Three Days Hands-on Workshop on  
**Basics of CMOS Design using Cadence**  
6<sup>th</sup> to 8<sup>th</sup> January 2023 / 24<sup>th</sup> to 26<sup>th</sup> March 2023

### **Workshop Summary Report**

The Department of Electronics and Telecommunication Engineering at Shri Sant Gajanan Maharaj College of Engineering, Shegaon, organized a Three Days Hands-on Workshop on Basics of CMOS Design using Cadence. The workshop was held twice, from 6th to 8th January 2023 and from 24th to 26th March 2023, and was attended by a total of 38 participants from the institute.

The main objective of the workshop was to provide participants with a comprehensive understanding of CMOS design and its implementation using Cadence tools. The workshop was conducted by Mr. S. P. Badar, faculty, E & TC Dept., who provided theoretical as well as hands-on training on various aspects of the topic.

The workshop commenced with an introduction to CMOS technology and its applications. This was followed by a detailed discussion on MOSFET characteristics, basic digital circuits, and logic gates. Participants were then introduced to Cadence Virtuoso, widely-used software for designing and simulating CMOS circuits. In the subsequent sessions, participants were guided on the use of Cadence Virtuoso for designing various digital circuits, such as inverters, NAND gates, and other combinational logic design. They were also given hands-on training on designing layouts, simulating circuits, and analysing the results.

The feedback from the participants was overwhelmingly positive, with many expressing their appreciation for the practical knowledge gained during the workshop. The workshop was also praised for the organization and arrangements made by the Department of Electronics and Telecommunication Engineering.

In conclusion, the Three Days Hands-on Workshop on Basics of CMOS Design using Cadence was a great success in providing participants with a solid understanding of CMOS design and its implementation using Cadence tools. It is hoped that such workshops will be organized in the future to provide participants with the opportunity to gain practical knowledge in their respective fields.

To,  
The Principal,  
SSGMCE, Shegaon

**Subject: Permission to conduct Three Days Awareness workshop on "Basics of CMOS Design using Cadence"**

Respected Sir,

Electronics & Telecommunication Department wish to organize Three Days Awareness workshop on "Basics of CMOS Design using Cadence" for EXTC students with respect to batches during 6<sup>th</sup> to 8<sup>th</sup> (Batch-I) and 20<sup>th</sup> to 22<sup>nd</sup> January 2023 (Batch-II). We hope this workshop will help students to get basic knowledge of VLSI design & simulation of Circuits on Cadence Tool.

The detail about training course is as follow:

Workshop Name	Fees	Datcs	Targeted Students
"Basics of CMOS Design using Cadence"	Rs 700/- for participants of MICROWIND workshop	6 <sup>th</sup> to 8 <sup>th</sup> (Batch-I) and 20 <sup>th</sup> to 22 <sup>nd</sup> January 2023 (Batch-II)	All EXTC students
	Rs. 1000/- for new participant		

We request you to permit us for the conduction of this workshop.

Thanking you,

Yours Faithfully,

  
Mr. S. P. Badar  
Workshop Coordinator

  
Dr. M. N. Tibdewal  
Head, EXTC Department

**A Report of Expert Lecture on “Virtualization in Cloud Computing”**

Date: 01-10-2022

The details of the expert lecture are as follows:

**Title:** Virtualization in Cloud Computing

**Expert Details:** Mr. Swapnil Bandwal, Cloud Architect, Etisalat, Dubai, UAE

**Date & Time:** 1st October 2022 from: 10:30AM to 12:00PM

**Target Audience:** Second, Third and Final Year of IT, CSE and EXTC branches.

**Platform:** Online Session using Microsoft Teams.

**Attendees:** 87 participants

**Overview:** The session started with a warm welcome and greetings of the expert, Mr. Swapnil Bandwal, by Ms. Shreya Darodkar, a student of third year IT. She introduced the Speaker with his Technical Expertise and Industrial Experience in the Cloud Computing and handed over the session to him. Mr. Swapnil Bandwal started the session with a general discussion related to Cloud Concept and various terminologies involved in Cloud Computing. Then he continued to discuss about other details in cloud computing and importance of cloud computing in day-to-day life in today’s scenario. Then he gradually moved to the topic of expert lecture i.e. “Virtualization in Cloud Computing” and explained basics to the audience. He also discussed about various tools that can be used for Virtualization in Cloud Computing and did some demo for the students using those tools. Few main points that the speaker discussed during his session were:

1. What is cloud?
2. Cloud Offerings and Deployment Models
3. What is Virtualization?
4. Industrial Overview
5. Cloud Platform Demos (Public and Private)

This expert lecture was taken with an intend to impart the knowledge of Cloud Computing and Virtualization in it with different tools that can be used to do so. Also, to get idea about different career opportunities available in the industry in cloud computing and related technologies. The session ended with a vote of thanks from Ms. Harshada Sawant, student of thir year IT, where she thanked to the Speaker of program, Management of College, The Principal, all Deans, HODs, Faculties and all students that were present for the session and ended the meeting.

 Prof. A. S. Manekar  
 HOD, IT

**Shri Sant Gajanan Maharaj College of Engineering, Shegaon**  
**Department of Information Technology**  
**And Coordination With T&P Cell**  
**A Report of Expert Lecture on “Robotic Process Automation”**

**Date:26-02-2023**

The details of the expert lecture are as follows:

**Title:**Robotic Process Automation

**Expert Details:** Mr. Narayan Shrawagi, Business Analyst Cum Solution Architect,  
T-SYSTEMS ICT India Private Limited, Pune

**Date & Time:**25<sup>th</sup> February 2023 from: 9:00AM to 11:00AM

**Target Audience:** Second, Third and Final Year of IT, CSE and EXTC branches.

**Platform:** Online Session using Microsoft Teams.

**Attendees:**63 participants

The session started with a warm welcome and greetings of the expert, Mr. Narayan Shrawagi, by Ms. Riddhi Gadewar, a student of third year IT. She introduced the Speaker with his Technical Expertise and Industrial Experience in the Robotic Process Automation and handed over the session to him.

