

Workplace ethics is the code of behavior that businesses expect from their employees. It includes everything from how employees should treat each other and their customers to how they should represent the company in public. It is important to have workplace ethics in order to ensure that a business maintains a positive reputation, builds trust with its customers, and creates a productive and harmonious environment for its employees. The need for workplace ethics has been increasing in recent years due to the increased focus on corporate social responsibility.

Companies are now expected to adhere to ethical standards in order to be seen as responsible and trustworthy by customers and the public. At the session, the importance of workplace ethics was discussed. It was emphasized that it is essential for a business to have a clear set of guidelines and policies in place in order to ensure that all employees are aware of the standards of behavior expected of them. It was also discussed that workplace ethics are not only important for a business's reputation, but also for the well-being of its employees. Having a clear set of standards in place can help prevent conflicts between employees and ensure that everyone is treated fairly.

The session also addressed the challenges of enforcing workplace ethics. It was noted that while having a clear set of policies is essential, employers must also ensure that employees are held accountable for their actions. This means that there must be consequences for any violations of the workplace ethics policy.

Overall, the session was a great reminder of the importance of workplace ethics and the need for businesses to have a clear set of policies in place in order to ensure that their employees are aware of the standards of behavior expected of them. It was also a great opportunity to discuss the challenges of enforcing workplace ethics and the need for businesses to ensure that their employees are held accountable for their actions.

Session on 'Leadership, decision making, interpersonal skills and teamwork-essential survival skills at the workplace-emotional and social intelligence

The session focused on four essential survival skills in the workplace: leadership, decision-making, interpersonal skills and teamwork.

Leadership: The importance of leadership in the workplace was highlighted. It was discussed that leaders should be able to inspire, motivate, and guide others in order to achieve success. It was also discussed that effective leaders must be able to set goals, create plans, delegate tasks, and maintain a positive attitude in order to create an environment conducive to success.

Decision Making: The importance of making informed decisions in the workplace was discussed. It was highlighted that effective decision-making involves gathering and analyzing data, considering the context of the situation, and making decisions that are in the best interests of the organization.

Interpersonal Skills: The importance of developing good interpersonal skills in the workplace was discussed. It was highlighted that effective interpersonal skills involve

communication, active listening, understanding others' perspectives, and building relationships. It was also discussed that having good interpersonal skills can help to create a more positive work environment.

Teamwork: The importance of teamwork in the workplace was discussed. It was highlighted that effective teamwork involves collaboration, communication, trust, and respect. It was also discussed that having strong teamwork skills can help to create a more productive work environment.

Emotional and Social Intelligence: The importance of emotional and social intelligence in the workplace was discussed. It was highlighted that emotional and social intelligence involves understanding one's own emotions and the emotions of others, being able to read and respond to social cues, and being able to handle difficult conversations. It was also discussed that having emotional and social intelligence can help to create a more harmonious work environment.

Session on ' Managing during a crisis with case study'

This session was designed to help participants understand how to manage during a crisis. The session was divided into two parts: a discussion of how to manage a crisis and a case study. The discussion focused on the importance of communication, decision making, and risk management during a crisis. The case study presented was a real-life example of how a company used a combination of these strategies to successfully manage a crisis.

The discussion began with an explanation of how to plan for a crisis. The importance of having a plan in place was emphasized, as it helps to ensure that the right people are in the right places and that all aspects of the crisis are being addressed in a timely manner. Participants were encouraged to consider the potential risks associated with a crisis and to plan for potential worst-case scenarios. The discussion then turned to communication strategies for managing during a crisis. The importance of communicating quickly and clearly was stressed, as well as the need for regular updates and the use of technology for communication. Participants were reminded that it is important to be transparent and honest in communication and to make sure that everyone is on the same page.

The discussion turned to decision making during a crisis. Participants were reminded of the importance of being decisive and of considering the potential risks and benefits of each decision. The need to consider all stakeholders in any decision was also highlighted. Finally, the discussion moved to risk management during a crisis. The importance of understanding the potential risks associated with a crisis and taking steps to mitigate them was emphasized. Participants were reminded to consider both the

short and long-term impacts of a crisis, as well as the potential for further crises in the future.

The second part of the session focused on a activity, the activity of the session is ‘making tower with the help of match-box. The rules are making tower with one pattern of match-box. There were three rounds, two round in blind mode and one round in naked eye mode.

Observation of the activity is as follows

1. It is observed that teamwork is lacking in a group
2. Teamwork improved after practice
3. Planning is lacking in first round has been improving in last round
4. Students shown their competitive potential during activity
5. Activity taught about teamwork and planning and benchmarking for business.

Day- 5

Group discussion (5 topics) and personal interview

The topics for group discussion are as follows

1. Mobile Phone intrude personal time and disturbed work-life balance
2. High Expectation in life kills happiness
3. Cashless economy- Is the society ready for it?
4. Should India and China No first use of nuclear weapons agreements with each other
5. Digital transformation is must to improve efficiency, increase productivity and create a culture of innovation in the organization.

The major observations of group discussion are as follows

1. Some candidate went in debate mode during discussion in fact they could support their group member for sound group discussion.
2. Some group member was cooperative and motivated other group member for adding new nuggets of knowledge.
3. Very few group members well known about the gist and process of group discussion and coordinate well during discussion.
4. Clarity of topic is medium in observation and student needs to explore all things through reading and observation.
5. Students are medium in understanding the nature of the topic.

The major observations of Mock Personal interviews are as follows

1. Students were medium in communication.
2. Students were well prepared for common question of interviews but medium in theory and weak in situational questions.
3. Students were medium in confidence and presentation.
4. Some students were good in theory and situation questions.
5. The biased impact has been observed due to Mock interview and we can assume but not compare the whole situation in mock.

Valedictory Session

The key points of valedictory function are as follows

1. The Principal of SSGMCE, Dr. S.B.Somani initiated talk with potential in future and intentions of ALDP. He also shared the concern of attendance and also inspired who attended the program.
2. The principal of Saraswati College has focused on impact of the program and outcomes of it. Training is successful with its impact and outcomes and irrespective with attendance.
3. Dr. H.M. Jha Bidyarthi remarked with good wishes to freshers for job.
4. Shri Ashok Jambur, The Resource person of the program shared his experience about college, students and Program
5. Dr. Mayur Dande concluded the Program with final Vote of Thanks

- Prof Wechansing Zyamsing Suliya

Dr. Pavan M. Kuchar
Head of the Department

Program Theme (IPR/ R& D and Innovation /Entrepreneurship/ Design Thinking /Incubation and Pre-Incubation /others)	Design –fabricate-Programme the Microcontroller Board
Start date& End Date (DD/MM/YYYY)	19/03/2023 to 22/03/23
Duration of the activity (in hours)	32Hrs(Four Days)
No. Participants (Student / Faculty/If any External participants)	Students Participated - 36 Faculty Present -01

Mode of session (online /offline)	Offline
Program driven by (IIC Calendar activities/Self activities/MIC Activities/Celebration activity)	Quarter III IIC 5.0 Calendar Activity 22-23 (19/03/2023 to 22/03/23
Session recording link /offline venue **All Social media Link (promotion)**	**Venue : *FAB LAB***
Event Coordinator **Faculty Name/Department /Designation**	Prof.Vikram Ingole Department of Electronics and Telecommunication Engineering
Target Participants	Second Year & Third Year Students (Electronics and Tel.Com. Engg Students)
Objective **Benefit in term of learning/skill/knowledge obtained (benefit in term field is required)**	**Objective of this Workshop as follows** • Student will be able to learn design electronics circuits using design software such as Easy EDA • Students will be able to fabricate SMD components • Students will be able to program the microcontroller Board **Outcome of this event are following** After competition of workshop participant are able to • Design own microcontroller Board using EasyEDA software Board • Stuff and soldered SMD Components on double

First Page

	sided PCB • Identification and Testing of SMD Electronics Components • Troubleshooting PCB using HOT and COLD Testing methods. • Program the Microcontroller Board

Overview of the program:

Based on above objective, the department of electronics and telecommunication Shri Sant Gajanan Maharaj College of Engineering, Shegaon in association with ISTE Student Chapter, IEI Mechanical Engg. Student Chapter and Institute Innovation Council has organized **Microcontroller Board Design fabricate program workshop on 19/03/2023** for Second and third year students of Electronics and Telecomm. Eng. Total 36 students and 01 Faculties participated in the mention program.

Detail Schedule of Program:

Time	Day1 19 / 3 / 2023 Sunday
11AM TO 1:00PM	Basics of Electronics Components identification polarity working, packages
1:15PM TO 3:15PM	Starting with Easy EDA All tools, how to use, software roadmap

First Page

3:45PM TO 5:45PM	Design a board Make a Schematic Convert to PCB (work-along)
7:00PM TO 9:00PM	Interesting Topic Discussion Topic1

Time	Day2 20 / 3 / 2023 Monday
11AM TO 1:00PM	Custom Board Design Hedy MCU Different shapes, Images
1:15PM TO 3:15PM	Hedy MCU Assembly components sorting paste application
3:45PM TO 5:45PM	Hedy MCU Assembly component placement Soldering
7:00PM TO 9:00PM	Interesting Topic Discussion Topic2

Time	Day3 21 / 3 / 2023 Tuesday
11AM TO 1:00PM	PCB Inspection Visual Inspection Cold Testing

1:15PM TO 3:15PM	Debugging Desolderig Re-solderig
3:45PM TO 5:45PM	Debugging Hot Testing Test Sheets
7:00PM TO 9:00PM	Interesting Topic Discussion Topic3

Time	Day4 22 / 3 / 2023 Wednesday
11AM TO 1:00PM	Programming The Codes Testing with App
1:15PM TO 3:15PM	Future Scope How to design a project around Hedy MCU
3:45PM TO 5:45PM	Discussion Project Ideas Project Building Blocks
7:00PM TO 9:00PM	Conclude

Interpretation:

1. The Microcontroller Board design workshop proved highly beneficial for virtually all participants.
2. The course aligns well with the expectations of the candidates.
3. Participants express high satisfaction with the trainer's expertise and the effective delivery of course content.
4. The training encompassed suitable demonstrations, activities, presentations, and content, meeting the requirements of the participants.
5. The training effectively achieves the objectives outlined for the program.

ELECTRICAL ENGINEERING DEPARTMENT

Notice

Date10/02/2023

All the students are here by informed that the Department of Electrical Engineering is going to organized a one week training programme on "Python programming for Electrical Engineering" from 25/02/2023 to 02/03/2023. Interested students should register their name with Mr. V. S. Karale by paying the course fees of Rupees 300/- only on or before 22/02/2023.

Resource Person

Mr. Mithilesh Joshi

Coordinator

Mr. V. S. Karale

Head

Dr. S. R. Paraskar

One Week Workshop on "Python Programming for Electrical Engineering"
Conducted By : Mr. Mithilesh Joshi
Organized by: Department of Electrical Engineering
Venue: PLC and Factory Automation Lab.

Day	Date	CONTENT
Saturday	**25/02/2023**	**Introduction to Python and Setting Up the Environment** • Morning Session: ○ Introduction to Python and its applications in electrical engineering. ○ Installing Python and setting up a development environment ○ Basic Python syntax and data types (variables, numbers, strings). • Afternoon Session: ○ Working with variables and basic arithmetic operations. ○ Input and output in Python. Simple Python programs and hands-on exercises
Sunday	**26/02/2023**	**Control Structures and Functions** • Morning Session: ○ Conditional statements (if, elif, else). ○ Looping structures (for and while loops). ○ Practical examples and exercises. • Afternoon Session: ○ Introduction to functions. ○ Defining and using functions. ○ Function parameters and return values. ○ Workshop participants create their own functions.
Monday	**27/02/2023**	**Data Structures in Python** • Morning Session: ○ Lists, tuples, and dictionaries. ○ Slicing and indexing in lists. ○ Practical examples involving data manipulation. • Afternoon Session: ○ Working with files in Python (reading and writing). ○ Error handling and exceptions. ○ Exercises on data structures and file operations.
Tuesday	**28/02/2023**	**Libraries for Electrical Engineering** • Morning Session: ○ Introduction to NumPy and its applications in numerical computing. ○ Num Py arrays, operations, and array

		manipulation. • Afternoon Session: ○ Introduction to matplotlib for data visualization. ○ Creating plots and graphs for electrical data representation. ○ Hands-on exercises with NumPy and matplotlib.
Wednesday	**01/03/2023**	**: Introduction to Pandas and Data Analysis** • Morning Session: ○ Introduction to Pandas for data manipulation and analysis. ○ Reading and writing data with Pandas. ○ Dataframes and basic operations. • Afternoon Session: ○ Exploratory data analysis (EDA) for electrical data. ○ Data cleaning and preprocessing with Pandas. ○ Practical examples and exercises.
Thursday	**02/03/2023**	**Final Projects and Integration** • Morning Session: ○ Group or individual projects where participants apply what they've learned. ○ Assistance and guidance for project development. • Afternoon Session: ○ Presentation of projects and sharing insights. ○ Q&A and open discussion about using Python in electrical engineering. ○ Resources for further learning and career applications.

A Report for

A Course on

"Python Programming for Electrical Engineering"

Mr. Mithilesh Joshi,

Software Development Engineer, Online Sale.AI)

Academic Year 2022-23

Electrical Engineering Department

Shri Sant Gajanan Maharaj College of Engineering,

Khamgaon Road, Shegaon, Dist: Buldhana

Title of Activity	Python Programming for Electrical Engineering
Speaker	Mr. Mithilesh Joshi, Software Development Engineer, Online Sale.Al)
Organizer	Electrical Engineering Department
Schedule of Activity	**25-02-2023 to 02-03-2023**
Duration	30 Hours
Objective of Activity	The primary objective of the Certificate Course on Python Programming for Electrical Engineering, conducted by Mr. Mithilesh Joshi, Software Development Engineer at Online Sale.AI, is to equip electrical engineering students with practical and hands-on skills in Python programming. some key objectives: To Provide participants with hands-on experience in Python programming tailored to the specific needs and challenges of the electrical engineering industry.. To Instill coding best practices and methodologies to ensure participants write efficient, readable, and maintainable Python code. To Enable participants to apply Python programming skills to solve real-world problems encountered in electrical engineering, reinforcing the practical utility of their coding knowledge. To Train participants in effective debugging strategies and optimization techniques to enhance the performance of their Python code, emphasizing efficiency and resource utilization.
Venue	PLC and Factory Automation Lab.
No. of Beneficiaries	27 Students

Program Overview:

The course, led by Mr. Mithilesh Joshi, delivered a comprehensive curriculum covering fundamental to advanced concepts in Python programming tailored specifically for electrical engineering students. The course structure included interactive lectures, practical demonstrations, coding exercises, and real-world applications. Participants were actively engaged in the learning process, fostering a collaborative and dynamic learning environment.

Mr. Joshi's expertise as a Software Development Engineer brought a unique industry perspective to the course, providing valuable insights into how Python is utilized in the field of online sales and software development. The course encouraged active participation, allowing students to apply their newly acquired skills in hands-on projects and case studies.

Learning Outcomes:

Students gained a solid understanding of Python programming language, enabling them to write, debug, and optimize code for electrical engineering applications.

The course emphasized the practical application of Python in the context of Online Sale.AI, offering insights into how programming skills are utilized in software development for online sales platforms

Students developed problem-solving skills by working on industry-relevant projects, addressing challenges commonly encountered in the field of electrical engineering.

The interactive nature of the course facilitated collaboration among participants, encouraging the exchange of ideas and fostering a community of learners.

LEARNING WITHOUT LIMITS · coursera · PROFESSIONAL CERTIFICATE

8 Courses

Foundations: Data, Data, Everywhere

Ask Questions to Make Data-Driven Decisions

Prepare Data for Exploration

Process Data from Dirty to Clean

Analyze Data to Answer Questions

Share Data Through the Art of Visualization

Data Analysis with R Programming

Google Data Analytics Capstone: Complete a Case Study

Apr 17, 2023

Saurabh Kedar

has successfully completed the online, non-credit Professional Certificate

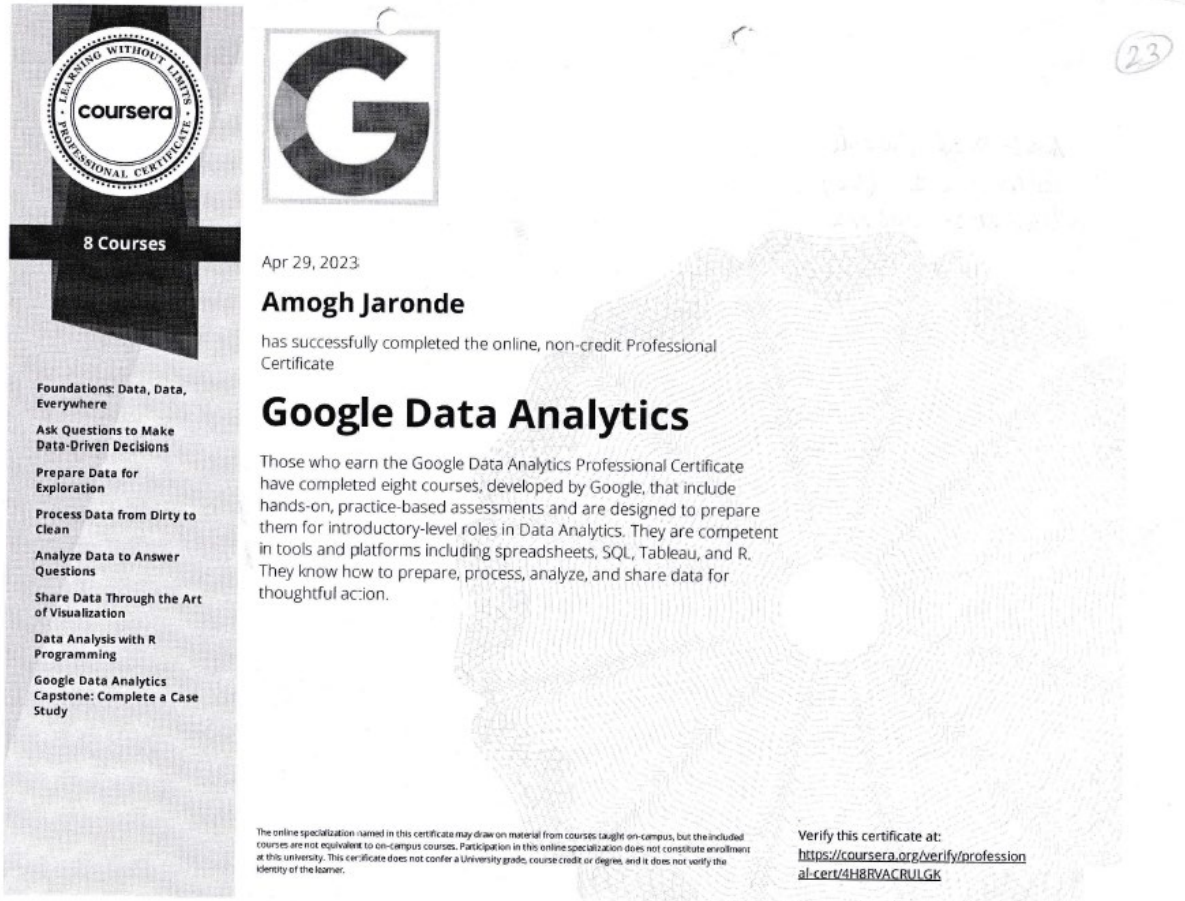

Google Data Analytics

Those who earn the Google Data Analytics Professional Certificate have completed eight courses, developed by Google, that include hands-on, practice-based assessments and are designed to prepare them for introductory-level roles in Data Analytics. They are competent in tools and platforms including spreadsheets, SQL, Tableau, and R. They know how to prepare, process, analyze, and share data for thoughtful action.

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.

6 Courses

- Crash Course on Python
- Using Python to Interact with the Operating System
- Introduction to Git and GitHub
- Troubleshooting and Debugging Techniques
- Configuration Management and the Cloud
- Automating Real-World Tasks with Python

May 8, 2023

Mayur Nehare

has successfully completed the online, non-credit Professional Certificate

Google IT Automation with Python

This six-course certificate, developed by Google, is designed to provide IT professionals with in-demand skills -- including Python, Git, and IT automation -- that can help them advance their careers. The hands-on curriculum is designed to teach learners how to write code in Python, with a special focus on how this applies to automating tasks in the world of IT support and systems administration. Those who received this certificate passed all graded assessments with a score of 80% of above. They should have a strong foundation in how to use Git and GitHub, troubleshoot and debug complex problems, and apply automation at scale by using configuration management and the Cloud in order to prepare them for more advanced IT Support Specialist or Junior Systems Administrator positions.

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment

1. Course on Full Stack Development

SHRI SANT GAJANAN MAHARAJ COLLEGE OF ENGINEERING SHEGAON

DEPARTMENT OF INFORMATION TECHNOLOGY

Spring SEM 2021-2022

Date: 25/01/2022

Respected Sir,

I need to inform you that we are planning to conduct Skill development program on 'FULL STACK DEVELOPMENT' . I would like to invite you as resource person for this workshop from 07/03/2022 to 07/06/2022.

Please Consider it as tentative schedule.

Thanking You.

Prof. A S Manekar

HOD,IT

A Report for

A Course on

"FULL STACK DEVELOPMENT"

By

Mr Ketan Pachpande,

Product Architect,Gigasoft Technologies

Academic Year 2021-22

Shri Sant Gajanan Maharaj College of Engineering,

Khamgaon Road, Shegaon, Dist: Buldhana

Title of Activity	A Course on FULL STACK DEVELOPMENT
Speaker	Mr. Ketan Pachpande , Product Architect,Gigasoft Technologies
Organizer	SSGMCE (IT & CSE)
Schedule of Activity	**7-03-2022 To 07-06-2022**
Duration	12 Weeks
Objective of Activity	The objective of a certificate course in Full Stack Development is to equip participants with the skills and knowledge necessary to become proficient in both front-end and back-end technologies, enabling them to build and maintain web applications from start to finish. some key objectives: Provide Students with a comprehensive set of skills covering both front-end and back-end development technologies. To Offer hands-on experience through real-world projects, allowing participants to apply theoretical knowledge to practical situations. To Teach participants how to design and manage databases, as well as integrate them with web applications. To Emphasize the importance of responsive design principles, ensuring that web applications function well on a variety of devices and screen sizes. Introduce participants to agile development methodologies, emphasizing collaboration, adaptability, and iterative development processes.
Venue	Online
No. of Beneficiaries	39 Students

Course Content

Module 1: Introduction to Product Architecture and Full Stack Development

Understanding the Role of a Product Architect

Overview of Full Stack Development

Introduction to Industry-Relevant Tools and Frameworks

Module 2: Front-End Development

HTML5, CSS3, and JavaScript Fundamentals

Responsive Design Principles

Introduction to Front-End Frameworks (e.g., React, Angular, Vue.js)

Module 3: Back-End Development

Server-Side Scripting Languages (Node.js, Python, Ruby, Java)

Building RESTful APIs

Database Integration and Management (SQL and NoSQL)

Module 4: Database Design and Optimization

Advanced Database Design Principles

Query Optimization and Performance Tuning

Database Security Best Practice

Capstone Project:

Real-world, Industry-Oriented Project

Application of Full Stack Development Skills

Presentation and Evaluation

Program Overview:

This comprehensive Full Stack Development course, led by Mr. Ketan Pachpande, Product Architect at Gigasoft Technologies, is designed to provide students with a deep understanding of product architecture and the skills needed to excel in full-stack development. The course covers a wide range of technologies and methodologies, emphasizing hands-on projects, collaboration, and real-world applications.

The curriculum was meticulously designed to align with current industry trends and practices.

In-depth coverage of front-end technologies (HTML, CSS, JavaScript, React) and back-end development (Node.js, MongoDB) provided a well-rounded understanding of full-stack development. Mr. Ketan Pachpande's expertise as a Product Architect at Gigasoft Technologies enriched the learning experience.

