Action Taken Report on Feedback

The institute is dedicated to achieving continuous improvement and excellence in engineering education. This report undertakes the analysis of feedback provided by our diverse group of stakeholders. The feedback collection methods included online and offline surveys, with participation from students, faculty, alumni, parents, and employers.

The feedback covered a broad spectrum of topics, including curriculum, teaching quality, facilities, career preparedness, and communication.

To systematically categorize and evaluate the feedback, an analysis is conducted. Key findings are determined from feedback, and an action plan is developed for implementing the recommendations

This Action Taken Report offers a comprehensive summary of the initiatives undertaken by the Internal Quality Assurance Cell (IQAC) in response to valuable input received from diverse stakeholders. It delineates the measures implemented to address issues, integrate suggestions, and elevate the overall educational quality and institutional procedures.

Feedback Source

1. Students: Feedback collected from present students concerning their academic and extracurricular experiences.
2. Faculty/Academician: Insights obtained from teaching Faculty/Academician regarding curriculum, instructional approaches, and institutional assistance.
3. Alumni: Input provided by former students who have completed their studies at the institution.
4. Parents: Opinions from parents of current students on various aspects of their children's education.
5. Employers: Feedback obtained from employers who have recruited graduates from the institution

ACTION TAKEN REPORT (ATR) for the Year 2019-20

Sr. No.	Stakeholder	Observation / Feedback	Action Taken
01	Employer/ Industry	Suggested that Curriculum should have still more practical approach especially in technology	The college has responded by revising the curriculum to include more hands-on projects, real-world case studies, and practical exercises in technology-focused courses. Additionally, faculty members are integrating industry-relevant tools and software into their teaching methods to provide students with practical experience. Collaborations with industry partners have been established to facilitate internships and practical training opportunities for students.
		Need to improve programming skills	The college has initiated plans to integrate coding courses with laboratory components. This includes setting up dedicated computer labs equipped with necessary software and resources for hands-on coding practice. Additionally, faculty members are developing lab exercises and assignments to complement theoretical learning and reinforce practical coding skills
		Need to improve communication skills and soft skills	The college has taken positive measures by organizing specialized communication skills training programs. These sessions focus on improving verbal and written communication, presentation skills, and interpersonal communication. Additionally, online mock interview sessions are being conducted to prepare students for placement drives.

This Action Taken Report offers a comprehensive summary of the initiatives undertaken in response to valuable input received from diverse stakeholders. It delineates the measures implemented to address issues, integrate suggestions, and elevate the overall educational quality and institutional procedures.

Feedback Source:

1. Students: Feedback collected from present students concerning their academic and extracurricular experiences.
2. Faculty/Academician: Insights obtained from teaching faculty/academician regarding curriculum, instructional approaches, and institutional assistance.
3. Alumni: Input provided by former students who have completed their studies at the institution.
4. Parents: Opinions from parents of current students on various aspects of their children's education.
5. Employers: Feedback obtained from employers who have recruited graduates from the institution

Year 2019-20:

Feedback Received on	Observation / Feedback	Action Taken
Curriculum	Students are demanding for more recent technological topics incorporated in syllabus related to software engineering	Workshop on Software Testing on 31/03/2019 by Ms. Pragati Chowhan, Assistant Software Engineer, Tristha Global Pvt. Ltd, Mumbai
	Faculty Members Academician were found the syllabus to be with more project based learning	As the institute is affiliated to SGBAU so not possible to change the assessment pattern but still department Review the entire curriculum to determine where and how project-based learning can be incorporated and started the project allotment from third year
More exposure on Live Projects	Alumni / Employer are identified that students need more exposure Live Projects	Students are motivated for internships, sponsored projects and industrial visits to get live exposure so that they got experience on live projects Internships: 22 Students Sponsored Projects: 48 students Industrial Visit: 35 Students