Mr. Narayan Shrawagi started the session with a general discussion related to Robotic Process Automation (RPA) and its use in the industry at different levels and sectors. Then he continued to discuss about other details in Robotic Process Automation and importance of Robotic Process Automation in day-to-day life in today’s scenario. Then he gradually moved to the topic of expert lecture i.e. “Robotic Process Automation” and explained basics to the audience. He also discussed about various terminologies in RPA and did some demo for the students using tools such as UiPath. Few main points that the speaker discussed during his session were:

1. Desktop Application Automation using UiPath.
2. Dynamic Web Application Automation using UiPath
3. Invoice Reading using UiPath
4. API Integration Using UiPath
5. About AI

This expert lecture was taken with an intend to impart the knowledge of Robotic Process Automation using UiPath that can be used by students to understand the basics. Also, to get

idea about different career opportunities available in the industry in RPA and related technologies.

The session ended with a vote of thanks from Ms. Riddhi Gadewar, student of thir year IT, where she thanked to the Speaker of program, Management of College, The Principal, all Deans, HODs, Facultys and all students that were present for the session and ended the meeting.

Glimpses of the online sessions:

### **Report on 2 days workshop ‘Hands on TABLEAU’**

The details of the expert lecture are as follows:

**Title:** Hands on TABLEAU

**Expert Details:** Mr. Akshay Agrawal ,Project Engineer at Wipro, Pune

**Date & Time:** 25th and 26th of Feb. 2023

**Venue:**Web Tech Lab, SSGMCE Shegaon

A two day workshop “Hands on TABLEAU”” was organized by ITSA(Information Technology Student Association” on 25th and 26th of Feb. 2023 at Web tech lab. The speaker for the workshop was Mr. Akshay Agrawal (Project Engineer at Wipro, Pune) was invited by the committee to conduct the workshop. The event was successfully conducted and with constant support of HOD of IT Dr. A S Manekar Sir. A total of 31 students registered and attended the workshop.

#### **DAY 1 (25TH Feb)**

The workshop started at 02:00 pm in afternoon with introduction and welcoming of the guest Mr. Akshay Agrawal with a flower bouquet. Speaker started the workshop with his experiences as a student to set the environment and followed by introduction to tableau its use in the industrial sector and its importance in the job market, after the basic introduction step by step installation of tableau on the devices was taught, after the installation following points were covered in the workshop:-

- Basic tools available on the software, dimensions, measures, analysis diagram (pie chart, bar graph etc.)
- Importing a data file and selecting dimensions and measures to generate multiple worksheets.
- Creating a Dashboard from multiple worksheets and making it presentable.
- Sorting and filtering techniques in tableau to access required Data from the stack.
- Uploading your dashboard to cloud so that it can be accessed from any device.
- Tableau calculations , error checking and repair Multiple worksheets and dashboard were created by students using individual creativity and presentation skills.

At the end of the day speaker assigned a task to the students.

#### **DAY-2(26th Feb)**

On day 2 workshop was conducted early in the morning at 9:00am. The previous day task assigned by Akshay sir was checked by the ITSA team. This day was all about hands on training about everything taught on day 1.Students created many dashboards using their own creativity

and later it was overviewed by sir. Then Q & A session was held where doubts from various students were cleared. This session ended at 12:00 Noon with a vote of thanks to the Mr. Akshay Agrawal. In this way, we have successfully conducted a two day's workshop on "Hands on Tableau".

**Shri Sant Gajanan Maharaj College of Engineering, Shegaon**

**Information Technology Department**

**“Awareness Workshop on AWS Academy Courses”**

**Program Title:** AWS Academy Courses.

**Date:** 27<sup>th</sup> Feb 2023 to 1<sup>st</sup> March 2023

**Time:** 06:00 PM to 8:00 PM All Days

**Venue:** Web Tech Lab, SSGMCE Shegaon

**Organized By:** Department of Information Technology.

**Resource Person:** Mr. Amit Molke, Miss. Ruchika Bhagat, Mr. Saurabh Wankhade

**Number of Participants:** 30

**Objectives:**

1. **Education:** AWS Academy aims to deliver high-quality, up-to-date cloud computing education to students and professionals, helping them understand AWS services and solutions.
2. **Skill Development:** The program focuses on developing practical, hands-on skills in cloud computing and AWS services, enabling individuals to build and manage applications in the AWS cloud environment.
3. **Certification Preparation:** AWS Academy prepares students for AWS Certification exams, helping them become AWS Certified, which is valuable in the job market.
4. **Workforce Development:** By offering AWS training and certification preparation, AWS Academy contributes to building a skilled workforce capable of meeting the increasing demand for cloud computing professionals.
5. **Curriculum Development:** AWS Academy provides institutions with ready-made, up-to-date cloud computing curricula and resources that can be integrated into their existing programs or used to create new courses.
6. **Partnering with Educational Institutions:** AWS Academy collaborates with educational institutions to create a community of educators and students interested in cloud computing, fostering a supportive learning environment.
7. **Industry-Relevant Knowledge:** AWS Academy ensures that the training content reflects real-world industry needs and best practices, allowing students to apply their knowledge in professional settings.

8. **Global Reach:** AWS Academy is available in many countries, helping to make cloud computing education accessible worldwide.

## **Courses Highlights:**

### **Course 1: AWS Academy Cloud Foundation**

The AWS Academy Cloud Foundation course is designed to provide students with a fundamental understanding of cloud computing and Amazon Web Services (AWS). This course serves as an entry point for those looking to build a strong foundation in cloud technologies. Here are the key details:

**1. Course Overview:** The AWS Academy Cloud Foundation course is an instructor-led training program that covers the basics of cloud computing, AWS services, and architectural best practices.

**2. Content:** The course content includes an introduction to the AWS Cloud, AWS global infrastructure, core AWS services (such as EC2, S3, RDS), security and compliance, pricing, and the Well-Architected Framework.

**3. Duration:** The course typically spans around 2-3 months, consisting of approximately 40-60 hours of instruction. It may be delivered in a classroom setting or online, depending on the institution offering the course.

**4. Target Audience:** This course is suitable for students, IT professionals, and anyone interested in gaining a foundational understanding of AWS and cloud computing. It is often a prerequisite for more advanced AWS certifications.

**5. Certification:** While this course itself doesn't lead to an AWS certification, it prepares students for the AWS Certified Cloud Practitioner exam, which is a valuable certification to have as it validates your basic AWS knowledge.