Learning Outcomes:

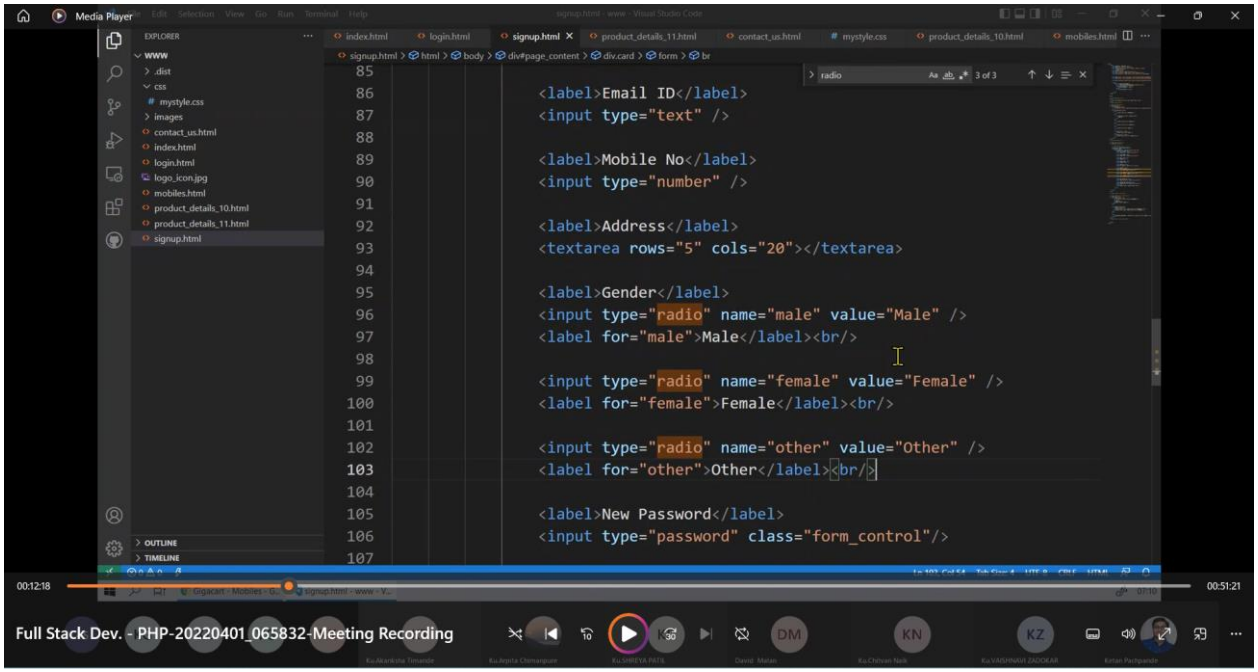

Demonstrated proficiency in front-end and back-end technologies, enabling them to develop end-to-end web applications

Students Developed collaborative skills through version control practices and participation in agile development methodologies.

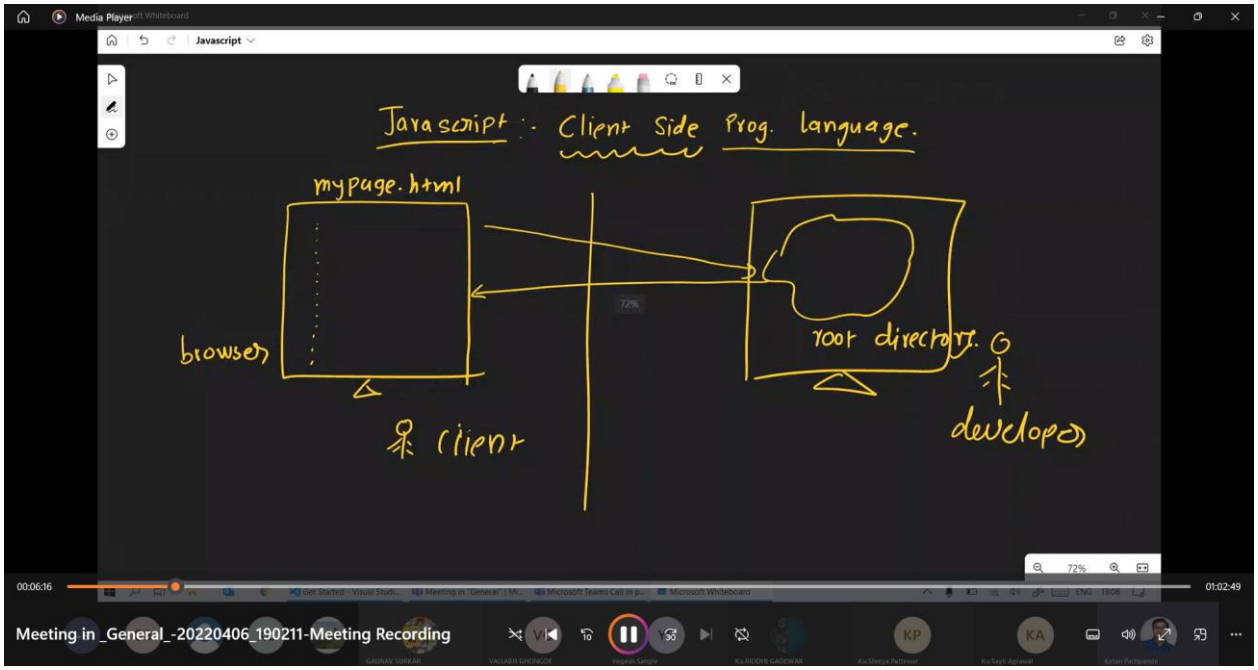

Students Acquired skills in deploying applications to cloud platforms and using containerization for efficient, scalable deployment.
Students gained a deep understanding of securing web applications against common threats.

2.Campus Recruitment Taraining on Java

Department of Information Technology

Workshop Name:-	CAMPUS RECRUITMENT TRAINING ON JAVA		
Dates:-	03.06.2021	No. Of Hours:-	30 Hrs

Objectives of Workshop		Outcome of Workshop	
1	Students will be able to know what is Java	1	Students will write a basic JAVA Program
2	Students will be able to understand the Basic in JAVA Programming	2	Students will demonstrate programming JAVA with Control Statement, Constructors Class and Package.
3	Students will able to know different strategies to solve JAVA questions in interview	3	Students demonstrate their logic to solve interview questions

Technologies and Tools: JAVA

Outlines of the workshop:
- Perquisites of OOP.
- Introduction to JAVA
- Writing JAVA code using Control Statement, Constructors Class and Package.
- Special Session to solve interview/Technical Aptitude Questionnaire.

Brief about Workshop:-

Main aim of this skill development workshop is to introduce concept of JAVA. . Mr.Vishal Mahasane MindTree Limited, Pune is the resource person of the workshop. Thai main aim of this workshop to know about the What is Java?, What are data types?, Control Statement, Import classes and packages, Inheritance etc.

In this Hands-on workshop all the different JAVA Concept and their use with demonstrated to students. Students also given the good response for this workshop.

No. Participants Registered :	Course Targeted(1st year)
54	BE Second and Third Year Students
Resource Person Name and Profile	Coordinator Name
Mr.Vishal Mhaisane	Mr. A. S. Manekar Asst. Prof. Dept. Of I.T.

Signature Of Workshop Coordinator	Signature Of HoD
S. S. Muddalkar	

A Report on

“CAMPUS RECRUITMENT TRAINING ON JAVA”

By

Mr Vishal Mhiasane,

Sr. Software Engineer , Mindtree Limited , Pune

Academic Year 2021-22

Department of Information Technology,

Shri Sant Gajanan Maharaj College of Engineering,

Khamgaon Road, Shegaon, Dist: Buldhana

Titleof Activity	CAMPUS RECRUITMENT TRAINING ON JAVA
Speaker	Mr Vishal Mhiasane, Sr. Software Engineer , Mindtree Limited , Pune
Organizer	Information Technology Department
Schedule of Activity	**3** June 2021-2 July 2021
Time	7.30pm -9.00 Pm
Objective of Activity	1. Students will be able to know what is Java 2. Students will be able to understand the Basic in JAVA Programming 3. Students will able to know different strategies to solve JAVA programming questions in interview
Venue	Online through Microsoft Teams
No. of Beneficiaries	54 Students

Brief Introduction of Resource Person:

Vishal Mhaisanre is a seasoned Senior Software Engineer at Mindtree, Pune, bringing expertise since April 2019. Priorly, he served as a System Engineer at Tata Consultancy Services in Nagpur for 2.5 years, showcasing strong professional tenure in software engineering roles

Program Overview:

Main aim of this training is to introduce concept of C AND C++. Thai main aim of this workshop to know about the What is C and C++?, What are data types?, Control Statement, Object Orinted Concepts in C++,etc. In this Hands-on workshop all the different C AND C++ Concept and their use with demonstrated to students. Pre-placement training in C and C++ generally covers a wide range of topics to prepare students or job candidates for roles that require proficiency in these languages.

Outlines of the workshop:

- Perquisites of OOP.
- Introduction to C AND C++
- Writing C AND C++ code using Control Statement, Constructors Class and Package.
- Special Session to solve interview/Technical Aptitude Questionnaire.

Poster:

Shri Sant Gajanan Maharaj College Of Engineering, Shegaon

ORGANISING

CAMPUS RECRUITMENT TRAINING ON JAVA

For 2nd & 3rd Year
R/U/M/N/S

MindTree Limited, Pune

COURSE CONTENT

Module 1

What is Java?
Execution Model Of Java
Bytecode
How to Get Java?
A First Java Program
Compiling and Interpreting Applications
The JDK Directory Structure
Using Eclipse

What are data types?
Primitive Datatypes & Declarations
Variables & Types
Numeric & Character Literals
Casting & Type Casting
Widening & Narrowing Conversions
The Dot Operator
Precedence and Associativity
Identifiers and Keywords
Escape Sequences
Comments, Java Docs

Operators
Arithmetic operators
Relational operators
Logical operators
Conditional operators
Assignment operators
Grouping operators
Increment/Decrement
Bitwise operators

Control Statement
Selection Statements: if, if-else, switch
Looping Statements: for, while, do-while
Branching Statements: break, continue, return, try-catch-finally, assert

String formatting and Parsing
String Literals
Arrays,Non-Primitive Datatypes

OOPs Concept
Declaring Class, Objects,
Methods & Properties
Access Modifiers
Member Access/Non Access Modifiers
Static members and methods
Getters and Setters

Features of OOPs:-
Encapsulation, Abstraction,
Inheritance, Polymorphism
Enumerated types
Array Of Object

Default Constructor
Constructor Initialization
Constructor Overloading
Invoke constructor using 'this'
Constructor Chaining
Static Blocks, Instance Blocks

Import classes and packages
usage of packages
Package By Feature
Package By Layer
Static Import

Inheritance
Super' Keyword
super : Constructor Call
Ploymorphism :- method
Overloading and Overriding
Varargs
Dynamic Method Dispatch
Dynamic Method Lookup
Shadowing vs. Hiding
Abstract Classes
Interfaces

Usage of Inner Classes
Static Member Classes
& Interfaces
Non-Static Member Classes
Local Classes and Anonymous
Inner Classes
Advantages and Disadvantages
of using Nested/Inner class

Legacy error handling vs. exception handling
try-catch-finally blocks
Checked and Unchecked exceptions
Chained exceptions
Handling hierarchy of exceptions
'finally' clause
try-with-resources statement
Catching Multiple Exception Types.

Module 2

Memory allocation for an object
Garbage Collection
Garbage collection strategies
Use of finalize()
Object: The Cosmic Superclass
The toString() Method
equals(), clone()

"Use fundamental wrapper classes from java.lang package
Autoboxing and Unboxing
Class,Number,Math
java.util.Date,java.sql.Date,
Calendar,GregorianCalendar
NumberFormat

String, String Pool
StringBuilder and StringBuffer
Tokenizing Strings
java.util.regex
Tokenizing with Scanner
Formatting"

Need for Collections.
The Collection Framework
The Collections
API(Java.util) Collection,
Set, List,Queue,
Map Navigable Set,
NavigableMap
Collections class
Comparable and Comparator
Equals() and hashcode()

Define Threads
Differentiate between Process and thread
Types of Threads
Implement threads in java
Life cycle of a thread and thread states
Important methods in Multithreading.

Thread priorities and thread scheduling
Thread synchronization and inter-threaded communication
concurrency - callable, executable, future
Introduction of locks

Types of Streams :-
Byte Streams,
Character streams,
Buffered Streams
Read and Write to files
Java 6 IO enhancements :
Console class ,
New methods added in File class
Serialization

JDBC Driver Types
JDBC Architecture, JDBC types
Basic steps in using JDBC
Three Execute methods
PreparedStatment
CallableStatment
Metadata from DB
Batch Updates
ResultSet Types
Transaction

Module 3

Practice Problem on local machine and verify with reviewer
Practice problem on competating online website
Participate and Perform in online coding contest

Duration

30 Days

Starting From

1st June 2021

Time

8.00to 9.30 am

Chief Co-ordinator
Dr. S.B.Patil (Head SGIRC & CSE)
Prof. A.S. Manekar (Head IT)

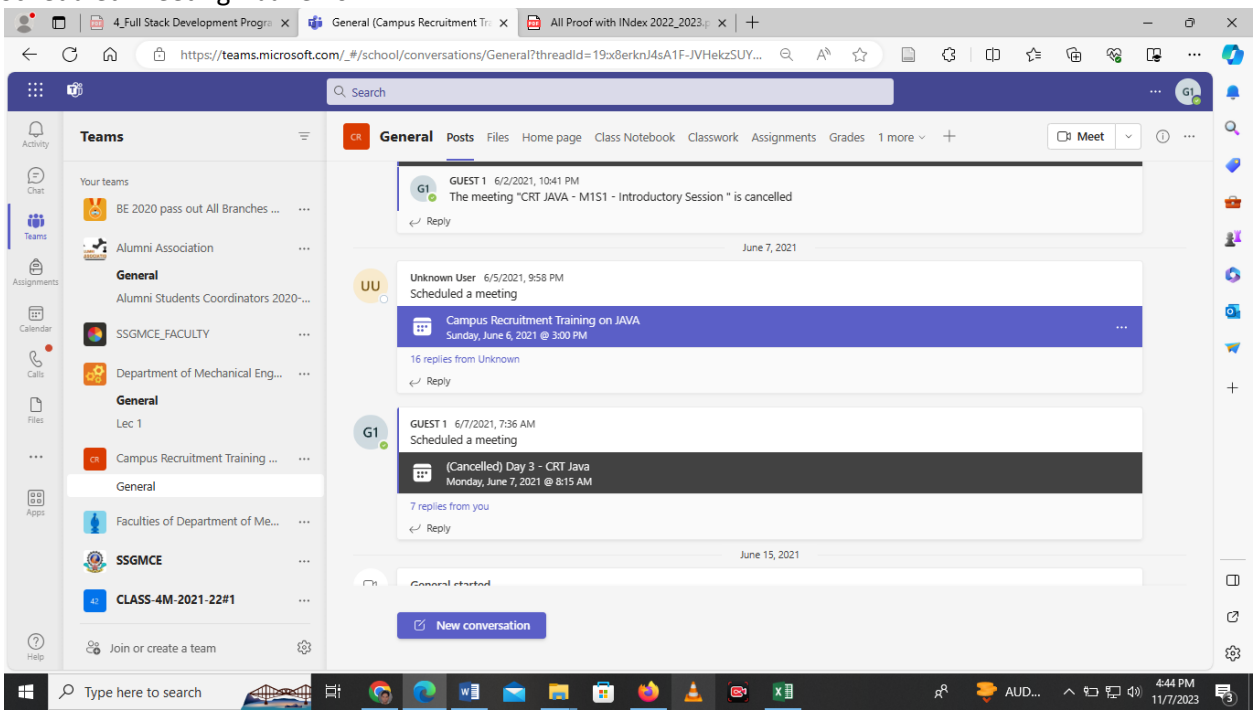

Co-ordinator
CSE :Prof.M.G.Ingle (9764910798)
IT :Prof.S.S.Muddalkar(8446856240)
ExTC:Prof.P.D.Kale (9168396706)
ELPO:Prof.M.R.Chavan (8983442243)
Mech:Dr. N.H.Khandare (7709149028)

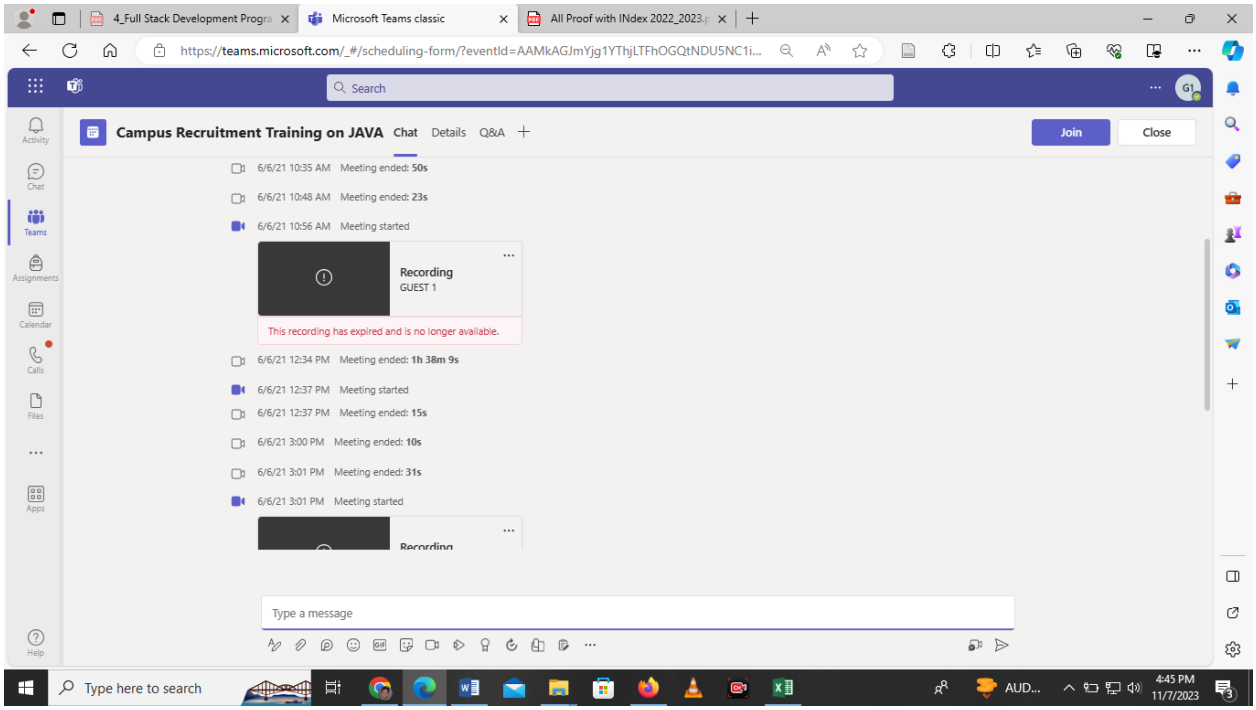

Fees
Rs. 750/-
Pay using UPI

Report on Data Science & Machine Learning

Title	Course on Data Science & Machine Learning
Name of Resource Person	Mr.Tushar B. Kute Data Scientist and Researcher at MITU Technologies, Pune
Co-ordinator	Dr. Ms. R. A. Zamare
Duration	7 March 2022 –To 24 May 2022
Platform	Microsoft Teams
Description	Data science involves the extraction of valuable insights from large and complex data sets. It encompasses data collection, cleaning, analysis, and visualization to inform decision-making. Machine learning, a subset of data science, focuses on creating algorithms that enable computers to learn from data, make predictions, and automate tasks without explicit programming.
No. of participants	27
Outcome	After attending this program students are able to 1. Enhanced Career Opportunities: Graduates are well-equipped for careers in data analysis, machine learning engineering, data engineering, and related fields, which are in high demand. 2. Competitive Skill Set: They gain expertise in data manipulation, analysis, and machine learning techniques, making them highly competitive in the job market. 3. Problem-Solving Proficiency: Students develop strong problem-solving and critical thinking skills, which are valuable in various industries. 4. Versatile Applications: These skills can be applied in diverse sectors, from healthcare and finance to marketing and research, enabling students to work in areas that align with their interests.

SHRI SANT GAJANAN MAHARAJ COLLEGE OF ENGINEERING, SHEGAON (M.S.)
DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING
AUTUMN SEMESTER (Session -2021-22)

Date: 25/01/2022

All the students of department are hereby informed that with the objective to impart hands on technical skills to students in the field of latest trends in Web Development, Data and Network Management, and Artificial Intelligence, under the online Departmental Skill Development Program is organized by Industry Resource Person. Interested candidates should report to departmental coordinator on and before 1/2/2022.

Sr. No.	Class	Title of Course	Resource Person	Departmental Coordinator
1	2nd Year	"Full Stack Development"	Mr. Ketan Pachpande, Founder Gigasoft Technologies, Pune	Mr. S. B. Pagrut
2	3rd Year	"Block chain Technology"	Mr. Yogesh Murumkar, Bharat Soft, Pune	Mr. H. M. Deshmukh
3	4th Year	"Data Science and Machine Learning"	Mr. Tushar Kute, Mitu Technology, Pune	Ms. R. A. Zhamre

HOD, CSE

Department of Computer Science & Engineering

Report on Blockchain Technology

Title	Course on Blockchain Technology
Name of Resource Person	Mr.Yogesh Murumkar CEO, Bharat Soft Technologies
Co-ordinator	Prof. H. M. Deshmukh
Duration	12 March 2022 - 8 May 2022
Platform	Microsoft Teams
Description	Blockchain technology is a decentralized and distributed ledger system that securely records and verifies transactions across a network of computers. Each transaction forms a block, linked to the previous one, creating a chain of data. It is known for its transparency, immutability, and security, making it a foundation for various applications beyond cryptocurrencies, such as supply chain management, voting systems, and smart contracts.
No. of participants	62
Outcome	After attending this program students are able to 1. Understanding of Decentralized Systems: Students acquire a deep understanding of how decentralized, trustless networks operate, enabling them to work on projects that harness the benefits of blockchain technology. 2. Innovation and Entrepreneurship: Some may choose to start their blockchain-based ventures, create decentralized applications (DApps), or explore innovative use cases in various industries. 3. Contribution to Security: They can contribute to the improvement of blockchain security and integrity, addressing critical issues in the field.

Subject: Aptitude Development Program Starts Today on 21st Oct. 2021 at 4:00 pm second year and at 5:15pm for third year engineering students of SSGMCE Shegaon
To: All BE Second & Third Year students.

Aptitude Development Program Starts Today on 21st Oct. 2021 at 4:00 pm for second year and at 5:15pm for third year engineering students of SSGMCE Shegaon

Dear Students,

Greetings from T&P Cell of SSGMCE Shegaon!!!

Hope all are safe and doing well !!!

Over the past few years, (during and post COVID-19), the expectations of the industry from the fresh engineers graduating from institutions have been high and demanding. So, to help the students to meet the industry expectations, we have been giving the required inputs to the students.

Aptitude test is the first part of the recruitment process of almost all companies. To solve the lengthy/complex questions of the aptitude tests, students need to know the tricks/shortcuts and also need to practice well in advance. Keeping all these points in view, we have designed a systematic plan of **200 Hours of Aptitude Development Program** for the students of SSGMCE Shegaon..... We are starting these classes **from 21st October 2021.** For the convenience of the students the classes will be conducted online on MS Teams platform (tentative timing will be as follows: **For BE Second Year:::: from 4:00pm to 5:00pm** and for **BE Third Year::::: from 5:15pm to 6:15pm).** When the students will start attending the other academic classes regularly in the offline manner, the aptitude classes may also be taken offline for more effective learning.

We have assigned the aptitude training to a highly expert and 10+ years experienced trainer **Mr. Ajay Butwani** to train the students on Aptitude Development. He has trained more than 50000 students so far. These aptitude classes would bear a nominal charge of Rs.150/- per semester (for the four semesters, 3rd, 4th,5th and 6th: Thus total Rs 600/-) and will be mandatory for all the students of BE Second and Third Year. Aptitude classes attendance of every SSGMCE student should be 75% and above: it is a basic eligibility condition for all SSGMCE Students to make themselves "Placement Eligible". During your BE Final year there will be a crash course which will be a rapid revision of the entire aptitude syllabus and that would be free of charge. The topic details are mentioned in the word/pdf files attached to this message.

So, we appeal to all the students to attend the Aptitude Development Classes regularly. You will really enjoy the learning!

Wish You All The Best!!!

Help Us Help You!!!

STUDENTS FEED BACK

Aptitude Preparatory Sessions (Online) for BE 2nd year Students (AY 2021-22)

Sample Size: **100**

Sr. No	Question	Poor	Fair	Good	Very Good	Excellent
1	The Training you attended was.	0	6	7	15	72
2	The demonstrations were.	0	7	7	15	71
3	The content presented was.	0	2	8	12	78
4	The trainer's knowledge about the content was	0	1	4	14	81
5	The way trainers taught the contents was.	0	1	6	13	80
6	The activity your participated in were.	0	1	8	12	79
7	The quality of instruction was	0	2	3	14	81
8	The training made the objectives was.	0	2	4	12	82
9	The training made my expectation is.	0	0	3	9	88
10	Adequate time was provided for Questions and Discussions.	0	2	3	7	88

Student's response to the questionnaire as per Feed Back form.

Interpretation:

1) It is seen that almost all the participants found Aptitude Training useful for them.

