#### **Objectives:**

To provide students with a comprehensive understanding of both software development principles and digital Very Large –Scale intergration (VLSL) system design.

Highlights of Guest Lecture:

Speakers have given a brief intro about JDM Design Technologies, which has been constantly building capacities in emerging technologies, innovating and leveraging its expertise, caliber, and skill sets to develop and deploy industrial solutions. They address real-life practical problems from industry, while at the same time, they strive to develop solutions of substantial theoretical significance. JDM Design Technologies offer integrated placement-oriented internships and training modules for college students to make them “Industry Ready”. The objective is to groom the students for initiating a successful career in the IT and VLSI Industry. There is a continuing need to design, produce, and re-make integrated circuits as electronic gadgets. VLSI technology is widely used in Medicine, Automobiles, Commercial Electronics, and Digital Signal Processing (DSP).

The Internet of Things (IoT) has had a huge impact on the world we live in. With trillions of sensors all over the place, VLSI design and hardware requirements have exploded as a result of which embedded systems are being redefined. Along with it, the VLSI is being reimagined as well. VLSI design for IoT or embedded chips demand a paradigm shift in thinking. The students have better job opportunities if having the knowledge of programming as well as hardware.

**Subject: Regarding permission to conduct practical**

Dear Sir,

**Manav School of Engg. & Tech, Vyala, Tal: Balapur, Dist: Akola** is one of the most reputed Engineering Institutions and known for its excellent record in academics and co-curricular activities. The College provides an excellent climate for the all-round development of the students.

As a part of the curriculum, the students are required to understand practical of two subjects (i) **Control system-I** (ii) **Electrical Machine-II Semester- Fifth**. We feel it will be fruitful that the students with academic background have a glimpse of the industry in order to have a better appreciation of practical applications of theory.

In the above background, we would like to send a batch of about **33 students** of Electrical Engineering Department branch of **Third year** accompanied by **02 staff** members to visit your esteemed institute preferably in **September 2018** as telephonic discussion with -Prof.R.K.Mankar & Prof.R.S.Kankale.

I request you, to kindly accord the necessary permission for the above visit and arrange for guiding the students.

We assure you that our students will observe the rules and regulations that are prescribed by your institute for the visitors and will in no way disturb the functioning of the institute during their visit.

We shall be grateful for a favorable response.

Thanking You,