**6. Hands-On Labs:** Typically, students engage in practical, hands-on labs to apply what they've learned, helping them gain real-world experience with AWS services.

### **Course 2: AWS Academy Cloud Architect course:**

**1. Course Overview:** The AWS Academy Cloud Architect course is designed to provide students with a comprehensive understanding of cloud architecture and Amazon Web Services (AWS). It's a more advanced program compared to the Cloud Foundation course, focusing on cloud design and architecture.

**2. Content:** The course content delves into advanced architectural concepts, including high availability, scalability, security, and optimization of AWS services. Students learn how to design and implement cloud solutions using AWS.

**3. Duration:** The AWS Academy Cloud Architect course is typically more extensive, spanning around 12 to 16 weeks. It includes in-depth instruction and hands-on experience.

**4. Target Audience:** This course is suitable for students and IT professionals who want to specialize in cloud architecture and AWS solutions. It's ideal for those looking to become AWS Certified Solutions Architects.

**5. Certification:** While the course itself doesn't provide a certification, it thoroughly prepares students to pursue the AWS Certified Solutions Architect certification, which is highly sought after in the industry.

**6. Hands-On Labs:** Like the Cloud Foundation course, students engage in practical labs to apply architectural principles, design solutions, and gain hands-on experience.

### Outcome:

- AWS Academy can provide students with the knowledge, skills, and industry recognition needed to excel in the field of cloud computing, offering a pathway to a rewarding and in-demand career.
- AWS Academy Cloud Foundation provides Students who successfully complete the course are well-prepared to take the AWS Certified Cloud Practitioner exam and enter the world of cloud computing with confidence.
- The AWS Academy Cloud Architect course provides a more in-depth exploration of cloud architecture and AWS services, making it a valuable choice for those looking to specialize in cloud design and solution architecture. The longer duration allows for a deeper understanding of these complex topics.

**“Workshop on Python”**

**Academic Year 2022-23**

Shri Sant Gajanan Maharaj College of Engineering,  
Khamgaon Road, Shegaon, Dist: Buldhana

Sr No	Title of Activity	Hands on Workshop on Python For 2 <sup>nd</sup> and 3 <sup>rd</sup> year Students
1	Speaker	Mr. Anup Kelkar, Python Academy, Nagpur
2	Co-Ordinator	Prof C.M.Mankar
3	Co-Coordinator	Dr.S.B.Patil
4	Schedule of Activity	21-11-2022 To 23-11-2023
5	Time	11am To 5.30 pm
6	Objective of Activity	<ol style="list-style-type: none"> <li>1. Provide students with a comprehensive introduction to the Python programming language, covering its history, features, and versatility.</li> <li>Academic Guidance: Providing an overview of the academic structure, curriculum, course requirements, and expectations. This helps students understand what is required of them academically.</li> <li>2. Familiarize students with Python syntax and fundamental data types, ensuring a solid understanding of variables, data structures, and basic operations.</li> <li>3. Introduce conditional statements (if, else) and loops (for, while) to enable students to create more complex and dynamic programs..</li> <li>4. Introduce students to popular Python libraries and frameworks, such as NumPy, Pandas, and Flask, showcasing their applications in real-world scenarios.</li> </ol>
7	Venue	<b>Web Tech Lab</b>
8	No. of Beneficiaries	Total- <b>51</b>
9	Pos Addressed	PO5, PO8, PO9, PO10, PO12

### About Program:

The aim of the "Hands-on Workshop on Python for Students" is to empower participants with practical skills and a solid foundation in the Python programming language.

**Speaker Profile:** Mr. Anup Kelkar, Python Academy, Nagpur

### Learning Outcomes:

1. Participants developed a heightened proficiency in Python, gaining hands-on experience in coding and applying theoretical concepts to practical exercises.
2. The workshop provided a strong foundational understanding of Python syntax and fundamental data types, ensuring participants could navigate the language with confidence.
3. Students successfully applied programming constructs, including conditional statements, loops, functions, and modules, enabling them to create more complex and dynamic programs
4. Emphasis on coding best practices instilled a sense of coding discipline among participants, promoting readability, documentation, and adherence to style guides.
5. Participants were introduced to popular Python libraries and frameworks, such as NumPy and Pandas, gaining insights into their applications for data manipulation and analysis.

## Program Contents

Mr. Anup Kelkar, an esteemed professional from Python Academy in Nagpur, conducted an engaging and insightful workshop on Python for students. The workshop aimed to provide a comprehensive learning experience, equipping participants with practical skills and a deep understanding of the Python programming language. Mr. Kelkar commenced the workshop with an introduction to Python, covering its history, features, and versatility. The session progressed into hands-on coding exercises, allowing students to immediately apply theoretical concepts and develop proficiency in Python syntax and fundamental data types.

Throughout the workshop, Mr. Kelkar skilfully navigated participants through essential concepts such as conditional statements, loops, functions, and modules. He emphasized the importance of coding best practices, instilling habits of readability, documentation, and adherence to style guides. The workshop also delved into the application of Python in various domains, including web development and data science, providing students with a glimpse into the real-world versatility of the language.

An interactive Q&A session and problem-solving discussions allowed participants to seek clarification on concepts and address challenges faced during coding exercises. Mr. Kelkar demonstrated the integration of Python with libraries and frameworks, showcasing tools like NumPy and Pandas for data manipulation and analysis. Additionally, he introduced the basics of version control using Git, fostering a collaborative coding environment and preparing students for teamwork in coding projects.

C. M. Mankar (Asst Prof),  
Workshop Coordinator

Prof. Dr. S. B. Patil,  
Head, CSE Dept.

