Action Taken Report on Feedback

The institute is dedicated to achieving continuous improvement and excellence in engineering education. This report undertakes the analysis of feedback provided by our diverse group of stakeholders. The feedback collection methods included online and offline surveys, with participation from students, faculty, alumni, parents, and employers.

The feedback covered a broad spectrum of topics, including curriculum, teaching quality, facilities, career preparedness, and communication.

To systematically categorize and evaluate the feedback, an analysis is conducted.

Key findings are determined from feedback, and an action plan is developed for implementing the recommendations

This Action Taken Report offers a comprehensive summary of the initiatives undertaken by the Internal Quality Assurance Cell (IQAC) in response to valuable input received from diverse stakeholders. It delineates the measures implemented to address issues, integrate suggestions, and elevate the overall educational quality and institutional procedures.

Feedback Source

1. Students: Feedback collected from present students concerning their academic and extracurricular experiences.
2. Faculty/Academician: Insights obtained from teaching Faculty/Academician regarding curriculum, instructional approaches, and institutional assistance.
3. Alumni: Input provided by former students who have completed their studies at the institution.
4. Parents: Opinions from parents of current students on various aspects of their children's education.
5. Employers: Feedback obtained from employers who have recruited graduates from the institution
