Program Contents:

Maj. Gen. Bali commenced his session by offering insights of his defence career & discussed the discipline in army's life and normal people's lives.
He asked all to believe that I am going to be successful; I am going to be the best.
He said:
Engineers, who reach the top, have latest knowledge, know how to deal with people, and are considered reliable.
Improve English speaking by reading the books.
He told some lesson from army's life is, hope is not a plan, it's just a dream and being average is never enough. He suggested to remember three things

- You can make your own future.
- Life only rewards action, not words.
- Take daily small steps to become better.

Lion is the king of jungle because he believes that he is the king of jungle. Your belief about self is important.
Winners are disciplined. He illustrated it by citing the example of Marshmallow Test (1973).
He discussed the necessary things for self-control.
He quoted Nelson Mandela: "The greatest glory in living lies not in never falling, but in rising every time we fall."
To change the habit, take small steps but do it daily. If you slip, start again. Falling is not bad, get back is a track. Hard work will always beat talent and preparation makes you lucky.
He told about the four secrets to get discipline,

1. Hard work first and fun later.
2. Focus on habit, every little thing counts
3. Never forget your goal.
4. Value your time.

Some tips for managing time:

1. Learn from the army – punctuality matters.
2. Be specific.
3. Use Checklist.
4. Reduce your social media activities.
5. Do the important and difficult things first.

He illustrated the way you spend time.
He advised students to follow the following:

1. Learn to speak well – be a great listener, rehearse.
2. Winners set great examples – work harder at work, be solid at your work, take responsibility, be the best-behaved person.
3. Winner believe in work not luck.

He told the story of Field Marshal Sam Manekshaw's to the students and the Indian Army's approach to success.
This session was highly motivating and inspiring.

About Program:

The main objective of the lecture on "New Education Policy Benefits to Engineering Students" is to empower engineering students with a deep understanding of the key provisions and advantages presented by the New Education Policy (NEP).

Speaker Profile: Dr. Anant Chakradeo, Pro-Vice Chancellor at MIT Art Design and Technology University, Pune

Topics Covered: New Education Policy Benefits to Engineering Students

Learning Outcomes:

1. **Interdisciplinary Approach:** The NEP emphasizes an interdisciplinary approach, allowing engineering students to explore diverse subjects beyond their core discipline. This encourages a broader understanding of various fields, fostering creativity and innovative problem-solving abilities.
2. **Flexibility in Curriculum:** The policy aims to provide flexibility in curriculum design, allowing students to choose elective courses across disciplines. This enables engineering students to tailor their education to align with their interests and career aspirations.
3. **Multiple Entry and Exit Points:** NEP introduces the concept of multiple entry and exit points in degree programs. This allows students to receive certificates or diplomas based on completed years of study, providing recognition for partial completion and facilitating re-entry to complete degrees.
4. **Emphasis on Research and Innovation:** The policy emphasizes research-oriented learning and encourages innovation among students. Engineering students can benefit from increased opportunities for research projects, internships, and collaborations with industry to solve real-world problems.
5. **Development of Critical Skills:** NEP focuses on developing critical thinking, problem-solving,

communication, and collaboration skills. Engineering students can expect a curriculum that encourages the development of these essential skills alongside technical knowledge.

6. **Integration of Industry-Relevant Skills:** The policy aims to bridge the gap between academia and industry. Engineering students can benefit from programs that focus on developing industry-relevant skills, making them more employable and prepared for the workforce.

Program Contents:

Mr. Gopesh Pandey delivered a session on "Growing Expectations of Industries From Budding Engineers." He first explained the students the objectives of the induction program because he believed that freshers should prepare for their future through MBO (Management by objective technique). He gave the students a solution to bridge the gap between developed institutes vs desired industries that is to gain knowledge and develop a skill set. He said being aware is very important as information is an asset, having information at the right time and working on it towards the right direction will align you towards your goal. After this encouraging thought, he moved on and explained the campus recruitment process which includes:

- Resume shortlisting
- Aptitude test
- Technical written test
- Group discussion
- Interview

He assured the students that if they do their best in these five points, they will receive a good placement offer. He said that in the absence of a person, his/her resume tells a lot about him/her. Therefore, he advised students to prepare a resume in such a way that it has the main keywords company wants. He stated a fact that nowadays resumes are not manually searched and instead they are shortlisted using AI based software, thus having the keywords in your resumes is important.

He informed the students that engineering vs working of engineer in industries are quite two different things. The industries want the engineers to apply theoretical knowledge and design, develop and produce the products.

He focused on twelve expectations of industries from budding engineers:

- Communication skills
- Knowledge beyond textbooks
- Ability to lead
- Attitude and positive approach
- Emotional Intelligence
- Updated with the latest technology/fitment
- Management skills
- Ability to multi task
- Versatile and energetic
- Ambitious
- Result orientated (Quality vs Quantity)
- ROI (Return on investment) driven

It was an interactive session which students enjoyed a lot. It was a roadmap for budding engineers. Students gained new insights in this session.

Program Contents:

Mr. Sachin Satpute started his session with a few questions like: Are we industry ready? / What is industry ready? / Why to be industry ready? / How to be Industry ready?

He answered all these questions with numerous examples from industry and advised students “Be industry ready and be industry-centric”.