2) Students learnt how a job candidate might solve different hypothetical problems.

3) It gives insight to students to determine which type of careers they might be good at.

4) A aptitude training designed to test a Student's abilities needed for a particular job.

5) The training Contents are found to be as per the expectations of the candidates.

5) Participants are found to be highly satisfied with trainer's knowledge and content delivery.

6) Demonstration, activity, presentation & content were adequate with respect to the training.

7) Training fulfills the objectives of the programme.

Dear Students,

Greetings from T&P Cell of SSGMCE Shegaon!!!

You are almost on the verge of completing your Third Year of Engineering Course. It is high time to start your preparation for facing the Placement Drives for your batch (2022 passing out batch.)

Aptitude Test is the First Step to crack in order to go ahead for placements in any company. With this view in mind, every year we provide Aptitude Preparatory Classes by Mr. Ajay Butwani Sir, BASE Education, Pune at SSGMCE Shegaon. This year also, we are going to start the classes from **Thursday, 24th June 2021 ,(daily between 4:00pm to 6:00pm except on Sunday which will be a holiday), on MS Teams platform.**

THIS YEAR, TO HELP THE STUDENTS TO BE PREPARED TO GRAB THE OPEN PAN INDIA DRIVES of MANY COMPANIES, T&P team has made the it (Attending the Aptitude Classes) MANDATORY to all the placement aspiring students of BE Third Year (all branches)(2022 passing out batch).

Demo Classes were arranged on **Saturday, 19th June 2021 and Sunday, 20th June 2021 and 23rd June 2021 between 4:00 pm to 6:00pm.** Around 298 students attended the demo classes for the aptitude test preparation. It's a *Great Gesture* by 2022 Batch students and a very strong sign of the determination of the Batch to G*et* S*et* to *Go* for breaking all the records !!!

Presently the classes would be held online and all the topics would be covered in a very lucid and effective manner. **The Fees for the entire course will be just Rs.1000/-**. This cost also includes the company specific Mock Tests for the big companies that will be provided to the students before the respective placement drives. Even after completion of the course, the entire syllabus will be quickly refreshed during the start of your final year session(FREE of Charge.).

If the lockdown opens at that time then, the refresher course will be taken in the campus itself and that will not cost any additional charge to the students. This year, looking at a lot of open opportunities in the job market and hence the **tough competition i**n the market, we have made the aptitude classes mandatory to all the placement aspiring students of BE Third Year of all branches.

The Aptitude program is specially designed for the pre-final year candidates so that they can perform w ell in their **campus recruitment tests**, as well as the technical competitive exams like **GATE.**

The Training is divided into 2 modules

1. 84 hours of **Aptitude topic training(including Quantitative Aptitude, Logical Reasoning, Non-verbal Reasoning & Analytical Reasoning)**
2. 36 hours of **Company specific paper solving (6 hrs per day or as per the students convenience)**

Following table shows the details of the **(14 topics x 3 sub-sections = 42 days) 84hrs** Aptitude program (**2hrs. sub-session per day**)

Session	Sub Division	Sub-Session-A	Sub-Session-B	Sub-Session-C
1	Logical Reasoning	Ice breaking Session of speed maths	Calendars	Clocks
2		Coding Decoding	Letter Series	Number Series
3		Syllogisms	Seating Arrangement	Counting Diagrams
4		Blood Relation	Directions	Data Interpretation
5	Quantitative Aptitude	Ratio	Ages	Mixtures
6		Chain Rule	Time & Work	Pipes & Cisterns
7		Trains	Time Speed Distance	Boats & Streams
8		Averages		Allegations
9		Percentages		Profit & Loss
10		Profit & Loss	Simple Interest	Compound Interest
11		Permutations & Combinations		
12		Probability		
13	Non-verbal & Analytical Reasoning	Cubes & Dices	Statement & Conclusions	Pattern Completion
14		Mirror Image & Water Image	Embedded Figures	Data Sufficiency

Following table show the details of our 6 days 36hrs. Aptitude program (6hrs. per day)

Day	Session 1	Session 2	Session 3
1	TCS NQT previous years paper solving		
2			
3	CAPGEMINI game based aptitude simulation & Questions from various MNC's for Core branch students (Electrical, Mechanical & E&TC)		
4			
5	INFOSYS(INFITY-Q) previous years paper solving & GATE Aptitude Questions from 2016-2021		
6			

Extra benefits: -

1. There will be **online test every week** for analysis of the candidates. Its result will be candidates as soon as test is completed.

2. All the material regarding the method taught will be shared in pdf format with all the candidate

Link for paying the Fees (Rs1000) is provided on our college website : For your ready reference here it is: (while paying the fees Select Payment category as "Other" and in the remarks space write "Fees for Aptitude Classes") (Pay before 11th July 2021) on : https://www.onlinesbi.com/sbicollect/icollecthome.htm

Wish You All The Best!!!

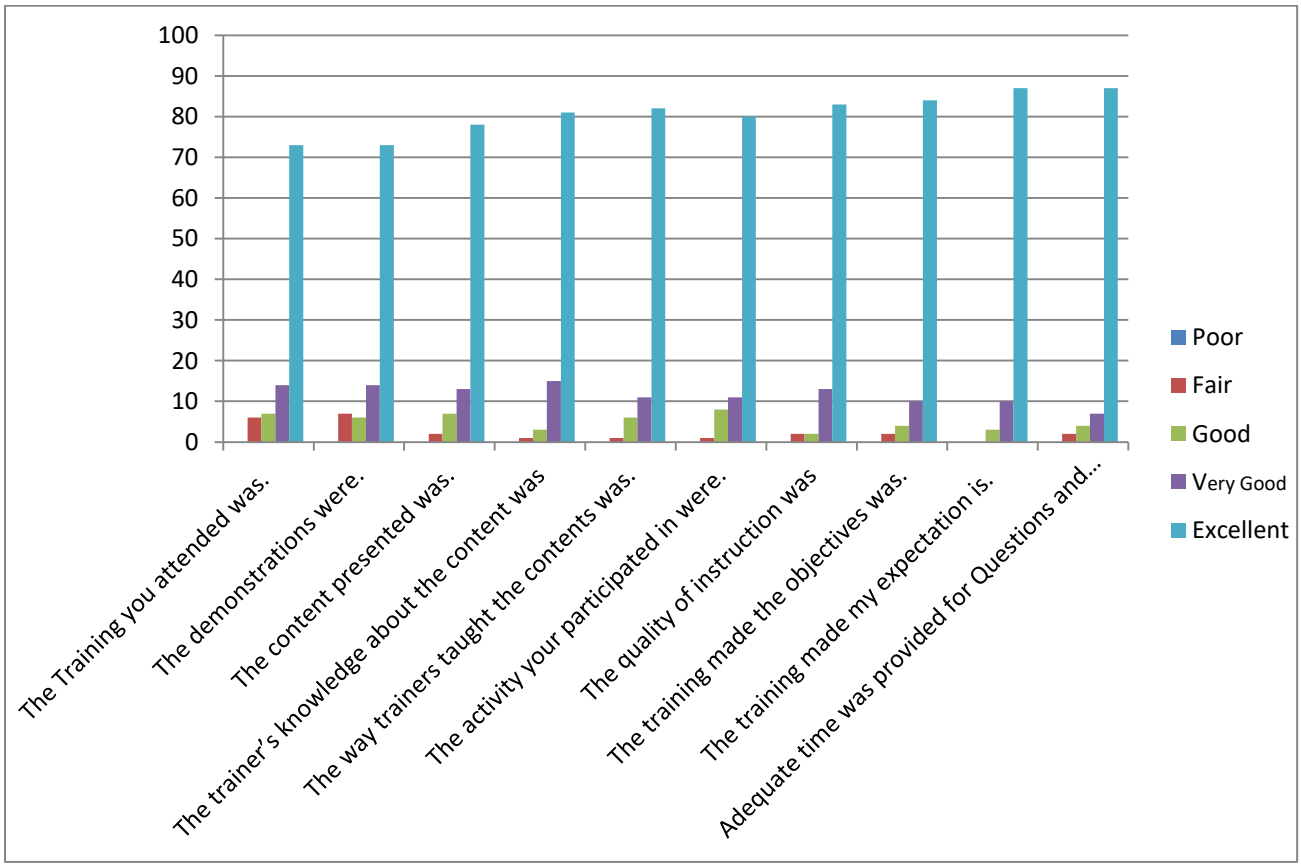

Dr. Vinay Thute

STUDENTS FEED BACK

Aptitude Preparatory Sessions (Online) for BE 3rd year Students (AY 2021-22)

Sample Size: **100**

Sr. No	Question	Poor	Fair	Good	Very Good	Excellent
1	The Training you attended was.	0	6	7	14	73
2	The demonstrations were.	0	7	6	14	73
3	The content presented was.	0	2	7	13	78
4	The trainer's knowledge about the content was	0	1	3	15	81
5	The way trainers taught the contents was.	0	1	6	11	82
6	The activity your participated in were.	0	1	8	11	80
7	The quality of instruction was	0	2	2	13	83
8	The training made the objectives was.	0	2	4	10	84
9	The training made my expectation is.	0	0	3	10	87
10	Adequate time was provided for Questions and Discussions.	0	2	4	7	87

Student's response to the questionnaire as per Feed Back form.

Interpretation:

1) It is seen that almost all the participants found Aptitude Training useful for them.

2) Students found Aptitude can help identify an individual's mathematical strengths.

3) It gives insight to students to determine which type of careers they might be good at.

4) The training Contents are found to be as per the expectations of the candidates and can also help identify an individual's level of intelligence.

5) Aptitude training found to effective tool to increase the employability of candidate.

6) Participants are found to be highly satisfied with trainer's knowledge and content delivery.

7) Demonstration, activity, presentation & content were adequate with respect to the training.

8) Training fulfills the objectives of the programme.

Academic Year 2021-22

NOTICE

Date: 07-02-2022

All the Third Year B.E. Electrical Engineering students are hereby informed that IEI - Department of Electrical Engineering Students' Chapter has organized a Six-Day Workshop **"Introduction to MATLAB Simulink & Programming"** by Mr. G. N. Bonde & Mr. P. R. Dhabe (Assistant Professor, SSGMCE Shegaon)

Duration of Workshop: 10th– 15th February 2022
Time: 11.00 AM to 05.30 PM
Organized by: IEI – Department of Electrical Engineering Students' Chapter, SSGMCE Shegaon
Venue:PLC Lab, ELPO Dept SSGMCE Shegaon

Mr. P. R. Dhabe

A Course on

"Introduction to MATILAB Simulink & Programming"

Mr. G. N. Bonde & Mr. P. R. Dhabe

(Assistant Professor, SSGMCE Shegaon)

Academic Year 2021-22

Electrical Engineering Department

Shri Sant Gajanan Maharaj College of Engineering,

Khamgaon Road, Shegaon, Dist: Buldhana

Title of Activity	Introduction to MATILAB Simulink & Programming
Speaker	Mr. G. N. Bonde & Mr. P. R. Dhabe (Assistant Professor, SSGMCE Shegaon)
Organizer	IEl Department of Electrical Engineering Students' Chapter, SSGMCE Shegaon
Schedule of Activity	**10- 15th February 2022**
Duration	30 Hours
Objective of Activity	The primary objective of the MATLAB, Simulink & Programming Training for Electrical Engineering Students, led by instructors Ganesh Bonde and Pratik Dhabe, is to provide a comprehensive foundation in MATLAB, Simulink, and programming concepts. The course aims to empower electrical engineering students with practical skills, enabling them to utilize MATLAB and Simulink for effective problem-solving and algorithm development. some key objectives: To provide a thorough understanding of the MATLAB environment, command-line operations, and basic programming constructs.. To provide best practices for scripting and functions in MATLAB.. To develop algorithms and coding skills relevant to the field of electrical engineering. To explore real-world applications of programming in the electrical engineering domain.
Venue	PLC Lab, ELPO Dept SSGMCE Shegaon.
No. of Beneficiaries	33 Students

Course Content:

Introduction to MATLAB
MATLAB: Language Fundamentals
MATLAB Programming
MATLAB Graphics- 2D& 3D plots
MATLAB Maths Interpolation and Optimization
MATLAB Simulink
Fundamentals in Model Building
Introduction to Sources and Sinks
Basic Waveforms
Trigonometric Functions
Differential Equations
Spring-Mass-Damper Systems
Control System Design
Modeling of DC machine
Speed Control of DC Machine
Fundamental Programming
Data Types
Matrices

Program Overview:

The course, facilitated by experienced instructors Ganesh Bonde and Pratik Dhabe, offers an immersive learning experience for electrical engineering students. The training combines theoretical knowledge with hands-on applications, equipping participants with the skills necessary for success in the rapidly evolving field of electrical engineering. The hands-on approach, coupled with real-world projects, ensures that participants gain valuable experience in applying MATLAB and Simulink to address challenges in the field of electrical engineering.

Learning Outcomes:

Students can apply MATLAB for data analysis, visualization, and mathematical computations.
Students can develop complex system models using Simulink.

Students are capable of applying programming concepts to solve electrical engineering problems.

Students can conduct simulations and analyze dynamic systems for various electrical engineering applications.

Course Title: Introduction to MATILAB Simulink & Programming

Name of Agency/Trainer: Mr. G. N. Bonde & Mr. P. R. Dhabe (Assistant Professor, SSGMCE Shegaon)

Duration: 10- 15th February 2022.

Tick (only one answer for each question).

Sr. No	Question	Poor	Fair	Good	Very Good	Excellent
1	The Training you attended was.				✓	
2	The demonstrations were.				✓	
3	The content presented was.			✓		
4	The trainer's knowledge about the content was.				✓	
5	The way trainers taught the contents was.					✓
6	The activity your participated in were.			✓		
7	The quality of instruction was					
8	The training made the objectives was.			✓		
9	The training made my expectation is.				✓	
10	Adequate time was provided for Questions and Discussions.				✓	

Write your answers to the following questions.

1) What did you like best about the training?

The training was more practical. That helped us to get more knowledge.

2) Are there any areas that should be included in training?

I will like to have more modeling

3) Are there any areas that should be improved for future training?

Everything was good.

Dr.M.N. Tibdewal

Shri Sant Gajanan Maharaj College of Engineering, Shegaon

Collaboration with Department of Computer Science & Engineering and Electronics & Telecommunication Engineering

Course Contents

Course Description:

This hands-on training program introduces you to the C programming language. You will start with the layout of a C program and venture into control statements, loops, functions and basic I/O. Your development skills, more complex data types such as arrays, structures, pointer and File handling.

Course Objectives:

Students will be able to:

- Write a basic Concept of programming Language
- Identify errors and able to implement complex logic
- Able to implement modular programs
- Learn Problem Solving techniques

Course Outcomes:

After Completion of course students will be able to

- Solve simple C programming
- Implement the new logic based on their existing knowledge
- New programming languages
- Ready to design, implement, test and debug different programs
- Implement algorithms.

Syllabus (Module wise)

Module 00: Introduction to C Programming - Course Introduction

Module 01: What is C?

- History of C
- Purpose of the language
- Basic features of C

Module 02: A Simple C Program

- Layout
- Header Files
- Main Function and its description
- Standard I/O functions
- Console I/O functions
- Simple Programs

Module 03: Variables & Data types

- Characters, integers, and floating-point numbers
- Naming variables
- Constants
- Basic Programs

Module 04: Arithmetic Operators

- Addition, Subtraction, Multiplication, Division, Modulus
- Integer vs. Floating point arithmetic
- Precedence
- Assignment operators
- Increment/decrement operators
- Programs based on operators

Module 05: Control Structure

- Jump Statements
  - ✓goto statement
  - ✓break statement
  - ✓return statement
  - ✓continue statement
- Selection Statements
  - ✓If and if-else statements
  - ✓Nested if-else statements
  - ✓Switch-case statements
- Loop Statements
  - ✓While loop
  - ✓Do-while loop
  - ✓For loop

Module 06: Array

- Introduction to array (1D and 2D)
- Applications of array
- Implementation of Sorting algorithm
- Implementation of Searching algorithm
- Introduction to character Array
- String and their string Manipulation function

Module 07: Pointer

- Introduction to pointer
- Pointer operators
- Programs based on pointer

Module 08: Functions

- Introduction to function
- Call by value
- Call by reference
- Programs based on functions

Module 09: Introduction to user define data types

- Introduction to Structure
- Array of structure
- Introduction to union
- Program based on structure and union

Module 10: File Handling

SHRI SANT GAJANAN MAHARAJ COLLEGE OF ENGINEERING, SHEGAON

EXTC Department

Workshop Summary Report

Workshop Title **:** C Programming with mini project

Date **:** 13 Jan -5 Feb 2022

Location **:** DSP LAB

Organizing Institute **:** SSGMCE, Shegaon

Workshop Facilitators **:** Mr. M.Y.Kashikar

Number of Participants **:**108

Workshop Objectives:

1 Provide student with a thorough understanding of the basic programming operations and techniques using various algorithm.

2. Train student to identify and troubleshoot common issues that may arise while doing programming.

3. Teach techniques for writing various algorithm.

Outcomes:

1. Student can quickly identify and address minor programming issues.

2. Student can be able to write and execute various programming algorithms.

3.Student can also be able to rectify the programming problems.

Course Title: Course Title: C Programming with mini project

Name of Agency/Trainer: Mr. M.Y.Kashikar

Duration: 13-01-2022 to 13-02-2022

Tick (only one answer for each question.

Sr. No	Question	Poor	Fair	Good	Very Good	Excellent
1	The Training you attended was.					✓
2	The demonstrations were.				✓	
3	The content presented was.					✓
4	The trainer's knowledge about the content was.					✓
5	The way trainers taught the contents was.					✓
6	The activity your participated in were.				✓	
7	The quality of instruction was					✓
8	The training made the objectives was.					✓
9	The training made my expectation is.				✓	
10	Adequate time was provided for Questions and Discussions.				✓	

Write your answers to the following questions.

1) What did you like best about the training?

The best thing about training was it was informative as well as practical skills were gained

2) Are there any areas that should be included in training?

No

3) Are there any areas that should be improved for future training?

Application based projects

Interpretation:

- The training was well-received and deemed valuable by the participants.
- Practical demonstrations were engaging and contributed positively to the learning experience.
- Participants express a high degree of satisfaction with the trainer's expertise and the successful delivery of the course content.
- Students found the activities to be effective, but there is still room for improvement in certain aspects of the hands-on activities to ensure consistency in participant engagement.
- The overall delivery of the course content was effective and met students' expectations.

Mechanical Engineering Department

Date: 04/02/2022

Notice

All second-year students are hereby informed that our department is organizing an add-on course on the "Basics of AutoCAD." The course will commence on March 2, 2022, and is expected to conclude around March 21, 2022. Interested students are required to register their names with Shri P. M. Deshmukh at the CAD/CAM Lab by February 20, 2022.

Venue: CAD/CAM Lab

Timing: 8:00 AM to 10:00 AM (Monday to Friday)

Summary Report

Name of course: Basic of AutoCAD

Name of the Course Coordinator: Prof. C.V. Patil

Career Avenues: Completing a course on AutoCAD can open up several career opportunities, especially in the fields of advanced manufacturing and industrial automation.

Objectives of the Course

The objectives of the "Basics of AutoCAD" course include introducing students to AutoCAD's fundamental principles, teaching basic 2D drawing skills, and covering key concepts like layer management, dimensioning, and text annotation.

Outcomes of the Course

CO1: Students will demonstrate the ability to create, edit, and manipulate 2D drawings, utilizing AutoCAD's drawing tools and commands effectively.

CO2: Students will develop skills in organizing drawings through layer management and will be proficient in adding text, labels, and annotations to enhance drawing clarity.

CO3: Students will be able to apply AutoCAD concepts to real-world projects by successfully completing drawing assignments, demonstrating precision in measurements, and generating print-ready drawings.

.

Schedule of the Course:

Date	Time	Topics
March 2, 2022	8:00 AM - 10:00 AM	New for AutoCAD
		- General Updates
		- Drawing Compare
March 3, 2022	8:00 AM - 10:00 AM	New for AutoCAD (cont.)
		- Document Improvements
		- Layer Enhancements
March 4, 2022	8:00 AM - 10:00 AM	Introduction to AutoCAD
		- Introduction to AutoCAD
		- Getting Started with AutoCAD
March 5, 2022	8:00 AM - 10:00 AM	Starting with Sketching
		- Drawing Lines
		- Creating Other 2D Objects
March 7, 2022	8:00 AM - 10:00 AM	Starting with Sketching (cont.)
		- AutoCAD Polylines
		- Adding Points
March 8, 2022	8:00 AM - 10:00 AM	Working with Drawing Aids
		- Drawing Aids
		- More Drawing Aids
March 9, 2022	8:00 AM - 10:00 AM	Editing Sketched Objects
		- Editing Sketched Objects
		- Duplicating Objects
March 10, 2022	8:00 AM - 10:00 AM	Editing Sketched Objects (cont.)
		- Separating and Joining Sketched Objects
		- More Editing Tools
March 11, 2022	8:00 AM - 10:00 AM	Layers
		- Working with Layers
		- Layer Tools
March 12, 2022	8:00 AM - 10:00 AM	Editing Sketched Objects II
		- Object Properties
		- Utilizing Grips
March 14, 2022	8:00 AM - 10:00 AM	Creating Text and Tables
		- Annotative Objects
		- Creating Text
March 15, 2022	8:00 AM - 10:00 AM	Creating Text and Tables (cont.)
		- Using Tables
		- More Text Tools
March 16, 2022	8:00 AM - 10:00 AM	Dimensioning and Detailing Your Drawings
		- Dimensioning
		- More Dimensioning
March 17, 2022	8:00 AM - 10:00 AM	Dimensioning and Detailing Your Drawings
		- Working with True Associative Dimensions
		- Adding Leaders
March 19, 2022	8:00 AM - 10:00 AM	Editing Dimensions
		- Editing Dimensions Using Editing Tools
		- Editing Dimensions Part 2
March 21, 2022	8:00 AM - 10:00 AM	Dimension Styles
		- Dimension Styles
		- Using Dimension Styles

Course Content

Module 1: Introduction to AutoCAD

- Introduction to AutoCAD
- Getting Started with AutoCAD

Module 2: Basic Sketching

- Drawing Lines
- Creating Other 2D Objects
- AutoCAD Polylines
- Adding Points

Module 3: Drawing Aids and Editing

- Working with Drawing Aids
- More Drawing Aids
- Editing Sketched Objects
- Duplicating Objects
- Separating and Joining Sketched Objects
- More Editing Tools

Module 4: Layers and Text

- Working with Layers
- Layer Tools
- Editing Sketched Objects II
- Object Properties
- Utilizing Grips
- Creating Text and Tables
- Annotative Objects
- Creating Text
- Using Tables
- More Text Tools

Module 5: Dimensioning and Detailing

- Dimensioning
- More Dimensioning
- Working with True Associative Dimensions
- Adding Leaders
- Editing Dimensions
- Editing Dimensions Using Editing Tools
- Editing Dimensions Part 2
- Dimension Styles

Module 6: Advanced Techniques

- Adding Constraints to Sketches
- Dimensions, Parameters, and Equations
- Hatching Drawings
- Modifying Hatch Properties
- Paper Space
- Paper Space Layouts
- Adding Viewports
- Working with Viewports
- Layout Tools
- Plotting Drawings In AutoCAD
- Plot Styles and Page Setups
- Publishing to other File Types
- Template Drawings
- Templates
- Customizing Templates
- Working with Blocks
- Inserting Blocks
- Changing Blocks
- Dynamic Blocks
- Building Dynamic Blocks
- AutoCAD Sheet Sets

Course Quiz: Basics of AutoCAD

Please select the most appropriate answer for each question. Each question will carry 1 mark.