# HANDS ON WORKSHOP ON PYTHON (3-DAYS)

Organised by  
**Computer Science &  
Engineering  
Department**

**MR. ANUP KELKAR**  
(RESOURCE PERSON)  
PYTHON  
ACADEMY, NAGPUR

**21,22,23 NOV**

**11 AM TO 5.30 PM**

**PERKS:**

- 1) Certificate with knowledge
- 2) Industry Oriented Project
- 3) Willey Certifications (Discount)
- 4) Aptitude Test after Workshop

Selected students  
after cracking quiz  
test can be  
offered Internship

Circular

SHRI SANT GAJANAN MAHARAJ COLLEGE OF ENGINEERING, SHEGAON.  
DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING  
Winter/ Autumn Session 2022-2023

Date: 16/Nov/2022

To,  
The Head,  
Department of Information Technology,  
SSGMCE, Shegaon

**Subject:** The permission to use the "Web-Tech Laboratory resources" on dates 21, 22 & 23 Nov 2022 .

Dear Sir,

CSE Dept is organizing "Three Days Hand-On workshop on Python" for second & third year students. The workshop is scheduled with Full day for dates 21, 22 & 23 Nov 2022. Majority of the participant will come with own laptops.

This application is to request you to kindly allow us to use the Web-Tech Laboratory from date 21/11/2022 to 23/11/2022, time from 11:00 AM to 05:30 PM. The purpose of using the laboratory is above stated Hand-On workshop.

Thanking you,

C. M. Mankar (Asst Prof),  
Workshop Coordinator

Prof. Dr. S. B. Patil,  
Head, CSE Dept.

# CSE DEPARTMENT PYTHON HANDS-ON WORKSHOP

✦ We THE CSE DEPARTMENT glad to announce that we are coming with Hands-On Workshop On Python ( 3 days) for 2nd 3rd 4th-year students in our college campus where you can learn Python language + 1 Advanced "project ( Data Analytics, Business Data Analytics)

✦ Data Science ✦

## 📌 Outcome :

1. Certificate with Practical Knowledge
2. Industry Oriented Project
3. Willey Certification & Courses offer(Discount)

📅 Date : 21, 22 & 23 Nov 2022

## 📌 Special Opportunity:

At last one aptitude & Python test to grant Internship to performing Students

Note:-  Come with own laptop having python and anaconda.

Basic knowledge of Python

## 📌 Registration Fees :

₹500/- only

📍 UPI Id :- ssgmce@sbi

📍 MERCHANT NAME - PRINIPAL SSGM ENGG COLLEGE

Resource Person:

Mr. Anup Kelkar

Python Academy, Nagpur

Youtube Channel - Python Academy

SpringBoard - Training

📌 **Hurry Up Register Fast \*Limited Seats\* Available** 📌

Registration Process:

1. Sign up using e-mail.
2. Fill the Required Details.
3. Confirm Payment.
4. Join WhatsApp Group.

\*Required

5. UTR number /UPI transition id \*

Please fill the valid UTR number

6. **Add screenshot of payment.** \*

**“Workshop on UI/UX Designing”**

**Academic Year 2022-23**

Shri Sant Gajanan Maharaj College of Engineering,  
Khamgaon Road, Shegaon, Dist: Buldhana

Sr No	Title of Activity	Workshop on UI/UX Designing For 2 <sup>nd</sup> and 3 <sup>rd</sup> year Students
1	Speaker	Gittesh Uttarwar , Shruti Chatarkar
2	Co-Ordinator	Prof P.V.Deshmukh
3	Co-Coordinator	Dr.S.B.Patil
4	Schedule of Activity	07-04-2023 To 8-04-2023
5	Time	11 am To 5.30 pm
6	Objective of Activity	<ol style="list-style-type: none"> <li>1.Familiarize students with the fundamental concepts of UI and UX design, explaining their significance in creating effective and user-friendly digital products.</li> <li>2.Instill the concept of user-centered design, emphasizing the importance of designing products that meet the needs and preferences of the end-users.</li> <li>3.Introduce students to key UI design principles, including visual hierarchy, consistency, navigation, and responsiveness, to create aesthetically pleasing and functional interfaces.</li> <li>4.Explore UX design principles such as usability, accessibility, and efficiency, emphasizing the overall experience users have with a product.</li> </ol>
7	Venue	<b>Web Tech Lab</b>
8	No. of Beneficiaries	Total- <b>42</b>
9	Pos Addressed	PO5, PO8, PO9,PO10,PO12

### About Program:

A workshop on UI/UX designing for 2nd and 3rd-year students aims to provide participants with a comprehensive understanding of User Interface (UI) and User Experience (UX) design principles.

### Learning Outcomes:

1. Participants acquired a solid understanding of design principles, including visual hierarchy, color theory, typography, and layout.
2. Through hands-on exercises led by Gittesh Uttarwar and Shruti Chatarkar, students developed practical skills in wireframing and prototyping using tools such as Figma and Sketch.
3. Participants learned effective collaboration and communication skills within multidisciplinary teams, essential for successful UI/UX projects.
4. Guidance on creating a strong UI/UX design portfolio prepared students for showcasing their work effectively in professional settings
5. Students are empowered with the skills and knowledge necessary for successful careers in this dynamic field.

## Program Contents

The workshop, titled "UI/UX Design Essentials," was skilfully conducted by the Computer Science and Engineering Student Association (CSESA) student chapter, under the able guidance of Prof. P.V. Deshmukh, the Faculty Advisor, and Dr. S.B. Patil, the Head of the Department (HOD). Spanning two insightful days, the workshop, led by senior students Gittesh Uttarwar and Shruti Chatarkar, provided 2nd and 3rd-year students with a robust foundation in UI/UX design principles. The workshop spanned over two days. Through interactive sessions and hands-on activities, participants were introduced to essential design concepts, including visual hierarchy, colour theory, and responsive design. The workshop's success is attributed not only to the expertise of Gittesh and Shruti but also to the dedicated guidance of Prof. P.V. Deshmukh and the visionary leadership of Dr. S.B. Patil. Their combined efforts ensured that participants gained practical skills and knowledge, fostering a deeper understanding of UI/UX design principles.

  
Prof. Dr. S. B. Patil,

HOD, CSE Department

## **Overview of the program:**

Shri Sant Gajanan Maharaj College of Engineering, Shegaon, the department of Computer Science and Engineering in association with Institution Innovation Council has organized a Workshop on head start to Web Development & is coordinated by Prof. P. V. Deshmukh, Computer Science and Engineering Department, SSGMCE, Shegaon. The Workshop was enlightened by Abhishek Gawali & Nikhil Babulkar students from third year CSE department. The workshop was held on 7<sup>th</sup> & 8<sup>th</sup> January 2023 at 1.00 PM to 5.00 PM and 9.00 AM to 11.00 AM respectively with a warm welcome by Chaitali Nakate. The session was high inspiration to all the students and speaker has insisted students to increase vision behind theoretical borders as practicals has no border.