He shared the significance of: Skill Development for professionals, Skills of Engineering needed for industry, the Initiative Drives of Govt of India and Innovation & Technology.

He elaborated the role of passion and skills to achieve goals in life by citing the example of Sachin Tendulkar. He asked students to keep on learning new technology and always think out of the box.

He stated that “There is no option/alternative for lifelong learning” and further suggested that “Get yourself where your interest is; the branch doesn’t matter. Be interdisciplinary to pursue your career”. One should have good communication skills to progress in professional life.

He talked about Demographic change, Core Engineering Sector, Practical based teaching, technical skills, Employability skills, Engineering Responsibilities, and also the practices young Engineers should avoid.

“Start your Career and Stay in your Career”, he said and ended the session by answering the questions asked by the students.

It was really an insightful session through which students understood the industry demands from engineers.

The primary aim of this program is to create an engaging and informative guest lecture that welcomes students to the field of engineering and sets a positive tone for their academic and professional journey.

Speaker Profile: Dr. B. N. Jajoo is Retd. Principal,Govt. COE,Amravat,is also author of many books and poet too.

Topics Covered:

Welcome to Engineering

Learning Outcomes:

After successful completion of this course, students will have the knowledge and skills to

1. Solve the problems easily with time management which will be helpful to them to clear the competitive exams for better job opportunities.
2. It helps Candidates to conquer the success professionally.
3. Analyze the Problems logically and approach the problems in a different manner.

Program Contents:

Dr. B. N. Jajoo delivered a session on “Welcome to Engineering”. He shared a number of personal experiences which would help students deal with the challenges they face during engineering.

He advised students to focus on Academics, Personality and Equality.

Talking about academics, he said:

- Focus on study (4 hours per day)
- 70% focus on studies and 30% focus on enjoyment.
- Be punctual, well-mannered, disciplined and loyal to engineering.

About Personality Development, he said:

- Body language plays an important role in professional life. Therefore, students need to work on their body language during the presentations.
- Work on Communication Skills for a better future.
- Improve Presentation skills.
- Improve Language (English)
- Speak in English with your classmates and friends

While elaborating this, he shared his own example. He said that he could not speak proper Marathi and English as he had come from rural background. Then he started learning from other students and in a brief span of time he overcame the language barrier. He advised students to learn from each other. This attitude will help to become a good team player. If “x” can do it, “y” can also do it.

Talking about Equality, he said:

- No matter where all come from, what their scores are. At this juncture, start with the blank slate and grab opportunities.

- He also talked about values. He advised students to know the value of human dignity and urged students to postpone gratifications.

- He concluded his talk with a poem by Rabindranath Tagore

THIS IS MY prayer to thee, my Lord-strike, strike at the root of penury in my heart.

“Give me the strength lightly to bear my joys and sorrows.

Give me the strength to make my love fruitful in service.

Give me the strength never to disown the poor or bend my knees before insolent might.

Give me the strength to raise my mind high above daily trifles.

And give me the strength to surrender my strength to thy will with love.”

He suggested doing "Sky Gazing" before studying for the removal of disturbing thoughts, having to do one thing at a time. He engaged few activities on the statement "Your mind is a magnet".
He lastly took meditation for 5 min and the session ended with questions & answers. Students did meditation as suggested by him and experienced the impact of meditation. It was a wonderful session on Yoga and Meditation.

About Program:

Mrs. Sneha Gachake, the yoga instructor, and Dr R.M.Kharate led the sessions with great dedication. She emphasized to the students that dedicating a few minutes each day to yoga can effectively alleviate the stress that accumulates in both the body and mind. Yoga postures, pranayama, and meditation are proven techniques for stress release.

The session began with seeking the blessings of the Almighty, followed by warming up and stretching exercises. This was followed by a series of yoga postures, including Padmasanas, Sukhasan, Tadasana, Bhujangasana, and concluded with Shavasana.

Mrs. Gachake motivated the students and underscored the importance of integrating yoga into their daily lives, extending its practice beyond the mat. She highlighted the idea that the principles and benefits of yoga should be applied and sustained in various aspects of their daily lives.

Learning Outcomes:

1. **Physical Relaxation:** Participants often experience physical relaxation as yoga involves gentle stretching, postures, and movements that release tension in the muscles.
2. **Improved Concentration and Focus:** Regular meditation practice enhances students' ability to concentrate, focus, and sustain attention, leading to improved academic performance and productivity.
3. **Enhanced Emotional Regulation:** Meditation helps students develop emotional resilience, allowing them to better regulate emotions, handle conflicts, and maintain a positive mindset.
4. **Better Sleep Patterns:** Practicing meditation techniques can improve sleep quality by reducing insomnia, enhancing relaxation, and promoting better sleep habits.
5. **Mindfulness and Awareness:** Students learn mindfulness through meditation, enhancing their present-moment awareness, observation skills, and ability to stay grounded amidst distractions.
6. **Strengthened Mental Health:** Introduction to meditation fosters mental resilience, reduces

anxiety, and helps in managing symptoms of depression, contributing to overall mental health.

7. **Increased Self-Awareness:** Meditation encourages self-reflection, aiding students in understanding their thoughts, emotions, and behaviours, leading to greater self-awareness.