1. What does CAD stand for in AutoCAD?
    a) Computer-Animated Design
    b) Computer-Aided Drafting
    c) Creative Architectural Design
    d) Computer-Generated Artwork
2. Which command is used to draw a straight line in AutoCAD?
    a) LINE
    b) CIRCLE
    c) ARC
    d) RECTANGLE
3. Which AutoCAD workspace is designed for 3D modeling?
    a) 2D Drafting & Annotation
    b) 3D Basics
    c) 3D Modeling
    d) Animation
4. What is the purpose of the "Extrude" command in AutoCAD?
    a) To create a copy of an object
    b) To extend a line segment
    c) To create 3D objects from 2D shapes
    d) To adjust the view of the drawing
5. Which AutoCAD feature allows you to specify exact angles and distances for drawing lines?
    a) Polar Tracking
    b) Object Snap
    c) Dynamic Input
    d) Ortho Mode
6. What is the default file format for saving AutoCAD drawings?
    a) .DWG
    b) .DXF
    c) .ACAD
    d) .CAD
7. In AutoCAD, what does the "Layer" feature allow you to do?
    a) Create 3D objects
    b) Organize and control the visibility of drawing elements
    c) Insert external files
    d) Animate drawings
8. What does the "Block" command do in AutoCAD?
    a) Deletes objects from the drawing
    b) Groups objects together to create a single entity
    c) Change the color of selected objects
    d) Draw a circle

9. Which AutoCAD command is used to create a circular shape?
    a) CIRCLE
    b) ARC
    c) ELLIPSE
    d) SPLINE
10. What is the purpose of "Hatching" in AutoCAD?
    a) To add realistic shading to drawings
    b) To copy and paste objects
    c) To mirror objects
    d) To create 3D objects
11. Which AutoCAD command allows you to create a mirror image of selected objects?
    a) MIRROR
    b) OFFSET
    c) ROTATE
    d) SCALE
12. Which workspace in AutoCAD is suitable for creating technical drawings and blueprints?
    a) 3D Modeling
    b) Parametric
    c) 2D Drafting & Annotation
    d) 3D Basics
13. What is the purpose of the "Fillet" command in AutoCAD?
    a) To round off the corners of objects
    b) To erase objects
    c) To extend lines
    d) To create arcs
14. Which AutoCAD tool helps you align objects with precise measurements?
    a) ALIGN
    b) STRETCH
    c) ARRAY
    d) MOVE
15. What is the purpose of "Snap Mode" in AutoCAD?
    a) To save and load drawings
    b) To align objects to a grid or predefined points
    c) To copy objects
    d) To create layers
16. Which AutoCAD command is used to change the size of an object uniformly?
    a) STRETCH
    b) SCALE
    c) MOVE
    d) TRIM
17. What is the primary use of the "Purge" command in AutoCAD?
    a) To print drawings
    b) To clean and remove unused items from the drawing
    c) To create a backup of the drawing
    d) To create 3D objects

18. In AutoCAD, which command allows you to divide an object into equal segments?
    a) DIVIDE
    b) HATCH
    c) PLOT
    d) OFFSET
19. Which AutoCAD feature allows you to set the display area for your drawing?
    a) ZOOM
    b) PAN
    c) SCALE
    d) STRETCH
20. What is the purpose of the "Explode" command in AutoCAD?
    a) To create copies of objects
    b) To combine multiple objects into one
    c) To change the drawing's scale
    d) To create 3D models

Answers:

a) .DWG

b) Organize and control the visibility of drawing elements

c) Groups objects together to create a single entity

a) CIRCLE

a) To add realistic shading to drawings

a) MIRROR

b) 2D Drafting & Annotation

a) To round off the corners of objects

a) ALIGN

b) To align objects to a grid or predefined points

c) SCALE

b) To clean and remove unused items from the drawing

a) DIVIDE

a) ZOOM

b) To combine multiple objects into one

Course Duration: 30 hours (2 weeks, weekdays 3.45-5.45 pm & Saturdays 11 am-1.30 pm, 2 pm-4.30 pm)

Faculty: Prof. B. T. Husain (Internal Resource Person)

Session Timetable:

Week	Day	Date	Time	Topic Covered
Week 1	Monday	07-02-22	3:45 pm - 5:45 pm	Introduction to Microsoft Excel, Interface
Week 1	Tuesday	08-02-22	3:45 pm - 5:45 pm	Data Entry and Formatting
Week 1	Wednesday	09-02-22	3:45 pm - 5:45 pm	Cells, Rows, and Columns
Week 1	Thursday	10-02-22	3:45 pm - 5:45 pm	Basic Formulas and Functions
Week 1	Friday	11-02-22	3:45 pm - 5:45 pm	Data Validation and Error Handling
Week 1	Saturday	12-02-22	11:00 am - 1:30 pm	Sorting and Filtering Data
Week 2	Monday	14-02-22	3:45 pm - 5:45 pm	Workbook Protection and Security
Week 2	Tuesday	16-02-22	3:45 pm - 5:45 pm	Conditional Formatting
Week 2	Wednesday	18-02-22	3:45 pm - 5:45 pm	Data Visualization Techniques
Week 2	Thursday	20-02-22	3:45 pm - 5:45 pm	Data Tables and Pivot Tables
Week 2	Friday	22-02-22	3:45 pm - 5:45 pm	Charts and Graphs
Week 2	Saturday	24-02-22	11:00 am - 1:30 pm	Data Analysis Tools
Week 2	Saturday	24-02-22	2:00 pm - 4:30 pm	Text Functions and Formulas
				Case solving in Excel and Assessment
				Course Feedback and Certification

Session Outcome:

Ph : +918669638081/82
Email.principal@ssgmce.ac.in, registrar@ssgmce.ac.in
Website- www.ssgmce.ac.in

Participants in the Microsoft Excel course have completed a comprehensive 30-hour training program. They have gained a strong foundation in Excel basics, advanced data manipulation techniques, data analysis, and advanced functions. Additionally, they have learned to create charts, graphs, and pivot tables, design dashboards, and work with macros and VBA for automation. The course concluded with a project presentation and assessment to ensure a deep understanding of the topics covered.

This course has been conducted successfully by Prof. B. T. Husain, an internal resource person from the Department of Business Administration and Research. The participants have acquired valuable skills that will enhance their proficiency in Microsoft Excel, allowing them to apply their knowledge in various academic and professional settings.

Certifications were be awarded to participants upon successful completion of the course

Feedback Summary:

Participants have provided feedback on their proficiency in various topics covered during the course, rating their understanding on a scale of 1-5 (1 - Poor, 5 - Excellent).

The majority of participants have rated their proficiency as 4 or above in key topics.

Overall, Participants have demonstrated good to very good proficiency in most areas of the course.

Certifications were awarded to participants upon successful completion of the course.

Annexure:

Case/Project used for assessment/final project:

Case 1:

Case Study: Grade Calculator

Background:

You want to create a simple Excel spreadsheet to calculate your grades for a class. You'll input your scores for various assignments, and the spreadsheet will calculate your final grade based on a pre-defined grading scale.

Tasks:

Data Entry (Topics: Data Entry and Formatting):

Create a new worksheet and label it "Grade Calculator."

Set up columns for Assignment Name, Points Earned, and Total Points Possible.

Input the names of assignments or exams in the Assignment Name column.

Basic Calculations (Topics: Basic Formulas and Functions):

In the Points Earned column, enter the scores you received for each assignment.

In the Total Points Possible column, enter the maximum possible scores for each assignment.

Calculate Percentages (Topics: Basic Formulas and Functions):

In a new column, calculate the percentage for each assignment using the formula **(Points Earned / Total Points Possible) * 100.**

Ph : +918669638081/82
Email.principal@ssgmce.ac.in, registrar@ssgmce.ac.in
Website- www.ssgmce.ac.in

Final Grade Calculation (Topics: Basic Formulas and Functions):

Calculate your final grade based on the following grading scale:

A: 90-100

B: 80-89

C: 70-79

D: 60-69

F: 0-59

Use an IF statement to determine your final grade based on your calculated percentage.

Data Validation (Topics: Data Validation and Error Handling):

Use data validation to ensure that the Points Earned and Total Points Possible columns only accept numeric values.

Report (Topics: Workbook Protection and Security):

Add a simple header with your name and course details to the worksheet.

Protect the worksheet to prevent unauthorized changes.

Assessment:

You will be assessed on your ability to create a functional grade calculator in Excel. The assessment will focus on the accuracy of the calculations, your proficiency in basic Excel functions, and the presentation of the final grade.

Ph : +918669638081/82
Email.principal@ssgmce.ac.in, registrar@ssgmce.ac.in
Website- www.ssgmce.ac.in

Case 2:

Case Study: Travel Itinerary and Expense Tracker

🌍 Your Upcoming Adventure 🌍

Introduction:

You're about to embark on an exciting international adventure, and you want to create a dynamic travel itinerary and expense tracker using Excel. This will help you plan your trip, keep track of your activities, and monitor your expenses on the go.

Tasks:

🗓️ Travel Itinerary (Topics: Data Entry and Formatting):

Create a new worksheet titled "Travel Itinerary."

Set up columns for Date, Destination, Activity, Time, and Notes.

Fill in the itinerary with details of your daily activities during your trip, including the date, destination, planned activity, time, and any additional notes.

🌟 Highlighting Special Events (Topics: Conditional Formatting):

Use conditional formatting to highlight special events or unique activities during your trip. For example, highlight the day of a special festival or celebration in a different color.

📊 Interactive Map (Topics: Charts and Graphs):

Create an interactive map of your destinations using an online map tool or by inserting a map image. Pinpoint each destination on the map, and hyperlink the destinations to their corresponding details in the itinerary.

💰 Expense Tracker (Topics: Data Validation and Error Handling):

Create a new worksheet titled "Expense Tracker."

Set up columns for Date, Expense Category, Expense Description, Amount, and Payment Method.

Enter details of your expenses during the trip, including the date, expense category, description, amount, and payment method.

📈 Expense Summary (Topics: Charts and Graphs):

Create a bar chart to visualize your expenses by category. Each category will represent a bar, and the height of the bar will indicate the total expense for that category.

📅 Daily Expense Summary (Topics: Pivot Tables and Pivot Charts):

Use a pivot table to create a daily expense summary. This table will show the total expenses for each day, allowing you to monitor your daily spending.

📖 Personal Travel Diary (Topics: Workbook Protection and Security):

Keep a personal travel diary by adding a new worksheet for each day. You can write about your experiences, memories, and reflections. Protect this diary worksheet with a password for privacy.

🔍 Item Search (Topics: Advanced Functions and Formulas):

Create a search feature that allows you to find specific items (activities or expenses) within your itinerary or expense tracker based on keywords.

Assessment:

You will be assessed on your ability to create an engaging and functional travel itinerary and expense tracker. The assessment will focus on the organization of your trip details, the accuracy of data entry, proficiency in Excel functions, the quality of interactive features, and the overall presentation.

Department of Information Technology

Workshop Name:-	Pre-Placement Training on C and C++		
Dates:-	03.06.2021	No. Of Hours:-	30 Hrs

	Objectives of Workshop		Outcome of Workshop
1	Students will be able to know what is C and C++	1	Students will write a basic C AND C++ Program
2	Students will be able to understand the Basic in C and C++ Programming	2	Students will demonstrate programming C AND C++ with Control Statement, Constructors Class and Package.
3	Students will able to know different strategies to solve C AND C++ questions in interview	3	Studentsdemonstrate their logic to solve interview questions

Technologies and Tools: C AND C++

Outlines of the workshop:

- Perquisites of OOP.
- Introduction to C AND C++
- Writing C AND C++ code using Control Statement, Constructors Class and Package.
- Special Session to solve interview/Technical Aptitude Questionnaire.

Brief about Workshop:-

Main aim of this skill development workshop is to introduce concept of C AND C++. Mr.KetanPachpande Sr. Software Developer at Veritas, Pune is the resource person of the workshop. Thai main aim of this workshop to know about the What is C and C++?,What are data types?,Control Statement,Import classes and packages,Inheritance etc.

In this Hands-on workshop all the different C AND C++ Concept and their use with demonstrated to students. Students also given the good response for this workshop.

A Report on

“Pre Placement Training on C and C ++”

By

Mr Ketan Pachpande,

Sr.Developer,VeritasTechnologies, Pune

M.Tech- IIT, Kharagpur

Academic Year 2020-21

Department of Information Technology,

Shri Sant Gajanan Maharaj College of Engineering,

Khamgaon Road, Shegaon, Dist: Buldhana

Titleof Activity	Pre Placement Training On C and C+=
Speaker	Mr Ketan Pachpande, Sr. Developer ,Veritas Technologies, Pune
Organizer	Information Technology Department
Schedule of Activity	1 June 2021-29 June 2021
Time	7.30pm -9.00 Pm
Objective of Activity	1. Students will be able to know what is C and C++ 2. Students will be able to understand the Basic in C and C++ Programming 3. Students will able to know different strategies to solve C AND C++ questions in interview
Venue	Online through Microsoft Teams
No. of Beneficiaries	63 Students

Brief Introduction of Resource Person:

Mr Ketan Pachpande has done his graduation in Bachelor of Technology, Information Technology from the Veermata Jijabai Technological Institute (VJTI), Mumbai in 2009. He has done his Postgraduation in Master of Technology (MTech), Information Technology from the Indian Institute of Technology, Kharagpur in 2012. He has 10 years of experience in the software domains.

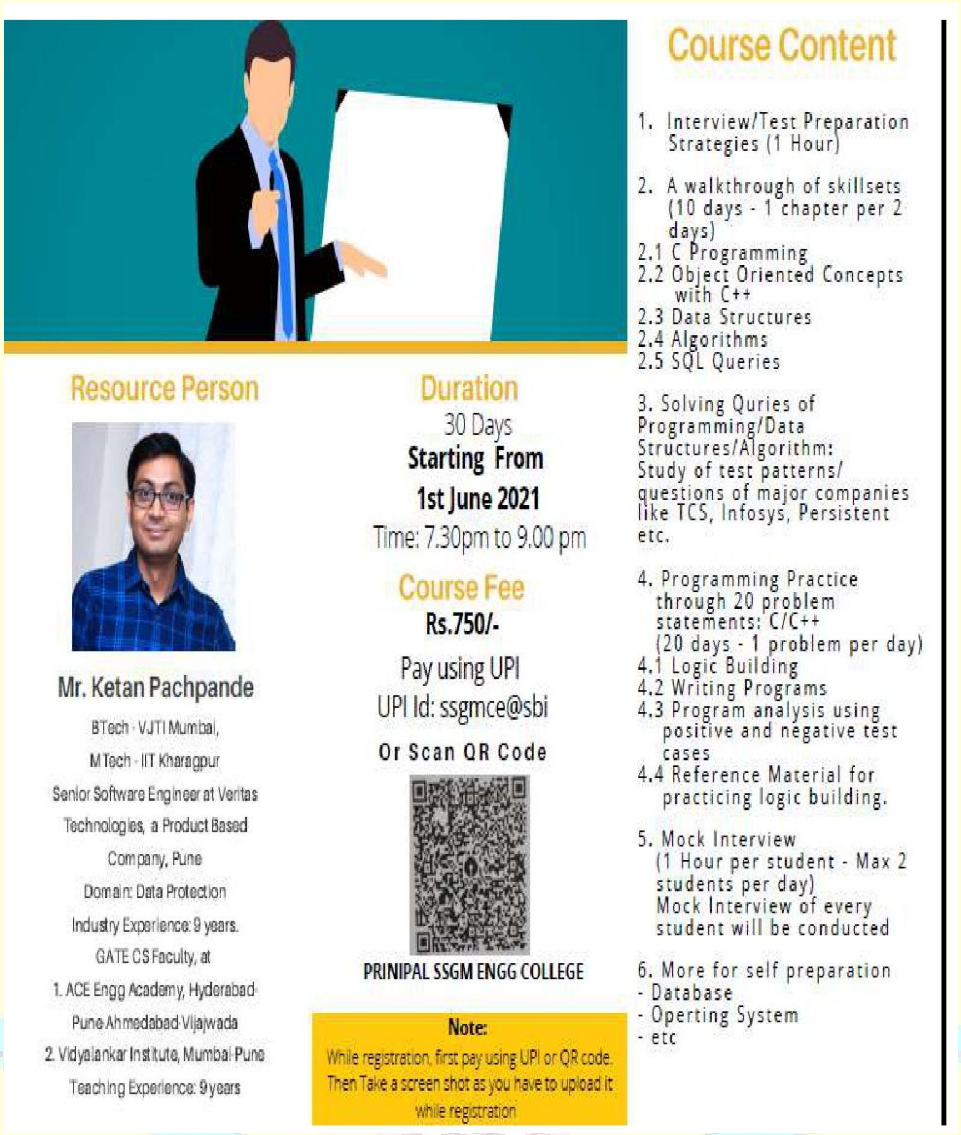

Program Overview:

Main aim of this training is to introduce concept of C AND C++. Thai main aim of this workshop to know about the What is C and C++?, What are data types?, Control Statement, Object Orinted Concepts in C++,etc. In this Hands-on workshop all the different C AND C++ Concept and their use with demonstrated to students. Pre-placement training in C and C++ generally covers a wide range of topics to prepare students or job candidates for roles that require proficiency in these languages.

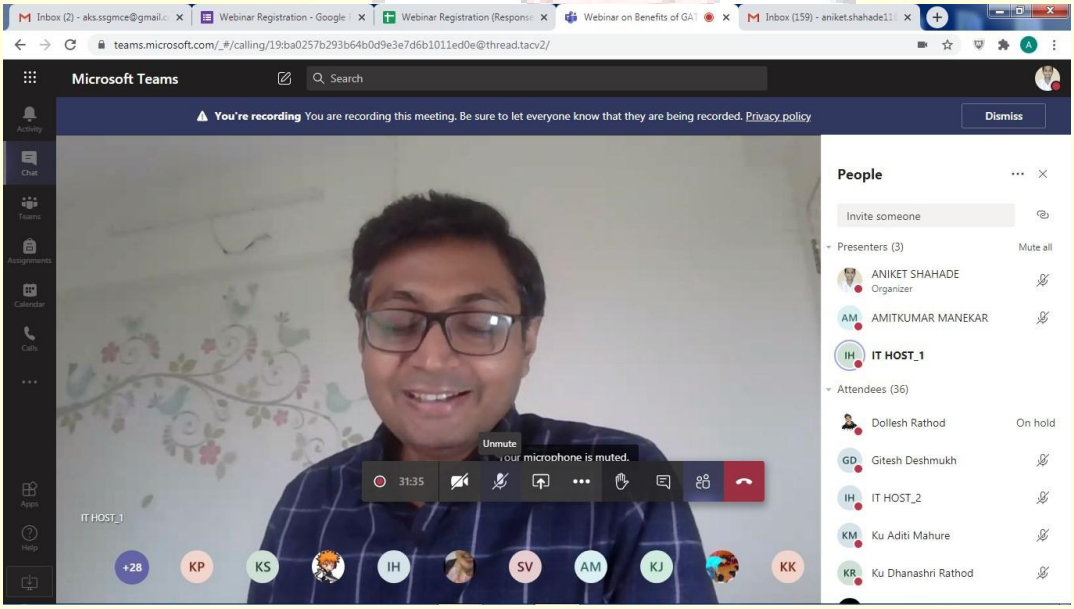

Outlines of the workshop:

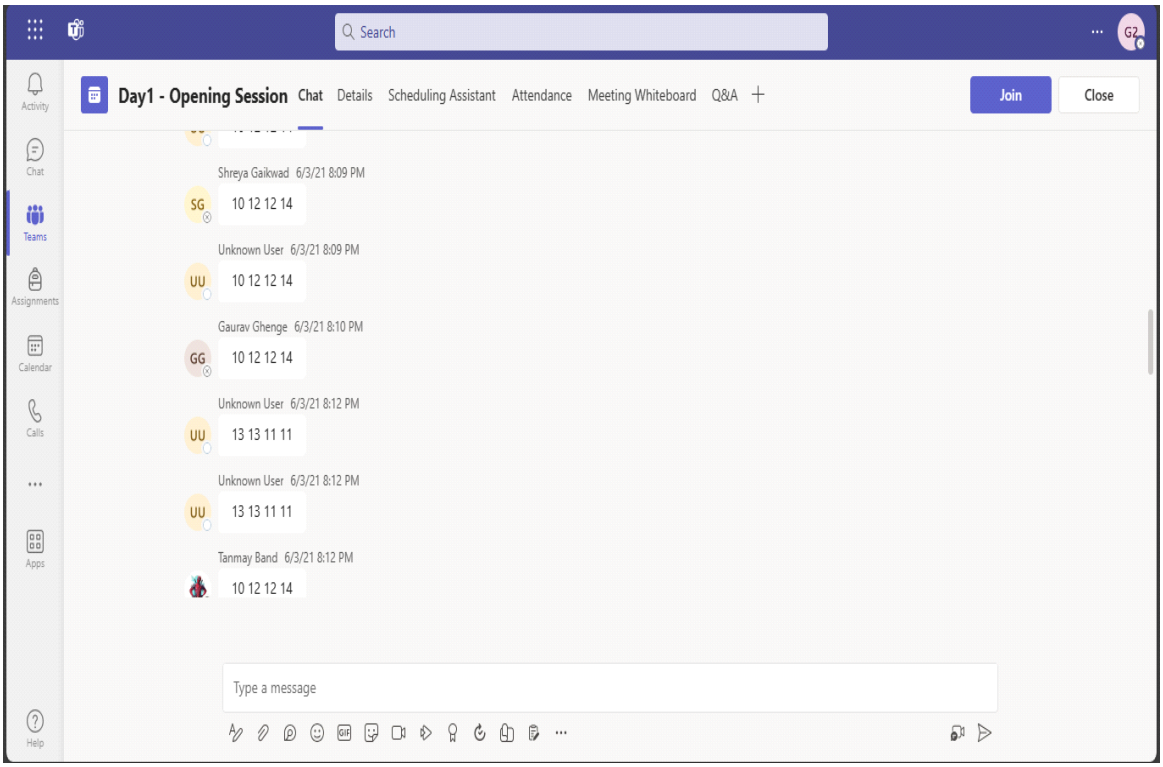

- Perquisites of OOP.
- Introduction to C AND C++
- Writing C AND C++ code using Control Statement, Constructors Class and Package.
- Special Session to solve interview/Technical Aptitude Questionnaire.

“Aptitude Preparatory Sessions BE 3rd year Students ”

Academic Year 2020-21

Shri Sant Gajanan Maharaj College of Engineering,
Khamgaon Road, Shegaon, Dist: Buldhana

Sr No	Title of Activity	**Aptitude Preparatory Sessions BE 3rd Year Students**
1	Speaker	Mr. Ajay Butwani
2	Co-Ordinator	Prof V.K. Thute
3	Co-Cordinator	Prof. Mrs. H S Patil
4	Schedule of Activity	Started from 19th June 2020. **Total 84 Hrs per year**
5	Time	As per scheduled in Time table and notice
6	Objective of Activity	**1.** To make students able to critically evaluate various real-life situations. **2.** To demonstrate various principles involved in solving mathematical problems and thereby reducing the time taken for performing job functions. **3.** The main aim of introducing "Quantitative Aptitude"for mathematics students is to develop skill to meet the competitive examinations for better job opportunity. **4.** Effort has been made to accommodate fundamental, mathematical aspects to instill confidence among students. **5.** Enrich their knowledge and to develop their logical reasoning thinking ability.
7	Venue	**Virtual Mode**
8	No. of Beneficiaries	473
9	Syllabus	Attached herewith

About Program:

There are various topics under the syllabus of Quantitative Aptitude. Topics such as work and wages, permutation and combination, profit and loss, age, probability, percentages, ratios and many more. The above article contains all these important topics.

Aptitude tests are often used to assess academic potential or career suitability and may be used to assess either mental or physical talent in a variety of domains.

In general, aptitude tests measure one's competence in logical reasoning, numerical skills, or verbal ability; competency can be evaluated through problem-solving tasks and testing one's critical thinking across various contexts.

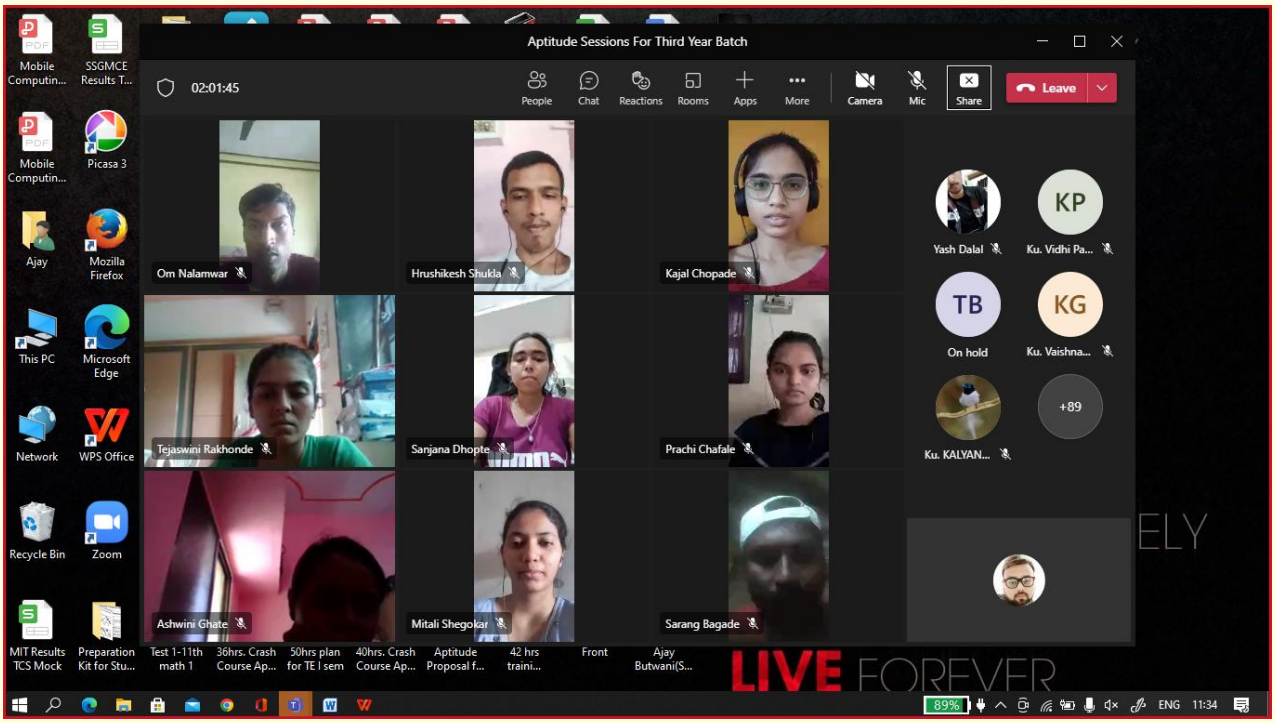

Topics Covered:
Permutations & Combinations, Probability, Simplification, Surds, Indices, Progression, Data interpretation, Data Sufficiency, Non Verbal series, Analogs, Pattern, Water and Mirror image.