Abhishek sir and Nikhil sir interacted with the students. Students asked many question to the sir about coding and sir answered each one properly from the students. The responses were very positive, promising, hopeful and motivating to conduct such kind of workshops. The objectives of the workshop are fulfilled through such an informative workshop through its impactful contents. This session has benefited the student's community by providing them the right guidance about web developement, HTML, CSS, Javascript.

**“Workshop on The Secret of Canva ”**

**Academic Year 2022-23**

Shri Sant Gajanan Maharaj College of Engineering,  
Khamgaon Road, Shegaon, Dist: Buldhana

Sr No	Title of Activity	Workshop on The Secret of Canva
1	Speaker	Mr Prathmesh Gattani & Miss Mrunal Patil
2	Co-Ordinator	Prof Komal Vyas
3	Co-Coordinator	Dr.M.N.Tibdewal
4	Schedule of Activity	10-12-2022
5	Time	11 am To 5.30 pm
6	Objective of Activity	<ol style="list-style-type: none"> <li>1.Familiarize students with the Canva platform, its interface, and the range of design possibilities it offers.</li> <li>2.Provide an in-depth exploration of Canva's various tools, such as text, image, and shape elements, to enable participants to navigate and utilize them effectively.</li> <li>3.Teach fundamental design principles and how to apply them using Canva, including color theory, typography, and layout.</li> <li>4.Explore advanced features in Canva, such as animations, presentations, and collaboration tools, enabling participants to create more dynamic and engaging designs.</li> </ol>
7	Venue	<b>DSP Lab EXTC Dept</b>
8	No. of Beneficiaries	Total- <b>30</b>
9	Pos Addressed	PO5, PO8, PO9,PO10,PO12

### About Program:

A workshop on “The Secret of Canva “empower participants with a comprehensive skill set in utilizing the Canva platform for graphic design..

### Learning Outcomes:

1. Students gained a comprehensive understanding of the Canva platform, becoming proficient in navigating its interface, accessing tools, and utilizing various features.
2. Through practical exercises, students developed hands-on design skills, applying Canva tools to create visually appealing content across different design contexts
3. Students successfully applied fundamental design principles, such as color theory, typography, and layout, within the Canva platform to enhance the visual impact of their creations.
4. The workshop equipped participants with specialized knowledge in using Canva for specific design areas, including social media graphics, branding elements, and digital/print media applications.
5. The collaborative and interactive nature of the workshop provided participants with a rich learning experience, fostering engagement, discussion, and the exchange of ideas among peers
6. Through collaborative activities, participants improved their teamwork and communication skills, understanding the importance of effective collaboration in the design process.

## **Program Contents**

The workshop titled "The Secrets of Canva" was successfully conducted by students Mr. Prathmesh Gattani and Miss Mrunal Patil under the esteemed banner of the Electronics and Software Students' Association (ESSA). This insightful workshop aimed to explore into the intricacies of the Canva platform, providing students with a comprehensive understanding of its features and capabilities. The dynamic duo, Prathmesh and Mrunal, skilfully guided their peers through an array of topics, including an introduction to Canva, hands-on exploration of design tools, and the application of design principles such as colour theory and typography. The workshop, organized under the guidance of the dedicated faculty advisor Prof. Komal Vyas and the Head Dr. M.N. Tibdewal, fostered a collaborative learning environment. Through interactive sessions, participants gained practical insights into creating impactful designs for social media, branding, and various digital and print applications. The workshop not only showcased the students' expertise but also highlighted the effective synergy between student initiatives and the guidance of faculty members. Attendees left the workshop equipped with valuable skills and secrets of utilizing Canva for their creative endeavours.

Subject: Permission to organize "One day workshop on designing and basic of canva" under  
ESSA

Respected Sir,

With reference to above subject, we the undersigned are desirous to organize "one day workshop on designing and basic of canva" on 10<sup>th</sup> December 2022 under ESSA Students Branch for the benefit of students.

This workshop is being organized for the students who are interested in designing. Points that will be covered in this workshop are: introduction and applications of canva, fundamentals of canva like resolutions, alignment and templates, color selection. We will also give basic knowledge about logo, poster, and certificate designing. The certificate of course completion will be provided.

Name of the workshop: "THE SECRET OF CANVA"

Duration : 4 hrs

Registration Fees:

1. For PER Members: Rs 40 only.

I request you to permit us to organize the Workshop.

Thanking you.

Workshop on “Web Development”

By

**Mr. Nikhil Babhulkar & Abhishek Gawali**

**SSGMCE, Shegaon**

**Academic Year 2022-23**

Shri Sant Gajanan Maharaj College of Engineering,  
Khamgaon Road, Shegaon, Dist: Buldhana

Sr No	Title of Activity	Workshop on “Web Development”
1	Speaker	<b>Mr. Nikhil Babhulkar &amp; Abhishek Gawali</b> Students of SSGMCE, Shegaon
2	Co-Ordinator	Prof. K. V. Chandan
3	Co-Cordinator	Prof. N. G. More
4	Schedule of Activity	01 <sup>st</sup> - 2 <sup>nd</sup> October 2022
5	Time	As per scheduled in Time table and notice
6	Objective of Activity	To make students aware about Web development.
7	Venue	Computer Lab. of SSGMCE, Shegaon
8	No. of Beneficiaries	Total- <b>74</b>

#### **About Program:**

**Mr. Nikhil Babhulkar & Abhishek Gawali** Student from the SSGMCE conducted the hands on workshop for the student from the core branches for the web page development. As the web site and web page development is necessary for the presentation of the skills for every student, this workshop delivers step by step HTML and CSS, Java and Git-Hub programming.

#### **Learning Outcomes:**

1. Students are made to program through the HTML, CSS, Java and Git-hub for the building their own web page.
2. Students asked questions to the speaker about various aspect of the web site building.

# Flyer

The flyer features a dark blue background with a glowing blue sphere in the center. The text is arranged in a formal, serif font. At the top left is the college's logo, and at the top right is a circular seal. The main title is prominently displayed in the center, with 'WEB DEVELOPMENT' in large, bold, yellow letters on a dark blue background. Below the title, the dates and location are provided with icons. A QR code is located in the bottom right corner, and the Instagram handle is in the bottom left.

