Seminar Report: Scopes of Research in Academics

Date: 17th October 2018

Time: 10:30 AM - 12:00 PM

Venue: MBA Seminar Hall, MBA Department

Seminar Facilitator: Dr. P.V. Bokad

Introduction:

The seminar on "Scopes of Research in Academics" conducted by Dr. P.V. Bokad on 17th October 2018 was a comprehensive and insightful session aimed at exploring the significance of research in academics and providing valuable guidance on identifying research opportunities, developing effective research methodologies, and publishing research papers. The seminar took place in the MBA Seminar Hall of the MBA Department, gathering students, faculty, and researchers from various academic backgrounds.

Agenda:

1. The Role of Research in Academics:

Dr. Bokad commenced the seminar by emphasizing the pivotal role that research plays in the realm of academics. He highlighted that research forms the foundation for advancements in knowledge, innovation, and problem-solving across diverse disciplines. Research not only enriches the academic environment but also contributes significantly to society at large. It was stressed that academia should foster a culture of research to stay at the forefront of knowledge.

2. Identifying Research Opportunities:

The discussion then moved on to identifying research opportunities within one's field of study. Dr. Bokad encouraged participants to stay curious and observant, keeping an eye out for unanswered questions and unexplored areas in their domains. He emphasized that research often starts with asking the right questions and recognizing gaps in existing knowledge. Being

well-informed about current developments in one's field is crucial for identifying meaningful research opportunities.

3. Developing Effective Research Methodologies:

The next segment of the seminar focused on the methodology of conducting research. Dr. Bokad outlined the importance of a systematic approach to research, including formulating research questions, designing experiments or surveys, collecting and analyzing data, and drawing meaningful conclusions. He stressed that a well-defined research methodology is the backbone of any successful research project. Participants were encouraged to seek guidance from mentors and explore various research tools and techniques to enhance their research skills.

4. Publishing Research Papers and Their Impact:

The final part of the seminar delved into the process of publishing research papers and the impact they can have on the academic community and beyond. Dr. Bokad provided insights into the publication process, including selecting the right journals, preparing manuscripts, and addressing peer review comments. He also highlighted the significance of open-access publications and the potential for research to influence policy, industry, and society. It was noted that publishing research papers not only contributes to one's academic profile but also fosters knowledge dissemination and collaboration.

Conclusion:

The seminar by Dr. P.V. Bokad was a valuable and informative session that shed light on the essential aspects of research in academics. Participants left with a deeper understanding of the role of research, an improved ability to identify research opportunities, a foundation for developing effective research methodologies, and insights into the process of publishing research papers. The seminar served as a significant step in empowering academics and students to engage in research that can contribute to the betterment of their respective fields and society as a whole.

Introduction:

The seminar on "Foundations of Entrepreneurship" conducted by Prof. W.Z. Suliya on 22nd November 2018 was an enlightening and interactive session aimed at providing a comprehensive understanding of entrepreneurship. The seminar took place in the MBA Seminar Hall of the MBA Department and attracted students, faculty, and aspiring entrepreneurs from diverse backgrounds.

Agenda:

1. The Fundamental Principles of Entrepreneurship:

Prof. Suliya initiated the seminar by elucidating the fundamental principles that underpin entrepreneurship. He emphasized the importance of risk-taking, innovation, and a proactive mindset. He explained how entrepreneurs are individuals who create and seize opportunities to build value and manage resources effectively. The discussion revolved around the core characteristics that set entrepreneurs apart and the entrepreneurial mindset required to succeed in the ever-evolving business landscape.

2. Identifying and Evaluating Entrepreneurial Opportunities:

The seminar proceeded to the critical topic of identifying and evaluating entrepreneurial opportunities. Prof. Suliya highlighted the significance of market research, recognizing unmet needs, and being attuned to emerging trends. He stressed the importance of feasibility studies, SWOT analysis, and the lean startup approach as tools to assess the viability of business ideas.

Participants were encouraged to harness their creativity and observational skills to discover entrepreneurial opportunities in various sectors.

3. Navigating the Challenges of Starting and Managing a Business:

The discussion then transitioned into understanding the challenges that entrepreneurs face when starting and managing a business. Prof. Suliya provided insights into issues like funding, legal requirements, and scaling. He also discussed the importance of developing a robust business plan, building a strong team, and adapting to changing circumstances. Participants learned about the common pitfalls in entrepreneurship and the strategies to overcome them.

