POLICY DOCUMENT ON ENVIRONMENT

College is committed to sustainable development in all its endeavors within its ambit it envisages to streamline ways of energy conservation and utilization through socially responsible ways. By adopting an environmental policy, college demonstrates their commitment to sustainability and environmental stewardship. This commitment is increasingly important in the face of global environmental challenges such as climate change, biodiversity loss, and resource depletion.

Policy Statement:

The main objective behind the Environment Policy of the College is promote environmentally friendly practices take initiatives which reduces the impact on the environment. This environment policy is binding for all the component of the institution and applies to all its stakeholders and to the various activities undertaken by the institution.

The College envisions Campus to promote sustainable and environment friendly practices within the campus and beyond. It focuses to streamline responsible waste management practices and water management initiatives in its daily practices. This will help us to embed efficiency and environmental awareness in to our everyday activities, thus helping us to realize our responsibilities and commitment to conservation of natural resources and reduce the effect of various activity on the environment and promote sustainability.

Objectives:

- To develop awareness about environmental issues.
- To understand our responsibility towards sustainable development.
- To implement responsible procedures for waste management.
- To reduce waste production on campus for all activities and programs.
- To initiate water management and conservation practices.
- To maintain clean lines and sanitation on campus.
- To provide a pollution free healthy environment.

Plan of Implementation/Practices

The College is committed towards sustainable development in all its endeavors. In accordance following are the areas to be considered for streamlining ways and procedures for environment conservation;

1. Waste management – Solid, Liquid & E- Waste Management.
2. Water conservation and management
3. Paperless operating procedures.
4. Taking up awareness initiatives and environment-centric activities.
5. Use of natural lighting and ventilation is encouraged as and when possible

To take additional measures to continuously reduce impact on environment.

- To ensure the availability of necessary resources to achieve our objective Waste management- Solid, Liquid & E-Waste Management
- Two-way segregation of waste at source, on campus.