## Department of Business Administration and Research,

Shri Sant Gajanan Maharaj College of Engineering, Shegaon

### Final Report on Business Analytics Workshop:

Prepared by Prof. Bilal T. Husain

The Department of Business Administration and Research at Shri Sant Gajanan Maharaj College of Engineering, in collaboration with Lyceum of the Philippines University- Laguna, organized a workshop on Business Analytics. The workshop was aimed at fostering the already signed Memorandum of Agreement between the two institutions. The expert from LPU Laguna, Ephraim Joshua K. Coronel, Standardization and Process Improvement Officer, conducted the workshop via online platform Teams, on March 23, 24, 28, 30, and 31. The workshop was coordinated by Prof. Bilal T. Husain from the Department of Business Administration and Research at Shri Sant Gajanan Maharaj College of Engineering. The workshop was an opportunity for students from Shri Sant Gajanan Maharaj College of Engineering and Saraswati College, Shegaon, to enhance their knowledge and skills in the field of Business Analytics. This report aims to provide an overview of the workshop and its outcomes.

Business Analytics Workshop Flyer -Mar 2023

## **Report for Day 1 of Business Analytics Workshop**

**Date: 23rd March 2023**

**Time: 8.30 am – 10.30 am IST**

The first day of the Business Analytics Workshop started with a brief introduction of the speaker and an overview of Business Analytics. The session aimed to provide participants with an understanding of Business Analytics, its role in business decision-making, the process of Business Analytics, and its applications.

The session started with a discussion on what is Business Analytics and its importance in the business world. The participants were introduced to the process of Business Analytics, which includes data collection, data cleaning, data analysis, and decision-making. The participants learned about the different types of analytics, including descriptive analytics, diagnostic analytics, predictive analytics, and prescriptive analytics.

After the break, the session focused on the application of Business Analytics for Customer Analytics. The participants were introduced to Customer Analytics, its stages, and the concept of Customer Lifetime Value (CLV). The session covered the importance of CLV in marketing and customer acquisition.

The session included a case study on Starbucks, where the participants learned how to analyze CLV using Excel. The case study demonstrated how CLV can be used to develop effective marketing strategies and increase customer acquisition.

The session was interactive, with participants actively engaged in discussions and hands-on exercises. The participants were encouraged to ask questions and share their experiences, which enhanced the learning experience.

In conclusion, Day 1 of the Business Analytics Workshop provided participants with an overview of Business Analytics, its role in business decision-making, and its applications. The session helped participants understand the importance of Customer Analytics and the concept of CLV in marketing and customer acquisition. The hands-on exercises and interactive discussions provided participants with practical experience in applying analytics to real-world scenarios. Overall, the workshop provided participants with valuable knowledge and skills that will be beneficial in their careers in business analytics.

## Day1 Session Pics:

The screenshot shows a Microsoft Teams meeting interface. The main content is a presentation slide titled "Introduction to Business Analytics". The slide includes a "Home Page" button, a navigation menu, and a central diagram. The diagram shows a funnel with four stages: "What is Business Analytics?", "The Role of Analytics", "The Process of Business Analytics", and "Applications of Business Analytics". Below the funnel, there is a flow diagram: "good data" leads to "noise", "messy data" leads to "business insight", and "garbage data" leads to "noise". The Teams interface shows two participants in video call and a list of other participants on the right.

## Introduction to Business Analytics

EST. 1983  
**Shri Sant Gajanan Maharaj College of Engineering**

The screenshot shows a Microsoft Teams meeting interface. The main content is a presentation slide titled "Significance of CLV". The slide features a lightbulb icon and four numbered points in blue arrows: "1 Improves profitability and reduce costs", "2 Increases cash flow and resources", "3 Identifies successes and areas for improvement", and "4 Determines impact of business efforts". The Teams interface shows a list of participants on the right and a toolbar at the top.

## About CLV

The screenshot shows an Excel spreadsheet titled "Business Analytics CLV\_Student Copy". The spreadsheet contains data for two customer segments: "Example" and "Identify". The "Example" segment shows a customer who buys 3.7 bottles every 28 days, with a CLV of 33.33 USD. The "Identify" segment shows a customer who buys 4.2 bottles every 28 days, with a CLV of 24.3 USD. The spreadsheet includes columns for "Customer", "Quantity", "Period", "Products sold", "Revenue", and "Customers".

Customer	Quantity	Period	Products sold	Revenue	Customers
Example	3.7	28 days	200 bottles	4200 USD	120
Identify	4.2	28 days	210 bottles	4620 USD	140

## CLV using Excel

## Report for Day 2 of Business Analytics Workshop

**Date: 24th March 2023**

**Time: 8.30 am – 10.30 am IST**

The second day of the Business Analytics Workshop focused on the application of Business Analytics in Forecasting. The session aimed to provide participants with an understanding of the role of forecasting, statistical methods for forecasting, the forecasting process and methods, expert methods in forecasting, and measures for forecast quality assessments.

The session started with an introduction to the role of forecasting in business decision-making. The participants learned about the different types of forecasting methods, including qualitative and quantitative methods. The session covered statistical methods for forecasting, including time series analysis, moving averages, exponential smoothing, and regression analysis.

The session included an application part where participants learned how to perform forecasting with regression using Excel. The participants were taught how to apply regression analysis to forecast future outcomes based on past data. The participants learned how to use Excel to create a regression model, analyze the data, and interpret the results.

The session also covered the measures for forecast quality assessments, including Mean Absolute Deviation (MAD), Mean Squared Error (MSE), and Mean Absolute Percentage Error (MAPE). The participants learned how to compare two forecasts to decide which one is better using these measures.

The session was interactive, with participants actively engaged in discussions and hands-on exercises. The participants were encouraged to ask questions and share their experiences, which enhanced the learning experience.