Learning Outcomes:

After successful completion of this course, students will have the knowledge and skills to

1. It helps Candidates to conquer the success in job tests.
2. Solve the problems easily by using Short-cut method with time management which will be helpful to them to clear the competitive exams for better job opportunity.
3. Analyze the Problems logically and approach the problems in a different manner.

Dear Students,

Greetings from T&P Cell of SSGMCE Shegaon!!!

You are almost on the verge of completing your Third Year of Engineering Course. It is high time to start your preparation for facing the Placement Drives for your batch (2022 passing out batch.) Aptitude Test is the First Step to crack in order to go ahead for placements in any company. With this view in mind, every year we provide Aptitude Preparatory Classes by Mr. Ajay Butwani Sir, BASE Education, Pune at SSGMCE Shegaon. This year also, we are going to start the classes from Monday, 21st June 2021 (the exact timing will be finalized with discussion with the students during the Demo Class.)

Demo Classes are arranged on **Saturday, 19th June 2021 and Sunday, 20th June 2021 between 4:00 pm to 6:00pm.** All the placement aspiring students of BE Third Year (all branches) should attend the demo classes on MS Teams. The demo class link will be shared with you on Saturday, 19th June 2021 on your class whatsapp group.

Presently the classes would be held online and all the topics would be covered in a very lucid and effective manner. The Fees for the entire course will be just Rs. 1000/-. This cost also includes the company specific Mock Tests for the big companies that will be provided to the students before the respective placement drives. Even after completion of the course, the entire syllabus will be quickly refreshed during the start of your final year session(FREE of Charge.).

If the lockdown opens at that time then, the refresher course will be taken in the campus itself and that will not cost any additional charge to the students. This year, looking at a lot of open opportunities in the job market and hence the **tough competition i**n the market, it is highly recommended that every placement aspiring students of BE Third Year all branches should register for these classes.

The Aptitude program is specially designed for the pre-final year candidates so that they can perform well in their **campus recruitment tests**, as well as the technical competitive exams like **GATE.**

The Training is divided into 2 modules

1. 84 hours of **Aptitude topic training(including Quantitative Aptitude, Logical Reasoning, Non-verbal Reasoning & Analytical Reasoning)**
2. 36 hours of **Company specific paper solving (6 hrs per day or as per the students convenience)**

Following table shows the details of the **(14 topics x 3 sub-sections = 42 days) 84hrs** Aptitude program (**2hrs. sub-session per day**)

Session	Sub Division	Sub-Session-A	Sub-Session-B	Sub-Session-C
1	Logical Reasoning	Ice breaking Session of speed maths	Calendars	Clocks
2		Coding Decoding	Letter Series	Number Series
3		Syllogisms	Seating Arrangement	Counting Diagrams
4		Blood Relation	Directions	Data Interpretation
5	Quantitative Aptitude	Ratio	Ages	Mixtures
6		Chain Rule	Time & Work	Pipes & Cisterns
7		Trains	Time Speed Distance	Boats & Streams
8		Averages		Allegations
9		Percentages		Profit & Loss
10		Profit & Loss	Simple Interest	Compound Interest

11		Permutations & Combinations		
12		Probability		
13	Non-verbal & Analytical Reasoning	Cubes & Dices	Statement & Conclusions	Pattern Completion
14		Mirror Image & Water Image	Embedded Figures	Data Sufficiency

Following table show the details of our 6 days 36hrs. Aptitude program (6hrs. per day)

Day	Session 1	Session 2	Session 3
1	TCS NQT previous years paper solving		
2			
3	CAPGEMINI game based aptitude simulation & Questions from various MNC's for Core branch students (Electrical, Mechanical & E&TC)		
4			
5	INFOSYS(INFITY-Q) previous years paper solving & GATE Aptitude Questions from 2016-2021		
6			

Extra benefits: -

1. There will be **online test every week** for analysis of the candidates. Its result will be candidates as soon as test is completed.

2. All the material regarding the method taught will be shared in pdf format with all the candidates.

Link for registering yourself for the Aptitude Classes (register before Monday, 21st June 2021) :https://forms.gle/ZpLp3r5adLugfC9K6

STUDENTS FEED BACK

Aptitude Preparatory Sessions (Online) for BE 3rd year Students (AY 2020-21)

Sample Size: **100**

Sr. No	Question	Poor	Fair	Good	Very Good	Excellent
1	The Training you attended was.	0	10	20	19	51
2	The demonstrations were.	0	7	7	18	68
3	The content presented was.	0	2	11	22	65
4	The trainer's knowledge about the content was	0	1	4	17	78
5	The way trainers taught the contents was.	0	1	6	16	77
6	The activity your participated in were.	0	1	8	15	76
7	The quality of instruction was	0	2	4	15	79
8	The training made the objectives was.	0	2	6	12	80
9	The training made my expectation is.	0	0	3	10	87
10	Adequate time was provided for Questions and Discussions.	0	2	3	10	85

Student's response to the questionnaire as per Feed Back form.

Interpretation:

1) It is seen that almost all the participants found Aptitude Training useful for them.

2) Students understand their potential for success in a particular profession.

3) It gives insight to students to determine which type of careers they might be good at.

4) The training Contents are found to be as per the expectations of the candidates.

5) Participants are found to be highly satisfied with trainer's knowledge and content delivery.

6) Demonstration, activity, presentation & content were adequate with respect to the training.

7) Training fulfills the objectives of the programme.

PROFESSIONAL CERTIFICATE

6 Courses

- Crash Course on Python
- Using Python to Interact with the Operating System
- Introduction to Git and GitHub
- Troubleshooting and Debugging Techniques
- Configuration Management and the Cloud
- Automating Real-World Tasks with Python

07/20/2020

Google

Abhishek Moharir

has successfully completed the online, non-credit Professional Certificate

Google IT Automation with Python

This six-course certificate, developed by Google, is designed to provide IT professionals with in-demand skills -- including Python, Git, and IT automation -- that can help them advance their careers. The hands-on curriculum is designed to teach learners how to write code in Python, with a special focus on how this applies to automating tasks in the world of IT support and systems administration. Those who received this certificate passed all graded assessments with a score of 80% of above. They should have a strong foundation in how to use Git and GitHub, troubleshoot and debug complex problems, and apply automation at scale by using configuration management and the Cloud in order to prepare them for more advanced IT Support Specialist or Junior Systems Administrator positions.

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.

Verify this certificate at:

“Campus Recruitment Development Programme (Aptitude) BE 4th yearStudents ”

Academic Year 2019-20

Shri Sant Gajanan Maharaj College of Engineering,
Khamgaon Road, Shegaon, Dist: Buldhana

Sr No	Title of Activity	**Campus Recruitment Development Programme (Aptitude) BE 4th year Students**
1	Speaker	Mr. Ajay Butwani
2	Co-Ordinator	Prof V.K. Thute
3	Co-Cordinator	Prof. Mrs. H S Patil
4	Schedule of Activity	Slot 1-20th, 21st, 27th & 28th July 2019 (Notice Attached) Slot2 – 28th & 29th Sept 2019 Time 08:00am to 12:00pm and 03:00pm to 06:00pm. **Total 42 Hrs**
5	Time	As per scheduled in Time table and notice
6	Objective of Activity	**1.** To make students able to critically evaluate various real-life situations. **2.** To demonstrate various principles involved in solving mathematical problems and thereby reducing the time taken for performing job functions. **3.** The main aim of introducing "Quantitative Aptitude"for mathematics students is to develop skill to meet the competitive examinations for better job opportunity. **4.** Effort has been made to accommodate fundamental, mathematical aspects to instill confidence among students. **5.** Enrich their knowledge and to develop their logical reasoning thinking ability.
7	Venue	Swadhyay Kaksh Hall, SSGMCE Shegaon
8	No. of Beneficiaries	Total-197
9	Syllabus	Attached herewith

About Program:

Aptitude tests are often used to assess academic potential or career suitability and may be used to assess either mental or physical talent in a variety of domains.

There are various topics under the syllabus of Quantitative Aptitude. Topics such as work and wages, permutation and combination, profit and loss, age, probability, percentages, ratios and many more. The above article contains all these important topics.

In general, aptitude tests measure one's competence in logical reasoning, numerical skills, or verbal ability; competency can be evaluated through problem-solving tasks and testing one's critical thinking across various contexts.

Topics Covered:

Permutations & Combinations, Probability, Simplification, Surds, Indices, Progression, data interpretation, Data Sufficiency, Non Verbal series, Analogs, Pattern, Water and Mirror image, Square root, cube roots, Ratio proportions, partnerships, Averages, Allegation's & Mixtures, Questions on Ages, Number Series & Letter Series, Coding, decoding, calenders.

Learning Outcomes:

After successful completion of this course, students will have the knowledge and skills to

1. Solve the problems easily by using Short-cut method with time management which will be helpful to them to clear the competitive exams for better job opportunity.
2. Analyze the Problems logically and approach the problems in a different manner.

About Program:

Fear, anxiety, and panic are all common emotions that can be experienced in life. Fear can be triggered by a particular situation, such as public speaking or a job interview. Anxiety can be a result of a high-stakes situation or an impending deadline. And panic can arise when life feels overwhelming or out of control.

However, fear, anxiety, and panic can all be managed and even overcome with the right strategies and techniques. In this article, we'll explore various ways to help you conquer these emotions and gain control of your life.

The first step in overcoming fear, anxiety, and panic is to gain a better understanding of these emotions. By knowing what triggers them and recognizing the signs, you can start to take control of the situation. Fear is usually triggered by a specific event or situation, and you can feel it in the form of physical symptoms such as sweating, shaking, and a racing heart.

Anxiety is usually caused by a sense of uncertainty and can manifest as feelings of dread or nervousness. Panic is a more intense emotion that can be caused by feelings of being overwhelmed and out of control.

About Program:

Public speaking, also called oratory or oration, has traditionally been defined as speaking in person to a live audience. Today, the term can also refer to speaking to an audience through digital technology. Public speaking is important for developing leadership abilities because it helps you convey your ideas effectively to others. The ability to persuade others and help them change their minds is essential for becoming an effective leader.

Group discussion (GD) is a comprehensive technique to judge the suitability of an individual and his appropriateness for admission, scholarship, job, etc. GD assesses the overall personality – thoughts, feelings and behaviour - of an individual in a group. A topic is presented to the group members for discussion.

A group discussion tests the teamwork and Communication Skill of candidates. A group discussion involves a discussion on a given topic with other candidates, usually with similar experience and educational qualifications. Performing well in a group discussion helps you to get noticed and practicing for one improves your public speaking skills. In this article, we will review what a group discussion is, its importance in the selection process, the skills evaluated during a group discussion and how to perform well in this round.

Do's of GD: Listen to other participants, maintain eye contacts with other participants, Give others time to peak, keep potential disagreement polite, Dress professionally, support your claim, welcome arguments, prepare for discussion, acknowledge others before speaking, initiate the conversation, plan your entry point, plan your exit point, take notes, ask for clarification, show confidence.

Don'ts of GD: Enter the conversation quickly, Over speak, Speak about other topics, Repeat other participants, Speak or gesture boldly, Interrupt others, Bring irrelevant or false statistics, Appear insecure, Share information that isn't valuable, Have negative body language, Share participant's space, Make eye contact with the evaluators, Focus on only one participant, Use judgmental language, Worry if the topic is unfamiliar.

Glimpse of Training

Mr. Kshushrow Irani practicing Public Speaking activity with students.

7	Venue	**Physical Mode**
8	No. of Beneficiaries	Total- **400**
9	Syllabus/Topics	Attached herewith

About Program:

Self-awareness is your ability to perceive and understand the things that make you who you are as an individual, including your personality, actions, values, beliefs, emotions, and thoughts. Essentially, it is a psychological state in which the self becomes the focus of attention.

Self-esteem is how we value and perceive ourselves. It's based on our opinions and beliefs about ourselves, which can feel difficult to change. We might also think of this as self-confidence**.** Self-esteem is confidence in one's own worth, abilities, or morals. Self-esteem encompasses beliefs about oneself as well as emotional states.

Public speaking, also called oratory or oration, has traditionally been defined as speaking in person to a live audience. Today, the term can also refer to speaking to an audience through digital technology. Public speaking is important for developing leadership abilities because it helps you convey your ideas effectively to others. The ability to persuade others and help them change their minds is essential for becoming an effective leader.

Having strong communication skills aids in all aspects of life – from professional life to personal life and everything that falls in between. From a business standpoint, all transactions result from communication. Good communication skills are essential to allow others and yourself to understand information more accurately and quickly.

Mr. Sanjay kale practicing communication skill activity with students.

Mr. Kshushrow Irani practicing communication skill activity with students

"Industrial Approach in
Electronics and Arduino Programming"”

Mr. Sanjay Chaudhari
Managing director, Electronics Study Center Nashik

Academic Year 2019-20

Electrical Engineering Department
Shri Sant Gajanan Maharaj College of Engineering,
Khamgaon Road, Shegaon, Dist: Buldhana

Title of Activity	Industrial Approach in Electronics and Arduino Programming
Speaker	Mr. Sanjay Chaudhari Managing director, Electronics Study Center Nashik
Organizer	Electrical Engineering Department
Schedule of Activity	30th August to 03th September 2019.
Duration	30 Hours
Objective of Activity	The primary objective of the training program was to provide participants with a deep understanding of industrial electronics, covering principles, components, and applications in real-world industrial settings. some key objectives: To equip participants with hands-on experience in Arduino programming, focusing on its applications in industrial contexts. To provide practical, hands-on experience with PLC programming, troubleshooting, and configuring industrial automation systems. To cover industry-specific topics and case studies to ensure participants are familiar with the latest trends, challenges, and advancements in the field. To foster collaboration and teamwork among participants through group projects and interactive sessions, simulating real-world industrial scenarios.
Venue	A2 Class Room (Electrical Engineering Department)
No. of Beneficiaries	48 Students

Course Content:

Introduction to Industrial Electronics

Overview and importance in automation

Basic principles and components

Arduino Programming Fundamentals

Introduction to Arduino platform

IDE and programming basics

Input/Output handling with Arduino

Applications of Electronics in Industry

Hands-on Arduino Projects

Team formation and project assignments

Collaboration techniques in industrial settings

Project management in electronics

Safety Protocols in Industrial Electronics

Program Overview:

The Industrial Approach in Electronics and Arduino Programming training program, conducted by Mr. Sanjay Chaudhari, Managing Director of Electronics Study Center Nashik, aimed to provide electrical engineering students with a comprehensive understanding of industrial electronics and practical skills in Arduino programming.

The program, spanning [duration], featured a well-balanced curriculum with theoretical sessions, hands-on projects, and collaborative learning activities. Participants delved into industrial electronics principles, Arduino programming, and applied their knowledge through practical projects

Learning Outcomes:

Students gained proficiency in industrial electronics and Arduino programming, enhancing their ability to contribute to industrial projects.

Application of theoretical knowledge in real-world industrial scenarios through hands-on projects and simulations

Students gained a thorough understanding of working of electronics components

Increased awareness of safety protocols and standards in industrial electronics, ensuring responsible and secure practices

A Course on

"Training on AutoCAD Software"

Mr. Vijay Kumar Bhambri, Nagpur

Academic Year 2019-20

Mechanical Engineering Department

Shri Sant Gajanan Maharaj College of Engineering,

Khamgaon Road, Shegaon, Dist: Buldhana

Title of Activity	Training on AutoCAD Software
Speaker	Mr. Vijay Kumar Bhambri, Nagpur
Organizer	Mechanical Engineering Department
Schedule of Activity	**27-07-2019 to 10-08-2019**
Duration	35 Hours
Objective of Activity	Primary objective of The Training on AutoCAD Software, is to familiarize mechanical engineering students with the basics of AutoCAD software, including its interface, tools, and functionalities. some key objectives: To develop proficiency in 2D drafting, enabling students to create precise and detailed technical drawings using AutoCAD.. To introduce students to 3D modeling techniques, allowing them to create three-dimensional representations of mechanical components and assemblies. To provide practical insights into the application of AutoCAD in mechanical design, emphasizing industry-relevant practices and standards. To explore collaborative design features within AutoCAD, emphasizing teamwork and effective communication in the design process.
Venue	CAD/CAM Lab
No. of Beneficiaries	24 Students

Course Content:

The course covered the following key topics:

Course Content: AutoCAD Software Training

Module 1: Introduction to AutoCAD

Overview of AutoCAD software
User interface and navigation
Basic commands and tools

Module 2: 2D Drafting and Design

Creating and editing 2D geometries
Precision drafting techniques
Layers and annotations

Module 3: 3D Modeling Techniques

Introduction to 3D modeling
Creating 3D objects and surfaces
Extrusion, revolves, and sweep commands

Module 4: Application in Mechanical Design

Practical application of AutoCAD in mechanical design
Industry standards and practices
Case studies on real-world mechanical design projects

Program Overview:

The AutoCAD training conducted by Mr. Vijay Kumar Bhambri in Nagpur aimed to equip mechanical engineering students with essential skills in computer-aided design.

Mr. Vijay Kumar Bhambri, the facilitator of the AutoCAD Software Training Program, implemented a dynamic and comprehensive teaching approach. Through a series of engaging lectures, he adeptly conveyed theoretical knowledge; ensuring participants grasped the fundamental concepts of AutoCAD. The inclusion of practical sessions provided a hands-on learning experience, allowing students to apply theoretical understanding to real-world scenarios. To reinforce learning, Mr. Bhambri incorporated assignments, challenging participants to solidify their grasp of AutoCAD concepts and techniques. Furthermore, the program featured project work, offering participants the opportunity to synthesize their acquired skills and showcase their proficiency in practical design scenarios. This multifaceted teaching methodology fostered a well-rounded understanding of AutoCAD, preparing participants for effective application in the field of mechanical design.

Learning Outcomes:

Students demonstrated proficiency in using AutoCAD for 2D drafting and 3D modeling.

Students gained practical insights into applying AutoCAD in mechanical design, understanding industry standards and practices.

Students gained the basic understanding and application of analysis and simulation tools within using AutoCAD.

Shri Sant Gajanan Maharaj College of Engineering, Shegaon

Department of Mechanical Engineering

Date: 26/07/2019

Notice

The following students of 2M have registered their names for the AutoCAD course organized by our department. They are informed to note the following details about the course.
Venue: CAD/CAM lab
Timing: 8.30am to 10.30am and 4.00pm to 6.00pm

Batch start date: 27/07/2019

SN	Name of student	SN	Name of student
1	Abhinav Dhale	14	Sandesh Wankhade
2	Ankur Tikait	15	Sanjay Patil
3	Ashwin Pote	16	Sarang Jadiye
4	Dhanraj Burewar	17	Shivam Mapari
5	Kapil Wawre	18	Swapnil Dabhade
6	Mohd Kamran	19	Mrunal Bajare
7	Pankaj Meshram	20	Ritika Dhenge
8	Ayush Rajput	21	Ruche Joshi
9	Pradumna Raut	22	Sonal Jangale
10	Prasanna Patil	23	Vaishnavi Bhatkar
11	Ritik Bharwad	24	Siddhesh Jejurkar
12	Sahil Gawande	25	Shubham Tayade
13	Rutik Dhage		

Prof. C V Patil
Lab incharge (CAD/CAM Lab),
Dept of Mech Engg,

Course Feedback Form

Academic Year 2019-20

Name of the Participant: Sahil .C. Gawande Dept. Mech. Engg

Course Title: Course Title: Training on AutoCAD Software

Name of Trainer Mr. Ajay Kumar Bhambri, Nagpur

Duration: **27-07-2019 to 10-08-2019**

Tick (only one answer for each question.

Sr. No	Question	Poor	Fair	Good	Very Good	Excellent
1	The Training you attended was.				✓	
2	The demonstrations were.					✓
3	The content presented was.				✓	
4	The trainer's knowledge about the content was.			✓		
5	The way trainers taught the contents was.			✓		
6	The activity your participated in were.			✓		
7	The quality of instruction was				✓	
8	The training made the objectives was.				✓	
9	The training made my expectation is.				✓	
10	Adequate time was provided for Questions and Discussions.				✓	

Write your answers to the following questions.

1) What did you like best about the training?

The training was based on industrial problems

2) Are there any areas that should be included in training?

more practical sessions must be added

3) Are there any areas that should be improved for future training?

Training should be provided in 3D modeling softwares like CATIA and UG.

Microsoft Excel Course - Session Outcome Report

Course Duration: 30 hours (2 weeks, weekdays 3.45-5.45 pm & Saturdays 11 am-1.30 pm, 2 pm-4.30 pm)

Faculty: Prof. S. M. Mishra (Internal Resource Person)

Session Timetable:

Week	Day	Date	Time	Topic Covered
Week 1	Monday	06-01-20	3:45 pm - 5:45 pm	Introduction to Microsoft Excel, Interface
Week 1	Tuesday	07-01-20	3:45 pm - 5:45 pm	Data Entry and Formatting
Week 1	Wednesday	08-01-20	3:45 pm - 5:45 pm	Cells, Rows, and Columns
Week 1	Thursday	09-01-20	3:45 pm - 5:45 pm	Basic Formulas and Functions
Week 1	Friday	10-01-20	3:45 pm - 5:45 pm	Data Validation and Error Handling
Week 1	Saturday	11-01-20	11:00 am - 1:30 pm	Sorting and Filtering Data
Week 2	Monday	13-01-20	3:45 pm - 5:45 pm	Workbook Protection and Security
Week 2	Tuesday	15-01-20	3:45 pm - 5:45 pm	Conditional Formatting
Week 2	Wednesday	17-01-20	3:45 pm - 5:45 pm	Data Visualization Techniques
Week 2	Thursday	19-01-20	3:45 pm - 5:45 pm	Data Tables and Pivot Tables
Week 2	Friday	21-01-20	3:45 pm - 5:45 pm	Charts and Graphs
Week 2	Saturday	23-01-20	11:00 am - 1:30 pm	Data Analysis Tools
Week 2	Saturday	23-01-20	2:00 pm - 4:30 pm	Text Functions and Formulas
				Case solving in Excel and Assessment
				Course Feedback and Certification

Participants in the Microsoft Excel course have completed a comprehensive 30-hour training program. They have gained a strong foundation in Excel basics, advanced data manipulation techniques, data analysis, and advanced functions. Additionally, they have learned to create charts, graphs, and pivot tables, design dashboards, and work with macros and VBA for automation. The course concluded with a project presentation and assessment to ensure a deep understanding of the topics covered.

This course has been conducted successfully by Prof. S. M. Mishra, an internal resource person from the Department of Business Administration and Research. The participants have acquired valuable skills that will enhance their proficiency in Microsoft Excel, allowing them to apply their knowledge in various academic and professional settings.

Certifications were be awarded to participants upon successful completion of the course

Annexure:

Case/Project used for assessment/final project:

Case 1:

Case Study: Grade Calculator

Background:

You want to create a simple Excel spreadsheet to calculate your grades for a class. You'll input your scores for various assignments, and the spreadsheet will calculate your final grade based on a pre-defined grading scale.

Tasks:

Data Entry (Topics: Data Entry and Formatting):

Create a new worksheet and label it "Grade Calculator."

Set up columns for Assignment Name, Points Earned, and Total Points Possible.

Input the names of assignments or exams in the Assignment Name column.

Basic Calculations (Topics: Basic Formulas and Functions):

In the Points Earned column, enter the scores you received for each assignment.

