## ABOUT SSGMCE SHEGAON

Shri Sant Gajanan Maharaj College of Engineering, Shegaon (SSGMCE), one of the premier institutes in the field of engineering, was established in 1983 by Shri Gajanan Shikshan Sanstha, Shegaon. It is affiliated to Sant Gadge Baba Amravati University, Amravati, recognized by AICTE, New Delhi and approved by DTE, Maharashtra State, Mumbai. SSGMCE has the recognition of being the reaccredited institute by NAAC, Bangalore and the courses are also accredited by NBA (5 times), AICTE, New Delhi.

The institute offers five undergraduate engineering courses and five postgraduate courses. All the laboratories have been recognized as centres for Ph.D. program. It has excellent physical facilities in the form of residential and academic buildings spread over neat and clean 82 acres of campus. SSGMCE is considered as one of the best institutes in the region and holds the strength to be accountable for the content and quality of education.

## ABOUT DEPARTMENT

The Department of Electrical Engineering offers a vibrant environment for UG and PG education and research in Electrical Engineering. The Department is committed to the advancement of the frontiers of knowledge in electrical engineering and to provide the students with a stimulating and rewarding learning experience. The department offers 4 years B.E. Electrical (Electronics & Power) Program and 2 years M.E. (Electrical Power System) Program. The department is five times accredited by NBA.

The department is strong with senior faculty members and experts in various fields of electrical engineering. The department is equipped with the high-end computational software such as ETAP, PSCAD, LabVIEW and Neuro-solutions. To support and encourage research, consultancy work the department is available with industry grade equipment's like, Compact RIO, D-space hardware kit, Power Quality Analyzer, 100kV High Voltage Testing set, Dielectric Testing kit and various data acquisition systems and many more. The department has recently started state of the art training centre for PLC and Factory Automation.

### About the Institute

Shri Sant Gajanan Maharaj College of Engineering, Shegaon (SSGMCE), one of the premier institutes in the field of engineering, was established in 1983 by Shri Gajanan Shikshan Sanstha, Shegaon. It is affiliated to Sant Gadge Baba Amravati University, Amravati, recognized by AICTE, New Delhi and Approved by DTE, Maharashtra State, Mumbai. SSGMCE has the recognition to be the re-accredited institute by NAAC, Bangalore and the courses are also accredited by NBA, AICTE, New Delhi. The Institute was selected as the Network Institute under NPIU's TEQIP, MHRD, Govt. of India under Phase-I. Recently Career360 Magazine, Nov 2016 ranked the Institute as "AA+" amongst Engineering Colleges, Ranked amongst 100 India's top-Tech Schools 2015-DATAQUEST-CMR and B-School of India by Outlook-Drishti-Survey-2015. Institute honored with Devang Mehata National Education Leadership Award twice and 'CII-Gratitude Award'. Over three decades, it has successfully nurtured young Indians in engineering and managerial professionals for the betterment of society and humanity as a whole. It is well known for its visionary management, dedicated and devoted faculty, state of the art infrastructure and discipline. It is also known for the overall development of the students' personality with distinct value based spiritual environment. It primarily focuses on the four major pillars of the students' development: Intellectual, Spiritual, Physical and Social. It also provides facilities for the pursuit of excellence and academically suitable climate of the scholarship in terms of curriculum and curricular performance of the students.

### About the Department

The Department of Computer Science and Engineering established in 1985 has taken development as a continuous process and assured this through its mission. Department runs UG and PG program. UG program is accredited four times by NBA and has blend of senior as well as young faculty members. The department has all laboratories well equipped with advanced softwares. Laboratories in the department are recognized as the place of research by SGB Amravati University.

### About the Course

The aim of this Online Short term training Program is to enrich the participants with fundamentals of Machine Learning and programming concepts using MATLAB, Python and R Language.