In conclusion, Day 2 of the Business Analytics Workshop provided participants with an understanding of the role of forecasting, statistical methods for forecasting, and measures for forecast quality assessments. The hands-on exercises and interactive discussions provided participants with practical experience in applying forecasting techniques to real-world scenarios

*Learn Different. Live Different*

## Session pics for Day2:

**Role of Forecasting in an Organization / Business**

**Forecast**

- Production Planning**: Provides information about the supply situation and level of customer demands.
- Inventory Management**: Provides information to balance service level and inventory cost.
- Production**: Provides information about the supply situation and level of customer demands.
- Location**: Optimizing the location of distribution centers, warehouse, etc.
- Process Design and Capacity Planning**: Optimizing effective capacity.

## Role of forecasting

Shri Sant Gajanan Maharaj College of Engineering

**Business Analytics Forecasting, Student Copy**

Week	Customer $x_n$	Sales $y_n$ (in €)	Sales Forecast $\hat{y}(x_n)$
1	26	269	293
2	35	359	359
3	43	432	416
4	67	536	590
5	78	685	670
6	81	709	692
$\Sigma$	330	3,020	

$$\hat{y} = a + bx$$

$$b = \frac{n \sum xy - (\sum x)(\sum y)}{n \sum x^2 - (\sum x)^2}$$

$$\hat{a} = \bar{y} - b\bar{x}$$

## Linear Regression

**Business Analytics Forecasting, Student Copy**

Period	Demand	Forecast A	Forecast B	$e_t$	$e_t^2$
1	10	8	9	-2	4
2	10	8	12	-2	4
3	11	9	9	-2	4
4	10	8	12	-2	4
5	11	9	9	-2	4
$\Sigma$				10	20

$$MAD = \frac{1}{T} \sum_{t=1}^T |e_t|$$

$$MAPE = \frac{1}{T} \sum_{t=1}^T \frac{|e_t|}{|y_t|}$$

$$MSE = \frac{1}{T} \sum_{t=1}^T e_t^2$$

## Forecasting quality

## Report for Day 3 of Business Analytics Workshop

**Date: 28 March 2023**

**Time: 8.30am – 10.30 am IST**

The third day of the Business Analytics Workshop focused on different types of forecasting methods such as moving average, exponential smoothing, double exponential smoothing, and triple exponential smoothing. The primary objective was to compare the forecasting quality of each method using the mean squared error (MSE) in Excel.

The workshop started with a brief introduction to moving average forecasting, which is a simple forecasting technique that involves calculating the average of a set of values for a particular period. The MSE of the moving average method was calculated using Excel, and its quality was compared with other forecasting methods.

Next, the workshop focused on exponential smoothing, which is a time-series forecasting method that uses a weighted average of past values to forecast future values. The MSE of the exponential smoothing method was calculated, and the results were compared with the moving average method.

During the session, polls were taken at different intervals to evaluate the participants' understanding of the different forecasting methods. The participants were given an additional 5 minutes to answer the poll questions. The results of the polls were shared in the chat, and the participants' responses were used to enhance their learning experience.

After the participants gained a good understanding of exponential smoothing, the workshop proceeded to double and triple exponential smoothing. The double and triple exponential smoothing methods are extensions of the exponential smoothing method that include the trend and seasonal components in the time series data. Polls were taken after each method was discussed to evaluate the participants' understanding.

The workshop ended with a session feedback survey, which was taken to evaluate the participants' overall learning experience. The feedback was positive, and the participants appreciated the practical approach used to teach the forecasting methods.

In conclusion, Day 3 of the Business Analytics Workshop was informative and insightful, providing participants with a better understanding of different forecasting methods, particularly moving average and exponential smoothing. The interactive polls and feedback survey helped to enhance the learning experience, and participants gained valuable knowledge that will be beneficial in their business analytics careers.

## Double Exponential Smoothing

## Report for Day 4 of Business Analytics Workshop

**Date: 30<sup>th</sup> March 2023**

**Time: 8.30am – 10.30 am IST**

The fourth day of the Business Analytics Workshop focused on S-Curve and the application of Business Analytics to Human Resources (HR). The session was designed to help participants understand the importance of HR Analytics in business decision-making and how to apply analytics strategies to HR data.

The session began with a discussion on S-Curve, which is a graphical representation of the growth of a company or product over time. The participants learned how to interpret the S-Curve and how it can be used to identify the maturity stage of a company or product.

The focus then shifted to the application of Business Analytics to HR. The participants learned about the importance of HR Analytics in business decision-making and the different strategies used in Big Data Analysis, including Descriptive Analytics, Diagnostic Analytics, Predictive Analytics, and Prescriptive Analytics.