In the Total Points Possible column, enter the maximum possible scores for each assignment.

Calculate Percentages (Topics: Basic Formulas and Functions):

In a new column, calculate the percentage for each assignment using the formula **(Points Earned / Total Points Possible) * 100.**

Shri Gajanan Shikshan Sanstha's
SHRI SANT GAJANAN MAHARAJ COLLEGE OF ENGINEERING
SHEGAON – 444203, DIST. BULDANA (MAHARASHTRA STATE), INDIA
"Recognized by A.I.C.T.E., New Delhi" Affiliated to Sant Gadge Baba Amravati University, Amravati
"Approved by the D.T.E., M.S. Mumbai"
Ph : +918669638081/82 Email.principal@ssgmce.ac.in, registrar@ssgmce.ac.in
Website- www.ssgmce.ac.in

Final Grade Calculation (Topics: Basic Formulas and Functions):

Calculate your final grade based on the following grading scale:

A: 90-100

B: 80-89

C: 70-79

D: 60-69

F: 0-59

Use an IF statement to determine your final grade based on your calculated percentage.

Data Validation (Topics: Data Validation and Error Handling):

Use data validation to ensure that the Points Earned and Total Points Possible columns only accept numeric values.

Report (Topics: Workbook Protection and Security):

Add a simple header with your name and course details to the worksheet.

Protect the worksheet to prevent unauthorized changes.

Assessment:

You will be assessed on your ability to create a functional grade calculator in Excel. The assessment will focus on the accuracy of the calculations, your proficiency in basic Excel functions, and the presentation of the final grade.

Ph : +918669638081/82
Email.principal@ssgmce.ac.in, registrar@ssgmce.ac.in
Website- www.ssgmce.ac.in

Case 2:

Case Study: Travel Itinerary and Expense Tracker

🌍 Your Upcoming Adventure 🌍

Introduction:

You're about to embark on an exciting international adventure, and you want to create a dynamic travel itinerary and expense tracker using Excel. This will help you plan your trip, keep track of your activities, and monitor your expenses on the go.

Tasks:

🗓️ Travel Itinerary (Topics: Data Entry and Formatting):

Create a new worksheet titled "Travel Itinerary."

Set up columns for Date, Destination, Activity, Time, and Notes.

Fill in the itinerary with details of your daily activities during your trip, including the date, destination, planned activity, time, and any additional notes.

🌟 Highlighting Special Events (Topics: Conditional Formatting):

Use conditional formatting to highlight special events or unique activities during your trip. For example, highlight the day of a special festival or celebration in a different color.

📊 Interactive Map (Topics: Charts and Graphs):

Create an interactive map of your destinations using an online map tool or by inserting a map image. Pinpoint each destination on the map, and hyperlink the destinations to their corresponding details in the itinerary.

💰 Expense Tracker (Topics: Data Validation and Error Handling):

Create a new worksheet titled "Expense Tracker."

Set up columns for Date, Expense Category, Expense Description, Amount, and Payment Method.

Enter details of your expenses during the trip, including the date, expense category, description, amount, and payment method.

☑ Expense Summary (Topics: Charts and Graphs):

Create a bar chart to visualize your expenses by category. Each category will represent a bar, and the height of the bar will indicate the total expense for that category.

📅 Daily Expense Summary (Topics: Pivot Tables and Pivot Charts):

Use a pivot table to create a daily expense summary. This table will show the total expenses for each day, allowing you to monitor your daily spending.

📖 Personal Travel Diary (Topics: Workbook Protection and Security):

Keep a personal travel diary by adding a new worksheet for each day. You can write about your experiences, memories, and reflections. Protect this diary worksheet with a password for privacy.

🔍 Item Search (Topics: Advanced Functions and Formulas):

Create a search feature that allows you to find specific items (activities or expenses) within your itinerary or expense tracker based on keywords.

Assessment:

You will be assessed on your ability to create an engaging and functional travel itinerary and expense tracker. The assessment will focus on the organization of your trip details, the accuracy of data entry, proficiency in Excel functions, the quality of interactive features, and the overall presentation.

9 Courses

- What is Data Science?
- Open Source tools for Data Science
- Data Science Methodology
- Python for Data Science and AI
- Databases and SQL for Data Science
- Data Analysis with Python
- Data Visualization with Python
- Machine Learning with Python
- Applied Data Science Capstone

IBM

04/27/2020

Akshaykumar Bhople

has successfully completed the online, non-credit Professional Certificate

IBM Data Science

In this Professional Certificate learners developed and honed hands-on skills in Data Science and Machine Learning. Learners started with an orientation of Data Science and its Methodology, became familiar and used a variety of data science tools, learned Python and SQL, performed Data Visualization and Analysis, and created Machine Learning models. In the process they completed several labs and assignments on the cloud including a Capstone Project at the end to apply and demonstrate their knowledge and skills.

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.

“Campus Recruitment Training (Apti) for BE 3rd year yearStudents”

Academic Year 2018-19

Shri Sant Gajanan Maharaj College of Engineering,
Khamgaon Road, Shegaon, Dist: Buldhana

Sr No	Title of Activity	**Campus Recruitment Training (Apti) for BE 3rd year Students**
1	Speaker	Mr. Ajay Butwani
2	Co-Ordinator	Prof. V,K. Thute
3	Co-Cordinator	Prof. Mrs. H S Patil
4	Schedule of Activity	Started from 1st to 4th March 2019 Total **30** Hrs
5	Time	As per scheduled in Time table and notice
6	Objective of Activity	**1.** Enrich their knowledge and to develop their logical reasoning thinking ability **2.** The main aim of introducing "Quantitative Aptitude"for mathematics students is to develop skill to meet the competitive examinations for better job opportunity. **3.** Effort has been made to accommodate fundamental, mathematical aspects to instill confidence among students. **4.** To demonstrate various principles involved in solving mathematical problems and thereby reducing the time taken for performing job functions. **5.** To make students able to critically evaluate various real-life situations
7	Venue	**Swadhyay Kaksh**
8	No. of Beneficiaries	Total- **131**
9	Syllabus/Topics	Attached herewith

About Program:

In general, aptitude tests measure one's competence in logical reasoning, numerical skills, or verbal ability; competency can be evaluated through problem-solving tasks and testing one's critical thinking across various contexts.

There are various topics under the syllabus of Quantitative Aptitude. Topics such as work and wages, permutation and combination, profit and loss, age, probability, percentages, ratios and many more. The above article contains all these important topics.

Aptitude tests are often used to assess academic potential or career suitability and may be used to assess either mental or physical talent in a variety of domains.

Topics Covered:
Square roots, Cube roots, Squares, Ratio Proportion, Allegation's & Mixtures, Number Series & Letter Series, Coding-Decoding, Calendars, Clocks, Partnerships, Basic Geometry & Algebra, Questions on Ages, Pattern Completion, Mirror Image & Water Image, Data Sufficiency etc.

Learning Outcomes:

After successful completion of this course, students will have the knowledge and skills to

1. Solve the problems easily by using Short-cut method with time management which will be helpful to them to clear the competitive exams for better job opportunity.
2. It helps Candidates to conquer the success in job tests.
3. Analyze the Problems logically and approach the problems in a different manner.

Course Contents:

Following is the Quantitative Aptitude & Logical Reasoning training plan for 3rd year Engineering Students **(Semester- V.)**

S.N.	Chapter Name
1.	Square roots, Cube roots, Squares
2.	Ratio Proportion
3.	Partnerships
4.	Averages
5.	Allegation's & Mixtures
6.	Questions on Ages
7.	Analogies or similarities
8.	Number Series & Letter Series
9.	Coding-Decoding
10.	Calendars
11.	Clocks

Following is the Quantitative Aptitude & Logical Reasoning actual training plan implemented for Third Year Engineering Students **(Semester-VI).**

S.N.	Chapter Name
1.	Number System
2.	Basic Statistics
3.	Progression
4	Basic Geometry & Algebra
5.	Surds & Indices
6.	Data Interpretation
7.	Data Sufficiency
8.	Nonverbal Reasoning (Series & Analogy)
9.	Pattern Completion, Mirror Image & Water Image
10.	Paper Cutting & Folding

TPO, SSGMCE

SHRI SANT GAJANA MAHARAJ COLLEGE OF ENGINEERING, SHEGAON

TRAINING AND PLACEMENT DEPARTMENT

Date: 26th Feb. 2019

"APTITUDE TEST PREPARATION CLASSES" FOR ALL B.E. THIRD YEAR STUDENTS

Training and Placement Department is arranging **"APTITUDE TEST PREPARATION CLASSES"** for all the interested students from B.E. Third Year (all branches). The classes would be conducted by **BASE Education, Pune (Mr. Ajay Butwani Sir) on 1st , 2nd , 3rd & 4th March 2019 at SSGMCE, Shegaon .**

The students registering for the classes will get **1** placement drive **per 70 students registration (i.e. if 200 students register for the classes then at least 3 placement drives will be offered to the registered students)** by BASE Education free of cost.

All B.E. Third year students interested in joining the Aptitude Test Preparation Classes by BASE Education should register their names by **paying Rs.1000/-(with printed book Authored by Butwani Sir) /Rs.900/-(without the printed book)** in T&P Dept **on or before 1st March 2019**. The classes will be approximately for **duration = 7 hr/day x 4 days = 35 hrs.** The exact timing will be discussed on day1 of the classes. (The same course with few more topics will be repeated during your final year in the month of August/September 2019 at Free of charge.)

The placement drives **offered by BASE Education** (free of charge) will be only for the students who take the Aptitude coaching classes from BASE Education.

The list of some of the probable companies with whom BASE Education has been tied up for placements is given below:-

1. Wide Vision Technologies: - IT: - Android developer/dot net developer
2. Quest global: - IT: - Jr. software engineer
3. TechMahindra: - All branches: - Tech support engineer
4. KPMG All branches: - Tech support engineer
5. Empire IT Park: - All branches: - Tech support engineer
6. Infosys: - All branches: - Tech support engineer
7. Traingle Inc.: - Electronics engineering
8. BulMart: - All branches: - Business analyst
9. Varsha Forging – Mechanical Engineering
10. Wipro Lighting – Mechancial, Electrical & Electronics Engineering
11. Safalya Industries –
12. Bajaj Group –Electrical, Mechanical& Electronics And few more will be added soon
13. Varroc Engineering, Aurangabad.
14. InnoEye Technologies, Indore

FEED BACK FORM FOR APTITUDE DEVELOPMENT PROGRAMME

Name of Agency: **Base Education (Mr. Ajay Butwani)**

Name of the Participant: Sakshi Bajaj Dept. I.T

Module Name: Aptitude classes Date: 4/3/2019 Batch: _____ Time Slot: _____

Tick (only one answer for each question.

Sr. No	Question	Poor	Fair	Good	Very Good	Excellent
1	The Training you attended was.					✓
2	The demonstrations were.				✓	
3	The content presented was.				✓	
4	The trainer's knowledge about the content was.					✓
5	The way trainers taught the contents was.				✓	
6	The activity your participated in were.				✓	
7	The quality of instruction was					✓
8	The training made the objectives was.					✓
9	The training made my expectation is.				✓	
10	Adequate time was provided for Questions and Discussions.				✓	

Write your answers to the following questions.

1) What did you like best about the training?

I liked that every doubt raised by student were paid attention.

2) Are there any areas that should be included in training?

No, it's fine.

3) Are there any areas that should be improved for future training?

Nil

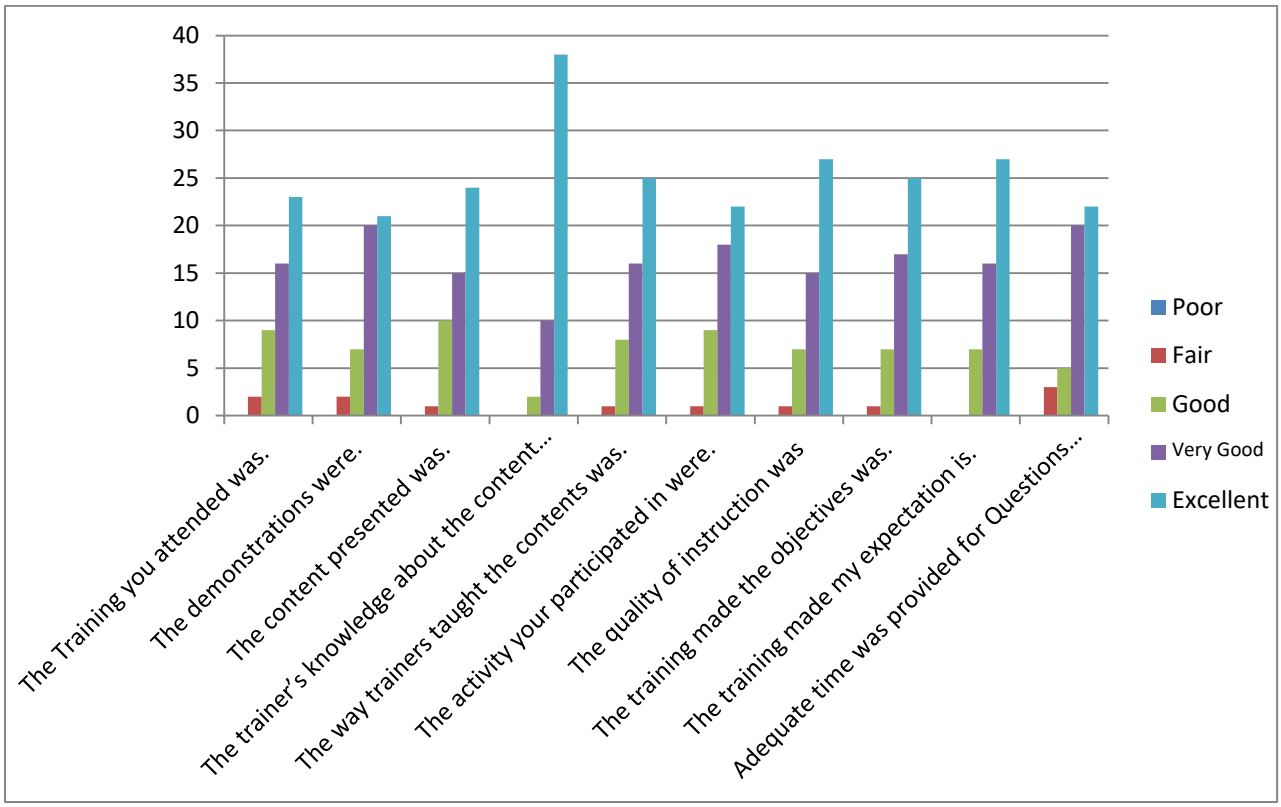

S. D. Bajaj
Signature of the Candidate

STUDENTS FEED BACK

Campus Recruitment Training (Apti) for BE 3rd year Students (AY 2018-19)

Sample Size: **50**

Sr. No	Question	Poor	Fair	Good	Very Good	Excellent
1	The Training you attended was.	0	2	9	16	23
2	The demonstrations were.	0	2	7	20	21
3	The content presented was.	0	1	10	15	24
4	The trainer's knowledge about the content was	0	0	2	10	38
5	The way trainers taught the contents was.	0	1	8	16	25
6	The activity your participated in were.	0	1	9	18	22
7	The quality of instruction was	0	1	7	15	27
8	The training made the objectives was.	0	1	7	17	25
9	The training made my expectation is.	0	0	7	16	27
10	Adequate time was provided for Questions and Discussions.	0	3	5	20	22

Student's response to the questionnaire as per Feed Back form.

Interpretation:

1) The training is found to be as per the expectations of the candidates.
2) It is seen that almost all the participants found Aptitude Training useful for them.
3) The training is found to be as per the expectations of the candidates.
4) Demonstration, activity, presentation & content were adequate with respect to the training.
5) Participants are found to be highly satisfied with trainer's knowledge and content delivery.
6) Training fulfills the objectives of the programme.

Glimpse: Classes of Aptitude:

Mr. Ajay Bhutwani delivering his lectures to student's on Aptitude

TPO, SSGMCE

date: Wed, Jul 25, 2018 at 6:25 PM

subject: Information regarding Aptitude Tests preparation classes and AMCAT

mailed-by: gmail.com

Dear Students,

"APTITUDE TEST PREPARATION CLASSES" FOR ALL B.E. FINAL YEAR STUDENTS

Training and Placement Department is arranging **"APTITUDE TEST PREPARATION CLASSES"** for all the interested students from B.E. Final Year (all branches). The classes would be conducted by **BASE Education, Pune (Mr. Ajay Butwani Sir) on the dates as mentioned in the table at SSGMCE, Shegaon.**

Sr.No.	Dates	Remarks
01	28th & 29th July 2018	For Freshers (for making up the topics which have been covered for the already registered batch who have taken the classes in the previous year.)
02	3rd, 4th & 5th August 2018	For Both Freshers & Repeaters
03	The exact timing & venue will be decided later.	

The students registering for the classes will get **1** placement drive **per 70 students registration (i.e. if 200 students register for the classes then 3 placement drives will be offered to the registered students)** by BASE Education free of cost.

All B.E. Final year students interested in joining the Aptitude Test Preparation Classes by BASE Education should register their names by **paying Rs.1000/-(with printed book Authored by Butwani Sir) /Rs.850/-(without the printed book)** in T&P Dept on or before 27th July 2018 (there is NO separate fee for the students who have already paid the fee for the Aptitude classes during their Third Year. The classes will be approximately for **duration = 7 hr/day x 5 days = 35 hrs.**

The placement drives **offered by BASE Education** (free of charge) will be only for the students who take the Aptitude coaching classes from BASE Education.
(The topics covered by Butwani sir for the students who had attended the classes in their Third year will be repeated for the fresh students and then the left over topics will be covered for all)

The list of some of the probable companies with whom BASE Education has been tied up for placements is given below:-

1. Wide Vision Technologies: - IT: - Android developer/dot net developer
2. Quest global: - IT: - Jr. software engineer
3. TechMahindra: - All branches: - Tech support engineer
4. KPMG All branches: - Tech support engineer
5. Empire IT Park: - All branches: - Tech support engineer

Update regarding AMCAT and CoCubes Employability Tests: The dates for these tests will be decided in consultation with T&P Student coordinators and it can be immediately after the CT-I in the month of August.

++

Wish You All The Best!!!

About Program:

Fear, anxiety, and panic are all common emotions that can be experienced in life. Fear can be triggered by a particular situation, such as public speaking or a job interview. Anxiety can be a result of a high-stakes situation or an impending deadline. And panic can arise when life feels overwhelming or out of control.

However, fear, anxiety, and panic can all be managed and even overcome with the right strategies and techniques. In this article, we'll explore various ways to help you conquer these emotions and gain control of your life.

The first step in overcoming fear, anxiety, and panic is to gain a better understanding of these emotions. By knowing what triggers them and recognizing the signs, you can start to take control of the situation. Fear is usually triggered by a specific event or situation, and you can feel it in the form of physical symptoms such as sweating, shaking, and a racing heart.

Anxiety is usually caused by a sense of uncertainty and can manifest as feelings of dread or nervousness. Panic is a more intense emotion that can be caused by feelings of being overwhelmed and out of control.

9	Syllabus/Topics	Attached herewith

About Program:

Public speaking, also called oratory or oration, has traditionally been defined as speaking in person to a live audience. Today, the term can also refer to speaking to an audience through digital technology. Public speaking is important for developing leadership abilities because it helps you convey your ideas effectively to others. The ability to persuade others and help them change their minds is essential for becoming an effective leader.

Group discussion (GD) is a comprehensive technique to judge the suitability of an individual and his appropriateness for admission, scholarship, job, etc. GD assesses the overall personality – thoughts, feelings and behaviour - of an individual in a group. A topic is presented to the group members for discussion.

A group discussion tests the teamwork and Communication Skill of candidates. A group discussion involves a discussion on a given topic with other candidates, usually with similar experience and educational qualifications. Performing well in a group discussion helps you to get noticed and practicing for one improves your public speaking skills. In this article, we will review what a group discussion is, its importance in the selection process, the skills evaluated during a group discussion and how to perform well in this round.

Do's of GD: Listen to other participants, maintain eye contacts with other participants, Give others time to peak, keep potential disagreement polite, Dress professionally, support your claim, welcome arguments, prepare for discussion, acknowledge others before speaking, initiate the conversation, plan your entry point, plan your exit point, take notes, ask for clarification, show confidence.

Don'ts of GD: Enter the conversation quickly, Over speak, Speak about other topics, Repeat other participants, Speak or gesture boldly, Interrupt others, Bring irrelevant or false statistics, Appear insecure, Share information that isn't valuable, Have negative body language, Share participant's space, Make eye contact with the evaluators, Focus on only one participant, Use judgmental language, Worry if the topic is unfamiliar.

Glimpse of Training

Mr. Sanjay kale practicing Public Speaking activity with students.

Mr. Kshushrow Irani practicing Public Speaking activity with students.

About Program:

Self-awareness is your ability to perceive and understand the things that make you who you are as an individual, including your personality, actions, values, beliefs, emotions, and thoughts. Essentially, it is a psychological state in which the self becomes the focus of attention.

Self-esteem is how we value and perceive ourselves. It's based on our opinions and beliefs about ourselves, which can feel difficult to change. We might also think of this as self-confidence**.** Self-esteem is confidence in one's own worth, abilities, or morals. Self-esteem encompasses beliefs about oneself as well as emotional states.

Public speaking, also called oratory or oration, has traditionally been defined as speaking in person to a live audience. Today, the term can also refer to speaking to an audience through digital technology. Public speaking is important for developing leadership abilities because it helps you convey your ideas effectively to others. The ability to persuade others and help them change their minds is essential for becoming an effective leader.

Having strong communication skills aids in all aspects of life – from professional life to personal life and everything that falls in between. From a business standpoint, all transactions result from communication. Good communication skills are essential to allow others and yourself to understand information more accurately and quickly.

Students are practicing communication skill activity during training.

Mr. Sanjay Kale practicing communication skill activity with students

STUDENTS FEED BACK

Placement Enhancement Training (Soft Skill) for BE 2nd year Students

Sample Size: **50**

Sr. No	Question	Poor	Fair	Good	Very Good	Excellent
1	The Training you attended was.	0	2	9	15	24
2	The demonstrations were.	0	2	8	18	22
3	The content presented was.	0	1	9	17	23
4	The trainer's knowledge about the content was	0	1	3	9	37
5	The way trainers taught the contents was.	0	1	9	17	25
6	The activity your participated in were.	0	1	9	17	23
7	The quality of instruction was	0	1	7	15	27
8	The training made the objectives was.	0	1	7	16	26
9	The training made my expectation is.	0	0	9	16	25
10	Adequate time was provided for Questions and Discussions.	0	3	6	21	20

Student's response to the questionnaire as per Feed Back form.

Interpretation:

1) It is seen that almost all the participants found Soft Skill Training needed and useful for them.

2) The training is found to be as per the expectations of the candidates due the way it was delivered.

3) Participants are found to be highly satisfied with trainer's knowledge, content delivery and participation.

4) Demonstration, activity, presentation & content were adequate with respect to the training.

5) Training fulfills the objectives of the programme.

Workshop Summary Report

Workshop Title **:** Embedded systems and Internet of Things

Date **:** 11 Jun 2018 -7 July2018

Location **:** EXTC seminar Hall & VLSI Lab.

