LNBID: IN23F036985626

Dear Priyanka Dadarao Bodade,

Congratulations on your selection for Learn and Build's Online Summer Internship Program 2023 in the domain of IoT and robotics. Your internship is scheduled to commence from 06th June 2023 and will last for 6 Weeks.

The internship program will provide you with an opportunity to gain hands-on experience and develop your skills in your chosen field.

We have divided your internship into two distinct phases.

In the **first phase** , you will receive pre-learning materials and a few minor assignments to complete. These will prepare you for the IoT and robotics internship.

In the **second phase** of your internship, you will be given industry projects to work on. Your performance will be closely evaluated, and upon completion, you will be awarded certificates to recognize your achievements.

During your internship, you will be expected to:

- Follow the rules and regulations.
- Work collaboratively with other team members and provide support as required
- Complete all assigned tasks and projects within the given timeframe

Kind regards,
Saurabh Bhardwaj

6ME09 RESEARCH SKILLS – LAB

Course learning objectives:

1. Apply fundamental and disciplinary concepts and methods in ways appropriate to their principal areas of study.
2. Demonstrate skill and knowledge of current information and technological tools and techniques specific to the professional field of study.
3. Use effectively oral, written and visual communication.
4. Identify, analyze, and solve problems creatively through sustained critical investigation.
5. Integrate information from multiple sources.
6. Demonstrate an awareness and application of appropriate personal, societal, and professional ethical standards.
7. Practice the skills, diligence, and commitment to excellence needed to engage in lifelong learning.

Course Outcomes:

1. Demonstrate a sound technical knowledge of their selected research topic.
2. Undertake problem identification, formulation and solution.
3. Design engineering solutions to complex problems utilizing a systems approach.
4. Conduct an engineering research.
5. Demonstrate the knowledge, skills and attitudes of a professional engineer.

Students will have to perform any one task and prepare a report on it; from the following list:

1. A mini project involving mechanisms/ electromechanical systems/
2. CAD modeling/ simulation of any thermal, hydraulic or mechanical system.
3. IoT based system for any domestic/ rural/ agricultural/ industrial application
4. A system using non- conventional energy source
5. Market research for launching a new product.
6. Study of any Small Scale Industry.
7. Any other innovative concept for promoting research and innovation among students.

***Practical Examination:-** The practical examination shall consist of oral basedon the task and the report.

Subject: Internship Offer Letter

Dear Nikhil,

On behalf of One Smarter Inc., USA, I am pleased to inform you that you have been selected as an Intern to assist us with Programming / Development related activities.