In this programme participants will be demonstrated with recent trends in Machine Learning. Various algorithms and techniques of Machine Learning can implemented such as Artificial Neural Network, Fuzzy Logic, Support Vector Machine, Classification, Clustering, Pattern recognition Genetic Algorithm. Different MALAB tools will be demonstrated such as ANN, Fuzzy Logic, Image Processing, Deep Learning etc. Data handling, correlation and regression analysis will be demonstrated using R and Python Libraries. In this STTP participants will learn algorithm development, data visualization, data analysis, and numeric computation using Machine Learning Tools to solve engineering and scientific real life problems.

### Course Contents:

- Introduction to Machine Learning Algorithms
- Introduction to Neural Network and Deep Learning
- Feature Extraction and Selection
- Classification and Clustering Algorithms
- Implementation and Demonstration of various Machine and Deep Learning Algorithms
- Applications of Machine Learning in Data Analytics

### Resource Person

Experienced faculty from IIT, NIT and other renowned institutions, expert from industries will deliver lectures and conducts hands on practical sessions.

### Participants

Faculty members, Research Scholars, from Engineering & Polytechnic colleges and Industry persons.

### Organizing Committee

Prof. C. M. Mankar  
Prof. P. K. Bharne  
Prof. K. P. Sable  
Prof. P. V. Deshmukh  
Prof. M. G. Ingle

**Shri Sant Gajanan Maharaj College of Engineering, Shegaon  
Department of Computer Science & Engineering**

Date: 20/11/2020

A per the notice dated on 18-Nov-2020 meeting is conducted regarding AICTE Sponsored Online STTP on "Machine Learning and Its Applications in Data Analytics" organize by the department of Computer Science and Engineering. All Program Monitoring Committee Members, Coordinator and Co-conveners were present in the meeting. Following points are discussed:

1. Discussion on smooth conduction of STTP in three phases as :  
Phase -I: 23<sup>rd</sup> November to 28<sup>th</sup> November 2020  
Phase -II: 07<sup>th</sup> December to 12<sup>th</sup> December 2020  
Phase -III: 21<sup>st</sup> December to 26<sup>th</sup> December 2020
2. Decided to conduct online Test (Quiz) at the end of each phase.
3. Decided to prepare STTP report as per the guidelines of AICTE.

Sr. No.	Name of Members	Signature
1	Dr. S. B. Somani , Principal , SSGMCE, Shegaon	
2	Dr. S. R. Paraskar , Head Electrical Engineering Department	
3	Dr. G. S. Gawande, Head Electronics and Telecommunication Engineering Department	
4	Dr. D. R. Dhotre , Coordinator and Head Computer Science and Engineering Department	
5	Dr. K. B. Khanchandani , Professor, Electronics and Telecommunication Engineering Department	
6	Prof. V. S. Mahalle and Prof. J. M. Patil Co-convener of STTP

**Guest Lecture Summary Report**

Topic: Webinar On "IPR Based Innovation and Incubation Ecosystem"

Date: 10/10/2020-10/10/2020

Resource Person with contact details: Dr. S S Khedkar ,Asst. Professor,

Incubation Incharge ,Wanadongari Higana,YCCE Nagpur. Mob No. (+91-9552555061)

Number of Participants:69

**Workshop Objectives:**

1. The Webinar organise to aware faculty members about Intellectual property Rights such as Patent, copyright Technology transfer etc.
2. To understand basic concepts of product innovation and concept development.
3. To facilitate academic research scholar about the patent filing procedures and government funding agencies for IPR activities .
4. To learn systematic approach of converting idea into patents and copyrights.

**Workshop Highlights:**

Dr. S S Khedkar has enlighten the basics of innovation process, concept development and patent search. The next half of the program, he has discussed the steps of research to be carry out by an academicians also various formats to be filled for patent filing. Finally the all discussion has evident by importance of Patent and copyrights for NIRF ranking and various accreditation bodies of government of India.

**Outcomes:**

All teaching faculty member has understand basic procedure of Patent search, patent filing and copyrights required for innovative product and ideas.

Topic: Seminar on "The Welding – Future Job Opportunities"

Date: 16/01/2021

Resource Person with contact details:

Mr. Milind Gadre ,Ex.General manager ,ADOR welding ,Pune (online mode)

Number of Participants:81

Objectives:

- To aware budding engineers about the basics of conventional welding process.
- Demands and opportunities about welding skills in India and abroad.
- To share the various certifications available to enhance the skill sets of engineers.