Organizing Institute **:** SSGMCE, Shegaon

Workshop Cooridnator **:** Dr. K.B.Khanchandani & Dr.P.R.WanKhede

Number of Participants **: 27**

Workshop Objectives:

1 To familiar with the various Embedded processor and IOT applications

2 Develop applications design Embedded processor and IOT applications.

Outcomes:

1.Will be able to understand working of Arduino & Rasberry Pi embedded controllers

2. Can develop application with Embedded C and controllers.

3. Mini project designs using Arduino & IOT concepts.

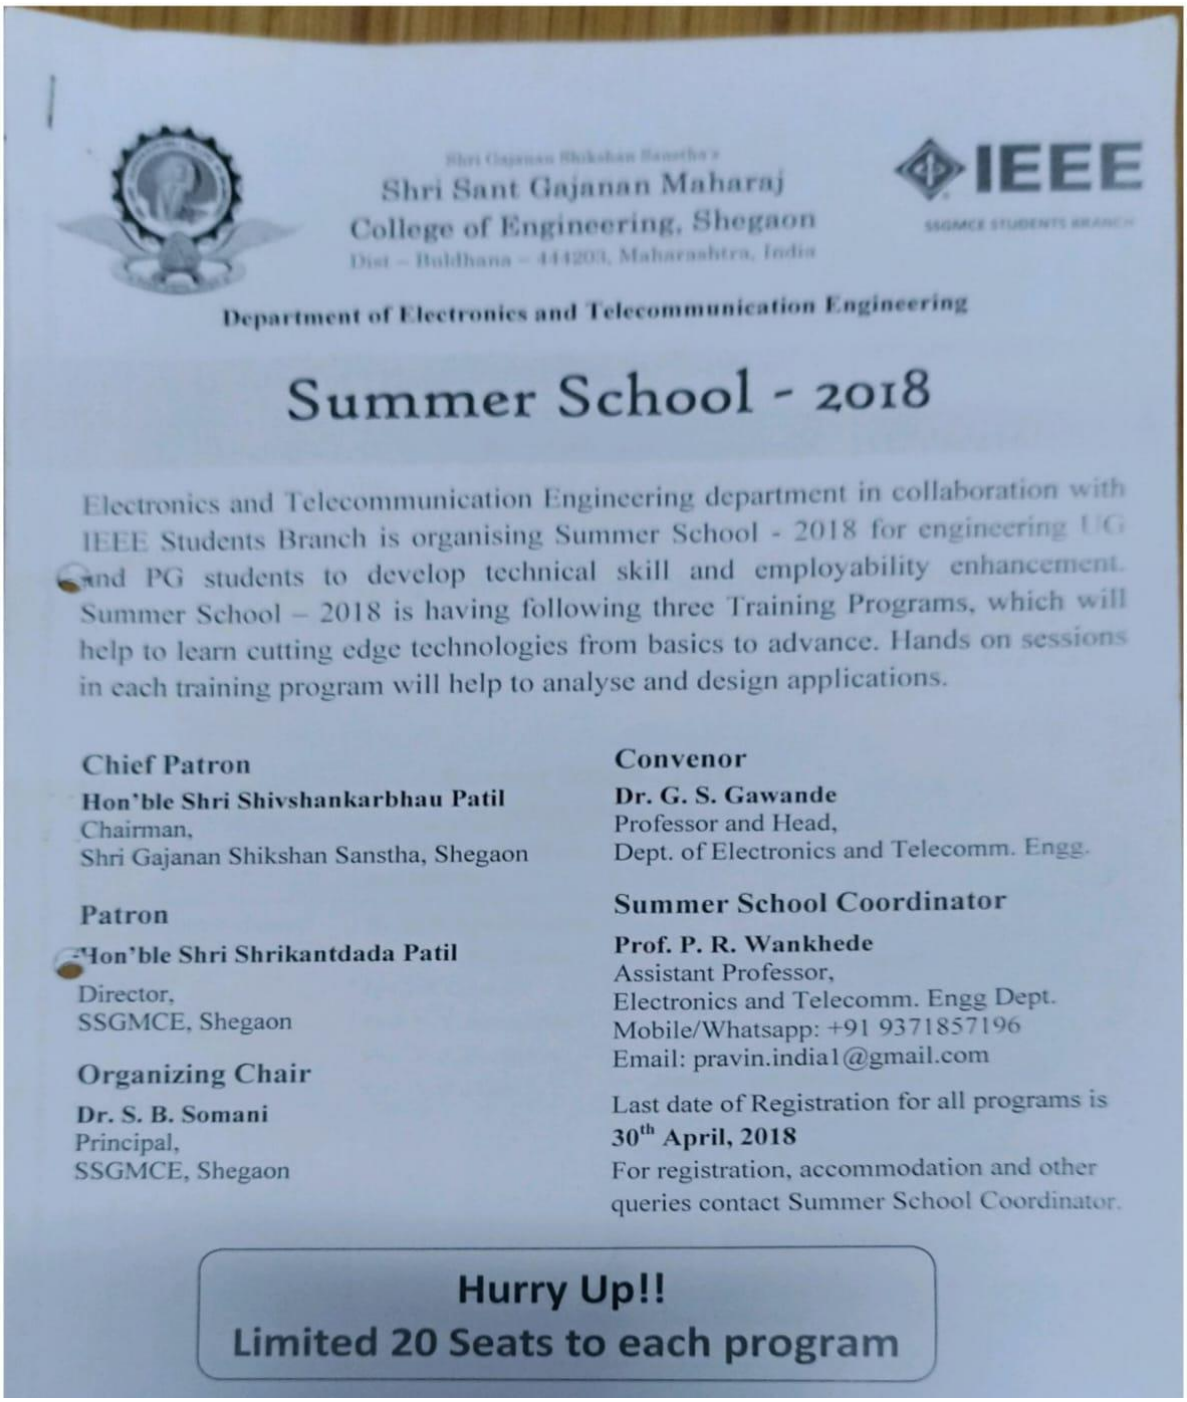

Submitted by **:** Dr. P.R.Wankhede

Name and Signature of the Coordinator: Dr. P.R.Wankhede

Date of Submission **:** 23 Aug 2018

IEEE
SSGMCE STUDENTS BRANCH

Department of Electronics and Telecommunication Engineering

Summer School - 2018

Electronics and Telecommunication Engineering department in collaboration with IEEE Students Branch is organising Summer School - 2018 for engineering UG and PG students to develop technical skill and employability enhancement. Summer School – 2018 is having following three Training Programs, which will help to learn cutting edge technologies from basics to advance. Hands on sessions in each training program will help to analyse and design applications.

Duration:11 Jun 2018 -7 July2018

Tick (only one answer for each question.

Sr. No	Question	Poor	Fair	Good	Very Good	Excellent
1	The Training you attended was.				✓	
2	The demonstrations were.					✓
3	The content presented was.					✓
4	The trainer's knowledge about the content was.				✓	
5	The way trainers taught the contents was.				✓	
6	The activity your participated in were.				✓	
7	The quality of instruction was					✓
8	The training made the objectives was.					✓
9	The training made my expectation is.					✓
10	Adequate time was provided for Questions and Discussions.				✓	

Write your answers to the following questions.

1) What did you like best about the training?

We learn more practical things than this course

2) Are there any areas that should be included in training?

Real time project if involved it will be better

3) Are there any areas that should be improved for future training?

Interpretation:

1. The Embedded System Design and Internet of Things course has been notably beneficial for almost all participants.
2. The course seamlessly aligns with the expectations set by the candidates.
3. Participants convey a high degree of satisfaction with the trainer's proficiency and the successful delivery of the course content.
4. The training incorporated fitting demonstrations, activities, presentations, and content, catering to the specific needs of the participants.
5. The training convincingly accomplishes the outlined objectives of the program.

Workshop Summary Report

Workshop Title **:** Analog VLSI Circuit design using Cadence

Date **:** 11 Jun 2018 -23 Jun 2018

Location **:** Seminar Hall & Cadence Lab.

Organizing Institute **:** SSGMCE, Shegaon

Workshop Cooridnator **:** Dr. K.B.Khanchandani & Prof.S.P.Badar

Number of Participants **: 19**

Workshop Objectives:

1 To understand the concepts of analog devices & circuits.

2 To design and develop analog devices & various application circuits using Cadence tools

Outcomes:

1.Will be able to understand design approaches for developing analog devices and circuits

2. Can understand the use of Cadence Tool for developing devices and circuits.

3. Mini project designs using Cadence tool.

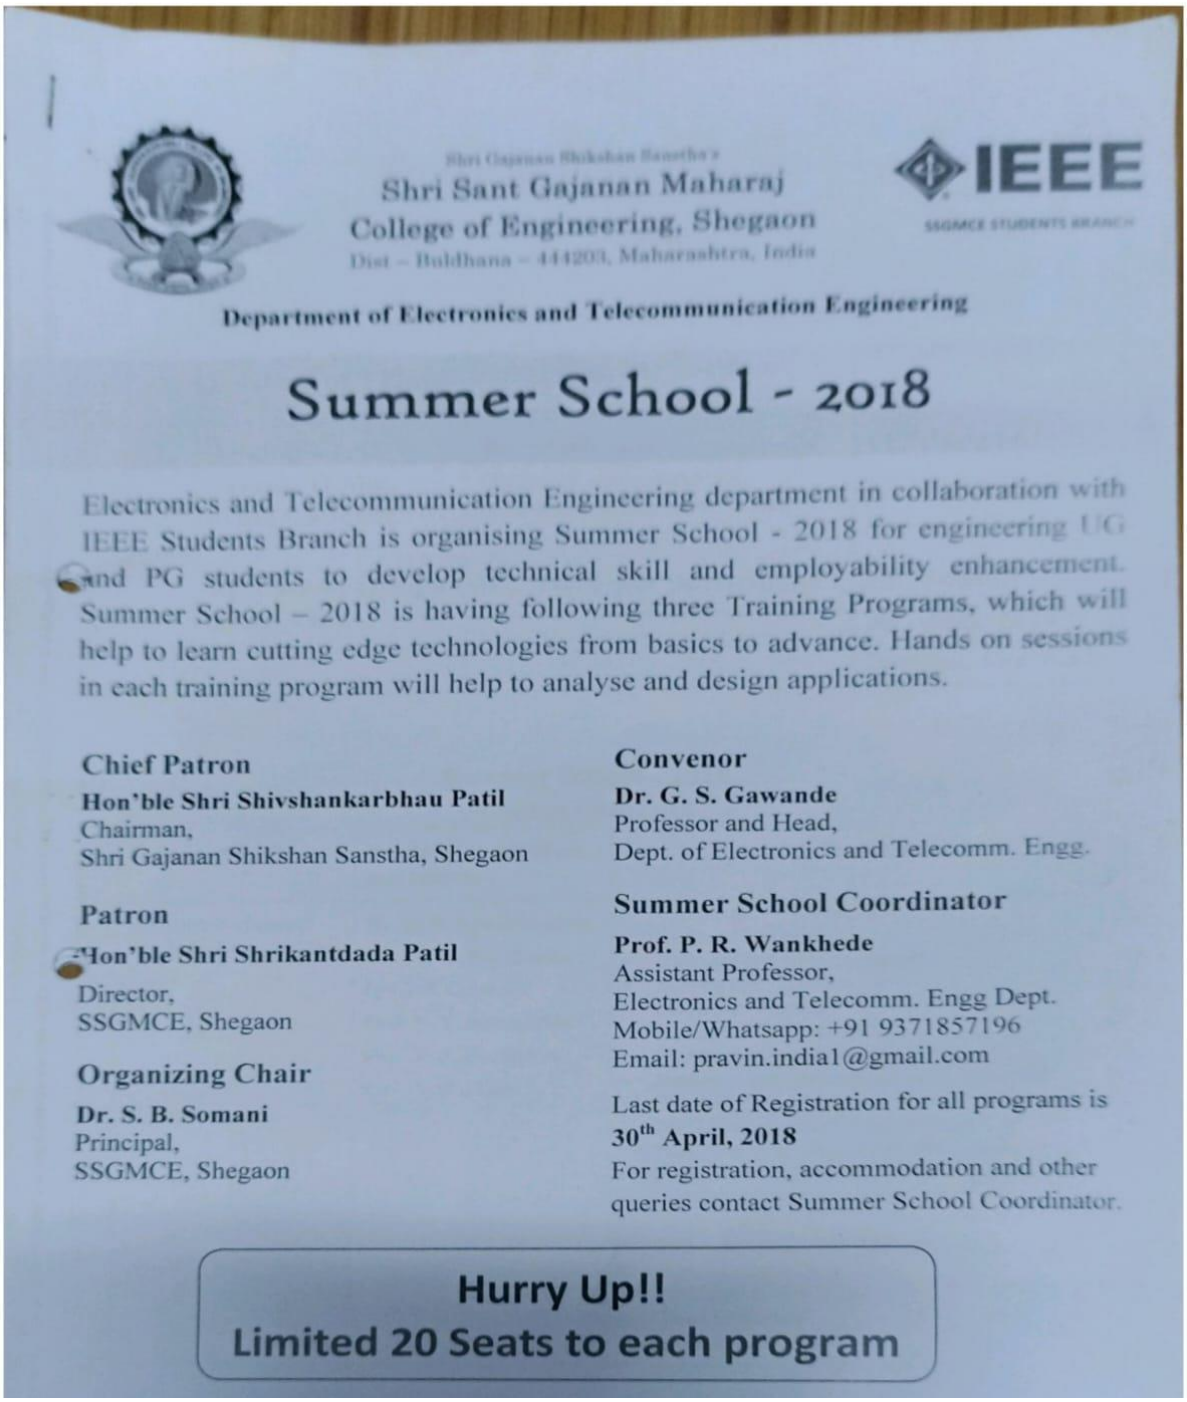

Submitted by **:** Prof. S.P.Badar

Name and Signature of the Coordinator: Prof. S.P.Badar

Date of Submission **:** 23 Aug 2018

IEEE
SSGMCE STUDENTS BRANCH

Department of Electronics and Telecommunication Engineering

Summer School - 2018

Electronics and Telecommunication Engineering department in collaboration with IEEE Students Branch is organising Summer School - 2018 for engineering UG and PG students to develop technical skill and employability enhancement. Summer School – 2018 is having following three Training Programs, which will help to learn cutting edge technologies from basics to advance. Hands on sessions in each training program will help to analyse and design applications.

Workshop Summary Report

Workshop Title : A Three Days Workshop On Hands on Digital VLSI Design using Xilinx

Date : 8 - 23 Sept 2018

Location : EXTC seminar Hall & VLSI Lab.

Organizing Institute : SSGMCE, Shegaon

Workshop Facilitators : Prof. S.P.Badar

Number of Participants : 35

Workshop Objectives:

1 To familiar with digital design concepts using different approaches.

2 Design of combinational circuits using CMOS.

3 Design of sequential circuits using CMOS.

4. Design and development using Xilinx software

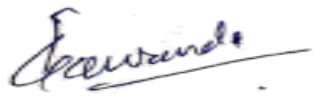

Outcomes:

1.Will be able to design combinational and sequential circuits using Xilinx software.

2. Simulation and synthesis of digital circuits using Xilinx software.

A Three Days Workshop
on
Hands on Digital VLSI Design using Xilinx

The Department of Electronics and Telecommunication is going to organize A Three Days Workshop on Hands on Digital VLSI Design using Xilinx during 8th to 10th Sept 2018.

The details of workshop as follows:

Software Tools : Xilinx ISE™ 13.4 ISim (VHDL / Verilog) Simulator
Date : **8th to 10th Sept 2018.**
Venue : DSP Lab, EXTC Dept.
Registration Fees : Rs.1000/-

Schedule and Contents:

Date	Time	Contents
8th Sept. 2018 (Day 1 - Saturday)	1.30 pm to 7.00 pm	Introduction to Digital VLSI Design
		Basics of VHDL
		Description of Hardware In VHDL
		Modelling Style of Design .
		Behavioral Modelling
		Basics of Logic Gates, Flip-flops
		Multiplexer, Demultiplexer
9th Sept. 2018 (Day 2 - Sunday)	8.00 am to 7.00 pm	Counter, Shift Register
		Data flow Modelling
		Half Adder, Full adder
		ALU
		Structural and Mixed Style of Modelling
		Full Adder
		4-bit Adder, 16-bit Adder etc…
10th Sept. 2018 (Day 3 - Monday)	7.30 am to 10.00 am	2-bit Multiplier, 4-bit Multiplier etc…
		Vedic Multiplier
		FPGA Board Implementation

For Registration Contact: Prof. S. P. Badar

Mechanical Engineering Department

Shri Sant Gajanan Maharaj College of Engineering,

Khamgaon Road, Shegaon, Dist: Buldhana

Title of Activity	Fundamentals of Solar photovoltaic
Speaker	Prof N.G.More ,SSGMCE, Shegaon
Organizer	Mechanical Engineering Department
Schedule of Activity	**26-02-2019 to 03-03-2019**
Duration	30 Hours
Objective of Activity	The Fundamentals of Solar Photovoltaic course, led by Prof. N.G. More at SSGMCE, Shegaon, is designed to provide mechanical engineering students with a comprehensive understanding of solar energy and its application in photovoltaic systems some key objectives: To Introduce students to the fundamental principles of solar photovoltaics, covering the conversion of sunlight into electrical energy. To Familiarize students with the components of solar photovoltaic systems, including solar cells, inverters, charge controllers, and batteries To Provide insights into the design and installation of solar photovoltaic systems, considering factors such as location, orientation, and sizing. To Explore the integration of solar photovoltaic systems with mechanical engineering applications, showcasing potential synergies and applications.
Venue	Solar Lab.
No. of Beneficiaries	30 Students

Course Content:

The course covered the following key topics:

Introduction to Solar Energy

Solar Photovoltaic Technologies

Components of PV Systems

Design and Installation Practices

Integration with Mechanical Engineering Applications

Program Overview:

Prof. N.G. More emphasized the significance of solar energy within the broader context of renewable resources. He conducted an in-depth exploration of various photovoltaic technologies and elucidated their practical applications. Additionally, he provided a detailed study of the essential components in a solar photovoltaic system, encompassing solar cells, inverters, charge controllers, and batteries. The consideration of system architecture and functionalities was thoroughly explained.

The course, under Prof. N.G. More's guidance, adopts a dynamic teaching approach that involves lectures to impart theoretical knowledge and foundational concepts. Furthermore, practical demonstrations were utilized to effectively illustrate the functioning of solar photovoltaic systems. This multi-faceted teaching methodology ensures a comprehensive understanding of both the theoretical principles and the practical applications of solar energy technologies.

Learning Outcomes:

Students demonstrated a comprehensive understanding of the fundamental principles and technologies associated with solar photovoltaics.

Students showcased the ability to apply theoretical knowledge to design and simulate solar photovoltaic systems, integrating concepts into practical solutions.

The course enhanced students' awareness of critical design considerations, including system sizing, location optimization, and integration with mechanical systems.

The interactive nature of the course facilitated collaboration among participants, encouraging the exchange of ideas and fostering a community of learners.

Report of add on course on "Fundamentals of solar photovoltics"

Date: 05/03/2019

Introduction:

The course is started on 26th Feb, 2019 with 36 enrolled students. The course continues for six days and each day students are engaged for 3 hrs. The theory session is conducted in the first hour of each day and followed by the hands on practice on application of solar technology.

Course objectives:

1. To aware students about the solar technology
2. To aware the students about recent advancements in photovoltaic technology
3. To provide practical exposure of solar photovoltaic technology to the students of the institute

Course outcomes:

After successful completion of the course, students will able to -

1. Understand the basics of solar technology
2. Understand the latest trends in solar photovoltaic technology
3. Apply the knowledge of solar technology in solar power production.

Duration	30 Hours
Objective of Activity	The "Basics of CATIA" course, conducted by Mr. Sacin Satpute at MIT Skills Pune, aimed to equip mechanical engineering students with foundational skills in Computer-Aided Design using CATIA software. some key objectives: To Familiarize mechanical engineering students with the fundamental concepts and user interface of CATIA software. To Provide hands-on experience in sketching and creating 3D part models using CATIA, emphasizing best practices and efficient design techniques. To Introduce the principles of assembly design, allowing students to understand the process of combining multiple parts into a cohesive assembly using CATIA. To Train students in creating detailed engineering drawings and documentation using CATIA, emphasizing industry standards and conventions
Venue	Mechanical Seminar Hall
No. of Beneficiaries	68 Students

Course Content:

The course covered the following key topics:

Introduction to CATIA

Sketching and Part Design

Assembly Design

Surface Modeling

Drafting and Documentation

Analysis and Simulation

Program Overview:

he Basics of CATIA course, led by Mr. Sacin Satpute at MIT Skills Pune, is designed to equip mechanical engineering students with essential skills in Computer-Aided Design using CATIA software. The course provided a comprehensive understanding of CATIA's core functionalities and applications, preparing students for practical design and modeling tasks in various industries.

Mr. Sachin Satpute delivered a comprehensive overview of CATIA software, covering its user interface and fundamental concepts in computer-aided design. During practical sessions, participants engaged in hands-on activities, enhancing their skills in sketching and creating 3D part models while emphasizing the importance of efficient design practices. Furthermore, he introduced basic analysis and simulation tools within CATIA, providing insights into evaluating design performance. The course thus offered a well-rounded exploration of CATIA, combining theoretical understanding with practical application in design and analysis.

Learning Outcomes:

Students demonstrated Demonstrate effective part and assembly design skills adhering to industry standards.

Students applied the advanced surface modeling techniques for designing complex geometries and generated accurate engineering drawings and documentation using CATIA.

Students gained the basic understanding and application of analysis and simulation tools within CATIA.

Thank you sir for considering me to conduct the sessions at your reputed institute.

I am working out the schedules at my end & hope to revert to you at the earliest.

Thanks
S. Satpute

Respected Sir,

With reference to your telephonic discussion with Dr. S. P. Trikal regarding conduction of CAD course in our institute. Sir, after referring academic planner the course can be conducted between 25th March to 30th March 2019. The schedule is from 10.00 am to 06.00 pm with breaks as follows.

Session 01:	10.00 am to 12.00 pm
Lunch Break:	12.00 pm to 01.00 pm
Session 02:	01.00 pm to 03.00 pm
Tea Break:	03.00 pm to 03.30 pm
Session 03:	03.30 pm to 05.30 pm
Discussion:	05.30 pm to 06.00 pm

Please refer your schedule and kindly give confirmation for the same.

Interpretation:

- The Basics of CATIA course has been notably valuable for a majority of participants.
- The course seamlessly meets the expectations set by the candidates.
- Participants communicate a notable satisfaction with the trainer's expertise and the effective delivery of course content.
- The training incorporates well-suited demonstrations, activities, presentations, and content, custom-tailored to address the specific needs of the participants.
- The training convincingly accomplishes the stated objectives of the program

Microsoft Excel Course - Session Outcome Report

Course Duration: 30 hours (2 weeks, weekdays 3.45-5.45 pm & Saturdays 11 am-1.30 pm, 2 pm-4.30 pm)

Faculty: Prof. S. M. Mishra (Internal Resource Person)

Session Timetable:

Week	Day	Date	Time	Topic Covered
Week 1	Monday	18-02-19	3:45 pm - 5:45 pm	Introduction to Microsoft Excel, Interface
Week 1	Tuesday	19-02-19	3:45 pm - 5:45 pm	Data Entry and Formatting
Week 1	Wednesday	20-02-19	3:45 pm - 5:45 pm	Cells, Rows, and Columns
Week 1	Thursday	21-02-19	3:45 pm - 5:45 pm	Basic Formulas and Functions
Week 1	Friday	22-02-19	3:45 pm - 5:45 pm	Data Validation and Error Handling
Week 1	Saturday	23-02-19	11:00 am - 1:30 pm	Sorting and Filtering Data
Week 2	Monday	25-02-19	3:45 pm - 5:45 pm	Workbook Protection and Security
Week 2	Tuesday	27-02-19	3:45 pm - 5:45 pm	Conditional Formatting
Week 2	Wednesday	01-03-19	3:45 pm - 5:45 pm	Data Visualization Techniques
Week 2	Thursday	03-03-19	3:45 pm - 5:45 pm	Data Tables and Pivot Tables
Week 2	Friday	05-03-19	3:45 pm - 5:45 pm	Charts and Graphs
Week 2	Saturday	07-03-19	11:00 am - 1:30 pm	Data Analysis Tools
Week 2	Saturday	07-03-19	2:00 pm - 4:30 pm	Text Functions and Formulas
				Case solving in Excel and Assessment
				Course Feedback and Certification

Session Outcome:

Participants in the Microsoft Excel course have completed a comprehensive 30-hour training program. They have gained a strong foundation in Excel basics, advanced data manipulation

Ph : +918669638081/82
Email.principal@ssgmce.ac.in, registrar@ssgmce.ac.in
Website- www.ssgmce.ac.in

techniques, data analysis, and advanced functions. Additionally, they have learned to create charts, graphs, and pivot tables, design dashboards, and work with macros and VBA for automation. The course concluded with a project presentation and assessment to ensure a deep understanding of the topics covered.

This course has been conducted successfully by Prof. S. M. Mishra, an internal resource person from the Department of Business Administration and Research. The participants have acquired valuable skills that will enhance their proficiency in Microsoft Excel, allowing them to apply their knowledge in various academic and professional settings.

Certifications were be awarded to participants upon successful completion of the course

Calculate your final grade based on the following grading scale:

A: 90-100

B: 80-89

C: 70-79

D: 60-69

F: 0-59

Use an IF statement to determine your final grade based on your calculated percentage.

Data Validation (Topics: Data Validation and Error Handling):

Use data validation to ensure that the Points Earned and Total Points Possible columns only accept numeric values.

Report (Topics: Workbook Protection and Security):

Add a simple header with your name and course details to the worksheet.

Protect the worksheet to prevent unauthorized changes.

Assessment:

You will be assessed on your ability to create a functional grade calculator in Excel. The assessment will focus on the accuracy of the calculations, your proficiency in basic Excel functions, and the presentation of the final grade.