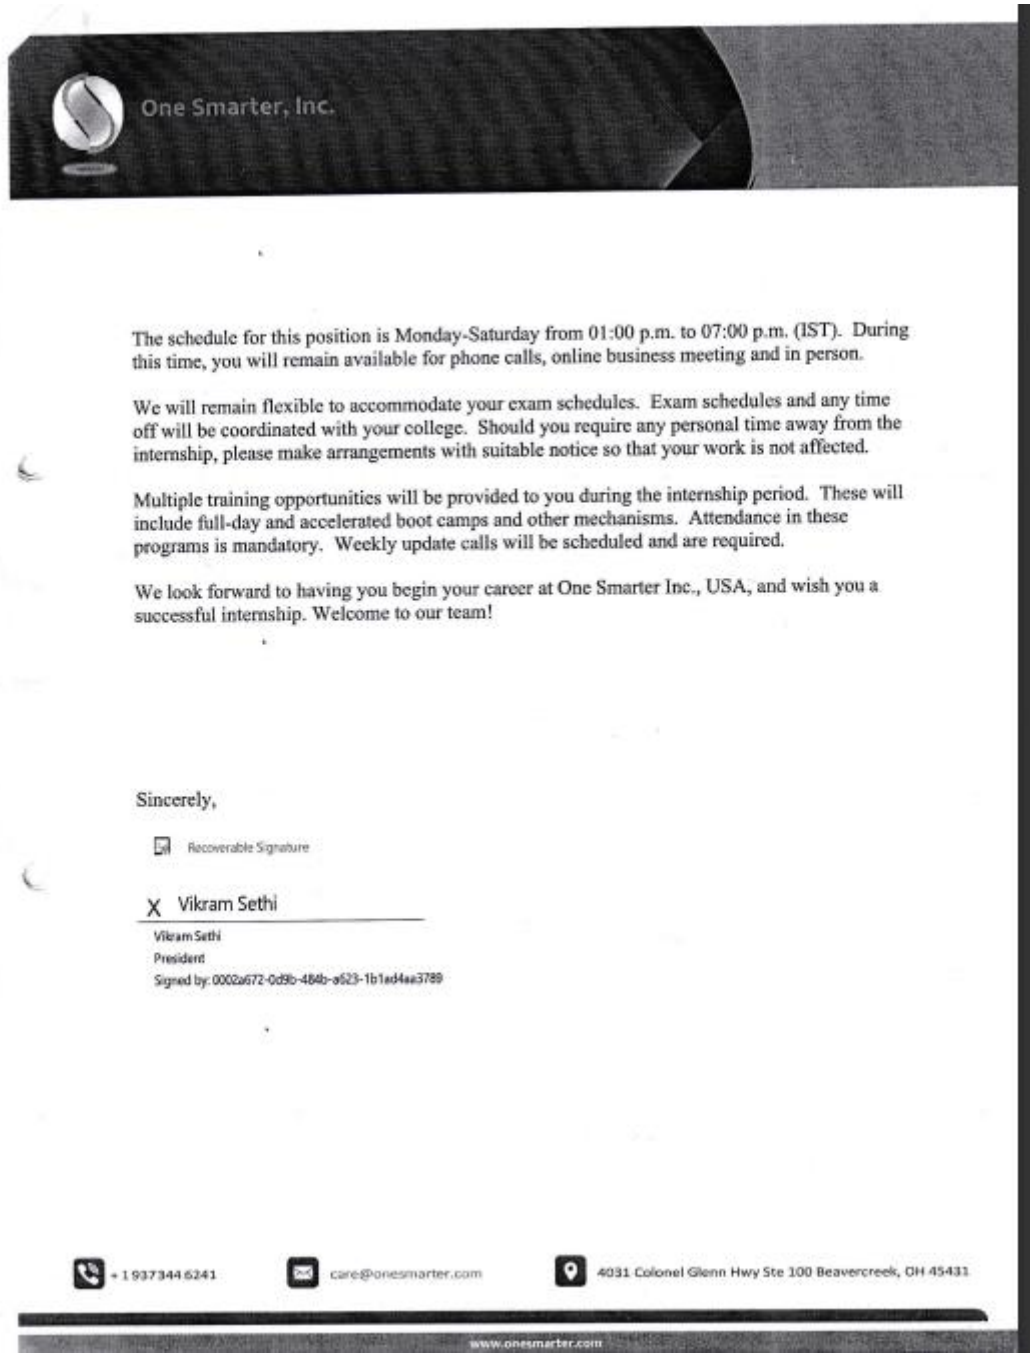

This position is scheduled to begin March 23, 2023, and will be divided into two phases (each of three months).

(1) **Phase I**: In this first phase, you will be asked to learn; develop your skills consistent with our needs; and work on small client projects. Your compensation in Phase I will be INR 3,000 per month. If you need any educational material or have other needs; these costs will be reimbursed to you with prior permission.
(2) **End of Phase I**: At the end of Phase I, we will conduct a formal performance evaluation of your work and examine if you have made contributions consistent with our expectations and requirements. If we do find value in your work, you will continue to Phase II of the internships. Should your internship end after Phase I, you will be provided a certificate of completion for your Phase I internship.
(3) **Phase II**: The second phase of the internship is an intensive engagement with ongoing business projects. You will be asked to interact with business clients; if necessary. Your compensation during Phase II will be INR 7,500 per month.
(4) **End of Phase II**: At the end of Phase II, we will conduct a second and final evaluation of your work to assess your suitability of a formal employment offer with One Smarter, Inc.

Dear Priyanka Dadarao Bodade,

Congratulations on your selection for Learn and Build's Online Summer Internship Program 2023 in the domain of IoT and robotics. Your internship is scheduled to commence from 06th June 2023 and will last for 6 Weeks.

The internship program will provide you with an opportunity to gain hands-on experience and develop your skills in your chosen field.

We have divided your internship into two distinct phases.

In the **first phase** , you will receive pre-learning materials and a few minor assignments to complete. These will prepare you for the IoT and robotics internship.

In the **second phase** of your internship, you will be given industry projects to work on. Your performance will be closely evaluated, and upon completion, you will be awarded certificates to recognize your achievements.

During your internship, you will be expected to:

- Follow the rules and regulations.
- Work collaboratively with other team members and provide support as required
- Complete all assigned tasks and projects within the given timeframe

Kind regards,