4. The Role of Innovation and Creativity in Entrepreneurship:

In the final part of the seminar, the focus was on the pivotal role of innovation and creativity in entrepreneurship. Prof. Suliya underscored that innovation is not limited to product development but extends to business processes, marketing, and customer experiences. He encouraged participants to foster a culture of innovation and creative problem-solving within their entrepreneurial ventures. Case studies of successful entrepreneurs who disrupted traditional industries through innovation were presented to inspire the audience.

Conclusion:

The seminar conducted by Prof. W.Z. Suliya was an invaluable resource for individuals interested in entrepreneurship. Participants left with a profound understanding of the fundamental principles of entrepreneurship, enhanced skills in identifying and evaluating opportunities, strategies for tackling entrepreneurial challenges, and an appreciation for the role of innovation and creativity in driving entrepreneurial success. This seminar served as a catalyst for nurturing the entrepreneurial spirit among students and aspirants, equipping them with knowledge and insights to embark on their entrepreneurial journeys with confidence.

Introduction:

The seminar on "Research and Marketing" conducted by Mr. Chetan Choudhary on 21st February 2019 was an enlightening session aimed at highlighting the critical relationship between research and marketing. This seminar, held in the MBA Seminar Hall of the MBA Department, attracted students, faculty, and marketing professionals, offering valuable insights into the synergy between research and marketing.

Agenda:

1. The Role of Research in Shaping Marketing Strategies:

Mr. Choudhary commenced the seminar by emphasizing the pivotal role of research in shaping marketing strategies. He highlighted that a deep understanding of consumer behavior, market trends, and competitor analysis is essential for developing effective marketing plans. The discussion revolved around the fact that research forms the foundation upon which marketing decisions are made and that it helps in aligning marketing efforts with the needs and preferences of the target audience.

2. Leveraging Data and Insights for Effective Marketing Campaigns:

The seminar then delved into the practical aspect of leveraging data and insights for effective marketing campaigns. Mr. Choudhary shared strategies for collecting and analyzing data, emphasizing the importance of both quantitative and qualitative research methods. He explained how data-driven marketing can result in better audience targeting, personalization, and increased ROI for marketing campaigns.

3. Market Research Techniques and Their Practical Applications:

A significant part of the seminar focused on various market research techniques and their practical applications. Mr. Choudhary introduced participants to methods such as surveys, focus groups, competitor analysis, and online analytics. He highlighted the advantages and limitations of each technique and discussed how these methods can be customized to suit the needs of different businesses and industries.

4. Case Studies Illustrating the Impact of Research on Marketing:

In the final part of the seminar, Mr. Choudhary presented case studies that illustrated the tangible impact of research on marketing. Participants were shown examples of companies that effectively used research-driven marketing to gain a competitive edge and increase their market share. These real-world examples provided valuable insights into how research can drive marketing success.

Conclusion:

The seminar on "Research and Marketing" conducted by Mr. Chetan Choudhary was an informative and practical session that emphasized the inseparable link between research and marketing. Attendees left with a deeper understanding of how research informs marketing strategies, the importance of data and insights in campaigns, practical market research techniques, and real-world case studies demonstrating the transformative power of research in marketing. This seminar served as a valuable resource for students and marketing professionals, equipping them with knowledge and strategies to excel in the ever-evolving world of marketing.

Workshop Summary Report

Workshop Title	: One Week STTP on “Computer Vision Machine Learning” by IIITDM Jabalpur
Date	: 3 - 12 Dec 2018
Location	: EXTC seminar Hall & VLSI Lab.
Organizing Institute	: SSGMCE, Shegaon
Workshop Coordinator	: Prof. V.K.Bhangdiya
Number of Participants	: 48

Workshop Objectives:

- 1 To familiar with the Machine Learning and AI concepts
- 2 Understanding of Algorithms of various algorithm such supervised learning, unsupervised learning and regression and classification of methods
- 3 Understanding Deep Learning and CNN architectures.
4. Development of various neural network architectures.

Outcomes:

1. Will be able to understand various machine learning algorithms
2. Can develop various ANN architectures.

Participants with the resource Person Date 12-12-2018