Ph : +918669638081/82 Email.principal@ssgmce.ac.in, registrar@ssgmce.ac.in
Website- www.ssgmce.ac.in

Case 2:

Case Study: Travel Itinerary and Expense Tracker

🌍 Your Upcoming Adventure 🌍

Introduction:

You're about to embark on an exciting international adventure, and you want to create a dynamic travel itinerary and expense tracker using Excel. This will help you plan your trip, keep track of your activities, and monitor your expenses on the go.

Tasks:

📅 Travel Itinerary (Topics: Data Entry and Formatting):

Create a new worksheet titled "Travel Itinerary."

Set up columns for Date, Destination, Activity, Time, and Notes.

Fill in the itinerary with details of your daily activities during your trip, including the date, destination, planned activity, time, and any additional notes.

🌟 Highlighting Special Events (Topics: Conditional Formatting):

Use conditional formatting to highlight special events or unique activities during your trip. For example, highlight the day of a special festival or celebration in a different color.

📊 Interactive Map (Topics: Charts and Graphs):

Create an interactive map of your destinations using an online map tool or by inserting a map image. Pinpoint each destination on the map, and hyperlink the destinations to their corresponding details in the itinerary.

Ph : +918669638081/82 Email.principal@ssgmce.ac.in, registrar@ssgmce.ac.in
Website- www.ssgmce.ac.in

💰 Expense Tracker (Topics: Data Validation and Error Handling):

Create a new worksheet titled "Expense Tracker."

Set up columns for Date, Expense Category, Expense Description, Amount, and Payment Method.

Enter details of your expenses during the trip, including the date, expense category, description, amount, and payment method.

📈 Expense Summary (Topics: Charts and Graphs):

Create a bar chart to visualize your expenses by category. Each category will represent a bar, and the height of the bar will indicate the total expense for that category.

📅 Daily Expense Summary (Topics: Pivot Tables and Pivot Charts):

Use a pivot table to create a daily expense summary. This table will show the total expenses for each day, allowing you to monitor your daily spending.

📖 Personal Travel Diary (Topics: Workbook Protection and Security):

Keep a personal travel diary by adding a new worksheet for each day. You can write about your experiences, memories, and reflections. Protect this diary worksheet with a password for privacy.

🔍 Item Search (Topics: Advanced Functions and Formulas):

Create a search feature that allows you to find specific items (activities or expenses) within your itinerary or expense tracker based on keywords.

Assessment:

You will be assessed on your ability to create an engaging and functional travel itinerary and expense tracker. The assessment will focus on the organization of your trip details, the accuracy of data entry, proficiency in Excel functions, the quality of interactive features, and the overall presentation.

“Japanese Language Course “

Academic Year 2018-19

Shri Sant Gajanan Maharaj College of Engineering,
Khamgaon Road, Shegaon, Dist: Buldhana

Sr No	Title of Activity	**Japanese Language Course**
1	Speaker	Mr. Nilkanth Wankhade, Foreign Language Trainer Surani Academy Akola
2	Co-Ordinator	Prof H.S.Patil
3	Co-Coordinator	Dr.N.A.Patil
4	Schedule of Activity	October 2018 To June 2019
5	Time	8am to 10am
6	Objective of Activity	**1.** Develop basic language proficiency in Japanese, covering fundamental skills such as listening, speaking, reading, and writing. **2.** Enable students to communicate effectively in everyday situations, such as greetings, introductions, and simple conversations. **3.** Introduce students to a selection of essential kanji characters, focusing on those commonly used in everyday contexts and basic communication. **4.** Teach fundamental grammar rules and sentence structures to allow students to construct simple sentences and express basic ideas. **5.** Prepare students for Japanese language proficiency exams (JLPT), providing guidance on exam formats, content, and strategies for success.
7	Venue	**D1 Classroom**
8	No. of Beneficiaries	Total- **23**
9	POs Addressed	**PO10, PO12**

About Program:

The primary aim of this program is to enable students to develop comprehensive proficiency in the Japanese language, encompassing listening, speaking, reading, and writing skills, along with a deep understanding of Japanese culture, to empower them for effective communication and engagement in diverse contexts.

Speaker Profile: Mr. Nilkanth Wankhade, Foreign Language Trainer, Surani Academy,Akola

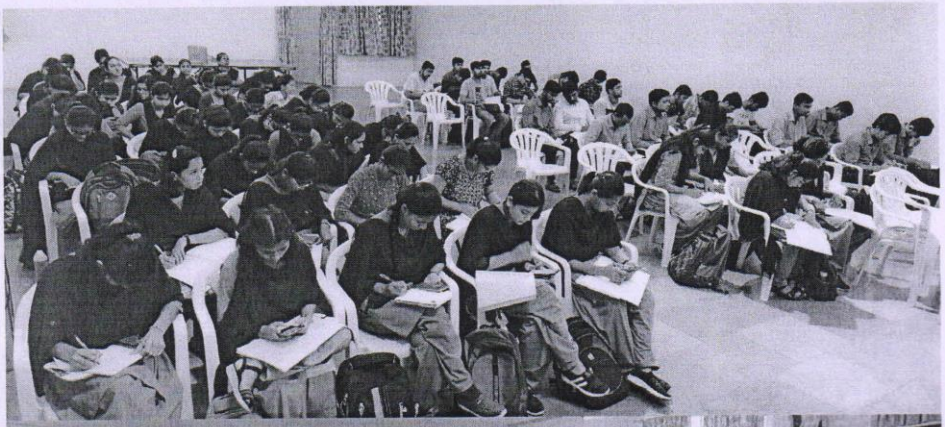

Topics Covered: Japanese Language Course

Learning Outcomes:

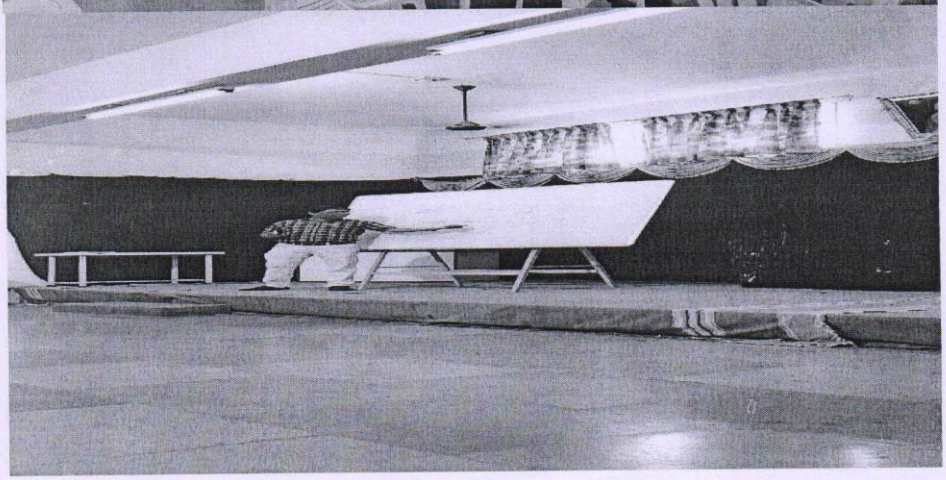

1. Students achieved a foundational level of proficiency in listening, speaking, reading, and writing in the Japanese language.
2. Students gained an ability to engage in basic conversations, express ideas, and understand simple spoken and written Japanese Career Advantages:
3. Students gained Proficiency in reading and writing the basic Japanese scripts.
4. Improved confidence in using Japanese, leading to increased participation in conversations and activities.
5. Improved reading comprehension skills through exposure to various written materials.
6. Readiness to take Japanese Language Proficiency Test (JLPT) exams at an appropriate level, demonstrating language proficiency
7. Ability to construct basic written sentences and short paragraphs in Japanese.

Program Contents:

Dr. Wankhade conducted a Japanese Language Course tailored specifically for engineering students with the primary goal of providing a well-rounded learning experience. The course aimed to develop basic proficiency in listening, speaking, reading, and writing in Japanese, while also fostering an appreciation for Japanese culture and enhancing cross-cultural competence. Throughout the modules, which covered hiragana, katakana, basic kanji, grammar, and engineering-specific vocabulary, Dr. Wankhade employed interactive sessions, role-playing activities, and real-world engineering scenarios to reinforce language skills. One of the course's notable features was the inclusion of cultural integration workshops, providing students with insights into Japanese customs, traditions, and workplace etiquette. Japanese language enriched the practical application of language skills in the professional domain. Field trips to engineering-related establishments further allowed students to apply their language proficiency in real-world settings. Dr. Wankhade's Japanese Language Course successfully achieved its objectives, equipping participants with valuable linguistic and cultural skills essential for their future endeavors in the engineering field.

NOTICE

ULTIMATE SPOKEN ENGLISH CLASSES- By Prof.A.B.Chaus

Date : 03/07/2018

Dear All,

It's our privilege to organize spoken English workshop by renowned Public Speaker, Teacher & Author (Chaus Publications) Mr.Abdus S.Chaus, from Pune, for the second time after having huge success (with total 350 students) in conducting the same class previously in the year 2017, realizing students interest and their request we are organizing this 1 month (daily 1hour) workshop for second time in our college.

CHAUS ULTIMATE SPOKEN ENGLISH CLASSES is a concrete form of a long research on English. The workshop aims to develop student's confidence in using English in various communication situations, both formal and informal focusing on wide range of vocabulary, grammatical accuracy and also the knowledge of what to say to whom and when. This workshop contains a range of activities for the students that are mainly designed around shared experiences, to be done in pairs and groups so that students learn to respond spontaneously in any communication situation.

Participant would get the certificate after completion of this course that will definitely add weightage to your resume, so avail this golden opportunity to REFINE YOUR FLUENCY IN SPEAKING ENGLISH under the expert guidance at your doorstep.

DETAILS OF REGISTERATION:

Participant:

- All interested students from 1st ,2nd ,3rd & final year,
- M.B.A. department
- All interested faculties alongwith their relatives(from convent and college)

Final Registration Date:

- Strictly From 4th July to 14th July 2018

Timing for Registration:

- 11:00 am -5:00 pm (to program incharge)

Course Material:

- Set of 30 books alongwith D.V.D, magical quick reference grammar based charts, & course certificate.

Fees Structure:

- **Rs.1500**/-(including all course material), no extra fees will be charged for any other purpose

Program In-charge Details:

- Prof.Harshali S.Patil, A.S.H.Department, S.S.G.M.C.E, Shegaon

- **Date:**24th July to 2nd September 2018(Session Aut.2018-2019)
- **Time:** 1st batch:**7:00am -8:00 am** 2nd batch: 8:30am-9:30am
- **Venue**:Swadhyay Kaksh, **1st** Floor, Sports Complex, SSGMCE.

Resource Person with contact details: Mr. Abdus Salaam Chaus, Chaus Publication Ltd.,Pune

Number of Participants: Approx. 350

Mode: Offline

Objectives:

- To improve participants' speaking and communication skills in the English language
- To empower participants to communicate effectively in English in their personal and professional lives.

Highlights of Guest Lecture:

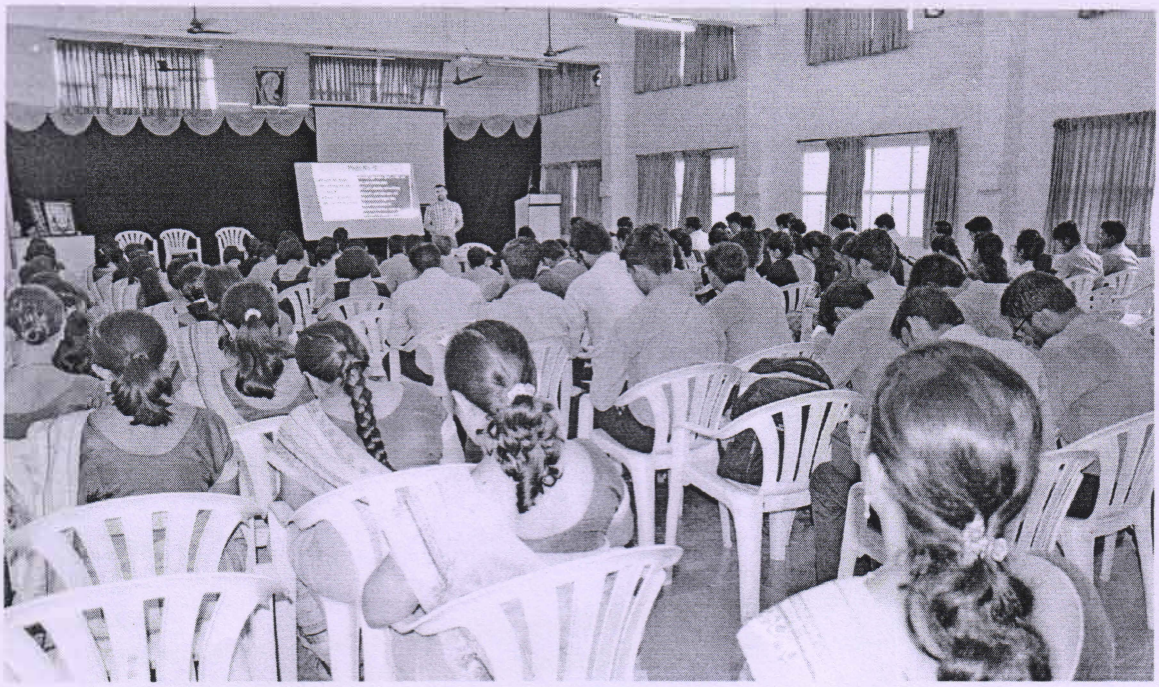

- The workshop was designed to be highly interactive, with a focus on engaging participants in conversations, discussions, and practical exercises to actively use and practice their English-speaking skills.
- It ensured that everyone received individualized attention and ample opportunities to speak.
- The workshop had a well-structured curriculum that covered various aspects of spoken English, such as pronunciation, vocabulary, grammar, and real-life communication scenarios.
- also includedaccent-reduction techniques to help participants speak more clearly and be better understood.

Outcomes: Participants demonstrated an increased ability to speak English more fluently and with greater ease.

1. Participants demonstrated improved pronunciation and clearer speech, making it easier for others to understand them.
2. Participants gained more confidence in their ability to speak English and express themselves.

Feedback Analysis: The students enjoyed the session and gained valuable insights.

About Program:
Program was organized for BE final year student, Dr. Rajkamal was the resource person.

This programme was intended to make students aware of practical skills needed to harness the combined power of Machine Learning (ML) and the Internet of Things (IoT). It also focuses on explore future trends in these transformative technologies.

Learning Outcomes:

1. Students are able to acquire the ability to integrate machine learning algorithms with IoT data.
2. Students are able to learn the step-by-step process of building and training machine learning models, understanding dataset preparation.
3. Students are able to showcase acquired skills by completing a workshop project, demonstrating the integration of ML and IoT principles.
4. Students are able to gain a solid foundation in machine learning concepts, including supervised and unsupervised learning.

Lecture Series on Emerging Technology
By Dr. Rajkamal

9 July 2018

All B.E. final year students of CSE department are hereby informed that, once again department is organizing lecture series by eminent professor Dr. Rajkamal (Adjunct faculty) as per the following schedule.

Sr. No.	Month, Year and Dates
1	July, 2018 19th to 22nd Theory session followed by practical session
2	August, 2018 16th to 19th
3	September,2018 14th to 16th

Dr. Rajkamal (Former Vice Chancellor Devi Ahilya University, Indore) is an eminent professor and he will deliver expert talk on emerging technologies

Detail schedule will be displayed very soon

Respected Sir,

On behalf of Shri Sant Gajanan Maharaj College of Engg Shegaon, I am very pleased to have the honor of inviting you as an adjunct faculty for the lecture series in the department of Computer Sci & Engg. ,which is secluded from 4th Feb 2019 .

Your knowledge, experience, perspective and participation in the computer field and technical education would add a great value to the students as well as to faculty of our institute.

Hope you will find time out of your busy schedule to share your ocean of knowledge with us and accept our invitation for said lecture series.

We look forward to your presence and guidance.

Thanking you,
Best wishes.
Sincerely yours,

Dr. D. R. Dhotre

SHRI SANT GAJANAN MAHARAJ COLLEGE OF ENGINEERING, SHEGAON.

DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING

Autumn/ Spring Session 2018-2019

Date: Friday, September 7, 2018

To,
The Principal,
S.S.G.M.C.E, Shegaon 444203

THROUGH: Prof. Dr. D.R. Dhotre, Head, CSE Dept, SSGMCE

SUBJECT: Permission for conducting a 5 days Hands-On workshop on Data Science Tech - "Inside DS", **5 Days** (17 Sept 2018 to 21 Sept 2018)

VENUE : **Web Tech Lab**
PARTICIPATION FEES : **Rs 500/-** Per Head

We are planning to conduct a workshop titled: "Inside DS", in order to motivate students to learn and prepare for data science technologies. To encourage them immediately to start working on mini/major projects based on open source softwares.

The objective of workshop is

- 5 Days hands-on training on Hadoop HDFS & systems like Apache Spark for Machine learning, Zeppelin for visualizations etc
- To understand importance of cluster computing, virtualization technologies,
- To motivate students to choose projects completely based on open source software,
- Understanding to build projects on data and data products,
- Real time analytics and tools,
- Introductory concepts of machine learning, visualizations and open source tools,
- Concepts of sandbox,
- Data Lake and architecture.

In this workshop we shall try to cover following contents:

- Data science, data, data driven products, data brokers,
- Bad data and dirty data its impact on revenue,
- Roles of data science team,
- Data lake concept and data lake architecture,
- Data science process/ cycle,
- Vertical & Horizontal scaling, intro to cluster computing, virtualization,
- Role of data analyst and required skills,
- Intro to Apache Spark for Machine learning and Apache Zeppelin for visualizations,
- Loading data from local file system to Apache Hive tables,
- Communication and data visualization.

The workshop could be scheduled as follows

17/09/2018	Mon	06:15-08:15 PM
18/09/2018	Tue	06:15-08:15 PM
19/09/2018	Wed	06:15-08:15 PM
20/09/2018	Thu	FULL DAY
21/09/2018	Fri	06:15-08:15 PM

We are sure that, 2nd and 3rd year CSE & IT students can take the benefit. Students interested in learning open source data science technologies can participate in 5 days hands-on training with full awareness. These contents are not in syllabus. It is an effort to provide contents not in syllabus to them. This is very important in today's I.T. industries.

We hope, you will kindly consider the application and guide us in this regard.

Thanking you!

Yours faithfully,

"Training Program on PLC & Industrial Automation"

Mr. Sarang Thakare and Mr.Samir Chaure (Prolific Systems and Tech Pvt.Ltd, Nagpur)

Academic Year 2018-19

Electrical Engineering Department

Shri Sant Gajanan Maharaj College of Engineering,

Khamgaon Road, Shegaon, Dist: Buldhana

Title of Activity	Training Program on PLC & Industrial Automation
Speaker	Mr. Sarang Thakare and Mr.Samir Chaure (Prolific Systems and Tech Pvt.Ltd, Nagpur
Organizer	Electrical Engineering Department
Schedule of Activity	**8/08/2018 to 17/08/2018**
Duration	48 Hours
Objective of Activity	The primary objective of the training program conducted by Mr. Sarang Thakare and Mr. Samir Chaure from Prolific Systems and Tech Pvt. Ltd, Nagpur, is to provide comprehensive and hands-on knowledge to electrical engineering students in the field of Programmable Logic Controllers (PLC) and Industrial Automation. some key objectives: To introduce participants to the fundamental concepts of PLC and Industrial Automation, including the principles, components, and applications. To provide practical, hands-on experience with PLC programming, troubleshooting, and configuring industrial automation systems. To cover industry-specific topics and case studies to ensure participants are familiar with the latest trends, challenges, and advancements in the field. To foster collaboration and teamwork among participants through group projects and interactive sessions, simulating real-world industrial scenarios.
Venue	PLC and Factory Automation Lab.
No. of Beneficiaries	32 Students

Course Content:

Introduction to PLC and Industrial Automation:

Overview of PLCs and their role in industrial automation

Introduction to automation systems and their applications

Basic Electrical and Electronics Concepts:

Review of fundamental electrical and electronic principles relevant to PLCs.

Understanding sensors, actuators, and control systems.

PLC Fundamentals:

In-depth exploration of PLC architecture and components

Understanding ladder logic programming

Hands-on PLC Programming:

Practical exercises for programming PLCs using industry-standard software

Troubleshooting and debugging PLC programs

Industrial Communication Protocols:

Overview of communication protocols such as Modbus, Profibus, and Ethernet/IP

Practical applications of communication protocols in industrial settings

Human-Machine Interface (HMI):

Introduction to HMI systems and their integration with PLCs

Hands-on experience in designing and implementing HMIs

Program Overview:

The PLC & Industrial Automation training program, led by industry experts Mr. Sarang Thakare and Mr. Samir Chaure from Prolific Systems and Tech Pvt. Ltd, Nagpur, provided a comprehensive learning experience for electrical engineering students. Spanning duration of 48 hours , the program seamlessly integrated theoretical sessions with hands-on exercises, ensuring participants gained practical skills in Programmable Logic Controllers (PLC) and Industrial Automation. The trainers, with their expertise, delivered engaging content, covering fundamental concepts and addressing current industry trends and challenges. The program emphasized collaboration through group projects, enabling participants to apply their knowledge to real-world scenarios and fostering teamwork

Learning Outcomes:

Students gained hands-on expertise, making them industry-ready.

Successful participants received certifications, validating their skills.

Students gained a thorough understanding of industrial automation systems, encompassing sensors, actuators, communication protocols, and human-machine interfaces.

Participants gained insights into current industry trends and emerging technologies in the field of industrial automation, ensuring they stay abreast of advancements.

Report on Guest Lecture / Interaction for session 2018-19

Date: 18/08/2018

Submitted:

To,
The Principal
S.S.G.M.C.E., Shegaon.

Conducted by: Mr. Sarang Thakare and Mr.Samir Chaure
(Prolific Systems and Tech Pvt.Ltd, Nagpur)

Workshop Duration: 8/08/2018 to 17/08/2018

Time: Morning 8am to 10am and evening 6pm to 8pm (college working day)
Morning 8am to Evening 8pm (Holidays)

Venue: PLC and Factory Automation Lab (Electrical Engineering Dept)

Target Group: Third and Final Year B.E. Electrical Engineering Students

The workshop focused on PLC, SCADA and its Application to Industrial Automation.

Dr. S.R.Paraskar
Head
Electrical Engineering Department

Head

Course Feedback Form

Academic Year 2018-19

Course Title: Training Program on PLC & Industrial Automation

Name of Trainer: Mr. Sarang Thakare and Mr.Samir Chaure (Prolific Systems and Tech Pvt.Ltd, Nagpur)

Duration: 8/08/2018 to 17/08/2018.

Tick (only one answer for each question).

Sr. No	Question	Poor	Fair	Good	Very Good	Excellent
1	The Training you attended was.				✓	
2	The demonstrations were.			✓		
3	The content presented was.			✓	✓	
4	The trainer's knowledge about the content was				✓	
5	The way trainers taught the contents was.				✓	
6	The activity your participated in were.			✓		
7	The quality of instruction was					✓
8	The training made the objectives was.				✓	
9	The training made my expectation is.			✓		
10	Adequate time was provided for Questions and Discussions.				✓	

Write your answers to the following questions.

1) What did you like best about the training?

It was best training. trainer thought us all about the PLC & Industrial Automation.

2) Are there any areas that should be included in training?

More hours on practice.

3) Are there any areas that should be improved for future training?

Everything was nice.

Shri Sant Gajanan Maharaj College of Engineering, Shegaon

Interpretation:

Students in the Industrial Automation course have gained significant advantages from the carefully crafted contents and well-structured format.

The course has proven exceptionally valuable for candidates.

The trainer's expertise and skillful delivery of course material have generated widespread satisfaction among participants.

The training seamlessly integrated impactful demonstrations, interactive activities, insightful presentations, and tailored content to precisely address the individual needs of participants.

Overall, the training unequivocally achieved the stipulated objectives of the program.

This is to certify that

SHRI SANT GAJANAN MAHARAJ COLLEGE OF ENGINEERING, SHEGAON

has successfully conducted "10 days training program on Industrial Automation".

In association with **PROLIFIC SYSTEMS & TECHNOLOGIES PVT. LTD. Nagpur**

Covering the following topics -

- **Basics of PLC**
- **Allen Bradley PLC**
- **Siemens PLC**
- **Mitsubishi PLC**
- **SCADA (Wonderware Intouch)**
- **HMI (OP77b)**

Workshop was Held from **08-08-2018 to 17-08-2018** at PLC & Factory Automation Lab,
SHRI SANT GAJANAN MAHARAJ COLLEGE OF ENGINEERING, SHEGAON.
Under the coordination of **Dr. S. R. Paraskar (HOD, Electrical Engineering).**