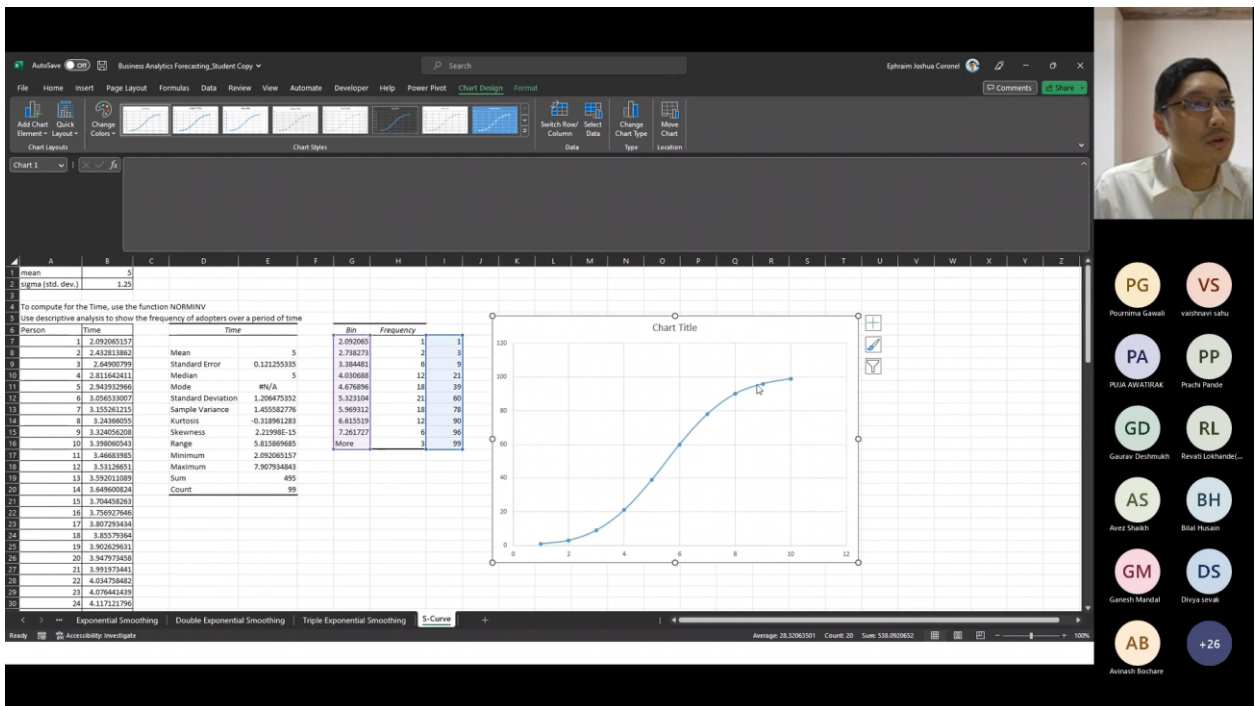

The session also covered Factor Analysis, which is a statistical method used to identify the underlying factors that influence a set of observed variables. The participants learned how Factor Analysis can be applied to HR data to identify the key factors that influence employee performance.

The session then focused on Supply and Demand Forecasting in HR. The participants learned about Succession Analysis and Markov Analysis, which are two popular HR forecasting techniques used to forecast the supply and demand of human resources in an organization.

The session ended with a case study on how a business used data to identify internal mobility as a key to retention. The participants learned how the business used data to analyze employee performance and identify the factors that influenced employee retention. The case study provided valuable insights into how analytics can be used to improve HR decision-making and ultimately drive business success.

In conclusion, Day 4 of the Business Analytics Workshop was informative and provided participants with valuable insights into S-Curve and the application of Business Analytics to HR. The session helped participants understand the importance of HR Analytics in business decision-making and provided them with practical strategies and techniques to apply analytics to HR data. The case study highlighted the real-world applications of analytics in HR and provided valuable insights into how analytics can be used to drive business success.

### Factor Analysis

## Report for Day 5 of Business Analytics Workshop

**Date: 31 March 2023**

**Time: 8.30am – 10.30 am IST**

The fifth and final day of the Business Analytics Workshop focused on Factor Analysis and the application of Business Analytics in Finance. The session aimed to provide participants with an in-depth understanding of Factor Analysis and how to apply analytics strategies to financial data.

The session started with a discussion on Factor Analysis and how it can be used to identify the underlying factors that influence a set of observed variables. The participants learned how to perform Factor Analysis in Excel and interpret the results.

The session then moved on to the application of Business Analytics in Finance. The participants learned about the different types of financial risks and the risk categories that businesses face. The session covered the importance of risk strategy, including risk identification, risk assessment, risk mitigation strategy, and risk monitoring.

The participants also learned about portfolio optimization and the risk measures used in portfolio optimization. The session provided insights into how analytics can be applied to financial data to optimize investment portfolios and manage financial risks.

The session was interactive, with participants actively engaged in discussions and hands-on exercises. The participants were encouraged to ask questions and share their experiences, which enhanced the learning experience.

In conclusion, Day 5 of the Business Analytics Workshop was informative and provided participants with valuable insights into Factor Analysis and the application of Business Analytics in Finance. The session helped participants understand the importance of analytics in managing financial risks and optimizing investment portfolios. The hands-on exercises and interactive discussions provided participants with practical experience in applying analytics to financial data. Overall, the workshop provided participants with valuable knowledge and skills that will be beneficial in their careers in business analytics.

## Factor analysis continued

### CASE STUDY

How a business used data to identify internal mobility as a key to retention.

One of Nielsen's businesses engaged its people analytics team to understand why the company was losing talent. Starting with five years of people data in a (big) spreadsheet and some hypotheses, they identified the factors most highly correlated with attrition.

The biggest finding was that **employees with a change in job responsibilities due to promotion or lateral movement within the past two years were much less likely to leave**. This insight prompted Nielsen's leadership to make it easier for employees to pursue jobs internally, and to identify at-risk high performers and proactively put opportunities in front of them.

Hello sir,

Hope you are good.

I am a student of SSGMCE Shegaon. I attended today's 1 st day of Business analysts workshop.

It was a great pleasure to listen to your talk. The session was very knowledgeable about many things like introduction of business analytics, their importance and steps of business analytical and many more. Thank you so very much for the session. Hope there will be many more like this.

Hello Sir,

Hope you are doing well.

I am the student of SSGMCE college shegaon.

Today's lecture was very good. It will be very useful for me in the future. I understood all the concepts you mentioned and gained some knowledge about Business Analytics. Thank You so much for today's sessions. I hope tomorrow it will be as enjoyable as it was today.

Dear sir,  
I attend yesterday's lecture regarding bussiness analytics it was very stimulating lectures and brilliantly taught. Very interesting case studies as well which made for interesting class discussions. The lecturer's teaching is well organized and presented, which helped me to accept the new knowledge quickly. I am happy with the content of the course, like the case-based approach.

Respected Sir,

Hope you are doing well.

I am a student of SSGMCE college shegaon.

Today's business analytics workshop was an insightful and informative session that provided valuable insights into the use of analytics in the modern business world. It was interesting to learn about the various tools and techniques used by businesses to analyze data, as well as how these insights can be used to make better decisions. The hands-on activities were also a great way to get a better understanding of how analytics can be applied in real-world situations. Big data analytics model and its types, descriptive analysis, diagnostics analysis, productive analysis, and prescriptive analysis, this topic was understood by me very well.. Overall, it was a great learning experience that I'm sure will benefit me in my future endeavors.

Dear Sir,

Hope you are doing well

I am a student of SSGMCE, shegaon. The business analytics workshop was an invaluable experience for me. It provided a deep dive into the techniques and strategies for forecasting and identifying the trends & used to analyze data and draw meaningful insights from it. The workshop taught me how to use data to make better decisions, solve problems, and improve processes. in today's session,

I have understood topics like big data analytics and their 4 steps(Descriptive analytics, Diagnostics analytics, predictive analytics, and Prescriptive Analytics). Thank You so much for sharing your knowledge with us.

Thanks & Regards.