Highlights of Guest Lecture:

In this program Mr. Milind Gadre has given the need of welding process in the world. He explain the statistic about skill labor and technicians available worldwide. Further he an information about recommended welding certifications. Lastly he stress upon the need of internship to understand basic welding processes are to be done in industries.

Outcomes: Students aware about the welding certifications and carrier its opportunities worldwide.

ENGINEERING, SHEGAON

Institute Workshop/ Training Program/certificate course/FDP Summary Report

Workshop Title: Kinematic Simulation in CAD

Date: 12/01/2021 – 28/01/2021

Location: Dept of Mech. Engg., SSGMCE, Shegaon

Organizing Institute: SSGMCE, Shegaon

Workshop Facilitators: Prof. C. V. Patil

Number of Participants: 03

Workshop Objectives: The course is intended to cover the theoretical concepts of kinematic simulation with an emphasize on the basics of design thinking. The objectives are -

1. To impart the basic knowledge of concepts of kinematic simulation.
2. To demonstrate the working of individual joint and joint in assembly.
3. To analyze the insights of working mechanisms.

Workshop Highlights:

1. Fundamentals of Kinematic Simulation: Getting Started with Kinematic Simulation, Concepts of Kinematic Simulation
2. Working with different joints: Basic joints - Revolute, Prismatic, Cylindrical, Planar, Screw and Fixed Joint, Advanced Joints - Point - curve, Roll - Curve, Gear and Rack and Pinion Joint
3. Creating and analyzing working assemblies: Assemblies in simulation environment, Joints in assemblies, Simulation and Analysis of assemblies

Outcomes:

1. Students were able to do simulation of various simple mechanisms

**INTRODUCTION TO  
kinematic  
simulation  
in  
CAD**

**Coordinator & Course Trainer**  
Prof. C. V. PATIL

**Organized by**  
Department of Mechanical Engineering  
Shri Sant Gajanan Maharaj  
College of Engineering  
Shegaon - 444203, Dist. Buldana,  
Maharashtra State, India

**INTRODUCTION**  
CAD/CAM has been utilized in engineering practice in many ways including drafting, tool making, surface and assembly. Engineering companies, large and small, employ CAD/CAM systems and train their engineers for efficient utilization. The benefits of CAD/CAM are based on the ability of an industry to cater the needs of the customer in shorter time. CAD measurement has cut drawing office expenses time and increased productivity. Kinematic simulation is a CAD module for simulating assembly motions. Motion simulation is essential to design and analyze the relative motions between the moving and fixed parts in an assembly. It gives an insight of working situation of each component along with the kinematic simulation have widespread applications in all types of industries ranging from small scale to services.

**COURSE OBJECTIVE**  
The course is intended to cover the theoretical concepts of kinematic simulation with an emphasis on the basis of design thinking. The objectives are  
 1. To impart the basic knowledge of concepts of kinematic simulation.  
 2. To demonstrate the working of individual part and joint in assembly.  
 3. To analyze the insights of working mechanism.

**COURSE CONTENT**  
 1. Fundamentals of Kinematic Simulation  
 2. Getting Started with Kinematic Simulation  
 3. Concepts of Kinematic Simulation

**3. Working with different joints**  
 1. Revolute, Prismatic, Helical, Cylindrical, Planar, Spherical and fixed joint  
 2. Advanced joints: Worm-gears, Roll, Curve, Gear and Rack and Helical joint  
 3. Coupling and assembly working simulation  
 4. Assembly in simulation environment  
 5. Joints in assembly  
 6. Simulation and Analysis of assemblies

**STABILITY**  
Students of final year B.E. Mech. Engg.

**REQUIREMENTS**  
Basic knowledge of CAD software

**DURATION**  
TWO WEEKS (Approximately 15 hours)

**CERTIFICATION**  
After successful completion of the training Certificate from Department of Mechanical Engineering, SSGMCE, Shegaon will be issued.

**COURSE FEE:**  
Nil

**REGISTRATION**
